CHAPTER 485**AN ACT RELATING TO ZONING BY SURRY COUNTY AND THE MUNICIPALITIES LOCATED THEREIN.***The General Assembly of North Carolina enacts:*

Section 1. The Board of County Commissioners of Surry County and the governing boards of municipalities located in Surry County are hereby empowered, in accordance with the conditions and procedure specified in this act, by ordinance to regulate within their respective lawful jurisdictions the uses of buildings and structures for trade, industry, residence, recreation, public activities or other purposes, and the uses of land for trade, industry, residence, recreation, agriculture, water supply conservation, soil conservation, forestry or other purposes.

For any or all these purposes, the County and municipalities located therein may divide their territorial jurisdiction into districts of any number, shape, and area that may be deemed best suited to carry out the purposes of this section; and within those districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair or use of buildings, structures, or land. All regulations shall be uniform for each class or kind of building throughout each district, but the regulations in one district may differ from those in other districts; provided, however, that the County and municipalities located therein may provide for the creation of special use districts in addition to general use districts.

It is the purpose and intent of this section to permit Surry County and the municipalities located therein to create general use districts in which a variety of uses are permitted, and to also create special use districts in which a single use is permitted upon the issuance by the Board of County Commissioners or municipal governing board of a special use permit prescribing the conditions under which such use will be permitted.

A person petitioning for rezoning of a tract of land, where special use districts are authorized by ordinance, may elect to request general use district zoning for said tract, or he may elect to request special use district zoning for said tract.

If he elects to petition for general use district zoning, he may not refer, either in his petition or at any hearings related to the petition, to the use intended for the property upon rezoning. The Board of County Commissioners or municipal governing board may not consider the intended use in determining whether to approve or disapprove the petition, but shall consider the full range of uses permitted within the requested general use district. If the petition is approved, the rezoned property may be used for any of the uses permitted in the applicable general use district.

If the petitioner elects to petition for special use district zoning, the petition must specify the actual use intended for the property specified in the petition, and the intended use must be one permitted in the corresponding general use district. If the petition is for special use district zoning, the Board of County Commissioners or municipal governing board is to approve or disapprove the petition on the basis of the specific use requested. If the petition is approved, the Board of County Commissioners or municipal governing board shall issue a special use permit authorizing the requested use with such suggestions as the respective Board determines to be desirable.

The suggestions contained in a special use permit issued by the Board of County Commissioners or municipal governing board may include: location of the proposed use on the property; the number of dwelling units; the location and extent of support facilities such as parking lots, driveways, and access streets; location and extent of buffer areas and other special purpose areas; the timing of development; and such other matters as the petitioner may propose and the Board of County Commissioners or municipal governing board may find appropriate, but not to include architectural review or controls.

It is the further intent of this section to permit the creation of districts for specific uses and the imposition of reasonable conditions in order to secure the public health, safety and welfare, and insure that substantial justice be done.

Sec. 2. This act shall apply only to Surry County and the municipalities located therein within their respective lawful jurisdictions.

Sec. 3. All laws and clauses of laws in conflict with this act are hereby repealed.

Sec. 4. This act shall be in full force and effect from and after its ratification.

(c) Notes issued under G.S. 159-169 and 159-170 shall be sold by the Commission at public or private sale according to such procedures as the Commission may prescribe. Each such note shall bear on its face or reverse a certificate signed by the Secretary of the Commission or an assistant designated by him that the issuance of the note has been approved under the provisions of The Local Government Finance Act. The certificate is conclusive evidence that the requirements of this Part have been observed, and no note without the Commission's certificate is valid.

(d) When the notes are executed, they shall be delivered to the State Treasurer who shall deliver them to the order of the purchaser and collect the purchase price or proceeds. The Treasurer shall then deduct from the proceeds

the Commission's expense in connection with the issue, and remit the net proceeds to the official depository of the unit after assurance that the deposit will be adequately secured as required by law. CHAPTER 495

AN ACT PROVIDING FOR REGULATION OF TRAFFIC AND PARKING AND THE REGISTRATION OF MOTOR VEHICLES ON THE CAMPUSES OF THE CONSTITUENT INSTITUTIONS OF THE UNIVERSITY OF NORTH CAROLINA.

The General Assembly of North Carolina enacts:

Section 1. Chapter 116 of the General Statutes of North Carolina is amended by inserting a new Part 4A in Article 1 thereof as follows:

"Part 4A. Traffic and Parking.

"§ 116-42. *Definitions.*—Unless the context clearly requires another meaning, the following words and phrases have the meanings indicated when used in this Part:

(1) 'Board of trustees' and 'constituent institution' have the meanings assigned in G.S. 116-2.

(2) 'University' means a constituent institution as defined in G.S. 116-2.

(3) 'University property' means property that is owned or leased in whole or in part by the State of North Carolina and which is subject to the general management and control of the Board of Governors of the University of North Carolina.

(4) 'Campus' means that University property, without regard to location, which is used wholly or partly for the purposes of a particular constituent institution of the University of North Carolina.

"§ 116-42.1. *Regulation of traffic and parking and registration of motor vehicles.*—(a) Except as otherwise provided in this Part, all of the provisions of Chapter 20 of the General Statutes relating to the use of highways of the State and the operation of motor vehicles thereon are applicable to all streets, alleys, driveways, parking lots, and parking structures on University property. Nothing in this section modifies any rights of ownership or control of University property, now or hereafter vested in the Board of Governors of the University of North Carolina or the State of North Carolina.

(b) Each board of trustees may by ordinance prohibit, regulate, divert, control, and limit pedestrian or vehicular traffic and the parking of motor vehicles and other modes of conveyance on the campus. In fixing speed limits, the board of trustees is not subject to G.S. 20-141(f1) or (g2), but may fix any speed limit reasonable and safe under the circumstances as conclusively determined by the board of trustees. The board of trustees may not regulate traffic on streets open to the public as of right, except as specifically provided in this Part.

(c) Each board of trustees may by ordinance provide for the registration of motor vehicles maintained or operated on the campus by any student, faculty member, or employee of the University, and may fix fees for such registration. The ordinance may make it unlawful for any person to operate an unregistered motor vehicle on the campus when the vehicle is required by the ordinance to be registered.

(d) Each board of trustees may by ordinance set aside parking lots and other parking facilities on the campus for use by students, faculty, and employees of the University and members of the general public attending schools, conferences, or meetings at the University, visiting or making use of any University facilities, or attending to official business with the University. The board of trustees may issue permits to park in these lots and garages and may charge a fee therefor. The board of trustees may also by ordinance make it unlawful for any person to park a motor vehicle in any lot or other parking facility without procuring the requisite permit and displaying it on the vehicle.

(e) Each board of trustees may by ordinance set aside spaces in designated parking areas or facilities in which motor vehicles may be parked for specified periods of time. To regulate parking in such spaces, the board of trustees may install a system of parking meters and make it unlawful for any person to park a motor vehicle in a metered space without activating the meter for the entire time that the vehicle is parked, up to the maximum length of time allowed for that space. The meters may be activated by coins of the United States. The board of trustees may also install automatic gates, employ attendants, and use any other device or procedure to control access to and collect the fees for using its parking areas and facilities.

(f) The board of trustees may by ordinance provide for the issuance of stickers, decals, permits, or other indicia representing the registration status of vehicles or the eligibility of vehicles to park on the campus and may by ordinance prohibit the forgery, counterfeiting, unauthorized transfer, or unauthorized use of them.

(g) Violation of an ordinance adopted under any portion of this Part is a misdemeanor punishable by a fine of not more than fifty dollars (\$50.00) or imprisonment for not more than 30 days, in the discretion of the court. An ordinance may provide that certain acts prohibited thereby shall not be enforced by criminal sanctions, and in such cases a person committing any such act shall not be guilty of a misdemeanor.

(h) An ordinance adopted under any portion of this Part may provide that violation subjects the offender to a civil penalty. Penalties may be graduated according to the seriousness of the offense or the number of prior offenses by the person charged. Each board of trustees may establish procedures for the collection of these penalties and they may be enforced by civil action in the nature of debt. The board of trustees may also provide for appropriate administrative sanctions if an offender does not pay a validly due penalty or upon repeated offenses. Appropriate administrative sanctions include, but are not limited to, revocation of parking permits, termination of vehicle registration, and termination or suspension of enrollment in or employment by the University.

(i) An ordinance adopted under any portion of this Part may provide that any vehicle illegally parked may be removed to a storage area. The cost of any such removal constitutes a lien on the vehicle that may be enforced in the manner provided by law for enforcement of mechanics' and material-men's liens.

(j) Evidence that a motor vehicle was found parked or unattended in violation of an ordinance of the board of trustees is prima facie evidence that the vehicle was parked by:

- (1) the person holding a University parking permit for the vehicle, or
- (2) if no University parking permit has been issued for the vehicle, the person in whose name the vehicle is registered with the University pursuant to subsection (c), or
- (3) if no University parking permit has been issued for the vehicle and the vehicle is not registered with the University, the person in whose name it is registered with the North Carolina Department of Motor Vehicles or the corresponding agency of another state or nation.

The rule of evidence established by this subsection applies only in civil, criminal, or administrative actions or proceedings concerning violations of ordinances of the board of trustees. G.S. 20-162.1 does not apply to such actions or proceedings.

(k) Each board of trustees shall cause to be posted appropriate notice to the public of applicable traffic and parking restrictions.

(1) All ordinances adopted under this Part shall be recorded in the minutes of the board of trustees and copies thereof shall be filed in the offices of the President of The University of North Carolina and the Secretary of State. Each board of trustees shall provide for printing and distributing copies of its traffic and parking ordinances.

(m) All monies received pursuant to this Part shall be placed in a trust account in each constituent institution and may be used for any of the following purposes:

- (1) to defray the cost of administering and enforcing ordinances adopted under this Part;
- (2) to develop, maintain, and supervise parking areas and facilities;
- (3) to provide bus service or other transportation systems and facilities, including payments to any public or private transportation system serving University students, faculty, or employees;
- (4) as a pledge to secure revenue bonds for parking facilities issued under Article 21 of this Chapter;
- (5) other purposes related to parking, traffic, and transportation on the campus.

“§116-42.2 *Special provisions applicable to identified constituent institutions of The University of North Carolina.*—In addition to the powers granted by G.S. 116-42.1, the Board of Trustees of each of the constituent institutions enumerated hereinafter shall have the additional powers prescribed:

(d) This section does not diminish the authority of any affected municipality, county or other governmental entity to prohibit parking on any public street or road listed herein. When an ordinance or other law of an affected municipality, county or other governmental entity is adopted to prohibit parking on any portion of any public street or road then regulated by an ordinance of a Board of Trustees, the ordinance of the Board of Trustees is superseded and the University, upon request of the municipality, county or other governmental entity, shall immediately remove any signs, devices, or markings erected or placed by the University on that portion of the street or road pursuant to the superseded ordinance.

"§ 36-32. *Banks holding securities in name of nominee.*—A bank holding securities as fiduciary may hold them in the name of a nominee, without mention of the trust in the certificate or securities registration book. Provided, that

(1) The trust records and all reports or accounts rendered by the fiduciary clearly show the ownership of the securities by the fiduciary and the facts regarding its holdings;

(2) The nominee shall not have possession of the securities or access thereto except under the immediate supervision of the fiduciary or when such securities are deposited by the fiduciary in a clearing corporation as defined in G.S. 25-8-102(3).

Sec. 2. A new section is hereby added to Chapter 36 of the General Statutes to read as follows:

Stock or other securities may be kept by the company in either of the following ways:

(1) All certificates representing the securities of an account may be held separate from those of all other accounts; or

(2) Certificates representing securities of the same class of the same issuer held for particular accounts may be held in bulk without certification as to ownership attached and, to the extent feasible, certificates of small denomination may be merged into one or more certificates of larger denomination, provided that the trust company, when operating under the method of safekeeping security certificates described in this paragraph, shall be subject to such rules and regulations as, in the case of State chartered institutions, the State Banking Commission and, in the case of national banking associations, the Comptroller of the Currency may from time to time issue and, upon demand by any person to whom it has a duty to account, it shall certify in writing the securities held by it for an account."

Sec. 6. G.S. 34-10 is revised to read as follows:

"§ 34-10. *Guardian's accounts to be filed; hearing on accounts.*—Every guardian, who shall receive on account of his ward any moneys from the Bureau, shall file with the court annually, on the anniversary date of the appointment, in addition to such other accounts as may be required by the court, a full, true, and accurate account under oath of all moneys so received by him, of all

disbursements thereof, and showing the balance thereof in his hands at the date of such account and how invested. If objections are raised to such an accounting, the court shall fix a time and place for the hearing thereon not less than 15 days nor more than 30 days from the date of filing such objections, and notice shall be given by the court to the aforesaid Bureau office and the North Carolina Department of Veterans Affairs by mail not less than 15 days prior to the date fixed for the hearing. Notice of such hearing shall also be given to the guardian."

Sec. 7. G.S. 53-47 is revised to read as follows:

"§ 53-47. *Stocks, limitations on investment in.*—No bank shall make any investment in the capital stock of any other state or national bank: Provided, that nothing herein shall be construed to prevent banks doing business under this Chapter from subscribing to or purchasing, upon such terms as may be agreed upon, the capital stock of clearing corporations as defined in G.S. 25-8-102(3), the capital stock of banks organized under that act of Congress known as the 'Edge Act' or the capital stock of central reserve banks whose capital stock exceeds one million dollars (\$1,000,000). To constitute a central reserve bank as contemplated by this Chapter, at least fifty percent (50%) of the capital stock of such bank shall be owned by other banks. The investment of any bank in the capital stock of such central reserve bank or bank organized under the act of Congress commonly known as the 'Edge Act,' shall at no time exceed ten percent (10%) of the paid-in capital and permanent surplus of the bank making same. No bank shall invest more than fifty percent (50%) of its permanent surplus in the stocks of other corporations, firms, partnerships, or companies, unless such stock is purchased to protect the bank from loss. Any stocks owned or hereafter acquired in excess of the limitations herein imposed shall be disposed of at public or private sale within six months after the date of acquiring the same, and if not so disposed of they shall be charged to profit and loss account, and no longer carried on the books as an asset. The limit of time in which said stocks shall be disposed of or charged off the books of the bank may be extended by the Commissioner of Banks if in his judgment it is for the best interest of the bank that such extension be granted; provided that the limitations imposed in this section on the ownership of stock in or securities of corporations is suspended to the extent (and to that extent only) that any bank

operating under the supervision of the Commissioner of Banks may subscribe for and purchase shares of stock in or debentures, bonds or other types of securities of any corporation organized under the laws of the United States of America for the purpose of insuring to depositors a part or all of their funds on deposit in banks where and to such extent as such stock or security ownership is required in order to obtain the benefits of such deposit insurance for its depositors."

The Board of Transportation shall formulate general policies and plans for a statewide system of highways. The Board shall formulate policies governing the construction, improvement and maintenance of roads and highways of the State with due regard to farm-to-market roads and school bus routes.

“§ 136-17(c). *Budget and Appropriations.*—The Director of the Budget shall include in the ‘Budget Appropriations Bill’ an enumeration of the purposes or objects of the proposed expenditures for each of the construction and maintenance programs for that budget period for the State primary, secondary, and urban road systems. The Board of Transportation in its discretion may alter any dollar amount set forth in the ‘Budget Appropriations Bill’ for any of the foregoing purposes, provided that a report of all alterations, setting forth the reason or reasons for each, shall be submitted to the House and Senate Roads Committee and the House and Senate Appropriations Subcommittee on Roads within three months after the close of the fiscal year, and provided further that no alteration may exceed ten percent (10%) of the original figure without the concurrence of the Advisory Budget Commission. The ‘Budget Appropriations Bill’ shall also contain the proposed appropriations of State funds for use in each county for maintenance and construction of secondary roads, to be allocated in accordance with G.S. 136-17(f) and (g). State funds appropriated for secondary roads shall not be transferred nor used except for the construction and maintenance of secondary roads in the county for which they are allocated pursuant to G.S. 136-17(f) and (g).

In the event receipts and increments to the State Highway fund shall be more than the appropriations made for the preceding fiscal year, such excesses shall be allocated by the Director of the Budget to the Board of Transportation for school and industrial access roads and unforeseen happenings or state of affairs requiring prompt action, with fifty percent of the balance to be allocated to the State Secondary Roads Program on the basis of need as determined by the Board of Transportation and the remaining fifty percent to be allocated in accordance with G.S. 136-17(f).

“§ 136-17(d). *Annual Maintenance Program, State Primary, Urban System.*—The Department of Transportation and Highway Safety shall make a study of the maintenance needs and costs of the State primary and urban systems. On the basis of the costs and proposed appropriations, the Department of Transportation and Highway Safety shall develop a statewide annual maintenance program for the State Primary and Urban Systems which shall be subject to the approval of the Board of Transportation and shall take into consideration the general maintenance needs, the special maintenance needs and vehicular traffic and other factors deemed pertinent. The Department of Transportation and Highway Safety, from time to time, shall restudy the costs and criteria used as a basis for its annual maintenance program. Copies of the annual maintenance program shall be made available to members of the House and Senate Road Committees and to the members of Appropriations Sub-Committees for highway matters, as well as other interested parties, upon request at the time the ‘Budget Appropriations Bill’ is presented. “§ 136-17(e). *Annual Construction Program, State Primary, Urban Systems.*—The Department of Transportation and Highway Safety shall develop an annual construction program for the state funded improvements on the primary and urban system highways and for all Federal Aid Construction programs which shall be approved by the Board of Transportation. It shall include a statement of the immediate and long-range goals. The Department shall develop criteria for determining priorities of projects to insure that the long-range goals and the statewide needs as a whole are met, which shall be approved by the Board of Transportation. The Annual Construction Program shall list all projects according to priority. A brief description of each project shall be given, identifying the highway number, county, nature of the improvement and the estimated cost of the project shall be indicated. Copies of the most recent annual work program shall be made available to the members of the House and Senate Committees on Roads and to members of the House and Senate Appropriations Sub-Committees for highway matters, at the time the ‘Budget Appropriations Bill’ is presented. The Department of Transportation and Highway Safety shall make annual reports after the completion of the fiscal year to be made available to the Legislative Committees and Sub-Committees for highway matters, County Commissioners, and other persons upon request. These reports shall indicate the expenditure on each of the projects and the status of all projects set out in the work program.

“§ 136-17(f). *Secondary Roads, Mileage Study, Allocation of Funds.*—Before July 1, in each calendar year, the Department of Transportation and Highway Safety shall make a study of all State maintained unpaved roads in the State. The study shall determine the number of miles of unpaved State maintained roads in each county, and the total number of miles of unpaved State maintained roads in the State. Except for Federal aid programs, the Department shall allocate all secondary road construction funds on the basis of a formula using the study figures. The allocation shall be as follows: each county shall receive a percentage of the total funds available for totally State-funded secondary road construction, the percentage to be determined as a factor of the number of miles of unpaved State-maintained secondary roads in the county

divided by the total number of miles of unpaved State-maintained secondary roads in the State. Copies of the Department study of unpaved State-maintained secondary roads and copies of the individual county allocations shall be made available to newspapers having general circulation in each county.

“§ 136-17(g). The Department of Transportation and Highway Safety shall develop a uniformly applicable formula for the allocation of secondary roads maintenance funds for use in each county. The formula shall take into consideration the number of paved and unpaved miles of secondary roads in each county and such other factors as experience may dictate.

“§ 136-17(h). *Secondary Roads, Annual Work Program.*—The Department of Transportation and Highway Safety shall be responsible for developing criteria for improvements and maintenance of secondary roads. The criteria shall be adopted by the Secondary Roads Council before it shall become effective. It shall reflect the long-range and immediate goals of the Department of Transportation and Highway Safety. Projects on the annual construction program for each county shall be rated according to their priority based upon the secondary road criteria and standards which shall be uniform throughout the State. Tentative construction projects and estimated funding shall also be listed in accordance to priority. The annual construction program shall be adopted by the Secondary Roads Council before it shall become effective.

“§ 136-17(i). *Submission of Secondary Roads Construction Programs to the County Commissioners.*—Representatives of the Secondary Roads Council and of the Department of Transportation and Highway Safety shall meet with the Board of County Commissioners at a regular or special meeting of the Board of County Commissioners, notice of which meeting shall be published in a newspaper published in or having a general circulation in the county once a week for two succeeding weeks prior to the meeting and there discuss and advise, with the Board of County Commissioners and other citizens present, proposed plans and proposals in the annual construction programs for the county. After the discussions, the Board of County Commissioners shall make a written recommendation to the Secondary Roads Council as to the expenditure of funds for work in the county, and the Secondary Roads Council shall observe and follow such recommendations insofar as they are compatible with its general plans, standards, criteria and available funds, but having due regard to development plans of the county and to the maintenance and improvement of all existing roads in the county. After giving the Board of County Commissioners an opportunity to review the programs and make recommendations, the Secondary Roads Council shall adopt the annual programs. The Board of County Commissioners may petition the Board of Transportation for consideration for changes in the annual work program not allowed by the Secondary Roads Council, and the determination of the Board of Transportation shall be final. Upon final adoption of the annual work program, the same shall be published and it shall be followed, unless changes are approved by the Secondary Roads Council and notice of any changes is given the Board of County Commissioners. The Department of Transportation and Highway Safety, in its annual report, shall report on each secondary road construction project including the stage of completion and funds expended. The pertinent portion of these reports for each county shall be made available to the Board of County Commissioners.

"§ 136-17(k). *Additions to Secondary Road System.*—The Secondary Roads Council shall adopt uniform statewide or regional standards and criteria which the Department of Transportation and Highway Safety shall follow for additions to the Secondary Road System. H. B. 1166**CHAPTER 510**

AN ACT TO AUTHORIZE A TECHNICAL AMENDMENT OF SECTION 7 (c)(1) OF CHAPTER 909, SESSION LAWS OF 1971 (CLEAN WATER BOND ACT) TO PERMIT ASSISTANCE GRANTS TO LOCAL UNITS OF GOVERNMENT FOR THE CONSTRUCTION AND IMPROVEMENT OF WASTEWATER TREATMENT WORKS FROM FUNDS HERETOFORE APPROVED BY THE GENERAL ASSEMBLY AND A VOTE OF THE PEOPLE.

Whereas, the 1971 General Assembly, by enactment of Chapter 909, Session Laws of 1971 (Clean Water Bond Act of 1971), authorized the issuance of one hundred fifty million dollars (\$150,000,000) in bonds of the State, subject to approval by the people, to be used for State assistance grants to local units of government for the construction and improvement of wastewater treatment works, wastewater collection systems, and public water supply systems; and

Whereas, the issuance of said bonds was approved by a vote of the people in May, 1972; and

Whereas, Section 7(c)(1) of said Chapter 909 allocated fifty million dollars (\$50,000,000) of the funds realized from the sale of the bonds for grants to be used exclusively for the construction and improvement of wastewater treatment works; and

Whereas, under the existing language of Section 7(c)(1), grants may be made pursuant thereto only when required by federal law as a condition of a federal grant; and

Whereas, the Congress amended the federal law in 1972 to remove the requirement that federal grants be conditioned upon the availability of state grant funds; and

Whereas, the amendment of federal law removed the condition upon which state grants could be made under the provisions of Section 7(c)(1) of the act, with the result that approximately thirty million dollars (\$30,000,000) of the fifty million dollars (\$50,000,000) authorized for state grants for wastewater treatment works may not be expended nor bonds issued for such purpose; and

Whereas, the existing technical language of the federal amendment and of Section 7(c)(1) of the act will result in a reduction by approximately sixty percent (60%) of the funds intended and authorized by the General Assembly and the people to be used as grants to local units of government for the construction and improvement of wastewater treatment works; and

Whereas, the reduction in funds available for such purposes will have a massive adverse effect upon the water pollution control program of the State and local units of government in that it will impede or prevent the control, prevention and abatement of water pollution and the protection and enhancement of water quality; and

Whereas, the accomplishment of the water pollution control program is vital to the public interest and necessary to the public health, safety and welfare; and

Whereas, the General Assembly deems it necessary to amend the technical language of Section 7(c)(1) in order that all of the funds heretofore authorized

by the General Assembly and the people for local assistance grants for the improvement and construction of wastewater treatment works may be made available for such purposes; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. Subject to a favorable vote of a majority of the qualified voters of the State who shall vote thereon in an election called and held as hereinafter provided and for the purpose of permitting the expenditure of funds heretofore authorized by a vote of the General Assembly and the people for grants to units of government for the construction, improvement or expansion of wastewater treatment works, Section 7(c)(1) of the Clean Water Bond Act of 1971 (Chapter 909, 1971 Session Laws) is amended to read as follows:

"Fifty million dollars (\$50,000,000) of the funds allocated to the Pollution Control Account shall be used exclusively for the purpose of providing the State's share of the funds required for an approved wastewater treatment works project to qualify for federal grants; provided, however, that any funds which cannot be used exclusively for such purpose shall be used exclusively for the purpose of grants to pay a portion of the nonfederal share (not to exceed the limitations set forth in subsection (a)(2) of Section 7 of this Act) of the eligible construction costs of approved wastewater treatment works projects which qualify for federal grants."

Sec. 2. The question of the amendment of Section 7(c)(1) of the Clean Water Bond Act of 1971 shall be submitted to the qualified voters of the State of North Carolina at an election to be held on a date not later than November 30, 1973, to be fixed by the Governor by a proclamation issued by him; provided, that the election herein provided for may be held on the same day as any other State, county, municipal or district election, and any other State, county, municipal or district election may be validly held on the same day as the election provided for in this act. Notice of the election shall be given by publication at least twice in a newspaper published in each county in the State or having a general circulation therein, and the election and the registration of voters therefor shall be held under and in accordance with the general laws of the State, except that no absentee ballots shall be allowed in said election. The State Board of Elections shall cause to be printed and distributed the ballots which are to be used in the election, which ballots shall be substantially in the following form:

CHAPTER 512

AN ACT TO AMEND ARTICLE 25 OF CHAPTER 153, NORTH CAROLINA GENERAL STATUTES, TO PERMIT METROPOLITAN SEWERAGE DISTRICTS TO ENCOMPASS LAND IN MORE THAN ONE COUNTY.

The General Assembly of North Carolina enacts:

Section 1. G.S. 153-297 is hereby amended to read as follows:

"§ 153-297. *Procedure for creation; resolutions and petitions for creation; notice to and action by the Board of Water and Air Resources; notice and public hearing; resolutions creating districts; actions to set aside proceedings.*—Any two or more political subdivisions in one or more counties, or any political subdivision or subdivisions and any unincorporated area or areas located within one or more counties, which political subdivisions or areas need not be contiguous, may petition for the creation of a metropolitan sewerage district under the provisions of this Article by filing with the board or boards of commissioners of the county or counties within which the proposed district will lie:

- (1) A resolution of the governing body of each such political subdivision stating the necessity for the creation of a metropolitan sewerage district under the provisions of this Article in order to preserve and promote the public health and welfare within the area of the proposed district, and requesting the creation of a metropolitan sewerage district having the boundaries set forth in said resolution, and
- (2) If any unincorporated area is to be included in such district, a petition, signed by not less than fifty-one per centum (51%) of the freeholders resident within such area, defining the boundaries of such area, stating the necessity for the creation of a metropolitan sewerage district under the provisions of this Article in order to preserve and promote the public health and welfare within the proposed district, and requesting the creation of a metropolitan sewerage district having the boundaries set forth in such petition for such district.

Upon the receipt of such resolutions and petitions requesting the creation of a metropolitan sewerage district, the board or boards of commissioners, through the chairman thereof, shall notify the North Carolina Board of Water

and Air Resources of the receipt of such resolutions and petitions, and shall request that a representative of the Board of Water and Air Resources hold a joint public hearing with the board or boards of commissioners concerning the creation of the proposed metropolitan sewerage district. The chairman of the Board of Water and Air Resources and the chairman or chairmen of the board or boards of commissioners shall name a time and place within the proposed district at which the public hearing shall be held; provided, however, that where a proposed district lies within more than one county, the public hearing shall be held in the county within which the greater portion of the proposed district lies. In the event all matters pertaining to the creation of such metropolitan sewerage district cannot be concluded at such hearing, such hearing may be continued to a time and place within the proposed district determined by the board or boards of commissioners with the concurrence of the representative of the Board of Water and Air Resources.

If, after such hearing, the Board of Water and Air Resources and the board or boards of commissioners shall deem it advisable to comply with the request of such resolutions and petitions, and determine that the creation of a metropolitan sewerage district would preserve and promote the public health and welfare in the area or areas described in such resolutions and petitions, the Board of Water and Air Resources shall adopt a resolution to that effect, defining the boundaries of such district and declaring the territory within such boundaries to be a metropolitan sewerage district under the name and style of “_____

Metropolitan Sewerage District of _____

The Board of Water and Air Resources shall cause copies of the resolution creating the metropolitan sewerage district to be sent to the board or boards of commissioners and to the governing body of each political subdivision included in the district. the creation of the metropolitan sewerage district therein described must be commenced within 30 days after the first publication of said resolution.

Clerk, Board of Commissioners

Any action or proceeding in any court to set aside a resolution creating a metropolitan sewerage district, or to obtain any other relief upon the ground that such resolution or any proceeding or action taken with respect to the creation of such district is invalid, must be commenced within 30 days after the first publication of the resolution and said notice. After the expiration of such period of limitation, no right of action or defense founded upon the invalidity of the resolution or the creation of the metropolitan sewerage district therein described shall be asserted, nor shall the validity of the resolution or of the creation of such metropolitan sewerage district be open to question in any court upon any ground whatever, except in an action or proceeding commenced within such period."

Sec. 2. G.S. 153-298 is hereby amended to read as follows:

"§ 153-298. *District board; composition, appointment, terms, oaths and removal of members; organization; meetings; quorum; compensation and expenses of members.*—(a) Appointment of board for district lying wholly or partly outside city or town limits. board or boards of commissioners shall be the governing body. If any city or town within the district shall have a population, as determined from the latest decennial census, greater than that of all other political subdivisions (other than counties) and unincorporated areas within the district, the governing body of such city or town shall appoint three members. All members and their successors appointed by the governing bodies of political subdivisions other than counties shall serve for a term of three years and shall be qualified voters residing in the district and the political subdivision from which they are appointed.

(b) Appointment of board for district lying wholly within city or town limits. Any district lying entirely within the corporate limits of two or more cities or towns shall be governed by a district board consisting solely of members appointed by the governing bodies of such cities or towns and, in addition, one member elected by the appointed members of the district board. The governing body of each constituent city or town of the district shall appoint to the district board two qualified voters residing in the district and the city or town. The members so appointed shall elect, by majority vote, one additional member who shall be a qualified voter residing in the district and one of the constituent cities or towns.

One of the two members initially appointed by the governing body of each constituent city or town shall serve for a term which shall expire 30 days following the next regular election held for election of the governing body by which the member was appointed; and the other member shall serve for a term which shall expire two years thereafter. Successor members shall serve for a term of four years.

The member elected by the district board and his successors in office shall serve for a term of four years.

(c) Reappointment; vacancies; removal; term. Members of a district board may be reappointed. If a vacancy shall occur on a district board, the governing body which appointed the member who previously filled the vacancy shall appoint a new member who shall serve for the remainder of the unexpired term. Any member of a district board may be removed for cause by the governing board that appointed him. All members shall serve until their successors have been duly appointed and qualified.

(d) District board procedures. Each member of the district board, before entering upon his duties, shall take and subscribe an oath or affirmation to support the Constitution and laws of the United States and of this State and to discharge faithfully the duties of his office; and a record of each such oath shall be filed with the clerk or clerks of the board or boards of commissioners.

The district board shall elect one of its members as chairman and another as vice-chairman and shall appoint a secretary and a treasurer who may, but need not, be members of the district board. The officers of secretary and treasurer may be combined. The terms of office of the chairman, vice-chairman, secretary and treasurer shall be as provided in the bylaws of the district board.

The district board shall meet regularly at such places and dates as are determined by the board. Special meetings may be called by the chairman on his own initiative and shall be called by him upon request of two or more members of the board. All members shall be notified in writing at least 24 hours in advance of such meeting. A majority of the members of the district board shall constitute a quorum, and the affirmative vote of a majority of the members of

the district board present at any meeting thereof shall be necessary for any action taken by the district board. No vacancy in the membership of the district board shall impair the right of a quorum to exercise all the rights and perform all the duties of the district board. Each member, including the chairman, shall be entitled to vote on any question. The members of the district board may receive compensation in an amount to be determined by the board, but not to exceed ten dollars (\$10.00) for each meeting attended, and may be reimbursed the amount of actual expenses incurred by them in the performance of their duties."

Sec. 3. G.S. 153-299 is hereby amended to read as follows:

"§ 153-299. *Procedure for inclusion of additional political subdivision or unincorporated area; notice and hearing; elections; actions to set aside proceedings.*—If, at any time subsequent to the creation of a district, there shall be filed with the district board a resolution of the governing body of a political subdivision, or a petition, signed by not less than fifty-one per centum (51%) of the freeholders resident within an unincorporated area, requesting inclusion in the district of such political subdivision or unincorporated area, and if the district board shall favor the inclusion in the district of such political subdivision or unincorporated area, the district board shall notify the board or boards of commissioners of the county or counties within which the district lies and shall file with the board or boards of commissioners and with the Board of Water and Air Resources a report setting forth the plans of the district for extending sewerage service to the political subdivision or unincorporated area. The report shall include:

(a) A map or maps of the district and adjacent territory showing the present and proposed boundaries of the district; the existing major sewer interceptors and outfalls; and the proposed extension of such interceptors and outfalls.

(b) A statement setting forth the plans of the district for extending sewerage services to the territory proposed to be included, which plans shall:

- (1) Provide for extending sewerage service to the territory included on substantially the same basis and in the same manner as such services are provided within the rest of the district prior to inclusion of the new territory.
- (2) Set forth a proposed time schedule for extending sewerage service to the territory proposed to be included.
- (3) Set forth the estimated cost of extending sewerage service to the territory proposed to be included; the method by which the district proposes to finance the extension; the outstanding existing indebtedness of the district, if any; and the valuation of assessable property within the district and within the territory proposed to be included.
- (4) Contain a declaration of intent of the district board to conform with the plans set forth in the report in extending sewerage services to the territory proposed to be included; and a certification by the chairman of the district board to the effect that the matters and things set forth in the report are true to his knowledge or belief.

The board or boards of commissioners, through the chairmen thereof, shall thereupon request that a representative of the Board of Water and Air Resources hold a joint public meeting with the board or boards of commissioners concerning the inclusion of such political subdivision or unincorporated area in the district. The chairman of the Board of Water and

Air Resources and the chairman or chairmen of the board or boards of commissioners shall name a time and place within the district at which the public hearing shall be held. The chairman or chairmen of the board or boards of commissioners shall give prior notice of such hearing by posting a notice at the courthouse door of the county or counties at least 30 days prior to the hearing and also by publication at least once a week for four successive weeks in a newspaper having general circulation in the district and in any such political subdivision or unincorporated area, the first publication to be at least 30 days prior to such hearing. In the event all matters pertaining to the inclusion of such political subdivision or unincorporated area cannot be included at such hearing, such hearing may be continued to a time and place within the district determined by the board or boards of commissioners with the concurrence of the representative of the Board of Water and Air Resources.

If, after such hearing, the Board of Water and Air Resources and the board or boards of commissioners shall determine that the inclusion of such political subdivision or unincorporated area in the district will preserve and promote the public health and welfare, the Board of Water and Air Resources shall adopt a resolution to that effect, defining the boundaries of the district, including such political subdivision or unincorporated area which has filed a resolution or petition as provided for in this section, and declaring such political subdivision or unincorporated area to be included in the district.

If, at or prior to such public hearing, there shall be filed with the district board a petition, signed by not less than ten per centum (10%) of the freeholders residing in the district, requesting an election to be held therein on the question of including any such political subdivision or unincorporated area, the district board shall certify a copy of such petition to the board or boards of commissioners, and the board or boards of commissioners shall request the county board or boards of elections to submit such question to the qualified voters within the district in accordance with the applicable provisions of Chapter 163 of the General Statutes; provided, that the election shall not be held unless the Board of Water and Air Resources has adopted a resolution approving the inclusion of the political subdivision or unincorporated area in the district.

Notice of such election, which shall contain a statement of the boundaries of the territory proposed to be included in the district and the boundaries of the district after inclusion, shall be given by publication once a week for three successive weeks in a newspaper or newspapers having general circulation within the district, the first publication to be at least 30 days prior to the election.

Notice of the resolution of the Board of Water and Air Resources, or in the event that an election pursuant to this section is held, notice of the results of the election, approving the inclusion of the political subdivision or unincorporated area within the district shall be published as provided in G.S. 153-297.

Any action or proceeding in any court to set aside a resolution of the Board of Water and Air Resources or an election approving the inclusion of a political subdivision or unincorporated area within a district or to obtain any other relief upon the ground that such resolution or election or any proceeding or action taken with respect to the inclusion of the political subdivision or unincorporated area within the district is invalid, must be commenced within 30 days after the first publication of the notice. After the expiration of such period of limitation, no right of action or defense founded upon the invalidity of the resolution or the

election or the inclusion of the political subdivision or unincorporated area in the district shall be asserted, nor shall the validity of the resolution or the election or the inclusion of the political subdivision or unincorporated area be open to question in any court upon any ground whatever, except in an action or proceeding commenced within such period.

Any political subdivision or unincorporated area included within an existing district by resolution of the Board of Water and Air Resources or by such resolution and election shall be subject to all debts of the district.

The annexation by a city or town within a metropolitan sewerage district of an area lying outside such district shall not be construed as the inclusion within the district of an additional political subdivision or unincorporated area within the meaning of the provisions of this section; but any such areas so annexed shall become a part of the district and shall be subject to all debts thereof.

Immediately following the inclusion of any additional political subdivision or unincorporated area within an existing district, members representing such additional political subdivision or unincorporated area shall be appointed to the district board in the manner provided in G.S. 153-298. The terms of office of the members first appointed to represent such additional subdivision or area may be varied for a period not to exceed six months from the terms provided for in G.S. 153-298, so that the appointment of successors to such members may more nearly coincide with the appointment of successors to members of the existing board; and all successor members shall be appointed for the terms provided for in G.S. 153-298."

Sec. 4. G.S. 153-309 is hereby amended to read as follows:

"§ 153-309. *Determination of tax rate by district board; levy and collection of tax; remittance and deposit of funds.*—After each assessment for taxes following the creation of the district, the board or boards of commissioners shall file with the district board the valuation of assessable property within the district. The district board shall then determine the amount of funds to be raised by taxation for the ensuing year in excess of available funds to provide for the payment of interest on and the principal of all outstanding general obligation bonds as the same shall become due and payable, to pay the cost of maintaining, repairing and operating any sewerage system or systems, and to pay all obligations incurred by the district in the performance of its lawful undertakings and functions.

The district board shall determine the number of cents per one hundred dollars (\$100.00) necessary to raise said amount and certify such rate to the board or boards of commissioners. The board or boards of commissioners shall include the number of cents per one hundred dollars (\$100.00) certified by the district board in its next annual levy against all taxable property within the district, which tax shall be collected as other county taxes are collected, and every month the amount of tax so collected shall be remitted to the district board and deposited by the district board in a separate account in a bank in the State of North Carolina. Such levy may include an amount for reimbursing the county for the additional cost to the county of levying and collecting such taxes, pursuant to such formula as may be agreed upon by the district board and the board or boards of commissioners, to be deducted from the collections and stated with each remittance to the district board. The officer or officers having charge or custody of the funds of the district shall require said bank to furnish security

for protection of such deposits as provided in G.S. 159-28 and, after June 30, 1973, G.S. 159-31."

Sec. 5. G.S. 153-321 is hereby amended by striking the reference to "G.S. 153-306", appearing in lines 5 and 6 thereof, and by substituting therefor the language "The Local Government Finance Act"; and by striking the reference to "said G.S. 153-306", appearing in line 8, and by substituting therefor the language "The Local Government Finance Act".

Sec. 6. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

Sec. 7. This act shall become effective upon its ratification.

"Sec. 3.9. *Combination of offices.* The Town Council may combine the office of Town Finance Officer with the office of Town Clerk, in its sole discretion.

"ARTICLE IV. ELECTION PROCEDURE

"Sec. 4.1. *Municipal elections.* Elections for Mayor and Town Council shall be nonpartisan and decided by plurality in accordance with G.S. 163-292.

"Sec. 4.2. *Election procedure.* All elections and referendums of the Town of Mebane shall be held and conducted as provided by the applicable General Statutes of North Carolina.

"Sec. 4.3. *Absentee voting.* Absentee voting will not be permitted in any Town of Mebane municipal election.

"ARTICLE V. STREET AND SIDEWALK IMPROVEMENTS

"Sec. 5.1. *Street improvements; assessment of cost.* In addition to any authority which is now or may hereafter be granted by general law to the Town for making street improvements, the Town Council is hereby authorized to make street improvements and to assess the cost thereof against abutting property owners in accordance with the provisions of this Article.

"Sec. 5.2. *When petition unnecessary.* The Town Council may order street improvements and assess the cost thereof exclusive of the cost incurred at street intersections, against the abutting property owners at an equal rate per front foot, without the necessity of a petition, upon the finding by the Council as a fact:

(a) That such street or part thereof is unsafe for vehicular traffic and it is in the public interest to make such improvement, or

(b) That it is in the public interest to connect two streets, or portions of a street already improved, or

(c) That it is in the public interest to widen a street, or part thereof, which is already improved; provided, that assessments for widening any street or portions of a street without petition shall be limited to the cost of widening and otherwise improving such street in accordance with the street classification and improvement standards established by the Town's thoroughfare or major street plan for the particular street or part thereof to be widened and improved under the authority granted by this Article.

"Sec. 5.3. *Street improvement defined.* For the purpose of this Article the term 'street improvement' shall include grading, regrading, surfacing, resurfacing, widening, paving, repaving, the acquisition of right-of-way, and the construction or reconstruction of curb, gutters and street drainage facilities.

"Sec. 5.4. *Sidewalks; assessment of cost.* In addition to any authority which is now or may hereafter be granted by the General Statutes to the Town for making sidewalk improvements, the Town Council is hereby authorized to order to be made or to make sidewalk improvements or repairs without petition according to standards and specifications of the Town, and to assess the total cost thereof against abutting property owners.

If a sidewalk is constructed on only one side of a street in a residential zone, the cost thereof may be assessed against property abutting on both sides of the street, unless there already exists a sidewalk, on the other side of the street, the total cost of which, has been assessed against the abutting property.

"Sec. 5.5. *Assessment procedure.* In ordering street and sidewalk improvements without a petition and assessing the cost thereof under authority of this Article, the Town Council shall comply with the procedure provided in the General Statutes, except those provisions relating to the petition of property owners and the sufficiency thereof.

"Sec. 5.6. *Effect of assessment.* The effect of the act of levying assessments under the authority of this Article shall for all purposes be the same as if assessed where levied under authority of the General Statutes of North Carolina.

"ARTICLE VI. FINANCE AND TAXATION

"Sec. 6.1. *In general.* The fiscal affairs of the Town shall be governed by Chapter 159 of the General Statutes.

“ARTICLE VII. WATER AND SEWER IMPROVEMENTS

“Sec. 7.1. *Laterals included in cost.* In ordering water or sewer line extensions, or both, the assessment of the cost thereof under the authority given by the General Statutes, the Town Council is hereby authorized to include in such extensions water and sewer line laterals, and to include the cost of such laterals in the total cost to be assessed upon abutting properties.

“Sec. 7.2. *Classification and exemption.* Where water or sewer lines are constructed across or through lots or tracts of land or when water or sewer lines, or both, are installed along both sides of corner lots and are financed in whole or in part by assessment, the Council may by uniform rule classify such lines for assessment as in its judgment will represent the benefits derived. The Schedules of exemptions may be classified as to land uses (residential, business, commercial, industrial, office and institutional, agricultural, or other classifications) and shall be uniform for each such classification used; provided, however, that no schedule of exemptions may provide for exemption of more than seventy-five percent (75%) of the frontage of any side of a corner lot, or 150 feet, whichever is greater.

“Sec. 7.3. *Alternative method of assessing.* In addition to, and as alternatives, to the method provided in the General Statutes for assessing the cost of water and sewer lines and laterals, the Town Council, if in its opinion it would be more equitable to do so, is hereby authorized in its discretion to levy any such assessments according to either of the following methods: (1) equally against each of the lots capable of being served by such line or lines, or (2) on the basis of the footage of land upon a public street by an equal rate per foot of such frontage; or (3) on an acreage basis according to the acreage served by said line; or (4) any combination of the above.

In lieu of assessing the total cost of a particular project as herein provided, the Town Council may annually, between the first days of January and July of each year, determine the average cost of installing water and sewer mains or lines, and on the basis of such determination may make assessments on such average cost during the following fiscal year beginning July 1. The average cost of such installation shall include the cost of the particular size and material of lines completed during the preceding calendar year. It may also include the anticipated increase in labor and materials cost based upon the average of such increases during the preceding five calendar years. The assessment of the average cost of such lines shall not be made until after the particular assessment project has been completed. The Council may also by ordinances, establish a fixed rate per front foot for water and sewer installation and cause that rate to be assessed. Provided, however, said fixed rate may not exceed the actual cost of such service. A fixed rate so established may be revised, modified or repealed by ordinance of the Council. The purpose of this section is to distribute more equitably the cost of the installation of water and sewer lines throughout the Town; to permit a property owner to know in advance what the cost of installation of water and sewer lines benefiting his property will be; and to permit the most expeditious assessment cost against the property after completion of installation of such lines. The actual cost of acquisition of rights-of-way may also be assessed as a part of the cost of an individual project. If the right-of-way costs have not been determined and assessed with the assessment of the average installation cost at the time of the completion of the project, such costs may be assessed separately when they are determined.

"Sec. 7.4. *Payment of assessments.* Any special assessment of the Town for any purpose amounting to less than one hundred dollars (\$100.00) shall be paid in cash not later than the next due date of Town taxes rather than in annual installments and shall bear interest as taxes. Installment payments on special assessments shall uniformly fall due on the date that taxes are due and payable.

"Sec. 7.5. *Acreage charges.* In addition to water and sewer service charges and connection charges, the Town Council may establish and collect acreage charges for the privilege of connecting to the Town water and sewerage systems, both within and outside the corporate limits, to aid in the financing of new water and sewer mains and laterals and sewer outfalls and the replacement or enlargement of existing mains, laterals and outfalls. Such charges shall apply uniformly to all properties to which water or sewer service is extended subsequent to the establishment of such charges; provided, however, that the Council may establish higher acreage charges for property developed or to be developed for business, commercial, industrial, or office and institutional uses than those established for residential and other uses, and may base acreage charges for residential property upon the number of dwelling units per acre of land.

"ARTICLE VIII. REGULATORY POWERS

"Sec. 8.1. *Land use regulation.* The Town of Mebane possesses all of the land use regulation powers conferred on cities and towns generally by the General Statutes of North Carolina.

"Sec. 8.2. *Underground utilities.* In addition to the powers now or hereafter granted to municipalities by law, the Town subdivision ordinance may require that all utility or other pipes, wiring conduits, cables, and fixtures within subdivisions be installed underground, whether or not the same are installed in public rights-of-way pursuant to plans or regulations approved by the North Carolina Utilities Commission.

"ARTICLE IX. CLAIMS AGAINST THE TOWN

"Sec. 9.1. *Presentation of claims; suit upon claims.* (a) All claims or demands against the Town of Mebane arising in tort or in contract shall be presented to the Town Council in writing, signed by the claimant, his attorney or agent, within 90 days after the claim or demand is due or the cause of action accrues, and no suit or action shall be brought thereon within 30 days or after the expiration of 12 months from the time said claim or demand is so presented. Unless the claim or demand is so presented within 90 days after the cause of action accrues, and unless suit is brought within 12 months thereafter, any action thereon is barred.

(b) No action shall be instituted against the Town on account of damages to or compensation for real property taken or used by the Town for any public purpose, or for the ejectment of the Town therefrom, or to remove a cloud upon the title thereof, unless, within two years after such alleged use, the owner, his executor, administrator, guardian, or next friend, shall have given notice in writing to the Town Council of the claim, stating in the notice the date that the alleged use commenced, a description of property alleged to have been used, and the amount of damage or compensation claimed.

(c) Notwithstanding the provisions of subsections (a) and (b) of this section, if a complainant suffers from physical or mental incapacity that renders it impossible for him to give notice, his action shall not be barred if notice of claim is given by him or on his behalf within six months after the termination of his incapacity; provided, that minority shall not of itself constitute physical or

mental incapacity. If the complainant is a minor, his action shall not be barred if notice of claim is given on his behalf within three years after the happening or the infliction of the injury complained of; or, if the minor suffers from physical or mental incapacity that renders it impossible for him to give notice, his action shall not be barred if notice of claim is given on his behalf within six months after termination of the incapacity, or within three years after the happening or the infliction of the injury complained of, whichever is the longer period. The Town may at any time request the appointment of a next friend to represent any person having a potential claim against the Town and known to be suffering from physical or mental incapacity.

“Sec. 9.2. Settlement of claims by Town Manager. The Town Manager may, with the approval of the Town Council, settle claims against the Town for (1) personal injuries or damages to property when the amount involved does not exceed the sum of one hundred dollars (\$100.00) and does not exceed the actual loss sustained, including loss of time, medical expenses, and any other expense actually incurred and (2) the taking of small portions of private property which are needed for the rounding of corners at intersections of streets, when the amount involved in any such settlement does not exceed five hundred dollars (\$500.00) and does not exceed the actual loss sustained. Settlement of a claim by the Town Manager pursuant to this section shall constitute a complete release of the Town from any and all damages sustained by the person involved in such settlement in any manner arising out of the accident, occasion, or taking complained of. All such settlements and all such releases, shall be approved in advance by the Town Attorney.”

Sec. 2. The purpose of this act is to revise the Charter of the Town of Mebane and to consolidate herein certain acts concerning the property, affairs and government of the Town. It is intended to continue without interruption to provide those provisions of prior acts which are consolidated in this act, so that all rights and liabilities which have accrued are preserved and may be enforced.

Sec. 3. This act shall not be deemed to repeal, modify, nor in any manner to affect any of the following acts, portions of acts, or amendments thereto, whether or not such acts, portions of acts, or amendments are expressly set forth herein:

Sec. 4. Order of appointment.—(a) If after the hearing, the court is satisfied that said person is, in fact, an absentee in military service as defined in Section 1 of this act and that it is necessary that a receiver be appointed, he shall appoint a receiver of the estate and property of said absentee in military service under the supervision, and subject to the further orders of the court.

(b) In the appointment of a receiver, the court shall give due consideration to the appointment of the spouse or one of the next of kin of the absentee in military service if such spouse or next of kin is a fit and proper person and is qualified to act.

Sec. 5. Bond; inventory; accounting.—(a) Before receiving any property the judge shall require the receiver to qualify by giving bond in an amount and with surety approved by him.

(b) Within thirty (30) days after the date of his appointment, the receiver shall file an inventory of all of the property of the absentee in military service taken in charge. Every year thereafter, within thirty (30) days of the anniversary date of his appointment the receiver shall file a full and complete inventory and accounting with the clerk of superior court under oath, of the amount of property received by him, or invested by him, and the manner and nature of such investment, and his receipts and disbursements for the past year in the form of debit and credit. The clerk shall inspect and audit the inventory and accounting and if he approves the same he shall endorse his approval thereon, which shall be deemed *prima facie* evidence of correctness. If the clerk finds evidence of misconduct or default on the part of the receiver he shall

report the same to the court. In such event, the procedures found in Section 7(b) of the act shall be followed.

Sec. 6. Powers and duties of receiver.—(a) Under the direction of a judge, the receiver shall administer the property of the absentee in military service as an equity receivership with the following powers:

- (1) To take custody and control of all property of the absentee in military service wherever situated,
- (2) To collect all debts due to the absentee in military service and pay all debts owed by him,
- (3) To bring and defend suits,
- (4) To pay insurance premiums,
- (5) With the approval of the judge in each instance, to continue to operate and manage any business enterprise, farm or farming operations, and to make necessary contracts with reference thereto,
- (6) With the approval of the judge in each instance, to renew notes and other obligations, obtain loans on life insurance policies, and pledge or mortgage property for loans necessary in carrying on or liquidating the affairs of such absentee in military service,
- (7) With the approval of the judge in each instance, to institute proceedings to partition property owned by the absentee and another as joint tenants or tenants in common, with or without the right of survivorship; provided, in the case of property owned by the absentee in military service and spouse as tenants by the entirety, such proceedings may be instituted only if the spouse of the absentee in military service consents in writing to the partitioning, and, in the event of partitioning, one half of the property or proceeds shall belong to the spouse and one half shall belong to the receiver as property of the absentee in military service.
- (8) With the approval of the judge in each instance, to sell, lease, invest, and reinvest any or all property, its income, or its proceeds,
- (9) To pay over or apply the proceeds of mortgage and sales of such portion, or all of the property or the income thereof, as may be necessary for the maintenance and support of the dependents of the absentee in military service. If the income from the property of the absentee in military service is not sufficient to pay all of his debts and to provide for the maintenance and support of his dependents, the receiver may apply to the judge for an order to sell or mortgage so much of the real or personal property as may be necessary therefor. Such sale or mortgage shall be reported to the judge, and if approved and confirmed by the judge, the receiver shall execute the required conveyances or mortgages of such property to the purchaser or lender upon his complying with the terms of sale or mortgage.

(b) The judge may, in his discretion, by written order, modify, add to, or subtract from the statutory powers granted in this section.

Sec. 7. Resignation and removal.—(a) A receiver appointed under authority of this act may resign and his successor be appointed by complying with the provisions set forth in G.S. 36-9 through 36-18.2.

(b) If, after a receiver has been appointed, it is made to appear to the court upon the filing of a complaint or upon information received that the person appointed as receiver of the estate and property of the absentee in military

service is legally incompetent, or that such person has been guilty of default or misconduct in due execution of his office, or that his appointment was obtained by false representation, or that such person has removed himself from this State, the court shall issue an order requiring such person to show cause why his appointment as a receiver should not be revoked. Upon the removal of a receiver of the estate or property of an absentee in military service, the court shall immediately appoint his successor. Pending any suit or proceeding between parties respecting such revocation, the clerk of superior court is authorized to make such interlocutory orders as may tend to better secure the estate and property of the absentee in military service.

Sec. 8. Termination of receivership.—(a) At any time upon petition signed by the absentee in military service, or on petition of an attorney in fact acting under an adequate power of attorney granted by the absentee in military service, the court shall direct the termination of the receivership and the transfer of all property held thereunder to the absentee in military service or to the designated attorney in fact.

(b) If at any time subsequent to the appointment of a receiver it shall appear that the absentee in military service has died and an executor or administrator has been appointed for his estate, the court shall terminate the receivership, certify all proceedings under the receivership to the clerk of superior court, and transfer all property of the deceased absentee in military service held thereunder to such executor or administrator.

(c) When the need for a receivership terminates, the receiver shall promptly file a final inventory and accounting and his application for discharge with the court. If it appears to the court that the inventory and accounting are correct and that the receiver has made full and complete transfer of the assets of the absentee in military service as directed, the court may approve the inventory and accounting and discharge the receiver. If objections to the final inventory and accounting are filed, the court shall conduct a hearing under the same conditions for a hearing on objections to the annual accounting and inventory.

(d) Such discharge shall operate as a release from the duties of the receivership and as a bar to any suit against said receiver or his surety, unless such suit is commenced within one year from the date of discharge.

Sec. 9. Summary procedure.—(a) If the spouse of any person defined as an absentee in military service by this act, or his next of kin, if said absentee in military service has no spouse, shall wish to sell or transfer any property of the absentee in military service which has a gross value of less than five thousand dollars (\$5,000), or shall require the consent of the absentee in military service in any matter regarding the children of the absentee in military service, or in any other matter in which the gross value of the subject matter is less than five thousand dollars (\$5,000), such spouse may apply to the superior court for an order authorizing said sale, transfer, or consent without opening a full receivership proceeding as provided by this act. Said application shall be made by petition on the following form, which form shall be made available to the applicant by the clerk of the superior court:

CHAPTER 523

AN ACT TO MAKE APPROPRIATIONS TO PROVIDE CAPITAL IMPROVEMENTS FOR STATE INSTITUTIONS, DEPARTMENTS, AND AGENCIES.

The General Assembly of North Carolina enacts:

Section 1. This act shall be known as "The Capital Improvement Appropriations Act of 1973".

Sec. 2. The appropriations made by this act are for the purpose of constructing buildings and utilities, the renovation of buildings and utilities, acquiring sites therefor where necessary, acquiring and installing equipment, and acquiring lands at the institutions, departments and agencies of the State hereinafter mentioned, as detailed in Volume III of the 1973-75 Budget.

Sec. 3. The direct appropriations made by this act to provide for Capital Improvements under Sections 4, 5, and 6 of this act shall be disbursed for the purposes provided by this act upon warrants drawn by the State Disbursing Officer, which warrants shall not be drawn for any State institution, department, or agency until a requisition has been approved by the Director of the Budget, and which requisition shall be approved only after full compliance with the Executive Budget Act, Article I, Chapter 143, of the General Statutes. Any officer of this State or executive head of any institution, or any director, trustee, or commissioner of any State institution, department, or agency to which a direct or self-liquidating appropriation is made under the provisions of this act who votes for or aids in spending more money for any improvement for any institution, department, or agency than is appropriated therefor except as hereinafter provided, may be removed from office by the Governor. Any additional monies which may be received by means of a grant or grants from the United States of America or any agency or department thereof, or from any

other source to aid in financing the cost of any of the improvements herein referred to may be placed by the State Treasurer in the same fund or in a separate fund and, to the extent permitted by terms of such grant or grants, with the approval of the Governor and the Advisory Budget Commission, shall be disbursed in the same manner and for the same purposes mentioned in this act, as detailed in Volume III of the 1973-75 Budget. Appropriations for purchases of land in Section 4 of this act are consolidated into one appropriation to the Department of Administration. Self-liquidating appropriations for student housing are on the basis of five thousand dollars (\$5,000) per student and shall not exceed this amount per student for the stated project including equipment and furnishings. Prior to the execution of design or construction contracts in respect to projects to be financed in whole or in part with self-liquidating appropriations the Advisory Budget Commission shall approve the method of financing such project. Where direct appropriations are provided in this act for the purpose of furnishing movable equipment for any project, such funds for equipment shall not be subject to transfer into construction accounts except as authorized by the Director of the Budget. However, fixed equipment funds so provided may be expended under construction accounts to the specific amount required for equipment attached to or connected to the building for which it is intended. It is the intent of this act that projects listed herein shall be completed, including fixed and movable equipment and furnishings, within the limits of the amounts of the direct or self-liquidating appropriations provided herein, except as hereinafter provided.

Sec. 4. There is hereby appropriated out of the General Fund the sum of one hundred sixty-six million four hundred four thousand two hundred fifty-nine dollars (\$166,404,259) for the use of the State institutions, departments and agencies to provide for CAPITAL IMPROVEMENT projects according to the following schedule:

When each project appropriated for in Section 4 of this act, other than those projects under the University of North Carolina Board of Governors, is placed under construction contract, direct appropriations therefor shall be encumbered to include all costs for construction, design, investigation, administration, movable equipment and a reasonable contingency. Surplus direct appropriations remaining in the project budget after encumbering costs described above shall be placed in a Project Reserve Fund credited to the Department of Administration. Use of this Project Reserve Fund shall be at the discretion of the Director of the Budget, and solely to allow for award of contracts where bids exceed appropriated funds, on condition that such project supplemented shall have been designed within the physical scope intended by the applicable appropriation or any authorized change therein, and all means to award contracts within the appropriation shall have been reasonably attempted in the opinion of the Director of the Budget. The Project Reserve Fund shall not be used in connection with any projects under the University of North Carolina Board of Governors. At the discretion of the Advisory Budget Commission, any balances in the Project Reserve Fund shall revert to the original source.

Sec. 8. The Governor and Advisory Budget Commission are authorized and empowered to delete any CAPITAL IMPROVEMENT project as provided in this act and substitute therefor any other CAPITAL IMPROVEMENT project or projects which on the request of the department, agency or

institution, and in the opinion of the Governor and the Advisory Budget Commission, shall be deemed to be in the best interest of the State. Such substituted projects shall take precedence over projects enumerated in this act within the limit of funds provided to the requesting department, agency or institution in this appropriation.

Sec. 9. The Advisory Budget Commission may, when in its opinion it is in the best interest of the State to do so, and upon the request of the department, institution, or agency, authorize an increase or a decrease in size, scope, direct or self-liquidating appropriation, of any project or projects enumerated in this act within the funds available to that department, agency or institution.

Sec. 10. There is authorized under Section 4 of this act, the sum of four million five hundred thousand dollars (\$4,500,000) as a supplement to previous appropriations and authorizations in connection with the construction, equipping and furnishing of a new State Art Museum Building. It is the intent of the General Assembly of North Carolina that this appropriation of four million five hundred thousand dollars (\$4,500,000) shall be reserved and used with funds previously appropriated and with funds derived from other sources such as private gifts, grants and other non-State funds made available by individuals, corporations, foundations and others; and shall be used as requested by the State Art Museum Building Commission subject to the approval of the Governor and the Advisory Budget Commission. Provisions of this act relative to reversion shall not be applicable to this appropriation.

Sec. 11. The Director of the Budget is authorized and empowered to advance from the land-purchase appropriations made in this act, funds necessary for purchase of recreational land for which there is either no specific appropriation or only a partial appropriation, when reimbursement of such advances will be later effected by the Federal Bureau of Outdoor Recreation.

Sec. 12. There are appropriated in Section 4 of this act certain lump sums specifically to the Department of Social Rehabilitation and Control, Office of Correction; the Department of Natural and Economic Resources, Office of Forest Resources; the Department of Natural and Economic Resources, Office of State Parks; the Department of Art Culture and History; and the Department of Natural and Economic Resources, Office of Water and Air Resources, from the General Fund. Such lump sums of funds shall be used for specific projects of CAPITAL IMPROVEMENTS from time to time and in accordance with the priority needs of the respective agencies, and as approved by the Advisory Budget Commission generally as described and set forth in Volume III of the Budget. In the case of the Department of Natural and Economic Resources, Office of Water and Air Resources, the lump sum of monies is intended by the General Assembly primarily to supplement funds from federal and/or local sources for projects approved by the Advisory Budget Commission to accomplish the purposes indicated in this act. The proportion of State funds shall be in accordance with formulae of the federal agency or in reasonable proportion as approved by the Advisory Budget Commission.

Sec. 13. There is appropriated in Section 4 of this act a lump sum to the University of North Carolina Board of Governors. Expenditure of funds in this appropriation shall be in accordance with provisions of Chapter 1244 of the 1971 Session Laws, and provisions of this act except where specifically excluded.

Sec. 14. There is appropriated in Section 4 of this act the sum of two hundred fifty thousand dollars (\$250,000) to the Department of Administration

for the purpose of making unanticipated emergency repairs to State-owned physical facilities. The intent of this appropriation is to provide for unanticipated emergency situations which may arise in connection with any physical facility owned by the State of North Carolina. Expenditure of funds out of this account shall be subject to approval by the Advisory Budget Commission. An accounting of expenditures from this appropriation shall be made by the Advisory Budget Commission to the Appropriations Committee at the next session of the General Assembly.

Sec. 15. Subject to any transfers and changes between appropriations as permitted in previous sections of this act, the appropriations for CAPITAL IMPROVEMENTS made in this act shall be expended only for specific projects set out in this act. Construction of all CAPITAL IMPROVEMENT projects enumerated in this act shall be commenced or self-liquidating indebtedness with respect thereto shall be incurred on or before December 31, 1974; if construction on such project or projects has not been commenced or self-liquidating indebtedness has not been incurred on or before December 31, 1974, then the direct appropriation for such project or projects shall revert to the original source, and the self-liquidating appropriation shall lapse; except that direct appropriations may be placed in the Project Reserve Fund; provided, however, that subject to the approval of the Governor and the Advisory Budget Commission this deadline with respect to both direct and self-liquidating appropriations may be extended when, in the discretion of the Governor and the Advisory Budget Commission, existing circumstances and conditions warrant such extension.

employer requirement shall be paid from the same source as the source of the employee's salary. In those instances in which an employee's salary is paid in part from the General Fund and in part from department, office, institution, or agency receipts (other than gifts, including foundation funds), required employer contributions shall be paid from the General Fund only to the extent of the proportionate part paid from the General Fund in support of the salary of such employee, and the remainder of the employer's requirement shall be paid from the same source which supplies the remainder of such employee's salary. The requirements of this section as to source of payment are also applicable to payments on behalf of employees for Hospital-Medical Insurance, Disability Salary Continuation Benefits, Longevity, and Unemployment Insurance, except that where the employee's salary is paid in whole or in part from gifts, including foundations, the source of such gifts must bear its proportional share of the employer's requirement for these purposes.

Any questions as to the applicability of the provisions of this section shall be resolved by the Director of the Budget and the Advisory Budget Commission.

SALARIES AND WAGES

Sec. 26. The Director of the Budget is authorized and empowered to transfer from the appropriations in Section 2 of this act for Salary Increases of State Employees, such amounts, including the employer's retirement and social security contributions, as may be required to increase salaries in effect on June 30, 1973, for all permanent employees subject to the Personnel Act whose salaries are paid from the General Fund, and from the appropriations in Section 3 of this act for Salary Increases of State Employees, such amounts, including the employee's retirement and social security contributions, as may be required to increase salaries in effect on June 30, 1973, for all permanent employees subject to the Personnel Act whose salaries are paid from the Highway Fund, by an average of five percent (5%) commencing July 1, 1973, and for those employees whose salaries as of June 30, 1973, are two dollars and sixty-three cents (\$2.63) or less per hour by an additional average of five percent (5%), rounded to conform to the steps in such salary ranges as may be adopted by the State Personnel Board. Salaries for positions which are paid partially from the General Fund and partially from sources other than the General Fund shall be increased from the General Fund appropriation only to the extent of the proportionate part of the salaries paid from the General Fund.

The salary increases shall not affect the status of eligibility for automatic and/or merit salary increments for which the employee may be eligible for the fiscal year 1973-74 notwithstanding the granting of the legislative salary increase.

The salary ranges for all employees under the Personnel Act shall be increased, so far as the maximums are concerned, by amounts corresponding to those of this legislative salary increase to the end that, after the salary increases provided for in this act are made, every employee will continue to have the same relative position with respect to salary increases and future increments as he would have had if the salary increases provided by this act had not been made.

The salary increases provided in this act to be effective July 1, 1973, shall not apply to persons separated from the State service due to resignation, dismissal, reduction in force, death or retirement, whose last work day is prior to July 1, 1973.

These funds are intended to be transferred only when the use of salary reserve funds in individual operating budgets is not feasible.

The salary of the Administrative Officer of the Courts shall be thirty-two thousand five hundred dollars (\$32,500) per annum, and the salary of the Assistant Administrative Officer of the Courts shall be twenty-four thousand dollars (\$24,000) per annum. The salary of each

Public Defender shall be twenty-seven thousand dollars (\$27,000) per annum, and the salaries of the Assistant Public Defenders shall average seventeen thousand five hundred dollars (\$17,500) per annum. The authorized representatives of the board are empowered upon presentation of their credentials to enter upon any private or public property, including boarding any vessel, for the purpose of inspection or investigation or in order to conduct any project or activity to contain, collect, disperse or remove oil discharges or to perform any restoration necessitated by an oil discharge. Neither the State nor its agencies, employees or agents shall be liable in trespass or damages arising out of the conduct of any inspection,

“§ 143-478. *Local ordinances.*—Nothing in the Article shall be construed to deny any county, municipality, sanitary district, metropolitan sewerage district or other authorized local governmental entity, by ordinance, regulation or law, from exercising police powers with reference to the prevention and control of oil discharges to sewers or disposal systems.

“Part 2.

“§ 143-479. *Discharges.*—(a) Unlawful discharges. It shall be unlawful, except as otherwise provided in this Part, for any person to discharge, or cause to be discharged, oil into or upon any waters, tidal flats, beaches, or lands within this State, or into any sewer, surface water drain or other waters that drain into the waters of this State, regardless of the fault of the person having control over the oil, or regardless of whether the discharge was the result of intentional or negligent conduct, accident or other cause.

(b) Excepted discharges. This section shall not apply to discharges of oil in the following circumstances:

- (1) When the discharge was authorized by an existing regulation of the board.
- (2) When any person subject to liability under this Article proves that a discharge was caused by any of the following:
 - a. An act of God.
 - b. An act of war or sabotage.
 - c. Negligence on the part of the United States Government or the State of North Carolina or its political subdivisions.
 - d. An act or omission of a third party, whether any such act or omission was or was not negligent.

(c) Permits. Any person who desires or proposes to discharge oil onto the land or into the waters of this State shall first make application for and secure the permit required by G.S. 143-215.1. Application shall be made pursuant to the rules and regulations adopted by the board. Any permit granted pursuant to this subsection may contain such terms and conditions as the board shall deem

necessary and appropriate to conserve and protect the land or waters of this State and the public interest therein.

“§ 143-480. *Removal of prohibited discharges.*—(a) Person discharging. Any person having control over oil discharged in violation of this Article shall immediately undertake to collect and remove the discharge and to restore the area affected by the discharge as nearly as may be to the condition existing prior to the discharge. If it is not feasible to collect and remove the discharge, the person responsible shall take all practicable actions to contain, treat and disperse the discharge; but no chemicals or other dispersants or treatment materials which will be detrimental to the environment or natural resources shall be used for such purposes unless they shall have been previously approved by the board.

(b) Removal by board. Notwithstanding the requirements of subsection (a) of this section, the board is authorized and empowered to utilize any staff, equipment and materials under its control or supplied by other cooperating State or local agencies and to contract with any agent or contractor that it deems appropriate to take such actions as are necessary to collect, investigate, perform surveillance over, remove, contain, treat or disperse oil discharged onto the land or into the waters of the State and to perform any necessary restoration. The director shall keep a record of all expenses incurred in carrying out any project or activity authorized under this section, including actual expenses incurred for services performed by the State's personnel and for use of the State's equipment and material. The authority granted by this subsection shall be limited to projects and activities that are designed to protect the public interest or public property, and shall be compatible with the National Contingency Plan established pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. Sections 1251 *et seq.*

The agent or employee of the office receiving the notification shall immediately notify the director or assistant director of the board or such member or members of the permanent staff of the office as the director may designate.

“§ 143-482. *Other State agencies.*—(a) Cooperative effort. The North Carolina State Highway Commission, the North Carolina Department of Conservation and Development, the North Carolina Wildlife Resources Commission, and any other agency of this State shall cooperate with and lend assistance to the board by assigning to the board upon its request personnel, equipment and material to be utilized in any project or activity related to the containment, collection, dispersal or removal of oil discharged upon the land or into the waters of this State.

(b) Planning. Subsequent to ratification of this Article and prior to its effective date, designated representatives of the board, the State Highway Commission, the Department of Conservation and Development and the Wildlife Resources Commission and any other agency or agencies of the State which the board shall deem necessary and appropriate, shall confer and establish plans and procedures for the assignment and utilization of personnel, equipment and material to be used in carrying out the purposes of this Part. Every State

agency involved is authorized to adopt such rules and regulations as shall be necessary to effectuate the purposes of this section.

(c) *Accounts.* Every State agency participating in the containment, collection, dispersal or removal of an oil discharge or in restoration necessitated by such discharge, shall keep a record of all expenses incurred in carrying out any such project or activity including the actual services performed by the agency's personnel and the use of the agency's equipment and material. A copy of all records shall be delivered to the board upon completion of the project or activity.

“§ 143-483. *Oil Pollution Protection Fund.*—There is hereby established under the control and direction of the board an Oil Pollution Protection Fund which shall be a non-lapsing, revolving fund consisting of any monies appropriated for such purpose by the General Assembly or that shall be available to it from any other source. The monies shall be used to defray the expenses of any project or program for the containment, collection, dispersal or removal of oil discharged to the land or waters of this State or for restoration necessitated by the discharge. In addition to any monies that shall be appropriated or otherwise made available to it, the fund shall be maintained by fees, charges, penalties or other monies paid to or recovered by or on behalf of the board under the provisions of this Part. Any monies paid to or recovered by or on behalf of the board as fees, charges, penalties or other payments as damages authorized by this Part shall be paid to the Oil Pollution Protection Fund in an amount equal to the sums expended from the fund for the project or activity. Within the meaning of this section, the word ‘penalties’ means civil penalties and does not include criminal fines or penalties.

“§ 143-484. *Payments to State agencies.*—Upon completion of any oil removal or restoration project or activity conducted pursuant to the provisions of this Part, each agency of the State that has participated by furnishing personnel, equipment or material shall deliver to the board a record of the expenses incurred by the agency. The amount of incurred expenses shall be disbursed by the director to each such agency from the Oil Pollution Protection Fund. Upon completion of any oil removal or restoration project or activity, the director shall prepare a statement of all expenses and costs of the project or activity expended by the State and shall make demand for payment upon the person having control over the oil discharged to the land or waters of the State, unless the board shall determine that the discharge occurred due to any of the reasons stated in G.S. 143-480(b). Any person having control of oil discharged to the land or waters of the State in violation of the provisions of this Part and any other person causing or contributing to the discharge of oil shall be directly liable to the State for the necessary expenses of oil cleanup projects and activities arising from such discharge and the State shall have a cause of action to recover from any or all such persons. If the person having control over the oil discharged shall fail or refuse to pay the sum expended by the State, the director shall refer the matter to the Attorney General of North Carolina, who shall institute an action in the name of the State in the Superior Court of Wake County, or in his discretion, in the superior court of the county in which the discharge occurred, to recover such cost and expenses.

“§ 143-485. *Multiple liability for necessary expenses.*—Any person liable for costs of cleanup of oil under this Part shall have a cause of action to recover such costs in part or in whole from any other person causing or contributing to the

discharge of oil into the waters of the State, including any amount recoverable by the State as necessary expenses. The total recovery by the State for damage to public resources pursuant to G.S. 143-487 and for the cost of oil cleanup, arising from any discharge, shall not exceed the applicable limits prescribed by federal law with respect to the United States Government on account of any such discharge.

“§ 143-486. *Liability for damage to public resources.*—Any person who violates any of the provisions of this Article, or any order, rule or regulation of the board adopted pursuant to this Article, or fails to perform any duty imposed by this Article, or violates an order or other determination of the board made pursuant to the provisions of this Article, including the provisions of a discharge permit issued pursuant to G.S. 143-215.1, and in the course thereof causes the death of, or injury to, fish, animals, vegetation or other resources of the State or otherwise causes a reduction in the quality of the waters of the State below the standards set by the Board of Water and Air Resources, shall be liable to pay the State damages in an amount equal to the sum of money necessary to restock such waters, replenish such resources, or otherwise restore the rivers, streams, bays, tidal flats, beaches, estuaries or coastal waters and public lands adjoining the seacoast to their condition prior to the injury, as such condition is determined by the Board of Water and Air Resources in conference with the Board of Conservation and Development, the Wildlife Resources Commission, and any other State agencies having an interest affected by such violation (or by the designees of any or all of such boards, commissions and agencies). Such damages shall be recoverable in an action brought by the Attorney General in the name of the State in the Superior Court of the county in which the damage occurred or in which the violator resides or has his or its principal place of business, as he shall elect; provided, that if damages occurred in more than one county, the Attorney General may bring an action in any of the counties where the damages occurred. Any money so recovered by the Attorney General shall be transferred by the board to appropriate funds administered by the State agencies affected by the violation for use in such activities as food fish or shellfish management programs, wildlife and waterfowl management programs, water quality improvement programs and such other uses as may best mitigate the damage incurred as a result of the violation. No action shall be authorized under the provisions of this section against any person operating in compliance with the conditions of a waste discharge permit issued pursuant to G.S. 143-215.1 and the provisions of this Part.

“§ 143-487. *Penalties.*—(a) Civil penalties. Any person who intentionally or negligently discharges oil, or knowingly causes or permits the discharge of oil in violation of this part or fails to report a discharge as required by G.S. 143-481, shall incur, in addition to any other penalty provided by law, a penalty in an amount not to exceed five thousand dollars (\$5,000) for every such violation, the amount to be determined by the board after taking into consideration the gravity of the violation, the previous record of the violator in complying or failing to comply with the provisions of this Part as well as G.S. 143-215.1, and such other considerations as the board deems appropriate. Every act or omission which causes, aids or abets a violation of this section shall be considered a violation under the provisions of this section and subject to the penalty herein provided. The penalty herein provided for shall become due and payable when the person incurring the penalty receives a notice in writing from the board

describing the violation with reasonable particularity and advising such person that the penalty is due. The board may, upon written application therefor, received within 15 days, and when deemed in the best interest of the State in carrying out the purposes of this Article, remit or mitigate any penalty provided for in this section or discontinue any action to recover the penalty upon such terms as it, in its discretion, shall deem proper, and shall have the authority to ascertain facts upon all such applications in such manner and under such regulations as the board may adopt. If the amount of such penalty is not paid to the department within 15 days after receipt of notice, or if an application for remission or mitigation has not been made within 15 days as herein provided, and the amount provided in the order issued by the board subsequent to such application is not paid within 15 days of receipt thereof, the Attorney General, upon request of the board, shall bring an action in the name of the State in the Superior Court of Wake County or of any other county wherein such violator does business, to recover the amount specified in the final order of the board. In any such action, the amount of the penalty shall be subject to review by the court. In all such actions the procedures and rules of evidence shall be the same as in an ordinary civil action except as otherwise in this Article provided. Notification received pursuant to this subsection or information obtained by the exploitation of such notification shall not be used against any person in any criminal case, except as prosecution for perjury or for giving a false statement.

(b) *Criminal penalties.* Any person who intentionally or knowingly or willfully discharges or causes or permits the discharge of oil in violation of this Part shall be guilty of a misdemeanor punishable by imprisonment not to exceed six months or by fine to be not more than ten thousand dollars (\$10,000), or by both, in the discretion of the court. No proceeding shall be brought or continued under this subsection for or on account of a violation by any person who has previously been convicted of a federal violation or a local ordinance violation based upon the same set of facts.

“§ 143-488. *Lien on vessel.*—Any vessel (other than one owned or operated by the State of North Carolina or its political subdivisions or the United States Government) from which oil is discharged in violation of this Part or any regulation prescribed pursuant thereto, shall be liable for the pecuniary penalty and costs of oil removal specified in this Part and such penalty and costs shall constitute a lien on such vessel; provided, however, that said lien shall not attach if a surety bond is posted with the board in an amount and with sureties acceptable to the board, or a cash deposit is made with the board in an amount acceptable to the board. Provided further, that such lien shall not have priority over any existing perfected lien or security interest. The board may adopt regulations providing for such conditions, limitations, and requirements concerning the bond or deposit prescribed by this section as the board deems necessary.

“§ 143-489. *Liability for damage caused.*—Any person having control over oil which enters the waters of the State in violation of this Part shall be strictly liable, without regard to fault, for damages to persons or property, public or private, caused by such entry, subject to the exceptions enumerated in G.S. 143-479(b).

“§ 143-490. *Joint and several liability.*—In order to provide maximum protection for the public interest, any actions brought pursuant to G.S. 143-485 through 143-488(a), 143-490 or any other section of this Article, for recovery of

cleanup costs or for civil penalties or for damages, may be brought against any one or more of the persons having control over the oil or causing or contributing to the discharge of oil. All said persons shall be jointly and severally liable, but ultimate liability as between the parties may be determined by common law principles.

“Part 3.

“Oil Terminal Facilities.

“§ 143-491. *Duties of Secretary of Natural and Economic Resources.*—The Secretary of Natural and Economic Resources shall administer the provisions for registration of oil terminal facilities contained in this Part. In addition, he shall engage in such study and research concerning oil terminal facilities and their regulation in this State and elsewhere as may be required to furnish the General Assembly with a thorough factual basis for his recommendations for further legislation pursuant to this Part.

“§ 143-492. *Oil Terminal Facility Registration.*—Prior to November 10, 1973, the owner or operator of every oil terminal facility in the State shall secure a registration certificate from the Secretary of Natural and Economic Resources. Such a certificate shall be issued only where the applicant shall have furnished the following information concerning the oil terminal facility:

(a) Complete name of owner and operator of the oil terminal facility together with addresses and telephone numbers;

(b) Number of employees of the oil terminal facility and the principal officers;

(c) Maps or sketches, based on criteria developed by the Secretary of Natural and Economic Resources to show property lines of the oil terminal facility and location of nearby watercourses or bodies of water as specified by the Secretary; and

(d) Summary of present and proposed procedures, if any, for prevention of oil spills.

The owner or operator of any oil terminal facility which begins operation subsequent to the initial registration date specified in this section shall secure a registration certificate no later than 30 days after beginning operations.

“§ 143-493. *Recommendations; Regulations; Definitions.*—(a) The Secretary of Natural and Economic Resources shall present recommended further legislation concerning oil pollution to the General Assembly by February 1, 1974. Such recommended legislation may include provisions (1) designating or creating a State agency to regulate oil terminal facilities; (2) specifying the legal responsibility of oil terminal facilities for prevention of oil spills, and for related measures to protect the public interest; (3) creating a system of licensing of oil terminal facilities, or such alternative measures as the Secretary deems needful to protect the public interest; and (4) such other provisions as the Secretary shall deem necessary and appropriate.

(b) The Secretary of Natural and Economic Resources may adopt and modify from time to time rules and regulations consistent with this Part to implement the provisions of this Part. All such rules and regulations and modifications thereof, shall be filed with the Secretary of State as required by Article 18 of Chapter 143 of the General Statutes.

“§ 143-494. *Violations.*—Any person who shall be adjudged to have violated any provision of this Part or any rule or regulation of the Secretary of Natural and Economic Resources adopted hereunder shall be guilty of a misdemeanor,

punishable upon conviction by a fine of not exceeding fifty dollars (\$50.00) or by imprisonment for not exceeding 30 days or by both such fine and imprisonment.

“§ 143-495. *Oil refinery permits.*—No facility which is used or capable of being used for the purpose of refining oil shall be initiated or constructed prior to July 1, 1974, without a permit from the board. The board shall deny such permit upon finding: (1) that the installation will have substantial adverse effects on wildlife or on fresh water, estuarine or marine fisheries; (2) that the operation of the installation will violate standards of air or water quality promulgated or administered by the board; (3) that the installation will have a substantial adverse effect on a publicly owned park, forest or recreation area; or (4) that the installation will have substantial adverse effects on the public health, safety or welfare that are not outweighed by the benefits of the installation. In the absence of such findings, a permit shall be granted. The board may adopt rules and regulations prescribing procedures to be followed in connection with such permits.

“§ 143-496. *Severability.*—(a) General severability clause. If any provision of this Article or the application thereof to any person or circumstance is held invalid, whether by federal or State constitutions or laws, such invalidity shall not affect other provisions or applications of the Article which can be given effect without the invalid provision or application, and to this end the provisions of this Article are declared to be severable.

(b) Special severability clause. Without limiting the effect of subsection (a) of this section, the following provisions of this Article are hereby specifically declared to be severable:

- (i) This Article in its entirety is intended to be severable from the general water pollution control laws of North Carolina (G.S. Chapter 143, Article 21, Part 1 and related statutes).

The General Assembly of North Carolina enacts:

Section 1. Article 22 of Chapter 153 of the General Statutes is hereby rewritten to read:

“Article 22

“Garbage and Solid Waste Collection and Disposal

“§ 153-272. The following definitions shall apply in the administration, enforcement and interpretation of this Article:

(1) ‘Garbage’ - all putrescible wastes, including animal and vegetable matter, animal offal and carcasses, and recognizable industrial by-products, but excluding sewage and human wastes.

(2) ‘Refuse’ - all nonputrescible wastes.

(3) ‘Solid waste’ - garbage, refuse, rubbish, trash, and other discarded solid materials, including solid waste materials resulting from homes, businesses, industrial, commercial, and agricultural operations, and from community activities, but does not include solids or dissolved materials in domestic sewage or other significant pollutants in water resources, such as silt, dissolved or suspended solids in industrial waste water effluents, dissolved materials in irrigation return flows or other common water pollutants.

The board of county commissioners of any county is hereby empowered to regulate the collection and disposal of garbage, refuse, and solid waste by private persons, firms or corporations outside the municipalities of the county for the purpose of encouraging and attempting to insure an adequate and continuing service of garbage, refuse and solid waste collection and disposal when the board deems it desirable.

The board may license any person, firm or corporation to engage in such services, and may prohibit the collection and disposal by unlicensed persons, firms or corporations. The board may grant to those licensed under this act the exclusive right to collect or dispose, or both, garbage, refuse and solid waste for compensation within the entire county or within specified areas of the county and prohibit unauthorized persons, firms or corporations from engaging in the same service within the area where the exclusive right has been granted.

The board shall regulate the fees charged by licensed persons, firms or corporations for the collection and disposal of garbage, refuse, and solid waste to the end that adequate service may be furnished and reasonable compensation may be provided for such services.

The board shall adopt such regulations as it deems necessary to carry out the purpose and intent of this section and to provide adequate services to the citizens of the county. A violation of such regulations shall be a misdemeanor punishable by a fine not to exceed fifty dollars (\$50.00) or imprisonment not to exceed 30 days. Each week that such violation continues to exist shall be a separate offense.

“§ 153-273. *County collection and disposal; tax levy.*—The board of county commissioners of any county is hereby empowered to establish and operate garbage, refuse, and solid waste collection and disposal facilities, or either, in areas outside of incorporated cities and towns where, in its opinion, the need for such facilities exists. The board may by ordinance regulate the use of such garbage, refuse, and solid waste disposal facilities; the nature of the solid wastes disposed of therein; and the method of disposal. Ordinances so adopted may be

enforced by any law enforcement officer having jurisdiction, which shall include, but not be limited to, officers of the county sheriff's department, county police department and the State Highway Patrol. The board may contract with any municipality, individual, or privately owned corporation to collect and dispose, or collect or dispose, of garbage, refuse, and solid waste in any such area provided no county shall be authorized by this act to levy a disposal fee upon any municipality located in that county if the Board of Commissioners levy a county wide tax on property which provides in part for financing such disposal facilities. In the disposal of garbage, refuse, and solid waste, the board may use any vacant land owned by the county, or it may acquire suitable sites for such purpose. The board may make appropriations to carry out the activities herein authorized. The board may impose fees for the use of disposal facilities, and in the event it shall provide for the collection of garbage, refuse, and solid waste, it may charge fees for such collection service sufficient in its opinion to defray the expense of collection. Counties and municipalities therein are authorized to establish and operate joint collection and disposal facilities, or either of these, upon such terms as the governing bodies may determine. Such agreement shall be in writing and executed by the governing body of the participating units of local government.

The board of commissioners of each county is hereby authorized to levy taxes for the special purpose of carrying out the authority conferred by this section, in addition to the rate of tax allowed by the Constitution for general purposes, and the General Assembly hereby gives its special approval for such tax levies.

The board of county commissioners may use any vacant land owned by the county, and it may acquire by purchase or condemnation suitable land for the disposal sites, and in the event condemnation of said lands is necessary, the procedure used shall be that set forth in Chapter 40 of the North Carolina General Statutes.

The board may impose fees for the use of the disposal site, and if the county provides for collection services, it shall charge fees sufficient to defray the expense of collection.

The board of commissioners of each county is authorized to levy taxes for the special purpose of carrying out the authority conferred by this section, in addition to the rate of tax allowed by the Constitution for general purposes, and the General Assembly hereby gives its special approval for such tax levies. The board of commissioners is authorized to make appropriations from these tax funds, and from non-revenue funds which may be available. Provided that the County Board of Commissioners, may authorize the erection of a gate across a State or county maintained highway leading directly to a sanitary landfill or garbage disposal site which is operated by the county. The gate may be erected at or in close proximity to the boundary of the landfill or garbage disposal site. The cost of the erection of the gate and its maintenance is to be borne by the county, and the gate shall be closed upon authority of the County Commissioners.

*“§ 153-274. Powers of local boards of health unaffected.—*Nothing in this Article shall affect the powers of local boards of health to control the keeping, removal, collection, and disposal of garbage, insofar as the exercise of any such power is necessary to protect and advance the public health.

*“§ 153-275. Powers granted herein supplementary.—*The powers granted to counties by this Article shall be deemed supplementary to any powers heretofore

or hereafter granted by any other law, either general, special, or local, for the same or a similar purpose, and in any case where the provisions of this Article conflict with or are different from the provisions of such other law, the board of county commissioners may in its discretion proceed in accordance with the provisions of such other law, or, as an alternative method, in accordance with the provisions of this Article.

Before any work is undertaken under this section, the Commission and the county for which the work is to be performed shall enter into an agreement specifying the work to be performed and the basis upon which reimbursement will be made to the State Highway Commission.”

Sec. 2. This act is effective on ratification.

In the General Assembly read three times and ratified, this the 16th day of May, 1973.

(4) Application forms issued by chairman of county board of elections. The chairman of the county board of elections shall be sole custodian of all absentee ballot application forms. In accordance with one of the following two procedures, he shall issue and deliver a single application form, upon request, to a person authorized to sign such an application under the provisions of this section:

- a. He may deliver the form to a voter personally or to his near relative at the office of the county board of elections for the voter's own use; or
- b. He may mail the form to a voter for his own use upon receipt of a written request from the voter or his near relative.

At the time he issues an application form, the chairman, secretary or executive secretary of the county board of elections shall number it and write the name of the voter in the space provided therefor at the top of the form. At the same time the chairman, secretary or executive secretary shall insert the name of the voter and the number assigned his application in the Register of Absentee Ballot Applications and Ballots Issued provided for in G.S. 163-228. If the application is requested by the voter's near relative, the chairman, secretary or executive secretary also shall insert that person's name in the register after the name of the voter.

The chairman, secretary or executive secretary shall issue only one application form to a voter or his near relative unless a form previously issued is returned to the chairman, secretary or executive secretary and marked 'Void' by him. In such a situation, the chairman, secretary or executive secretary may issue another application form to the voter or a near relative, but he shall retain the voided application form in his records. If the application is requested by the

voter's near relative, the chairman, secretary or executive secretary shall write the name of the near relative on the index of near relatives applying for applications for absentee ballots; the index shall be in such form as may be prescribed or approved by the State Board of Elections, a separate index shall be maintained for each primary, general or special election in which absentee voting is allowed.

(5) Applications for absentee ballots transmitted by mail or in person. An application for absentee ballots shall be made and signed only by the voter desiring to use them or the voter's near relative and shall be valid only when transmitted to the chairman or executive secretary of the county board of elections by mail or delivered in person by the voter or his near relative.

(6) Who is authorized to request applications for absentee ballots. A voter may personally request an application for absentee ballots or may cause such request to be made through a near relative. For the purpose of this Article, 'near relative' means spouse, brother, sister, parent, grandparent, child, or grandchild.

(7) The form of application for person applying to vote in a primary under the provisions of this section shall be the same as the application now required under the provisions of this section for persons applying to vote in a general or county bond election except that the chairman or executive secretary of each county board of elections shall cause to be printed or stamped on the margin of the application the phrase 'I certify that I am now registered as an affiliate of the _____ party.' A line or space for the signature of the voter shall be provided. No voter shall be furnished ballots for voting in a primary except the ballots for candidates for nomination in the primary of the political party with which he is affiliated. The official registration records of the county in which the voter is registered shall be proof of the party, if any, with which the voter is affiliated.

(8) The county board of elections shall cause to be stamped or printed on the face of each application for absentee ballots the following legend, and the blank space in the legend to be completed: "This application is issued for absentee ballots to be voted in the _____ (primary or general or county bond election) to be held in _____ County on the _____ day of _____, 19____." The county board of elections shall not issue any applications unless they bear the completed legend and it shall not issue any absentee ballots on the basis of any application that does not bear the completed legend.

"§ 163-227.1. *Second primary; applications for absentee ballots for voting in second primary.*—When a second primary is called, each county board of elections shall mail applications for absentee ballots for the second primary to all voters who voted by absentee ballot in the first primary. The board shall take this action automatically and no action on the part of any voter shall be first required by the board. The board shall complete this action within three days after a second primary is called. It shall mail the application for absentee ballots for the second primary to the address of the voter given in the application for absentee ballots for the first primary or to the voter's residence address if the person voted the absentee ballot pursuant to G.S. 163-227.2.

In addition, a voter entitled to absentee ballots under the provisions of this Article may apply for absentee ballots for a second primary not earlier than the day a second primary is called and not later than 6:00 p.m. on the Wednesday immediately preceding the second primary election date.

All procedures with respect to absentee ballots in a second primary shall be the same as with respect to absentee ballots in a first primary unless otherwise provided by this section.

“§ 163-227.2. *Alternate procedures for requesting application for absentee ballot, completing application for absentee ballot, and voting absentee ballot.*—

(a) A person expecting to be absent from the county in which he is registered during the entire period that the polls are open on the day of a statewide primary or general election or county bond election may request an application for absentee ballots, complete the application, receive the absentee ballots, vote and deliver them sealed in a container-return envelope to the county board of elections in the county in which he is registered under the provisions of this section.

(b) Not earlier than 60 days before a primary or general election or county bond election in which he seeks to vote and not later than 6:00 p.m. on the Wednesday before that election, the voter shall appear in person at the office of the county board of elections and request that the chairman, a member, or the executive secretary of the board furnish him with the application for absentee ballots called for under G.S. 163-227(1). The voter shall complete the application in the presence of the chairman, member or executive secretary of the board, and shall deliver the application to that person.

(c) If the application is properly filled out, the chairman, member or executive secretary shall enter the voter's name in the Register of Absentee Ballot Applications and Ballots Issued; shall furnish the voter with the instruction sheets called for by G.S. 163-229(c); shall furnish the voter with the ballots to which the application for absentee ballots applies; and shall furnish the voter with a container-return envelope. The voter thereupon shall comply with the provisions of G.S. 163-231(a) except that he shall deliver the container-return envelope to the chairman, member or executive secretary immediately after making and subscribing the affidavit printed on the container-return envelope as provided in G.S. 163-229(b). All actions required by this subsection (c) shall be performed in the office of the board of elections. For the purposes of this section only, the chairman, a member or the executive secretary of the county board of elections are authorized to administer the oath required for the affidavit on the container-return envelope; in such case, no seal shall be required, but the chairman, board member or executive secretary shall sign and indicate the official title held by him or her, and shall charge no fee of any voter for taking the acknowledgement required under this section.

(d) The chairman, member or executive secretary shall keep the voter's application for absentee ballots and the sealed container-return envelope in a safe place, separate and apart from other applications and container-return envelopes. At the first meeting of the board pursuant to G.S. 163-230(2) held after receipt of the application and envelope, the chairman shall comply with the requirements of G.S. 163-230(1) and G.S. 163-230(2) b and c. If the voter's application for absentee ballots is approved by the board at that meeting, the application form and container-return envelope, with the ballots enclosed, shall be handled in the same manner and under the same provisions of law as applications and container-return envelopes received by the board under other provisions of this Article. If the voter's application for absentee ballots is disapproved by the board, the board shall so notify the voter stating the reason for disapproval by first class mail addressed to the voter at his residence address

or at the address shown in the application for absentee ballots; and the board chairman shall retain the container-return envelope in its unopened condition until the day of the primary or election to which it relates and on that day he shall destroy the container-return envelope and the ballots therein, without, however, revealing the manner in which the voter marked the ballots.

“§ 163-228. *Register of absentee ballot applications and ballots issued; a public record.*—The State Board of Elections shall furnish the chairman of the board of elections in each county of the State with a book to be called the Register of Absentee Ballot Applications and Ballots Issued in which shall be recorded whatever information and official action may be required by this Article.

The Register of Absentee Ballot Applications and Ballots Issued shall constitute a public record and shall be opened to the inspection of any registered voter of the county at any time within 60 days before and 30 days after a statewide primary, general election or county bond election, or at any other time when good and sufficient reason may be assigned for its inspection.

“§ 163-229. *Absentee ballots, container-return envelopes, and instruction sheets.*—(a) Absentee ballot form. In accordance with the provisions of G.S. 163-230(3), persons entitled to vote by absentee ballot shall be furnished with regular official ballots; separate or distinctly marked absentee ballots shall not be used.

(b) Container-return envelope. In time for use not later than 60 days before a statewide primary, general election or county bond election, the county board of elections shall print a sufficient number of envelopes in which persons casting absentee ballots may transmit their marked ballots to the chairman of the county board of elections. Each container-return envelope shall be printed in accordance with the following instructions:

- (1) On one side shall be printed an identified space in which shall be inserted the application number of the voter and the following statement which shall be certified by one member of the county board of elections:

Note: The acknowledgment of a member of the armed forces of the United States may be taken before any commissioned officer or noncommissioned officer of the rank of sergeant in the army, petty officer in the navy, or equivalent rank in other branches of the armed forces.

(c) Instruction sheets. In time for use not later than 60 days before a statewide primary, general or county bond election, the county board of elections shall prepare and print a sufficient number of sheets of instructions on how voters are to prepare absentee ballots and return them to the chairman of the county board of elections.

"§ 163-230. *Consideration and approval of applications and issuance of absentee ballots.*—The procedure to be followed in receiving applications for absentee ballots, passing upon their validity, and issuing absentee ballots shall be governed by the provisions of this section.

(1) Record of applications received and ballots issued. Upon receipt of a voter's written application for absentee ballots the chairman of the county board of elections shall promptly enter in the Register of Absentee Ballot Applications and Ballots Issued so much of the following information as he has not already entered there under the provisions of G.S. 163-227(4):

- a. Name of voter applying for absentee ballots, and, if applicable, the name and address of the voter's near relative who applied for the application for absentee ballots.
- b. Number of assigned voter's application when issued. c. Precinct in which applicant is registered.
- d. Address to which ballots are to be mailed, or that the voter voted pursuant to G.S. 163-227.2.
- e. Reason assigned for requesting absentee ballots.
- f. Date application for ballots is received by chairman.
- g. The voter's party affiliation.

(2) Determination of validity of applications for absentee ballots. The county board of elections shall constitute the proper official body to pass upon the validity of all applications for absentee ballots received in the county; this function shall not be performed by the chairman or any other member of the board individually.

a. Required meetings of county board of elections.

During the period opening 60 days before a statewide primary, general election or county bond election and closing at 6:00 p.m. on the Wednesday before the election, the county board of elections shall hold public meetings on Monday and Friday of each week at 10:00 a.m., and it shall also hold public meetings at 10:00 a.m. on both the seventh, third and first days immediately preceding election day. These meetings shall be held at the county courthouse or at the elections board's office at the hour fixed by law. At these meetings the county board of elections shall pass upon applications for absentee ballots.

Upon a majority vote, the county board of elections may hold the required public meetings at an hour other than 10:00 a.m., and it may hold more than one session on each Monday and Friday it is required to meet and may set the hours of any additional sessions. If the board desires to exercise either or both of the options granted by the preceding sentence, it shall do so prior to the date on which it is required to hold its first public meeting under the provisions of this subdivision and in time to give the notice required by the fourth paragraph of this lettered portion of this subdivision; thereafter, no change shall be made in the hours fixed for the board's public meetings on absentee ballot applications.

It shall not be necessary for the chairman of the county board of elections to give notice to other board members of weekly meetings of the board which are fixed as to time and place by this section.

If the county board of elections changes the time of holding its Monday and Friday meetings or provides for additional meetings on Mondays and Fridays in accordance with the terms of this subdivision, notice of the change in hour and notice of the schedule of additional meetings, if any, shall be published in a newspaper circulated in the county, and a notice thereof shall be posted at the courthouse door of the county, at least one week prior to the time fixed for holding the first meeting under this subdivision.

The county board of elections shall not be required to hold any of the meetings prescribed by this subdivision unless, since its last preceding meeting, it actually has received one or more applications for absentee ballots which it has not passed upon. When no meeting is to be held for this reason, the chairman shall notify each of the other members of the county board of elections that the scheduled public meeting will not be held and state the reasons for its cancellation.

b. Procedure at required meeting; making determination. At each public meeting of the county board of elections the chairman shall present for consideration, and the board shall pass upon, the validity of all applications for absentee ballots received since its last preceding public meeting held for that purpose. In connection with each application received by mail the chairman shall also present the container envelope in which the application was received. At each such meeting any registered voter of the county shall be heard and allowed to present

evidence in opposition to, or in favor of, the issuance of absentee ballots to any voter making application for them.

The county board of elections may consider the registration records as evidence of the voter's signature, if available, and as any other evidence that may be necessary to pass upon such an application, including the party affiliation of a voter seeking to vote in a primary.

If the board finds that the applicant is a qualified voter of the county, that he is registered in the precinct stated in his application, that the assertions in his application are true, and that his application is in proper form, it shall approve his application for absentee ballots.

- c. Record of board's determination; decision final. At the time the county board of elections makes its decision on an application for absentee ballots, the chairman shall enter in the appropriate column in the Register of Absentee Ballot Applications and Ballots Issued opposite the name of the applicant a notation of whether his application was 'Approved' or 'Disapproved'. The decision of the board on the validity of an application for absentee ballots shall be final, subject only to such review as may be necessary in the event of an election contest.

(3) Delivery of absentee ballots and container-return envelope to applicant. When the county board of elections approves an application for absentee ballots, the chairman shall promptly issue and transmit them to the voter only, and not to his near relative, in accordance with the following instructions:

- a. On the top margin of each ballot the applicant is entitled to vote, the chairman shall write or type the words 'Absentee Ballot No. _____' and insert in the blank space the number assigned the applicant's application in the Register of Applications for Absentee Ballots and Ballots Issued. He shall not write, type, or print any other matter upon the ballots transmitted to the absentee voter.
- b. The chairman shall fold and place the ballots (identified in accordance with the preceding instruction) in a container-return envelope and write or type in the appropriate blanks thereon, in accordance with the terms of G.S. 163-229(b), the absentee voter's name, his application number, and the designation of the precinct in which his ballots are to be voted. The chairman shall leave the container-return envelope holding the ballots unsealed.
- c. The chairman shall then place the unsealed container-return envelope holding the ballots, together with printed instructions for voting and returning the ballots, in an envelope addressed to the applicant at the post-office address stated in his application, seal the envelope, and mail it at the expense of the county board of elections, or deliver it to the applicant in person: Provided, that in case of approval of an application received after 6:00 p.m. on the Wednesday before the election under the provisions of G.S. 163-227(3), in lieu of transmitting the ballots to the applicant in person or by mail, the chairman may deliver the sealed envelope containing the instruction sheet and the container-return envelope holding the ballots to a near relative of the voter.

"§ 163-231. *Voting absentee ballots and transmitting them to the chairman of county board of elections.*—(a) Procedure for voting absentee ballots. In the

presence of an officer authorized to administer oaths, having an official seal, the voter shall:

- (1) Mark his ballots, or cause them to be marked in his presence according to his instructions.
- (2) Fold each ballot separately, or cause each of them to be folded in his presence.
- (3) Place the folded ballots in the container-return envelope and securely seal it, or have this done in his presence.
- (4) Make and subscribe the affidavit printed on the container-return envelope according to the provisions of G.S. 163-229(b).

The officer administering the oath shall then complete the form on the container-return envelope and affix his seal, if any, in the place indicated. When thus executed, the sealed container-return envelope, with the ballots enclosed, shall be transmitted in accordance with the provisions of subsection (b) of this section to the chairman of the county board of elections who issued the ballots.

In the case of voters who are members of the armed forces of the United States, as defined in G.S. 163-245, the signature of any commissioned officer or noncommissioned officer of the rank of sergeant in the army, petty officer in the navy, or equivalent rank in other branches of the armed forces, as a witness to the execution of any certificate required by this or any other section of this Article to be under oath shall have the force and effect of the jurat of an officer with a seal fully authorized to take and administer oaths in connection with absentee ballots.

(b) Transmitting executed absentee ballots to chairman of county board of elections. The registrar shall post one copy in the voting place and retain one copy until all challenges of absentee ballots have been heard by the county board of elections. Challenges shall be made as provided in G.S. 163-89.

After the last person has voted, the registrar shall call the name of each person recorded on the list and enter an ‘A’ in the appropriate place on the voter’s permanent registration record, if any. If such person is already recorded as voting in that election, the registrar shall enter a challenge.”

Amend subsection (b) by deleting all of the second and third paragraphs thereof.

Add a new subsection (d) at the end of G.S. 163-251 to read:

“(d) Counting ballots, hearing challenges. The county board of elections shall count military ballots as provided for civilian absentee ballots in G.S. 163-234, and shall hear challenges as provided in G.S. 163-89.”

Sec. 3. G.S. 163-137(b) is amended by deleting “45” and inserting in lieu thereof “60” in the third line of that section.

Sec. 4. G.S. 163-89 is repealed and rewritten to read as follows:

“§ 163-89. *Procedures for challenging absentee ballots.*—(a) Time for Challenge. The absentee ballot of any voter may be challenged on the day of any statewide primary or general election or county bond election beginning no earlier than noon and ending no later than 5:00 p.m., or by the registrar at the time of closing of the polls as provided in G.S. 163-233 and G.S. 163-251(b).

(b) Who may challenge. Any registered voter of the same precinct as the absentee voter may challenge that voter’s absentee ballot.

(c) Form and nature of challenge. Each challenged absentee ballot shall be challenged separately. The burden of proof shall be on the challenger. Each challenge shall be made in writing and, if they are available, shall be made on forms prescribed by the State Board of Elections. Each challenge shall specify the reasons why the ballot does not comply with the provisions of this Article or why the absentee voter is not legally entitled to vote in the particular primary or election. The challenge shall be signed by the challenger.

(d) To whom challenge addressed; to whom challenge delivered. Each challenge shall be addressed to the county board of elections. It may be filed with the board at its offices or with the registrar of the precinct in which the challenger and absentee voter are registered. If it is delivered to the registrar, the registrar shall personally deliver the challenge to the chairman of the county board of elections on the day of the county canvass.

(e) Hearing procedure. All challenges filed under this section shall be heard by the county board of elections on the day set for the canvass of the returns. All

members of the board shall attend the canvass and all members shall be present for the hearing of challenges to absentee ballots.

Before the board hears a challenge to an absentee ballot, the chairman shall mark the word 'challenged' after the voter's name in the Register of Absentee Ballot Applications and Ballots Issued and in the Pollbook of Absentee Voters.

The board then shall hear the challenger's reasons for the challenge, and it shall make its decision without opening the container-return envelope or removing the ballots from it.

The board shall have authority to administer the necessary oaths or affirmations to all witnesses brought before it to testify to the qualifications of the voter challenged or to the validity or invalidity of the ballot.

If the challenge is sustained, the chairman shall mark the word 'sustained' after the word 'challenged' following the voter's name in the Register of Absentee Ballot Applications and Ballots Issued and in the Pollbook of Absentee Voters; the voter's ballots shall not be counted; and the container-return envelope shall not be opened but shall be marked 'Challenge Sustained'. All envelopes so marked shall be preserved intact by the chairman for a period of six months from canvass day or longer if any contest then is pending concerning the validity of any absentee ballot.

If the challenge is overruled, the absentee ballots shall be removed from the container-return envelopes and counted by the board of elections, and the board shall adjust the appropriate abstracts of returns to show that the ballots have been counted and tallied in the manner provided for unchallenged absentee ballots.

If the challenge was delivered to the board by the registrar of the precinct and was sustained, the board shall reopen the appropriate ballot boxes, remove such ballots, determine how those ballots were voted, deduct such ballots from the returns, and adjust the appropriate abstracts of returns.

Any voter whose ballots have been challenged may, either personally or through an authorized representative, appear before the board at the hearing on the challenge and present evidence as to the validity of the ballot."

Sec. 5. G.S. 163-252 and G.S. 163-235 are repealed.

Sec. 6. This act shall take effect July 1, 1973. No absentee voting shall be allowed in any county bond election between the date of ratification of this bill and July 1, 1973, in order that the State Board of Elections and county boards of elections may prepare for the new system provided in this act.

In the General Assembly read three times and ratified, this the 17th day of May, 1973.

An urban service district so defined shall comprise the total area of the municipality as it existed immediately before the effective date of its abolition. The resolution shall take effect at the beginning of the fiscal year next occurring after its adoption.

The governing board also, by resolution, may extend by annexation the boundaries of any urban service district when one hundred per cent (100%) of the real property owners of the area to be annexed have petitioned the governing board for annexation to the service district.

(c) Report. Prior to the public hearing required by subsection (d), the consolidated city-county shall prepare a report containing:

- (1) a map of the urban service district and the adjacent territory, showing the present and proposed boundaries of the district;

- (1) the districts are contiguous or are in a continuous boundary; and
- (2) the provision or maintenance of urban services, facilities and functions for each of the districts is substantially the same; or
- (3) if the provision or maintenance of urban services, facilities and functions is lower for one of the districts, there is a need to increase those services, facilities and functions for that district. However, no urban service district providing electric or telephone services may be consolidated with any other urban service district unless the voters of the district providing these utility services approve the consolidation in a referendum held for that purpose. Any consolidated city-county may hold these referendums.

(b) Report. Prior to the public hearing required by subsection (c), the consolidated city-county shall prepare a report containing:

- (1) a map of the districts to be consolidated;

(1) Property Taxes. A consolidated city-county may levy within any urban service district a tax on property at a rate not to exceed one dollar and fifty cents on the one hundred dollars of appraised valuation. To receive a license, the applicant must take an examination approved by the Commission and perform on it to the satisfaction of the Commission. The examination shall test the applicant's understanding of the law relating to auctioneers and auctions, ethical practices for auctioneers, and the mathematics applicable to the auctioneer business. The examination shall be given at least twice each year in Raleigh, and at such other times and places as the Commission designates, but no person shall be allowed to take the examination within six months after having failed it a second time.

Each apprentice auctioneer application and license shall name a licensed auctioneer to serve as the supervisor of the apprentice. No apprentice auctioneer may enter into an agreement to conduct an auction, or conduct an auction, without the express approval of his supervisor. The supervisor shall regularly review the records his apprentice is required to maintain under Section 7 of this act and see that they are accurate and current.

(d) No person shall be licensed as an auctioneer unless he has held an apprentice auctioneer license and served as an apprentice auctioneer for the two preceding years, except that any person who has been in the auctioneer business

in this State for at least two years prior to the effective date of this act, and who makes proper application to the Commission within one year after the effective date of this act, may be licensed as an auctioneer without holding an apprentice license for two years.

Each applicant for an auctioneer license shall submit a written application in a form approved by the Commission. If the applicant has been previously licensed as an apprentice auctioneer, the application shall contain an evaluation by the applicant's supervisor of his performance as an apprentice auctioneer. If the applicant is exempted from the requirement of having been an apprentice auctioneer, the application shall give in detail his experience as an auctioneer. Each application shall be accompanied by statements of at least two residents of North Carolina attesting to the applicant's good moral character. The Commission may require verification of any information included in an application for an auctioneer license.

(e) Each apprentice auctioneer and auctioneer license shall be valid for one year and may be renewed for one year at a time except that an apprentice auctioneer license may not be renewed more than three times. No examination shall be required for renewal of an apprentice auctioneer license if the application for renewal is made within 90 days of the expiration of the previous license.

(f) No person shall be issued an auctioneer license until he has filed with the Commission an approved bond with the applicant as principal, payable to the State of North Carolina, in the amount of five thousand dollars (\$5,000). No person shall be issued an apprentice auctioneer license until he has filed with the Commission an approved bond with the applicant as principal, payable to the State of North Carolina, in the amount of one thousand dollars (\$1,000). In each case, the bond shall have as surety a surety company authorized to do business in this State. The bond shall be conditioned for the faithful performance of all contracts relating to sale at auction, and shall be made available for the benefit of any person contracting with the named principal for the holding of sale at auction for damages suffered by reason of the misconduct of the principal in failing to hold or holding the sale. Claim shall be made to the Commission on its form and payment must be made by the surety company on order of the Commission.

(g) A partnership or corporation upon application in a form approved by the Commission, may be designated a "licensed auctioneer partnership" or a "licensed auctioneer corporation" if one or more partners or officers, respectively, is licensed as an auctioneer. Any promotional material of the partnership or corporation which refers to its designation as a licensed auctioneer business must also give the name of each person associated with that business who is a licensed apprentice auctioneer or auctioneer.

(h) The Commission shall publish at least once a year a list of names and addresses of all persons, partnerships and corporations holding valid apprentice auctioneer or auctioneer licenses or designated as licensed auctioneer partnerships or corporations.

Sec. 5. Licensing of nonresidents. Any person who holds a valid auctioneer license in another state may apply for and be granted a North Carolina license if the state in which he is licensed provides similar recognition to a license granted by this state. An applicant under this Section shall not be required to take the examination required under Section 4 but shall pay the

appropriate fee under Section 6 and shall file with the Commission an irrevocable consent that service on the secretary of the Commission shall be sufficient service of process for actions against the applicant by a resident of this State arising out of his auctioneering activities.

An applicant under this section shall not be required to file the bond required under Section 4 if he is currently bonded as an auctioneer or apprentice auctioneer in his home state. Any license issued under this section shall be marked to indicate that its holder is a nonresident.

An auctioneer who is a resident of Virginia or South Carolina and who has conducted at least five auctions in this State in the preceding two years may be licensed under this section notwithstanding the fact that his state does not have an auctioneering licensing requirement. This exception to the requirement of holding a license in the auctioneer's home state shall be inapplicable if and when an auctioneer licensing law becomes effective in the applicant's home state.

Sec. 6. Fees. The Commission shall collect and remit to the State Treasurer the following fees: fifty dollars (\$50.00) for application for apprentice auctioneer license and for examination; twenty-five dollars (\$25.00) for apprentice auctioneer license for one year; twenty-five dollars (\$25.00) for application for auctioneer license; one hundred dollars (\$100.00) for auctioneer license for one year; seventy-five dollars (\$75.00) for designation as licensed auctioneer partnership or corporation.

No local government or agency of local government may charge any auctioneer fees or require any auctioneer licenses in addition to those set out in this act.

Sec. 7. Conduct of auction. (a) No person shall conduct an auction in this State without first having a written agreement with the owner of any property to be sold. The agreement must contain the terms and conditions upon which the auctioneer received the goods for sale. The auctioneer shall provide the owner with one copy of the agreement and shall keep at least one copy for his own records for two years from the date of the agreement. A written agreement shall not be required for a sale at auction if the sale is made at an auction house or similar place where members of the public are generally offered the opportunity to present goods for sale, there has been no prior negotiation between the owner and the auctioneer, and the goods are not sold for more than five hundred dollars (\$500.00).

(b) Each auctioneer shall maintain a record book and enter in it, upon receipt of goods for auction and before their sale, the name and address of the person who employed him to sell the goods at auction and the name and address of the owner of the goods to be sold. It shall not be necessary to enter in the record book any record of sales made at an auction house or similar place where members of the public are generally offered the opportunity to present goods for sale, there has been no prior negotiation between the owner and the auctioneer, and the goods are not sold for more than five hundred dollars (\$500.00). The record book shall be open for inspection by the Commission or its designated agent at reasonable times.

(c) Each auctioneer shall have his license available at each auction he conducts.

Sec. 8. Prohibited acts; revocation of license. (a) The following shall be grounds for suspension or revocation of an auctioneer or apprentice auctioneer license:

- (1) any violation of this act;
- (2) a continued and flagrant course of misrepresentation or making false promises, either by the auctioneer or by someone acting in his behalf and with his consent;
- (3) any failure to account for or to pay over within a reasonable time, not to exceed 30 days, money belonging to another which has come into the auctioneer's possession through an auction sale;
- (4) any misleading or untruthful advertising;
- (5) any act of conduct in connection with a sales transaction which demonstrates bad faith or dishonesty;
- (6) knowingly using false bidders, cappers or pullers, or making a material false statement for license.

(b) The Commission may suspend or revoke a license following a hearing. The hearing shall be held in the county in which the auctioneer under investigation resides, unless the Commission determines that another location would be more convenient to all parties involved, because of its proximity to the location of the events that led to the investigation or some other good reason. The person who is being investigated shall be given, at least 25 days prior to the hearing, written notice of the hearing and copies of all documents the Commission has relating to the matter. He shall be entitled to have counsel present, to examine all witnesses and to present evidence in his own behalf. The Commission must make its decision within 10 days of the conclusion of the hearing. The provisions of Article 33A of Chapter 143 of the General Statutes shall apply to all hearings held pursuant to this act.

(c) Any person whose license is suspended or revoked may appeal the Commission's decision pursuant to the provisions of Article 33 of Chapter 143 of the General Statutes.

(d) The Commission or its authorized representatives may subpoena witnesses and documents for any hearing and may administer oaths to such witnesses.

Sec. 9. Chapter 85 of the General Statutes, all local acts, city and county ordinances and all other laws and clauses of laws in conflict with this act are repealed.

Sec. 10. This act shall become effective on and after July 1, 1973.

In the General Assembly read three times and ratified, this the 17th day of May, 1973.

CHAPTER 561

AN ACT TO APPROPRIATE FUNDS TO THE CAROLINA POPULATION CENTER.

Whereas, some two hundred thousand medically-indigent women in North Carolina still lack adequate family planning guidance or assistance; and

Whereas, nearly one-third of all births in the State today, and nearly one-half among the poor, are unwanted or in medically high-risk categories; and

Whereas, one of the most effective ways to curb mental illness and retardation, especially among mothers and children, is to reduce the number of unwanted pregnancies; and

Whereas, an estimated one-fourth to one-third of North Carolina's brides are pregnant at the time they are married — and these marriages are among those most likely to fail; and

Whereas, it costs about sixty dollars (\$60.00) a year to provide a North Carolina woman with subsidized family planning services, while it costs at least one thousand five hundred dollars (\$1,500) in tax funds annually to provide minimal care and education for each dependent child; and

Whereas, the highest rates of maternal and child mortality and illness occur in families with excess fertility — adding further to medical and other dependency costs; and

Whereas, concern with population trends is essential to the State's overall progress just as concern with family planning is essential to family health and individual fulfillment; and

Whereas, specialized population data and guidance are most urgently needed to help North Carolina avoid the kinds of developmental mistakes which are crippling other parts of the nation; and

Whereas, the National Commission on Population Growth and the American Future has underscored the essential need for State initiative in this field; and

Whereas, North Carolina's rate of population growth is higher than the national average and population trends indicate the State is becoming a new target of in-migration; and

Whereas, governmental and economic authorities agree that North Carolina's healthy future growth depends on careful attention to both the quantity and distribution of population; and

Whereas, the aforesaid Commission also emphasized that haphazard population growth and distribution patterns throughout the U. S. are seriously aggravating the problems of urban life and are contributing greatly to environmental destruction; and

Whereas, the Carolina Population Center is recognized as the foremost institution for population analysis in the Southeast, one of the foremost in the world, and a unique resource for State and regional agencies concerned with population growth and its consequences; and

Whereas, the Carolina Population Center is the only institution in North Carolina combining specialized capability in both population analysis and family planning program development; and

Whereas, the Center's ability to provide expert technical assistance in the design of family planning programs can become increasingly useful to the State in acquiring maximum federal funds for the expansion of such programs; and

Whereas, it is much more cost-effective to sustain and support the capabilities of The Center in these fields than to create and coordinate such capabilities in the other State and local agencies concerned with such matters; and

Whereas, such aforementioned family planning technical assistance and population services would therefore complement without overlapping the functions of other North Carolina State and local agencies; and

Whereas, the maintenance of this capability of The Center would enable it to provide family planning technical assistance and population services to State and local agencies at a demonstrably lower contract price; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby appropriated from the General Fund of the State to the Department of Administration the sum of two hundred thousand dollars (\$200,000) for the fiscal year beginning July 1, 1973, and ending June 30, 1974, for the purpose of insuring The Center's continuing capability in the fields of population services and family planning program development. The funds shall be expended by The Center for the purpose of assisting State and local agencies with the design and delivery of fertility control services, and with population aspects of the further economic and social development of North Carolina.

Sec. 2. A copy of the audit report for this grant-in-aid program shall be submitted to the Legislative Fiscal Research Division for review.

Sec. 3. This act shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 17th day of May, 1973.

CHAPTER 562

AN ACT TO ESTABLISH A RESERVE FUND TO CREATE AN
ADDITIONAL DEGREE-GRANTING SCHOOL OF MEDICINE WITHIN
THE UNIVERSITY OF NORTH CAROLINA.

Whereas, there is strong evidence that many areas of the State, East, Piedmont, and West, do not share in the availability of a broad range of high quality medical care routinely enjoyed and expected by citizens of other states and by North Carolinians located near the large medical complexes and population centers; and

Whereas, the ratio of physicians who actually provide personal health services to people is probably the most important single factor in determining the quality and quantity of health care available, and this ratio is known to be low in our State as a whole, and desperately low in large geographic areas; and

Whereas, the number of physicians practicing in an area has the added effect of attracting allied health personnel so essential to broad health care; and

Whereas, it is concluded that there is a crying demand by our neglected people for a substantial increase in the production of physicians in an atmosphere of family practice, nontraditional specialty emphasis, and admissions screening related to the goal of improved health care for the State's rural areas and small towns and communities; and

Whereas, the Committee to study the request of East Carolina University for a second year of medical education, as established by the Board of Governors, believes that we should "consider seriously the establishment of a new degree-granting school of medicine which would emphasize the training of primary care physicians"; and

Whereas, in response to this Committee's recommendation, a study is underway by a team of experienced and qualified national consultants to evaluate the need for an additional degree-granting school of medicine within the University of North Carolina; and

Whereas, if this study should indicate the need for an additional degree-granting school of medicine, it would not be possible to provide for implementation without substantial advance consideration of the tax resources required; and

Whereas, several other states, among them Arkansas, Iowa, Mississippi, and South Carolina, have seen the wisdom of establishing substantial contingency reserves to provide for future needs; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby appropriated out of the General Fund of the State the sum of seven million five hundred thousand dollars (\$7,500,000) to the Board of Governors of the University of North Carolina as a reserve to establish an additional degree-granting School of Medicine within the University of North Carolina.

Sec. 2. This act shall be effective July 1, 1973.

“(3) Whenever any wholesale or retail merchant (as defined in Schedule E of the Revenue Act) sells or transfers the major part of his stock of goods, materials, supplies, or fixtures, other than in the ordinary course of business, or goes out of business, and the taxes due or to become due on the transferred property on the first day of September of the current calendar year are unpaid, the tax collector, to enforce collection of the unpaid taxes, may:

- a. levy on or attach any personal property of the seller; or
- b. if the taxes remain unpaid 30 days after the date of the transfer or termination of business, levy on or attach any of the property transferred in the hands of the transferee or successor in business, or any other personal property of the transferee or successor in business, but in either case the levy or attachment must be made within six months of the transfer or termination of business.”

Sec. 2. G.S. 105-380 is rewritten to read as follows:

“§ 105-380. *No taxes to be released, refunded, or compromised.*—(a) The governing body of a taxing unit is prohibited from releasing, refunding, or compromising all or any portion of the taxes levied against any property within its jurisdiction except as expressly provided in this Subchapter.

(b) Taxes that have been released, refunded, or compromised in violation of this section shall be deemed to be unpaid and shall be collectible by any means provided by this Subchapter, and the existence and priority of any tax lien on property shall not be affected by the unauthorized release, refund, or compromise of the tax liability.

(c) Any tax that has been released, refunded, or compromised in violation of this section may be recovered from any member or members of the governing body who voted for the release, refund, or compromise by civil action instituted by any resident of the taxing unit, and when collected, the recovered tax shall be paid to the treasurer of the taxing unit. The costs of bringing the action, including reasonable attorneys' fees, shall be allowed the plaintiff in the event the tax is recovered.

(d) The provisions of this section are not intended to restrict or abrogate the powers of a board of equalization and review or any agency exercising the powers of such a board.”

Sec. 3. G.S. 105-381 is rewritten to read as follows:

“§ 105-381. *Taxpayer's remedies.*—(a) Statement of Defense. Any taxpayer asserting a defense to the payment or enforcement of a tax upon his property shall proceed as follows:

- (1) If a tax has not been paid, the taxpayer may make a demand for the release of the tax claim by submitting to the governing body of the taxing unit a written statement of his defense to payment or enforcement of the tax and a request for release of the tax claim.
- (2) If a tax has been paid, the taxpayer, at any time within 30 days after

payment, may make a demand for refund of the tax paid by submitting to the governing body of the taxing unit a written statement of his defense to payment or enforcement of the tax and a request for a refund thereof.

(b) Action of Governing Body. Upon receiving a taxpayer's written statement of defense and request for release or refund, the governing body of the taxing unit shall determine whether the tax, or any part of it, was illegal or levied for an illegal purpose and take one of the following actions:

- (1) If the tax has not been paid, the governing body shall release the amount determined to be illegal or levied for an illegal purpose, or it shall disallow the taxpayer's request for release.
- (2) If the tax has been paid, the governing body shall refund the amount determined to be illegal or levied for an illegal purpose, or it shall disallow the taxpayer's request for refund.

The governing body shall take action on each request for release or refund within 90 days after the date on which it is received. The action taken on each such request shall be entered in the minutes of the governing body, and notice of the action shall be mailed to the person who made the request. If a release is granted or refund made, the tax collector shall be credited with the amount released or refunded in his annual settlement.

(c) Suit for Recovery of Property Taxes.

- (1) Request for Release before Payment. If within 90 days after receiving a taxpayer's request for release of an unpaid tax claim under subsection (a)(1), above, the governing body of the taxing unit has failed to grant the release, has notified the taxpayer that no release will be granted, or has taken no action on the request, the taxpayer shall pay the tax when due. He may then follow the procedure provided in subsection (a)(2), above, or without making demand for refund, he may bring a civil action against the taxing unit for the portion of the amount paid which he asserts to be illegal or levied for an illegal purpose.
- (2) Request for Refund. If within 90 days after receiving a taxpayer's request for refund under subsection (a), above, the governing body has failed to refund the full amount requested by the taxpayer, has notified the taxpayer that no refund will be made, or has taken no action on the request, the taxpayer may bring a civil action against the taxing unit for the amount requested.
- (3) Civil Actions. Civil actions brought pursuant to this subsection (c) shall be brought in the appropriate division of the General Court of Justice of the county in which the taxing unit is located. If, upon the trial, it is determined that the tax or any part of it was illegal or levied for an illegal purpose, judgment shall be rendered therefor, with interest thereon at six percent (6%) per annum, plus costs, and the judgment shall be collected as in other civil actions.

Sec. 4. G.S. 105-355, as it appears in 1972 Replacement Volume 2D of the General Statutes of North Carolina, is amended by changing the reference to "G.S. 105-307" in line five thereof to read "G.S. 105-285".

CHAPTER 569

AN ACT TO AUTHORIZE THE BOARD OF TRUSTEES OF WESTERN CAROLINA UNIVERSITY TO COOPERATE WITH JACKSON COUNTY IN THE DEVELOPMENT OF A COUNTY-WIDE SEWER SYSTEM - TRANSFER OF FUNDS.

Whereas, under Chapter 755(4)(V) of the 1969 Session Laws of North Carolina an appropriation was made by the General Assembly to Western Carolina University of five hundred thousand dollars (\$500,000) for an addition to its Sewage Treatment Plant; and

Whereas, Jackson County now purports to develop a county-wide sewer system; and

Whereas, it would be more practical for Western Carolina University to participate in the development of and connect to such county-wide sewer system for this would bring Western Carolina University up to the standards set by the Environmental Protection Agency; and

Whereas, other state universities by and large, due to their locations, have connected with the sewer systems of the cities wherein located; and

Whereas, such transfer of funds would require no new or additional appropriation; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. The Board of Trustees of Western Carolina University is hereby authorized to enter into an agreement with the County of Jackson to participate in the development of a county-wide sewer system and for the connecting of the sewer system of Western Carolina University campus to such county-wide sewer system and the Board of Trustees of Western Carolina University is hereby authorized to transfer not more than three hundred fifty thousand dollars (\$350,000) to the Board of Commissioners of the County of Jackson as matching funds for the development of aforesaid county-wide sewer systems; provided, such transfer of funds shall be subject to the approval of the Advisory Budget Commission.

CHAPTER 572

AN ACT TO ALLOW LAW ENFORCEMENT OFFICERS TO TRANSFER MEMBERSHIP IN THE TEACHERS' AND STATE EMPLOYEES' RETIREMENT SYSTEM OR THE LOCAL GOVERNMENTAL EMPLOYEES' RETIREMENT SYSTEM TO THE LAW ENFORCEMENT OFFICERS' BENEFIT AND RETIREMENT FUND.

Whereas, certain law enforcement officers who are presently members of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System were not permitted to elect to become members of the Law Enforcement Officers' Benefit and Retirement Fund instead of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System; and

Whereas, there exists a need for all law enforcement officers a uniform Benefit and Retirement Fund with increased benefits for all; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. All law enforcement officers as defined in G.S. 143-166(m), and who are now contributing members of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System are hereby allowed until June 30, 1974, in which to transfer their membership in the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System and become members of the Law Enforcement Officers' Benefit and Retirement Fund.

Sec. 2. Upon written request of a law enforcement officer who meets the requirements of Section 1, filed with the Board of Trustees of the Teachers' and State Employees' Retirement System or the Board of Trustees of the Local Governmental Employees' Retirement System stating that he desires to transfer his membership in the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System and become a member of the Law Enforcement Officers' Benefit and Retirement Fund, the Board of Trustees of the Teachers' and State Employees' Retirement System or the Local

Governmental Employees' Retirement System is hereby authorized, empowered, and directed to transfer to the proper official of the Law Enforcement Officers' Benefit and Retirement Fund:

(1) All of the employee's accumulated contributions that were made on compensation received as a law enforcement officer, together with the accumulated regular interest thereon, standing to the credit of such employee in the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System; and

(2) All accumulated contributions that were made because of service rendered as a law enforcement officer, together with the accumulated regular interest thereon, which have been made to the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System on behalf of such employee by his employer. Upon such transfer being made, the officer shall immediately become a member of the Law Enforcement Officers' Benefit and Retirement Fund and the service transferred shall no longer be creditable in the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System.

Sec. 3. The Board of Commissioners of the Law Enforcement Officers' Benefit and Retirement Fund is hereby authorized, empowered, and directed to receive any funds transferred as provided in this act, and to receive for the purpose of enabling the transferring employee to obtain credit for approved service prior to the date of his membership in the System from which he is transferring, any additional lump sum contribution made by or on behalf of employees transferring their membership from the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System to the Law Enforcement Officers' Benefit and Retirement Fund. The transferring law enforcement officer's creditable law enforcement service that accrued while a member of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System shall be deemed to be eligible service in the Law Enforcement Officers' Benefit and Retirement Fund.

CHAPTER 574

AN ACT TO PROVIDE FINANCIAL SUPPORT FOR CONSOLIDATION OF PUBLIC HEALTH SERVICES AND UPGRADING OF PUBLIC HEALTH PERSONNEL.

The General Assembly of North Carolina enacts:

Section 1. This act shall be known and may be cited as the "Consolidation and Health Personnel Support Act of 1973".

Sec. 2. The General Assembly finds and declares that economic waste and poor quality of services has resulted from the fragmentation of public health provider units and from the inability of some local governmental units to offer competitive salaries to public health personnel. The General Assembly further finds that conversion to larger provider units and upgrading of pay scales for public health personnel is urgently needed in order to provide essential services and procure competent personnel to protect the health of the citizenry.

Recognizing that consolidation of providers and rapid upgrading of salaries involves expense beyond the ability of many counties, the General Assembly intends, hereby, to provide the necessary financial support to achieve consolidation and salary upgrading.

Sec. 3. There is hereby appropriated from the General Fund of the State of North Carolina two million dollars (\$2,000,000) for the 1973-74 fiscal year to the North Carolina State Board of Health to be used, in its discretion, to offset start-up, change over and other expenses of local units who consolidate, or are required to consolidate, their health services, or who contract for direct State provision of services as provided by law, and to help counties in upgrading the salaries of public health personnel.

Sec. 4. This act shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 17th day of May, 1973.

CHAPTER 575

AN ACT APPROPRIATING SUPPLEMENTARY FUNDS TO THE NORTH CAROLINA AGRICULTURAL EXPERIMENT STATION FOR RESEARCH STUDIES ON THE IMPACT OF ENVIRONMENTAL AND BIOLOGICAL FACTORS OF APPLE PRODUCTION IN NORTH CAROLINA.

Whereas, North Carolina has established itself as one of the leading apple producing states in the nation (now ranking 6th nationally, in total production and 4th in the production of fresh market apples); and

Whereas, apples represent a major contribution toward making horticultural crops the 4th leading income producing industry in the State; and

Whereas, apple production income is projected to double by 1975, reaching a total value of thirty million dollars (\$30,000,000); and

Whereas, the control and modification of environmental and biological factors are becoming more critical, it is necessary that techniques be developed for biologically controlling pests, for altering the influence of environmental extremes and to insure continued adaptability and market competitiveness of North Carolina's apple industry; and

Whereas, the consumer demand and competitiveness of the apple market situation demands an increasingly high standard of fruit quality necessitating continued cultural improvement, the development of techniques to improve and extend shelf-life and additional fruit disease research to meet the demand for totally disease-free fruit; and

Whereas, the greatest limiting factor in maintaining a viable apple industry in North Carolina is the need to continually update knowledge and develop new technology to maintain the competitiveness in light of increased environmental awareness and concerns; and

Whereas, the apple research resources needed to meet these industry demands extend far beyond those presently available in terms of manpower, technical assistance, equipment and operating funds of the North Carolina Agricultural Experiment Station; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby appropriated from the General Fund of the State of North Carolina through the North Carolina Agricultural Experiment

Station, at North Carolina State University, to the Departments of Entomology, Horticultural Science, Plant Pathology, and Zoology, in addition to all other appropriations, a total sum of one hundred twenty-nine thousand six hundred eighty dollars (\$129,680) for the fiscal year beginning July 1, 1973, and ending June 30, 1974, for the purpose of conducting apple research as set forth in the preamble of this act and according to the following schedule:

Sec. 5. Prior to the expenditure of the funds for any program authorized by this act, the North Carolina Drug Authority shall approve said program and insure that said program and services funded are consonant with the North Carolina State Plan for Drug Abuse Prevention. CHAPTER 596

AN ACT TO APPROPRIATE FUNDS FOR THE ESTABLISHMENT OF A STATEWIDE ARCHAEOLOGICAL PROGRAM.

Whereas, beneath the surface of the soil of North Carolina lies evidence of thousands of years of the history of the land upon which peoples of many origins have developed a great State; and

Whereas, the State's archaeological heritage is fast disappearing as a result of public and private construction projects and land development; and

Whereas, the dedicated and pioneering efforts of a few archaeologists have never been given proper recognition or adequate support, and, consequently, in comparison with many sister states, North Carolina's total effort to preserve and salvage these precious resources has been fragmented and uncoordinated, there being no comprehensive, coordinated statewide program of scientific exploration and evaluation of archaeological resources, and there being no adequate antiquities legislation; and

Whereas, the avalanche of environmental statements and project reviews—now numbering approximately 100 per month—required for governmental and private construction projects has created an administrative crisis resulting from the absence of a statewide survey to identify archaeological resources in North Carolina; and

Whereas, it is urgent that a coordinated archaeological program, based upon professional principles and techniques and concerned with the history of all peoples, be pursued by the State with the cooperation and assistance of acknowledged specialists now available in the agencies, colleges, and universities of the State; and

Whereas, such a program should be conducted with proper respect for the human and sacred remains of all elements of our population; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby appropriated from the General Fund to the Office of Archives and History, Department of Art, Culture and History, for the 1973-74 fiscal year the sum of sixty-four thousand three hundred twenty-seven dollars (\$64,327) for the establishment and administration of a statewide archaeological program, which program shall include contractual agreements for the utilization of the services of appropriate professional archaeologists on the staffs and faculties of North Carolina colleges and universities.

Sec. 2. For the purposes of reviewing existing statutes relating to archaeological resources, of making recommendations to the General Assembly concerning programs and statutes, and of advising the Department on the development of its archaeological program, there is hereby created an Archaeological Advisory Committee to be composed of the State Historian as chairman and the following members: one member of the Senate appointed by the President of the Senate; one member of the House of Representatives appointed by the Speaker of the House; two members representing the American Indians of North Carolina, one appointed by the Tribal Council of the Eastern Band of the Cherokee, and one appointed by the Executive Director of the North Carolina State Commission of Indian Affairs; and one archaeologist appointed by the North Carolina Archaeological Advisory Council. Members of the committee shall serve without salary, but their actual expenses resulting from the performance of their official duties shall be reimbursed in accordance

with State policy. Members shall be appointed for two-year terms beginning July 1 of the odd-numbered years and shall serve until their successors are appointed and qualified. Initial appointments shall be made immediately upon ratification for terms to expire June 30, 1975.

CHAPTER 603

AN ACT TO ESTABLISH STATEWIDE PUBLIC KINDERGARTEN PROGRAMS IN ALL COUNTY AND CITY SCHOOL ADMINISTRATIVE UNITS.

Whereas, the kindergarten is recognized in American education as an essential prerequisite to success in the first grade and the early years of formal education; and

Whereas, there is a direct relationship between failure in the initial years of formal education and the high percentage of dropouts in our public school systems; and

Whereas, the Pilot Program for kindergartens as wisely established by the General Assembly in the 1969 Session and expanded by the 1971 General Assembly has proven beneficial and has provided a foundation to build upon; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. A new Article, to be designated as Article 45 and entitled "Kindergartens" shall be inserted in Chapter 115 of the General Statutes immediately after Article 44 and shall read as follows:

"Article 45.

"Kindergartens.

"§ 115-358. *Establishment and maintenance of kindergartens.*—County and city boards of education shall provide for their respective administrative unit kindergartens as a part of the public school system for all children living in the school administrative unit who are eligible for admission pursuant to G.S. 115-359; provided that funds are available from State, local, federal or other sources to operate a kindergarten program as provided in this Article.

All kindergarten programs so established shall be subject to the supervision of the State Department of Public Instruction and shall be operated in accordance with the standards adopted by the State Board of Education, upon recommendation of the State Superintendent of Public Instruction.

Among the standards to be adopted by the State Board of Education shall be a provision that the Board will allocate funds for the purpose of operating and administering kindergartens to each school administrative unit in the State based on the average daily membership for the best continuous three out of the first four school months of pupils in the first grade during the last school year in that respective school administrative unit.

Provided, that for the 1973-74 school year, sufficient funds shall be allocated by the Board to each county and city school administrative unit to operate a minimum of two kindergarten classes in each administrative unit. Provided further, that for each subsequent school year beginning with the 1974-75 school

year, the Board shall allocate sufficient funds to each county and city school administrative unit to add at least one additional kindergarten class until all eligible children are enrolled.

“§ 115-359. *Eligibility.*—Beginning with the school year 1978-1979, in accordance with the provisions of G.S. 115-358, any child who has passed the fifth anniversary of his birth before October fifteenth of the year in which he enrolls shall be eligible for enrollment in kindergarten. Provided, however, that for the school years 1973-1974 through 1978-1979, the State Board of Education shall have enrolled in kindergartens that percentage on a statewide basis of the eligible children at the beginning of each school year in accord with the following table:

<u>Enrollment Date</u>	<u>Enrollment Percentage</u>
September, 1973	Not less than 16%
September, 1974	Not less than 25%
September, 1975	Not less than 45%
September, 1976	Not less than 65%
September, 1977	Not less than 85%
September, 1978	Not less than 100%

Among the standards to be adopted by the State Board of Education in administering the enrollment of the eligible children on the schedule set forth herein, the State Board of Education shall consider the availability and location of facilities in each administrative unit, the number of eligible children in each administrative unit, the transportation system in each administrative unit, appropriate birth date groupings and other pertinent educational criteria.

Provided further, that a county and city board of education may, with the approval of the State Board, submit annually a plan for admission of five-year olds to the kindergarten program without following the time schedule set out hereinabove.

CHAPTER 617**AN ACT TO APPROPRIATE FUNDS FROM THE HIGHWAY FUND FOR
THE BENEFIT OF THE NATIONAL DRIVING CENTER
FOUNDATION, INC.**

Whereas, in spite of the excellent advances made in safety engineering of the automobile and the highways, traffic accidents continue to be a major problem indicating that the driver is the primary contributing factor in the origin of traffic accidents; and

Whereas, there is no general agreement among physicians in judging driving competency of those individuals who have suffered with such medical problems as strokes, heart attacks, diabetes, etc., and therefore no standards with which to advise either the person so afflicted nor the North Carolina Department of Motor Vehicles regarding how and when they should enter the driver's seat nor what restrictions, etc.; and

Whereas, there is an evergrowing problem of drugs which are prescribed by physicians which interfere with normal driving performance which is further

complicated when two or more physicians treating a patient prescribe different drugs to be taken simultaneously; and

Whereas, in the medical catastrophes which affect patients, there are major emotional problems such as psychotic and severe neurosis, which the majority of physicians and psychiatrists agree as being incompatible with safe driving but for which there are no uniform standards upon which the physicians and psychiatrists can make judgments in determining which of these people while on specific drugs are truly capable of driving cars safely; and

Whereas, social factors are known to be involved in driver attitudes and that the serious driving offenders are very frequently found to also be offenders in nondriving conditions, however there are no uniform standards for physicians to make these judgments pertaining to a driver's competency; and

Whereas, uniform standards in all of those areas herein set out are essential if the rules are to be fairly and firmly applied by legal means through the driver licensing procedures at both the State and national level; and

Whereas, the concept of the National Driving Center has been generated by a North Carolina committee comprised of representatives from State Agencies, Medical and Legal professions and Insurance Agencies for the purpose of conducting a systematic and controlled study of driving performance as it is affected by medical behavioral and social factors; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby appropriated to the Department of Administration from the Highway Fund the sum of one million five hundred thousand dollars (\$1,500,000) for the purpose of acquiring land in the Research Triangle Park and constructing and equipping facilities to house the National Driving Center Foundation, Inc., a nonprofit corporation created under the laws of North Carolina.

Sec. 2. There is hereby appropriated from the Highway Fund to the National Driving Center Foundation, Inc., for operating expenses, the sum of two hundred ninety-five thousand dollars (\$295,000) for the fiscal year commencing July 1, 1973, and ending June 30, 1974.

Sec. 3. It shall be the duty of the State Auditor to make an annual audit of the accounts of the National Driving Center Foundation, Incorporated, and make a report thereof to the General Assembly.

Sec. 4. This act shall become effective July 1, 1973.

Such entries or additions shall be made by or under the direction of the clerk of superior court. Photographic, typed or other copies of such map or description, certified by the clerk of superior court, shall be admitted in evidence in all courts and shall have the same force and effect as would the original map or description. A local government or the Board may provide for the redrawing of any such map. A redrawn map shall supersede for all purposes the earlier map or maps which it is designated to replace upon the filing and approval thereof as designated and provided above."

Sec. 7. G.S. 143-215.56 is further amended by adding thereto a new subsection to read as follows:

At least 30 days prior to the effective date specified in the resolution of the Board establishing any floodway, notice of the effective date and copies of such rules and regulations shall be delivered to every affected local government along with copies of all maps and plans delineating the floodway. CHAPTER 633

AN ACT TO REIMBURSE A. C. WIDENHOUSE TRANSPORT FOR DAMAGES INCURRED WHILE ASSISTING LAW ENFORCEMENT.

Whereas, on February 6, 1972, at approximately 1:30 a.m., the State Highway Patrol received a message that a Trailways bus had been hijacked and that the hijacker had robbed all the passengers, after which all passengers were forced from the bus, except one lady who was being held as a hostage; and

Whereas, after every effort to stop the hijacked bus failed, the bus had been driven by the hijacker through the Town of Rockwell at 60 miles per hour, all traffic lights being red, and had attempted to hit numerous motorists whom he had met on the highway, and due to the seriousness of the situation, it was determined that the hijacked bus must be stopped and a roadblock was ordered; and

Whereas, a tractor-trailer tanker, the property of A. C. Widenhouse Transport, along with the State Highway Patrol vehicle was used to set up the necessary roadblock as the highway was four lanes and heavy equipment was needed to stop the hijacked bus; and

Whereas, the hijacker operating the hijacked bus increased the speed of the bus to 70 to 75 miles per hour and attempted to run the roadblock, totalling the State Highway Patrol vehicle and damaging the trailer of the tractor-trailer tanker belonging to A. C. Widenhouse Transport in the amount of four hundred fifty-five dollars (\$455.00); and

Whereas, the action of the law enforcement officers in commandeering the tractor-trailer tanker was intentional in order to set up an effective roadblock; and

Whereas, A. C. Widenhouse Transport's claim does not fall within the purview of the Torts Claim Act nor does A. C. Widenhouse Transport have a remedy at law; and

Whereas, the damages sustained by A. C. Widenhouse Transport resulted from assisting law enforcement officers while acting in the public interest and the claim filed in the amount of four hundred fifty-five dollars (\$455.00) by A.

C. Widenhouse Transport as a result thereof is a legitimate claim which should be paid; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. There is hereby appropriated out of the general fund of the State to the Department of Transportation, Motor Vehicles Division, the sum of four hundred fifty-five dollars (\$455.00) to be paid to A. C. Widenhouse Transport to reimburse it for damages to its tractor-trailer tanker; provided, however, that in the event such damages or any portion thereof shall be recovered by A. C. Widenhouse Transport from a third party or parties, the sum so recovered shall be repaid to General Fund of the State of North Carolina.

Sec. 2. This act shall become effective upon its ratification.

- (ii) his retirement under the provisions of the Retirement System, or
- (iii) his death.

“§ 135-106. *Creditable service.*—(a) Subject to such rules and regulations as the Board of Trustees shall adopt with regard to the verification of a member's prior service, the prior service of a member shall consist of his service rendered prior to January 1, 1974, as a justice of the Supreme Court, judge of the Court of Appeals, judge of the Superior Court, judge of the District Court Division of the General Court of Justice, or as Administrative Officer of the Courts.

(b) When membership ceases as a result of a member's withdrawal of his accumulated contributions, the prior service and previous membership service of the member shall no longer be considered to be creditable service; provided, however, that if a member whose creditable service has been cancelled in accordance with this subsection subsequently returns to membership for a period of five years, he may thereafter repay in a lump sum the amount withdrawn plus regular interest thereon from the date of withdrawal through the date of repayment and thereby increase his creditable service by the amount of creditable service lost when he withdrew his accumulated contributions.

“§ 135-107. *Service retirement.*—(a) Any member in service on or after January 1, 1974, who has attained his 50th birthday may retire upon written application to the Board of Trustees setting forth at what time, as of the first day of a calendar month, not less than 30 days nor more than 90 days subsequent to the execution of and the filing thereof, he desires to be retired.

(b) Any member who is a justice or judge of the Appellate Division of the General Court of Justice shall be automatically retired as of the first day of the calendar month coinciding with or next following the later of January 1, 1974, or his attainment of his 72nd birthday and each other member shall be automatically retired as of the first day of the calendar month coinciding with or next following the later of January 1, 1974, or his attainment of his 70th birthday; provided, however, that no judge who is a member on January 1, 1974, shall be forced to retire under the provisions of this subsection at an earlier date than the last day that he is permitted to remain in office under the provisions of G.S. 7A-4.20.

(c) Any member who terminates service on or after January 1, 1974, having accumulated five or more years of creditable service may retire under the provisions of subsection (a) above, provided that he shall not have withdrawn his accumulated contributions prior to the effective date of his retirement, and the requirement of subsection (a) that the member be in service shall not apply.

“§ 135-108. *Service retirement benefits.*—(a) Any member who retires under the provisions of subsection (a) or subsection (c) of G.S. 135-107 after he either has attained his 65th birthday or has completed 24 years or more of creditable service shall receive an annual retirement allowance, payable monthly, which shall commence on the effective date of his retirement and shall be continued on the first day of each month thereafter during his lifetime, the amount of which shall be computed as the sum of (i), (ii) and (iii) following, provided that in no event shall the annual allowance payable to any member be greater than an amount which, when added to the allowance, if any, to which he is entitled under the Teachers' and State Employees' Retirement System or the North Carolina Local Governmental Employees' Retirement System (prior in any case to any reduction for early retirement or for an optional mode of payment) would total three-fourths of his final compensation:

- (i) Four percent (4%) of his final compensation, multiplied by the number of years of his creditable service rendered as a justice of the Supreme Court or judge of the Court of Appeals;
- (ii) Three and one-half percent ($3\frac{1}{2}\%$) of his final compensation, multiplied by the number of years of his creditable service rendered as a judge of the Superior Court or as Administrative Officer of the Courts;
- (iii) Three percent (3%) of his final compensation, multiplied by the

number of years of his creditable service rendered as a judge of the District Court Division of the General Court of Justice.

(b) Any member who retires under the provisions of subsection (a) or subsection (c) of G.S. 135-107 before he either has attained his 65th birthday or has completed 24 years of creditable service shall receive an annual retirement allowance, payable monthly, which shall commence on the effective date of his retirement and shall be continued on the first day of each month thereafter during his lifetime, the amount of which shall be determined in the same manner and be subject to the same maximum limitation as provided for in subsection (a) above except that the allowance so computed shall be reduced by one quarter of one percent ($1/4$ of 1%) thereof for each month by which the member's retirement date precedes the first day of the month coincident with or next following the earlier of

(i) the member's 65th birthday, or

(ii) the date the member would have completed 24 years of creditable service if he had been in service as a judge from his retirement date until such date. For the sole purpose of determining whether a member has completed the required 24 years of creditable service referred to in this subsection (b) or the date on which he would have completed such period of creditable service if he had remained in service as a judge, in the case of a member of the Teachers' and State Employees' Retirement System who became a member of this Retirement System under circumstances described in G.S. 135-28.1, and who at the time of his retirement hereunder is in service and has retained his membership in the Teachers' and State Employees' Retirement System as provided for in G.S. 135-28.1, his creditable service shall be taken as the sum of his creditable service hereunder plus the amount of creditable service remaining to his credit in such other system as provided for in G.S. 135-28.1.

(c) The foregoing subsections of this section to the contrary notwithstanding, in no event will the retirement allowance initially payable upon the retirement of any member who was a member of a previous system immediately prior to January 1, 1974, prior to any reduction of such allowance in accordance with G.S. 135-111, be less than the retirement allowance to which he would have been entitled under the terms of such previous system if this Article had not been enacted.

(d) Commencing with the payment for the month of January 1974, the retirement allowance of each retired member of a previous system who was in receipt of a retirement allowance thereunder as of January 1, 1974, shall be paid from the assets of the Retirement System in the same amount as would have been applicable for January 1974, if this Article had not been enacted.

“§ 135-109. *Disability retirement.*—Upon application by or on behalf of the member, any member in service who has completed five or more years of creditable service and who has not attained his 65th birthday may be retired by the Board of Trustees, on the first day of any calendar month, not less than 30 and not more than 90 days next following the date of filing such application, on a disability retirement allowance; provided, that the medical board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been

continuous thereafter, that such incapacity is likely to be permanent, and that such member should be retired; and, provided further, that if a member is removed by the Supreme Court for mental or physical incapacity under the provisions of G.S. 7A-376, no action is required by the medical board under this section.

“§ 135-110. *Disability retirement benefits.*—(a) Upon retirement for disability in accordance with G.S. 135-109, a member shall receive a disability retirement allowance computed and payable as provided for service retirement in G.S. 135-108(a) except that the member's creditable service shall be taken as the creditable service he would have completed at his 65th birthday if he had continued in service to such birthday as a judge in the same Division of the General Court of Justice in which he was serving on his disability retirement date.

(b) Once each year during the first five years following retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the Board of Trustees may, and upon his application shall, require any disability beneficiary who has not yet attained his 60th birthday to undergo a medical examination, such examination to be made at the place of residence of the beneficiary or other place mutually agreed upon, by a physician or physicians designated by the Board of Trustees. Should any disability beneficiary who has not yet attained his 60th birthday refuse to submit to at least one medical examination in any such year by a physician or physicians designated by the Board of Trustees, his allowance may be discontinued until his withdrawal of such refusal, and should his refusal continue for one year, it shall be assumed that he is no longer disabled.

(c) Should the medical board certify to the Board of Trustees that a disability beneficiary prior to his 65th birthday has recovered to the extent that he would not satisfy the requirements for disability retirement if he were an active member of the Retirement System, or if his disability shall be assumed to have terminated in accordance with subsection (b) above, his disability retirement allowance shall thereupon cease, he shall be restored as a member of the Retirement System, and the period during which he was in receipt of a disability retirement allowance shall not be included in his creditable service.

“§ 135-111. *Election of optional allowance.*—Any member who retires under the provisions of this Article shall have the right to elect to have his allowance payable under any one of the optional forms provided for in G.S. 135-5(g), subject to the conditions therein contained, in lieu of the allowance that would otherwise be payable.

“§ 135-112. *Return of accumulated contributions.*—(a) Should a member cease to be a judge otherwise than by death or retirement under the provisions of this Article, he shall, upon submission of an application, be paid, not earlier than 60 days from receipt in the Raleigh offices of the Board of Trustees of an acceptable application on a form provided by the Retirement System, the amount of his accumulated contributions, provided that he has not in the meantime returned to service as a judge. Upon payment of such accumulated contributions his membership in the Retirement System shall cease and, if he thereafter again becomes a member, no credit shall be allowed for any service previously rendered, except as otherwise provided in G.S. 135-106(b). Any such payment of a member's accumulated contributions shall be in full and complete

discharge of any rights in or to any benefits otherwise payable under this Article.

(b) Any other provision of this Article to the contrary notwithstanding, there shall be deducted from any amount otherwise payable hereunder any amount due any agency or subdivision of the State by the member by reason of any outstanding overpayment of salary or by reason of the embezzlement of fees collected by the member for any agency or subdivision of the State; provided that, notwithstanding any other provisions of this Article, even if the member fails to demand the return of his accumulated contributions within 90 days from the day he ceases to be a judge, any amount due such agency or subdivision by reason of any outstanding overpayment of salary or embezzlement of fees shall be paid to such agency or subdivision by the Retirement System upon demand; and provided further, that such agency or subdivision shall have notified the director of any amount so due and that the Retirement System shall have no liability for amounts so deducted and transmitted to such agency or subdivision nor for any failure by the Retirement System for any reason to make such deductions.

“§ 135-113. *Benefits on death before retirement.*—(a) Upon receipt of proof, satisfactory to the Board of Trustees, of the death of a member in service, there shall be paid in a lump sum to such person as the member shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit equal to the sum of

(i) the member's accumulated contributions, plus

(ii) the member's final compensation;

provided, however, that if the member has attained his 50th birthday at his date of death, and if the designated recipient of the death benefits is the member's spouse who survives him, and if the spouse so elects, then the lump sum death benefit provided for herein shall consist only of a payment equal to the member's final compensation and there shall be paid to the surviving spouse an annual retirement allowance, payable monthly, which shall commence on the first day of the calendar month coinciding with or next following the death of the member and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such retirement allowance shall be equal to one-half of the amount of the retirement allowance to which the member would have been entitled had he retired under the provisions of G.S. 135-107(a) on the first day of the calendar month coinciding with or next following his date of death, reduced by two percent (2%) thereof for each full year, if any, by which the age of the member at his date of death exceeds that of his spouse. If the retirement allowance to the spouse shall terminate on the remarriage or death of the spouse before the total of the retirement allowance payments made equals the amount of the member's accumulated contributions at date of death, the excess of such accumulated contributions over the total of the retirement allowances paid to the spouse shall be paid in a lump sum to such person as the member shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time such payment falls due, otherwise to the former member's legal representatives.

(b) There shall be paid to the surviving unremarried spouse of any former judge who died in service prior to January 1, 1974, and after his 50th birthday

an annual retirement allowance which shall commence on January 1, 1974, and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such retirement allowance shall be computed in accordance with the provisions of subsection (a) above as if the provisions of this Article had been in effect on the date of death of the former judge, and the final compensation of such former judge had been equal to the rate of annual compensation in effect on December 31, 1973, for the office held by the former judge at the time of his death.

(c) Upon receipt of proof, satisfactory to the Board of Trustees, of the death of a member not in service, there shall be paid in a lump sum to such person as the member shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit equal to the member's accumulated contributions.

“§ 135-114. *Benefits on death after retirement.*—(a) In the event of the death of a former member while in receipt of a retirement allowance pursuant to his retirement under the provisions of G.S. 135-107, or after a former member's 65th birthday while in receipt of a retirement allowance pursuant to his retirement under the provisions of G.S. 135-109, there shall be paid to the former member's surviving spouse, if any, an annual retirement allowance, payable monthly, which shall commence on the first day of the calendar month next following the date of death of the former member and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such allowance shall be equal to one-half of the allowance that was payable to the former member for the month immediately prior to his month of death, or which would have been so payable had an optional mode of payment not been elected under the provisions of G.S. 135-111, reduced by two percent (2%) thereof for each full year, if any, by which the age of the former member at date of death exceeds that of his spouse.

(b) In the event of the death of a former member prior to his 65th birthday while in receipt of a retirement allowance pursuant to his retirement under the provisions G.S. 135-109, there shall be paid to the former member's surviving spouse, if any, an annual retirement allowance, payable monthly, which shall commence on the first day of the calendar month next following the date of death of the former member and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such allowance shall be equal to one-half of the allowance to which the former member would have been entitled under the provisions of G.S. 135-108 if he had remained in service from his disability retirement date to his date of death with no change in his final compensation or status and had then retired, reduced by two percent (2%) thereof for each full year, if any, by which the age of the former member at date of death exceeds that of his spouse.

(c) In the event of the death of a former member while in receipt of a retirement allowance under the provisions of G.S. 135-108 or G.S. 135-110 (but not G.S. 135-111), if such former member is not survived by a spouse to whom a retirement allowance is payable under the provisions of subsection (a) or subsection (b) above; there shall be paid to such person as the member shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit equal to the

excess, if any, of the accumulated contributions of the member at his date of retirement over the total of the retirement allowances paid to him prior to his death.

(d) In the event that a retirement allowance becomes payable to the spouse of a former member under the provisions of subsection (a) or subsection (b) above, provided that the member's retirement allowance had not been paid under one of the optional modes of payment under G.S. 135-111, and such retirement allowance to the spouse shall terminate on the remarriage or death of the spouse before the total of the retirement allowances paid to the former member and his spouse combined equals the amount of the member's accumulated contributions at his date of retirement, the excess of such accumulated contributions over the total of the retirement allowances paid to the former member and his spouse combined shall be paid in a lump sum to such person as the member shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time such payment falls due, otherwise to the former member's legal representatives.

(e) In the event of the death of a retired former judge while in receipt of a retirement allowance under the provisions of G.S. 135-108(d), there shall be paid to the former judge's surviving spouse, if any, an annual retirement allowance payable monthly, which shall commence on the first day of the calendar month next following the date of death of the former judge and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such allowance shall be equal to one-half of the allowance that was payable to the former judge for the month immediately prior to his month of death, reduced by two percent (2%) thereof for each full year, if any, by which the age of the former judge at date of death exceeds that of his spouse.

(f) There shall be paid to the surviving unremarried spouse of any former judge who died prior to January 1, 1974, while in receipt of a retirement allowance under the provisions of a previous system, a retirement allowance which shall commence on January 1, 1974, and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such retirement allowance shall be equal to one-half of the allowance that would have been payable to the former judge for the month of December 1973, if the previous system had been in effect at his date of retirement and if he had survived to January 1, 1974, reduced by two percent (2%) thereof for each full year, if any, by which the age of the former judge at date of death exceeded that of his spouse.

"§ 135-115. *Post-retirement increases in allowances.*—Commencing with the post-retirement adjustment effective July 1, 1974, all retirement allowances payable under the provisions of this Article shall be adjusted annually in accordance with the provisions of G.S. 135-5(o).

"§ 135-116. *Administration; management of funds.*—The provisions of G.S. 135-6, 135-7, 135-7.1 and 135-7.2 shall be applicable to the administration of this Retirement System and to the assets thereof.

The assets of this Retirement System may be commingled for investment purposes with those of the Teachers' and State Employees' Retirement System, but the records of the Board of Trustees shall at all times show the relative interest of each system in the commingled funds.

“§ 135-117. *Assets of Retirement System.*—(a) All of the assets of the Retirement System shall be credited according to the purpose for which they are held to one of two funds, namely, the annuity savings fund and the pension accumulation fund.

(b) The annuity savings fund shall be the fund to which all members' contributions, and regular interest allowances thereon as provided for in G.S. 135-7(b), shall be credited. From this fund shall be paid the accumulated contributions of a member in accordance with G.S. 135-112, or G.S. 135-113.

(c) Upon the retirement of a member, his accumulated contributions shall be transferred from the annuity savings fund to the pension accumulation fund. In the event that a retired former member should subsequently again become a member of the Retirement System as provided for in G.S. 135-110(c) or G.S. 135-121, any excess of his accumulated contributions at his date of retirement over the sum of the retirement allowance payments received by him since his date of retirement shall be transferred from the pension accumulation fund to the annuity savings fund and shall be credited to his individual account in the annuity savings fund.

(d) The pension accumulation fund shall be the fund in which shall be accumulated contributions by the State and amounts transferred from the annuity savings fund in accordance with subsection (c) above, and to which all income from the invested assets of the Retirement System shall be credited. From this fund shall be paid retirement allowances and any other benefits provided for under this Article except payments of accumulated contributions as provided in subsection (b) above.

(e) The regular interest allowance on the members' accumulated contributions provided for in G.S. 135-7(b) shall be transferred each year from the pension accumulation fund to the annuity savings fund.

“§ 135-118. *Contributions by the members.*—Each member shall contribute by payroll deduction for each pay period for which he receives compensation six percent (6%) of his compensation for such period.

“§ 135-119. *Contributions by the State.*—(a) The State shall contribute annually an amount equal to the sum of the 'normal contribution' and the 'accrued liability contribution'.

(b) The normal contribution for any period shall be determined as a percentage, equal to the normal contribution rate, of the total compensation of the members for such period. The normal contribution rate shall be determined as the percentage represented by the ratio of (i) the annual normal cost to provide the benefits of the Retirement System, computed in accordance with recognized actuarial principles on the basis of methods and assumptions approved by the Board of Trustees, in excess of the part thereof provided by the members' contributions, to (ii) the total annual compensation of the members of the Retirement System.

(c) The accrued liability contribution for any period shall be determined as a percentage, equal to the accrued liability contribution rate, of the total compensation of the members for such period. The accrued liability contribution rate shall be determined as the percentage represented by the ratio of (i) the level annual contribution necessary to amortize the unfunded accrued liability over a period of 40 years, computed in accordance with recognized actuarial principles on the basis of methods and assumptions approved by the

Board of Trustees, to (ii) the total annual compensation of the members of the Retirement System.

(d) The unfunded accrued liability as of any date shall be determined, in accordance with recognized actuarial principles on the basis of methods and assumptions approved by the Board of Trustees, as the excess of (i) the then present value of the benefits to be provided under the Retirement System in the future over (ii) the sum of the assets of the Retirement System then currently on hand in the annuity savings fund and the pension accumulation fund, plus the then present value of the stipulated contributions to be made in the future by the members, plus the then present value of the normal contributions expected to be made in the future by the State.

(e) The normal contribution rate and the accrued liability contribution rate shall be determined after each annual valuation of the Retirement System and shall remain in effect until a new valuation is made.

(f) The annual contributions by the State for any year shall be at least sufficient, when combined with the amount held in the pension accumulation fund at the start of the year, to provide the retirement allowances and other benefits payable out of the fund during the year then current.

“§ 135-120. *Transfer of members to another system.*—(a) Any member whose service as a judge is terminated other than by retirement or death and, who, while still a member of this Retirement System becomes a member of either the Teachers' and State Employees' Retirement System or the North Carolina Local Governmental Employees' Retirement System, may elect to retain his membership in this Retirement System by not withdrawing his accumulated contributions hereunder. Any such member shall retain all the rights, credits and benefits obtaining to him under this Retirement System at the time of such termination of service while he is a member of such other system and does not withdraw his contributions hereunder.

(b) Any member who becomes eligible for benefits under more than one system may file application therefor with each retirement system to the end that each retirement system shall pay appropriate benefits without transfer of funds between the systems.

(c) The Board of Trustees shall effect such rules as it may deem necessary to administer the provisions of the preceding subsections of this section and to prevent any duplication of service credits or benefits that might otherwise occur.

“§ 135-121. *Return to membership of retired former member.*—(a) In the event that a retired former member should at any time return to service as a justice or judge, his retirement allowance shall thereupon cease and he shall be restored as a member of the Retirement System.

(b) In the computation of the amount of any benefits to which he may subsequently become entitled under any of the provisions of this Article, his creditable service shall be taken as the sum of the creditable service rendered by him prior to the date of his previous retirement plus the period of membership service rendered by him subsequent to his restoration to membership, except as otherwise provided in G.S. 135-110(c).”

Sec. 2. Article 1 of General Statutes Chapter 135 is amended as follows:

(a) The first sentence of G.S. 135-1(10) is amended to read:

“Employee' shall mean all fulltime employees, agents or officers of the State of North Carolina or any of its departments, bureaus and institutions other

than educational, whether such employees are elected, appointed or employed: Provided that the term 'employee' shall not include any person who is a member of the Uniform Judicial Retirement System, any member or officer of the General Assembly or any part-time or temporary employee."

(b) A new section, G.S. 135-28.1, is inserted to read as follows:

"§ 135-28.1. *Transfer of members to employment covered by the Uniform Judicial Retirement System.*—(a) Any member whose service as a teacher or State employee is terminated other than by retirement or death and, who, while still a member of this Retirement System, becomes a judge participating in the Uniform Judicial Retirement System, may elect to retain his membership in this Retirement System by not withdrawing his accumulated contributions hereunder. Any such member shall retain all the rights, credits and benefits obtaining to him under this Retirement System at the time of such termination of service hereunder while he is a member of the other system and does not withdraw his contributions hereunder.

(b) The provisions of the preceding subsection to the contrary notwithstanding, with respect to each judge or former judge of the District Court Division of the General Court of Justice who was a member of this Retirement System immediately prior to January 1, 1974, and who becomes a member of the Uniform Judicial Retirement System on or after January 1, 1974, upon his commencement of membership in the other system there shall be paid in a lump sum to his account in the annuity savings fund of the other system the amount of his accumulated contributions under this System that are attributable to contributions made by him hereunder while a judge of said District Court Division. Upon such payment, the member's accumulated contributions hereunder shall be reduced by the amount of such payment and his period of creditable membership service shall be reduced by the period of service during which such repaid contributions were originally made.

Any member for whom the payment of his accumulated contributions as herein provided reduces the balance of his account in the annuity savings fund to zero and cancels his entire period of creditable service shall no longer be a member of this Retirement System.

In the case of any member who retains his membership in this Retirement System after the payment hereinabove provided and who subsequently becomes eligible for retirement benefits under this Retirement System or whose death results in benefit payments to another beneficiary, the average final compensation used in the computation of the amount of any such benefits shall be computed as of the date of commencement of his membership in the other system on the same basis as if his retirement or death had occurred as of such date of commencement. Moreover, for the sole purpose of increasing his creditable service hereunder in order to meet any applicable service requirements for benefits hereunder, any such member shall be granted membership service credits under this Retirement System on account of (i) the period of membership service cancelled under the first paragraph of this subsection and (ii) the period of his membership in the other system so long as he remains a member hereunder and, if he is a member in service under the other system, he shall be deemed to be a member in service under this Retirement System if so required for any benefit hereunder.

(c) Any member who becomes eligible for benefits under both this Retirement System and the Uniform Judicial Retirement System may file

application therefor with each retirement system to the end that each retirement system shall pay appropriate benefits without transfer of funds between the systems except as otherwise provided in subsection(b) above.

(d) The Board of Trustees shall effect such rules as it may deem necessary to administer the provisions of the preceding subsections of this section and to prevent any duplication of service credits or benefits that might otherwise occur."

CHAPTER 651

AN ACT TO PROVIDE FOR VOLUNTARY ANNEXATION BY THE TOWN OF CAROLINA BEACH OF AREAS, TERRITORIES, OR SUBDIVISIONS NOT CONTIGUOUS TO THE MUNICIPAL BOUNDARIES OF THE TOWN OF CAROLINA BEACH.

Whereas, Article 36 of Chapter 160 of the General Statutes of North Carolina contains no provision for the annexing of areas, territories or subdivisions not contiguous to the municipal boundaries of the Town of Carolina Beach; and

Whereas, it would be in the interest of the public health, safety, and welfare of the inhabitants of said town and would permit a more orderly growth of the municipal boundaries of said city to allow the annexation of noncontiguous areas, territories or subdivisions by petition of the property owners who desire that their property be annexed; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. That the owner or owners of any area, territory or subdivision within the boundaries of New Hanover County but not within the boundaries or extraterritorial jurisdiction of any other municipality, whose property is not contiguous to the municipal boundaries of the Town of Carolina Beach, may, by petition directed to the town council of the Town of Carolina Beach, request that the property described in the petition be annexed and made a part of the Town of Carolina Beach as hereinafter set out; provided any property annexed herein provided must be located at the closest point not more than three miles from the Town of Carolina Beach municipal limits.

Sec. 2. That said petition shall be directed to the town council of the Town of Carolina Beach and shall contain:

(1) The names of the owners of the real property for which a request to annex is made.

(2) A description of the area to be annexed by metes and bounds.

(3) The signatures of all property owners of the area, territory or subdivision requesting annexation.

In the case of annexing a subdivision under this act, the petition must be signed by all owners of property within the subdivision, provided nothing herein shall be construed to authorize the annexation of a portion of a subdivision.

Upon receipt of the petition, the town council of the Town of Carolina Beach shall cause the clerk of the town to investigate the sufficiency thereof and to certify the results of his investigation.

Upon receipt of the certification and petition, the town council shall fix dates for two public hearings on the question of annexation and shall cause notice of the public hearings to be published twice in a newspaper having general circulation in the town at least 10 days prior to the date of the first public hearing, and published in like manner preceding the second public hearing. The second public hearing shall be held at least 20 days after the first public hearing. At such public hearings, all residents of New Hanover County opposing or favoring the annexation or alleging an error in the petition shall be given an opportunity to be heard. The town council shall then determine whether the petition meets the requirements of this act.

Upon a further finding and determination by the town council that: (1) The public health, safety and welfare of the inhabitants of the Town of Carolina Beach, as well as those of the area, territory or subdivision requesting such annexation, will best be served by such annexation, and (2) The Town of Carolina Beach will be able to provide the same services to the annexed area, territory or subdivision in the same manner in which other areas within the municipal boundaries of said city are served, the town council of the Town of Carolina Beach may adopt an ordinance annexing that area described in the petition; provided that the ordinance annexing the area, territory or subdivision shall be passed at each meeting of the town council at which a public hearing is held as hereinbefore provided. From and after the effective date of said ordinance, which date shall not be less than 90 days from and after the final passage of said ordinance, the area, territory or subdivision and its citizens shall be subject to all debts, laws, ordinances and regulations in force in said Town of Carolina Beach and shall be entitled to the same benefits and privileges of other parts of said town. The newly annexed area, territory or subdivision shall be subject to town taxes for the fiscal year following the effective date of annexation.

Sec. 3. The town council of the Town of Carolina Beach may make said annexation contingent on such conditions as it may desire in order to insure that the area, territory or subdivision proposed to be annexed will not receive preferential treatment.

Sec. 4. The town council, in its discretion, may charge in any noncontiguous area, territory or subdivision annexed water or sewer rates in excess of those charged within the municipal limits and from time to time the council shall review the expenses related to any noncontiguous area to determine that said expenses are not in excess of taxes and revenue derived therefrom.

Sec. 5. Any area, territory or subdivision annexed pursuant to this act shall cease to be noncontiguous for all intents and purposes when and in the event said area shall touch the municipal limits of the Town of Carolina Beach as a result of the extension of the boundaries of said town pursuant to law.

Sec. 6. Any area, territory or subdivision annexed pursuant to this act shall not be included in that area of the municipal boundaries used for determining any extraterritorial jurisdiction of the Town of Carolina Beach and further shall not be considered within the municipal boundaries for the purposes of defining an area as contiguous to the city limits within the provisions of Article 36 of Chapter 160 of the General Statutes of North Carolina with reference to further annexation unless and until the area, territory or subdivision annexed pursuant hereto shall, by extension of the municipal boundaries pursuant to Article 36 of Chapter 160 of the General Statutes of North Carolina, touch and become a part of the municipal boundaries of the Town of Carolina Beach.

Sec. 7. The total area of all noncontiguous portions of the city annexed pursuant to this act shall at no time exceed twenty percent (20%) of the total area of the Town of Carolina Beach.

Sec. 8. This act shall be supplemental and in addition to any other methods or procedure for annexation heretofore available or hereafter provided for the Town of Carolina Beach.

Sec. 9. If any clause, sentence, paragraph, subsection, section or any part of this act shall for any reason be adjudged by any court of competent jurisdiction to be invalid or unconstitutional, such judgment shall not affect, impair or invalidate the remainder of this act but shall be confined in its operation to the part thereof directly involved in said judgment.

Sec. 10. All laws and clauses of laws in conflict with this act are repealed.

CHAPTER 655

AN ACT AUTHORIZING CITIES TO ESTABLISH SERVICE DISTRICTS AND TO LEVY TAXES THEREIN AND ISSUE BONDS THEREFOR IN ORDER TO FINANCE SUCH SERVICES.

The General Assembly of North Carolina enacts:

Section 1. Chapter 160A of the General Statutes of North Carolina is amended by inserting therein a new article as follows:

“Article 22

“Municipal Service Districts

“§ 160A-500. *Title.*—This article may be cited as ‘The Municipal Service District Act of 1973,’ and is enacted pursuant to Article V, Section 2(4) of the Constitution of North Carolina, effective July 1, 1973.

“§ 160A-501. *Purposes for which districts may be established.*—The city council of any city may define any number of service districts in order to finance, provide, or maintain for the districts one or more of the following services, facilities, or functions in addition to or to a greater extent than those financed, provided or maintained for the entire city:

- (1) beach erosion control and flood and hurricane protection works;
- (2) downtown revitalization projects;
- (3) drainage projects; and
- (4) off-street parking facilities.

As used in this section ‘downtown revitalization projects’ include by way of illustration but not limitation improvements to water mains, sanitary sewer mains, storm sewer mains, electric power distribution lines, gas mains, street lighting, streets and sidewalks, including rights of way and easements therefor, the construction of pedestrian malls, bicycle paths, overhead pedestrian walkways, sidewalk canopies, and parking facilities both on-street and off-street, and other improvements intended to relieve traffic congestion in the central

city, improve pedestrian and vehicular access thereto, reduce the incidence of crime therein, and generally to further the public health, safety, welfare, and convenience by promoting the economic health of the central city or downtown area. Exercise of the authority granted by this article to undertake downtown revitalization projects financed by a municipal service district shall not prejudice the city's authority to undertake urban renewal projects in the same area.

“§ 160A-502. *Definition of service districts.*—(a) Standards. The city council of any city may by resolution define a service district upon finding that a proposed district is in need of one or more of the services, facilities, or functions listed in § 160A-501 to a demonstrably greater extent than the remainder of the city.

(b) Report. Before the public hearing required by subsection (c), the city council shall cause to be prepared a report containing:

- (1) a map of the proposed district, showing its proposed boundaries;
- (2) a statement showing that the proposed district meets the standards set out in subsection (a); and
- (3) a plan for providing in the district one or more of the services listed in G.S. 160A-501.

The report shall be available for public inspection in the office of the city clerk for at least four weeks before the date of the public hearing.

(c) Hearing and Notice. The city council shall hold a public hearing before adopting any resolution defining a new service district under this section. Notice of the hearing shall state the date, hour, and place of the hearing and its subject, and shall include a map of the proposed district and a statement that the report required by subsection (b) is available for public inspection in the office of the city clerk. The notice shall be published at least once not less than one week before the date of the hearing. In addition, it shall be mailed by first class mail at least four weeks before the date of the hearing to the owners as shown by the county tax records as of the preceding January 1 (and at the address shown thereon) of all property located within the proposed district. The person designated by the council to mail the notice shall certify to the council that the mailing has been completed and his certificate is conclusive in the absence of fraud.

(d) Effective Date. The resolution defining a service district shall take effect at the beginning of a fiscal year commencing after its passage, as determined by the city council.

“§ 160A-503. *Extension of service districts.*—(a) Standards. The city council may by resolution annex territory to any service district upon finding that:

- (1) the area to be annexed is contiguous to the district, with at least one-eighth of the area's aggregate external boundary coincident with the existing boundary of the district;
- (2) that the area to be annexed requires the services of the district.

(b) Annexation by Petition. The city council may also by resolution extend by annexation the boundaries of any service district when one hundred percent (100%) of the real property owners of the area to be annexed have petitioned the council for annexation to the service district.

(c) Report. Before the public hearing required by subsection (d), the council shall cause to be prepared a report containing:

- (1) a map of the service district and the adjacent territory, showing the present and proposed boundaries of the district;
- (2) a statement showing that the area to be annexed meets the standards and requirements of subsections (a) or (b); and
- (3) a plan for extending services to the area to be annexed.

The report shall be available for public inspection in the office of the city clerk for at least two weeks before the date of the public hearing.

(d) Hearing and Notice. The council shall hold a public hearing before adopting any resolution extending the boundaries of a service district. Notice of the hearing shall state the date, hour and place of the hearing and its subject, and shall include a statement that the report required by subsection (c) is available for inspection in the office of the city clerk. The notice shall be published at least once not less than one week before the date of the hearing. In addition, the notice shall be mailed at least four weeks before the date of the hearing to the owners as shown by the county tax records as of the preceding January 1 of all property located within the area to be annexed. The person designated by the council to mail the notice shall certify to the council that the mailing has been completed, and his certificate shall be conclusive in the absence of fraud.

(e) Effective Date. The resolution extending the boundaries of the district shall take effect at the beginning of a fiscal year commencing after its passage, as determined by the council.

“§ 160A-504. *Consolidation of service districts.*—(a) The city council may by resolution consolidate two or more service districts upon finding that:

- (1) the districts are contiguous or are in a continuous boundary; and
 - (2) the services provided in each of the districts are substantially the same;
- or
- (3) if the services provided are lower for one of the districts, there is a need to increase those services for that district to the level of that enjoyed by the other districts.

(b) Report. Before the public hearing required by subsection (c), the city council shall cause to be prepared a report containing:

- (1) a map of the districts to be consolidated;
- (2) a statement showing the proposed consolidation meets the standards of subsection (a); and
- (3) if necessary, a plan for increasing the services for one or more of the districts so that they are substantially the same throughout the consolidated district.

The report shall be available in the office of the city clerk for at least two weeks before the public hearing.

(c) Hearing and Notice. The city council shall hold a public hearing before adopting any resolution consolidating service districts. Notice of the hearing shall state the date, hour, and place of the hearing and its subject, and shall include a statement that the report required by subsection (b) is available for inspection in the office of the city clerk. The notice shall be published at least once not less than one week before the date of the hearing. In addition, the notice shall be mailed at least four weeks before the hearing to the owners as shown by the county tax records as of the preceding January 1 of all property

located within the consolidated district. The person designated by the council to mail the notice shall certify to the council that the mailing has been completed, and his certificate shall be conclusive in the absence of fraud.

(d) *Effective Date.* The consolidation of service districts shall take effect at the beginning of a fiscal year commencing after passage of the resolution of consolidation, as determined by the council.

“§ 160A-505. *Required provision or maintenance of services.*—(a) *New District.* When a city defines a new service district, it shall provide, maintain, or let contracts for the services for which the residents of the district are being taxed within a reasonable time, not to exceed one year, after the effective date of the definition of the district.

(b) *Extended District.* When a city annexes territory for a service district, it shall provide, maintain, or let contracts for the services provided or maintained throughout the district to the residents of the area annexed to the district within a reasonable time, not to exceed one year, after the effective date of the annexation.

(c) *Consolidated District.* When a city consolidates two or more service districts, one of which has had provided or maintained a lower level of services, it shall increase the services within that district (or let contracts therefor) to a level comparable to those provided or maintained elsewhere in the consolidated district within a reasonable time, not to exceed one year, after the effective date of the consolidation.

“§ 160A-506. *Abolition of service districts.*—Upon finding that there is no longer a need for a particular service district, the city council may by resolution abolish that district. The council shall hold a public hearing before adopting a resolution abolishing a district. Notice of the hearing shall state the date, hour and place of the hearing, and its subject, and shall be published at least once not less than one week before the date of the hearing. The abolition of any service district shall take effect at the end of a fiscal year following passage of the resolution, as determined by the council.

“§ 160A-507. *Taxes authorized; rate limitation.*—A city may levy property taxes within defined service districts in addition to those levied throughout the city, in order to finance, provide or maintain for the district services provided therein in addition to or to a greater extent than those financed, provided or maintained for the entire city. In addition, a city may allocate to a service district any other revenues whose use is not otherwise restricted by law.

Property subject to taxation in a newly established district or in an area annexed to an existing district is that subject to taxation by the city as of the preceding January 1.

Property taxes may not be levied within any district established pursuant to this article in excess of a rate on each one hundred dollar (\$100.00) value of property subject to taxation which, when added to the rate levied city-wide for purposes subject to the rate limitation, would exceed the rate limitation established in G.S. 160A-209(d), unless that portion of the rate in excess of this limitation is submitted to and approved by a majority of the qualified voters residing within the district. Any referendum held pursuant to this paragraph shall be held and conducted as provided in G.S. 160A-209.

This article does not impair the authority of a city to levy special assessments pursuant to Article 10 of this chapter for works authorized by G.S. 160A-491, and may be used in addition to that authority.

“§ 160A-508. *Bonds authorized.*—(a) A city may issue its general obligation bonds under the Local Government Bond Act to finance services, facilities or functions provided within a service district. If a proposed bond issue is required by law to be submitted to and approved by the voters of the city, and if the proceeds of the proposed bond issue are to be used in connection with a service that is or, if the bond issue is approved, will be provided only for one or more service districts or at a higher level in service districts than city-wide, the proposed bond issue must be approved concurrently by a majority of those voting throughout the entire city and by a majority of the total of those voting in all of the affected or to be affected service districts.”

Sec. 2. All portions of this act except G.S. 160A-506 and 160A-507 become effective upon ratification. G.S. 160A-506 and 160A-507 become effective on July 1, 1973, but all acts necessary to approve a tax levy or issue bonds on or after July 1, 1973, may be taken at any time after ratification of this act.

In the General Assembly read three times and ratified, this the 22nd day of May, 1973.

AN ACT TO PROVIDE THAT THE NORTH CAROLINA DRUG AUTHORITY IS THE SINGLE STATE AGENCY TO HANDLE FEDERAL FUNDS FOR DRUG ABUSE PREVENTION.

The General Assembly of North Carolina enacts:

Section 1. G.S. 143-473 is amended by adding a subsection (c) as follows:

“(c) The North Carolina Drug Authority is hereby designated as the single State agency to coordinate all State efforts relating to drug abuse prevention, education, control, treatment, and rehabilitation.”

Sec. 2. This act shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 22nd day of May, 1973.

H. B. 415**CHAPTER 657**

AN ACT TO AUTHORIZE THE ISSUANCE OF \$300,000,000 IN BONDS OF THE STATE TO PROVIDE FUNDS FOR PUBLIC SCHOOL FACILITIES IN THE COUNTIES OF THE STATE SUBJECT TO A VOTE OF THE PEOPLE OF THE STATE.

Whereas, pursuant to the provisions of Chapter 1020, as amended by Chapter 1249 of the Session Laws of 1949, the State of North Carolina made available to the several counties of the State fifty million dollars (\$50,000,000) for the purpose of providing funds for the construction, improvement and repair of school plant facilities, of which twenty-five million dollars (\$25,000,000) was made available from the then existing Post-War Reserve Fund and twenty-five million dollars (\$25,000,000) from a bond issue approved by a vote of the people of the State; and

Whereas, recognizing the acute and continuing need for substantial improvement in school facilities, the State of North Carolina, pursuant to the provisions of Chapter 1046 of the Session Laws of 1953, made available to the

several counties another fifty million dollars (\$50,000,000) provided from a bond issue approved by a vote of the people of the State; and

Whereas, in response to a continuing need for improved and expanded school facilities, the State of North Carolina, pursuant to the provisions of Chapter 1079 of the Session Laws of 1963, made available to the several counties an additional one hundred million dollars (\$100,000,000) provided from a bond issue approved by a vote of the people of the State; and

Whereas, said State grants gave encouragement and impetus to local efforts in providing capital funds for school improvement; and

Whereas, by utilizing local capital outlay funds and local bond issues, substantial progress has been made in the several counties in the addition and improvement of school plant facilities, particularly during the past decade; and

Whereas, in spite of continuing financial efforts at the local level, there remains in the various counties of the State a serious shortage of school plant facilities; and

Whereas, needed consolidation of schools, changing instructional patterns and rapidly approaching obsolescence of some existing school plants have intensified the need for additional school plant facilities; and

Whereas, the financing of capital school improvement at the local school level has become difficult and in some instances, beyond the resources of the counties, many of which have already reached or are approaching the legal limits of borrowing capacity; and

Whereas, the local financing is complicated further by rising interest rates; and

Whereas, pending court decisions may require new methods of school support placing less emphasis on local property taxes; and

Whereas, the State of North Carolina with its superior resources can aid the several counties in financing urgently needed school improvements; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. Subject to a favorable vote of a majority of the qualified voters of the State who shall vote thereon in an election called and held as hereinafter provided, the State Treasurer is hereby authorized, by and with the consent of the Governor and Council of State, to issue and sell, at one time or from time to time, bonds of the State to be designated "State of North Carolina Public School Facilities Bonds of 1973" in an aggregate principal amount not exceeding three hundred million dollars (\$300,000,000), for the purpose of providing grants-in-aid to the various counties of the State for the construction, reconstruction, enlargement, improvement, repair and renovation of public school facilities, and for the purchase of equipment essential to the efficient operation of the facilities.

Provided: In the event the State Board of Education determines and finds as a fact that any funds hereinafter allocated to the respective administrative units are not needed, in whole or in part by an administrative unit for the construction, reconstruction, enlargement, improvement, repair or renovation of public school facilities or the purchase of equipment for school facilities, such unneeded funds allocated to the administrative unit may be used for the retirement of school bonds heretofore issued by the county in which such administrative unit is located. The proceeds of the sale of the bonds authorized

by this act are hereby appropriated for the purposes set forth in this act; and this appropriation shall be in addition to all other appropriations heretofore made or which may be made at the 1973 Session of the General Assembly.

Sec. 2. There shall be allocated and distributed to the county and city administrative units of the State from the proceeds of sale of said bonds the following amounts, respectively, such allocation being on the basis of the per capita average daily membership within each such administrative unit for the school year 1971-1972, as herein set forth and as conclusively determined and certified by the State Superintendent of Public Instruction.

After approval of the plan or plans submitted by an administrative unit, the State Board of Education shall make available, at one time or from time to time, from the moneys herein allocated to an administrative unit, funds for the construction, reconstruction, enlargement, improvement, repair or renovation of public school facilities and for the purchase of any equipment essential to the efficient operation of the facilities.

Sec. 3. The proceeds of sale of the bonds authorized by this act may be used in conjunction with any federal funds available for the construction, reconstruction, enlargement, improvement, repair or renovation of public school facilities, and the State Board of Education and the county and city administrative units are authorized to apply for and accept any federal funds and to agree to the terms and conditions under which such funds shall be made available.

Sec. 4. There is hereby allocated from the proceeds of sale of the bonds authorized by this act to the State Board of Education the sum of seven hundred fifty thousand dollars (\$750,000) to be used, first, for paying any expenses necessarily incurred in the preparation and sale of the bonds and any bond anticipation notes herein authorized; and the remaining sum shall be used for providing educational surveys and technical assistance to local administrative units necessary to the construction and improvement of school plant facilities; and for evaluating the program of school construction made possible through this act; and for conducting such research and experimentation in school house planning and construction as would be productive in the future design and construction of school facilities. In addition, there is appropriated to the Board

of Education for such purposes any premiums received on the sale of the bonds and any bond anticipation notes authorized by this act. The Division of School Planning in the Department of Public Instruction shall provide the technical assistance and shall conduct or cause to be conducted the surveys, evaluations and research authorized by this section and shall make the results thereof available to the county and city administrative units.

Sec. 5. Bonds authorized by this act shall bear such date or dates, shall be serial bonds, and shall mature at such times and in such amounts, not exceeding 25 years from their date or respective dates, and may be made redeemable before maturity, at the option of the State, at such price or prices and under such terms and conditions, and shall bear interest at such rate or rates, payable semiannually, all as may be fixed by the State Treasurer with the approval of the Governor and Council of State.

Sec. 6. The bonds issued pursuant to this act shall be signed on behalf of the State of North Carolina by the Governor or shall bear his facsimile signature; shall be signed by the State Treasurer, or shall bear his facsimile signature; shall bear the Great Seal of the State or a facsimile thereof impressed or imprinted thereon; and shall carry interest coupons which shall bear a facsimile of the signature of the State Treasurer. In the event that the bonds shall bear the facsimile signature of the State Treasurer, the bonds shall also be signed by an assistant treasurer or a deputy treasurer as the State Treasurer shall determine. Should any officer whose signature or facsimile appears on any bonds or coupons cease to be such officer before the delivery of the bonds, such signature or facsimile shall nevertheless have same validity for all purposes as if the officer had remained in office until delivery. The form and denomination of the bonds shall be as the State Treasurer may determine in conformity with this act, and the bonds shall be subject to registration as is now or hereafter may be provided by law for State bonds, and provision may also be made for the reconversion into coupon bonds of any bonds registered as to both principal and interest.

Sec. 7. Subject to determination by the Governor and Council of State as to the manner in which the bonds shall be offered for sale, whether by publishing notices in certain newspapers and financial journals or by mailing notices or by inviting bids by correspondence or otherwise, the State Treasurer is authorized to sell the bonds at one time or from time to time at the best price obtainable, but in no case for less than par and accrued interest. All expenses incurred in the preparation and sale of the bonds and any bond anticipation notes herein authorized shall be paid by the State Treasurer from the proceeds of sale allocated to the State Board of Education under Section 4 of this act.

Sec. 8. The proceeds of the bonds and of the bond anticipation notes herein authorized, except the proceeds of bonds the issuance of which has been anticipated by such bond anticipation notes, shall be placed by the State Treasurer in a special fund known as the "Public School Facilities Fund of 1973", and shall be disbursed, under the direction and supervision of the State Board of Education, as herein provided.

Sec. 9. By and with consent of the Governor and Council of State, who shall determine the rate or rates or maximum rate of interest and the date or approximate date of payment, the State Treasurer is hereby authorized to borrow money at the lowest rate of interest obtainable, and to execute and issue

notes of the State for the same, but only in the following circumstances and under the following conditions:

(1) For anticipating the sale of any of said bonds to the issuance of which the Governor and Council of State shall have given consent, if the State Treasurer shall deem it advisable to postpone the issuance of the bonds;

(2) For the payment of interest upon or any installment of principal of any of the bonds then outstanding, if there shall not be sufficient funds in the State treasury with which to pay such interest or installment of principal as they respectively become due;

(3) For the renewal of any loan evidenced by notes herein authorized.

Sec. 10. Funds derived from the sale of bonds herein authorized shall be used in the payment of any bond anticipation notes that may have been issued in anticipation of the sale of bonds and any renewals of such notes; and funds provided by the General Assembly for payment of the interest on or principal of bonds herein authorized shall be used in paying the interest on or principal of any notes and any renewals thereof, the proceeds of which shall have been used in paying interest on or principal of the bonds. Interest payments upon the notes may be evidenced by interest coupons in the State Treasurer's discretion.

Sec. 11. The full faith, credit and taxing power of the State are hereby pledged for the payment of the principal of and the interest on the bonds and notes herein authorized.

Sec. 12. The coupons appertaining to the bonds and notes after maturity shall be receivable in payment of all taxes, debts, dues, licenses, fines and demands of any kind whatsoever due to the State.

Sec. 13. All of the bonds and notes and coupons authorized by this act shall be exempt from all State, county and municipal taxation or assessment, direct or indirect, general or special, whether imposed for the purpose of general revenue or otherwise, and the interest on the bonds and notes shall not be subject to taxation as to income, nor shall the bonds or notes or coupons be subject to taxation when constituting a part of the surplus of any bank, trust company or other corporation.

Sec. 14. It shall be lawful for all executors, administrators, guardians and fiduciaries generally, and all sinking fund commissions, to invest any moneys in their hands in said bonds and notes.

Sec. 15. The question of the issuance of the three hundred million dollars (\$300,000,000) State of North Carolina Public School Facilities Bonds of 1973 authorized by this act shall be submitted to the qualified voters of the State of North Carolina at an election to be held on a date not later than November 30, 1973 to be fixed by the Governor by a proclamation issued by him; provided, that the election herein provided for may be held on the same day as any other State, county, municipal or district election, and any other State, county, municipal or district election may be validly held on the same day as the bond election provided for in this act. Notice of the bond election shall be given by publication at least twice in a newspaper published in each county in the State or having a general circulation therein, and the election and the registration of voters therefor shall be held under and in accordance with the general laws of the State. The State shall reimburse the counties of the State for all necessary expenses incurred in holding the election and registration therefor, the same to be paid out of the Contingency and Emergency Fund. CHAPTER 662

AN ACT AMENDING G.S. 116-191 SO AS TO PERMIT THE ISSUANCE OF REVENUE BOND ANTICIPATION NOTES BY THE BOARD OF GOVERNORS OF THE UNIVERSITY OF NORTH CAROLINA.

The General Assembly of North Carolina enacts:

Section 1. G.S. 116-191 is hereby amended by adding the following at the end thereof:

“The board is hereby authorized to issue, subject to the approval of the Advisory Budget Commission, at one time or from time to time, revenue bond anticipation notes of the board in anticipation of the issuance of bonds authorized pursuant to the provisions of this Article. The principal of and the interest on such notes shall be payable solely from the proceeds of bonds or renewal notes or, in the event bond or renewal note proceeds are not available, any available revenues of the project or projects for which such bonds shall have been authorized. The notes of each issue shall be dated, shall mature at such time or times not exceeding two years from their date or dates, shall bear interest at such rate or rates not exceeding eight per centum (8%) per annum, as may be determined by the board, and may be redeemable before maturity, at the option of the board, at such price or prices and under such terms and conditions as may be fixed by the board prior to the issuance of the notes. The board shall determine the form and the manner of execution of the notes, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the notes and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the State. In case any officer, whose signature or a facsimile of whose signature shall appear on any notes or coupons, shall cease to be such officer before the delivery of such notes, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this Article or any recitals in any notes issued under the provisions of this Article, all such notes shall be deemed to be negotiable instruments under the laws of this State, subject only to the provisions for registration in any resolution authorizing the issuance of such notes or any trust agreement securing the bonds in anticipation of which such notes are being issued. The notes may be issued in coupon or registered form or both, as the board may determine, and provision may be made for the registration of any coupon notes as to principal alone and also as to both principal and interest, and for the reconversion into coupon notes of any notes registered as to both principal and interest. The board may sell such notes in such manner, at public or private sale, and for such price, as it may determine to be for the best interests of the board, but no sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than eight per centum (8%) per annum, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables

of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any notes prior to maturity.

The proceeds of the notes of each issue shall be used solely for the purpose for which the bonds in anticipation of which such notes are being issued shall have been authorized, and such note proceeds shall be disbursed in such manner and under such restrictions, if any, as the board may provide in the resolution authorizing the issuance of such notes or bonds or in the trust agreement securing such bonds.

The resolution providing for the issuance of notes, and any trust agreement securing the bonds in anticipation of which such notes are being authorized, may also contain such limitations upon the issuance of additional notes as the board may deem proper, and such additional notes shall be issued under such restrictions and limitations as may be prescribed by such resolution or trust agreement. The board may also provide for the replacement of any notes which shall become mutilated or be destroyed or lost.

Except as herein otherwise provided, notes may be issued under this Article and other powers vested in the board under this Article may be exercised by the board without obtaining the consent of any department, division, commission, board, bureau or agency of the State and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this Article.

Unless the context shall otherwise indicate, the word 'bonds', wherever used in this Article, shall be deemed and construed to include the words 'bond anticipation notes'."

Sec. 2. All laws and clauses of laws in conflict with this act are hereby repealed.

Sec. 3. This act shall become effective upon ratification.

The General Assembly of North Carolina enacts:

"The Board is hereby authorized to issue, subject to the approval of the Advisory Budget Commission, at one time or from time to time, revenue bond anticipation notes of the Board in anticipation of the issuance of bonds authorized pursuant to the provisions of this Part. The principal of and the interest on such notes shall be payable solely from the proceeds of bonds or renewal notes or, in the event bond or renewal note proceeds are not available,

any available revenues of the project or projects for which such bonds shall have been authorized. The notes of each issue shall be dated, shall mature at such time or times not exceeding two (2) years from their date or dates, shall bear interest at such rate or rates as may be determined by the Board, and may be made redeemable before maturity, at the option of the Board, at such price or prices and under such terms and conditions as may be fixed by the Board, and may be made redeemable before maturity, at the option of the Board, at such price or prices and under such terms and conditions as may be fixed by the Board prior to the issuance of the notes. The Board shall determine the form and manner of execution of the notes, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the notes and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the State. In case any officer, whose signature or a facsimile of whose signature shall appear on any notes or coupons, shall cease to be such officer before the delivery of such notes, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Notwithstanding any of the other provisions of this Part or any recitals in any notes issued under the provisions of this Part, all such notes shall be deemed to be negotiable instruments under the laws of this State. The notes may be issued in coupon or registered form or both, as the Board may determine, and provision may be made for the registration of any coupon notes as to principal alone and also as to both principal and interest, and for the reconversion into coupon notes of any notes registered as to both principal and interest. The Board may sell such notes in such manner, at public or private sale, and for such price, as it may determine to be for the best interests of the University.

The proceeds of the notes of each issue shall be used solely for the purpose for which the bonds in anticipation of which such notes are being issued shall have been authorized, and such note proceeds shall be disbursed in such manner and under such restrictions, if any, as the Board may provide in the resolution authorizing the issuance of such notes or bonds.

The resolution providing for the issuance of notes or bonds, may also contain such limitations upon the issuance of additional notes as the Board may deem proper, and such additional notes shall be issued under such restrictions and limitations as may be prescribed by such resolution.

Notes may be issued by the Board under the provisions of this Part, subject to the approval of the Advisory Budget Commission, but without obtaining the consent of any other commission, board, bureau or agency of the State, and without any other proceedings or the happening of any other conditions or things than those consents, proceedings, conditions or things which are specifically required by this Part.

Revenue bond anticipation notes issued under the provisions of this Part shall not be deemed to constitute a debt of the State of North Carolina or a pledge of the faith and credit of the State, but such notes shall be payable solely from the funds herein provided therefor and a statement to that effect shall be recited on the face of the notes.

Unless the context shall otherwise indicate, the word 'bonds', wherever used in this Part, shall be deemed and construed to include the words 'bond anticipation notes'."

Sec. 2. All laws and clauses of laws in conflict with this act are hereby repealed.

Sec. 3. This act shall become effective upon ratification.

The exemption shall be granted within 20 days of the receipt of the exemption request or unless the Commissioner requests the dealer to provide additional necessary information or unless the request is denied.

Sec. 5. Execution, terms and form of bond; action on bond; investigation of complaints. Such bond shall be made payable to the State of North Carolina with the Commissioner as trustee and shall be conditioned upon the grain dealer's faithful performance of his duties as a grain dealer and his compliance with this act and shall be for the use and benefit of any producer from whom the grain dealer may purchase or store grain and who is not paid by such grain dealer, and shall not be cancelled during the period for which the license is issued except upon 30 days' notice in writing to the Department. The liability of the surety of any bond required by the provisions of this act shall not accumulate for each successive license period and the aggregate liability of the surety shall not exceed the face amount of the bond. CHAPTER 674

AN ACT TO CLARIFY STATE POLICY IN CERTAIN JUVENILE CASES.

The General Assembly of North Carolina enacts:

Section 1. G.S. 7A-286 (3) through (5) is rewritten to read as follows:

“(3) In the case of any child who is alleged to be delinquent or undisciplined and where the court finds it necessary that such child be detained in secure custody for the protection of the community or in the best interest of the child before or after a hearing on the merits of the case, the court may order that such child be detained in a juvenile detention home as provided in G.S. 110-24, or if no juvenile detention home is available, in a separate section of a local jail which meets the requirements of G.S. 110-24, provided the court shall notify the parent, guardian or custodian of the child of such detention. In order to provide authority for approval of detention care when the district court is not in session, the chief district judge or the district judge having primary responsibility for hearing juvenile cases in the district may delegate the court's authority to detain by administrative order which shall be filed in the office of the clerk of superior court. Such administrative order shall specify which judicial officials shall be contacted for approval of detention care in the following order: any available district judge; the chief juvenile probation officer or any juvenile probation officer; or the clerk or assistant clerk of superior court. No child shall be held in any juvenile detention home or jail for more than five calendar days without a hearing to determine the need for continued detention under the special procedures established by this Article. If the judge orders that the child continue in the detention home or jail after such a hearing to determine the need for continued detention, the court order shall be in writing with appropriate findings of fact.

(4) In the case of any child who is delinquent or undisciplined, the court shall consider the following summary of State policy in relation to such child in order to design an appropriate disposition to meet the needs of the child and to achieve the objectives of the State in exercising these two categories of juvenile jurisdiction: The initial approach should involve working with the child in his own home so that the appropriate primary resources (such as the parents, school and other community services) may be involved in child care, supervision and treatment according to the needs of the child. Thus, the court should arrange for appropriate community-level services to be provided to the child and/or his family in order to strengthen his own home, such as juvenile probation services, mental health services, educational services, social services and others as may be appropriate. In cases where it is necessary to place a delinquent child outside his own home, first consideration should be given to residential resources in the child's own community, such as a relative's home, a foster home, small group homes, halfway houses, group child care, and others as may be available. A child should not be committed to training school or to any other institution solely for unlawful absence from school; such a child should generally be helped through community level resources. A commitment to training school or to any State institution is generally appropriate only for a child over 10 years of age whose offense would be a crime if committed by an adult and where the child's behavior constitutes some threat to the safety of persons or property in the community so that the child needs to be removed from the community for the

protection of the community. After considering these policy objectives, the court may:

a. Continue the case in order to allow the family an opportunity to meet the needs of the child through more adequate supervision or placement in a private or specialized school, or placement with a relative, or through some other plan approved by the court;

b. Place the child on probation for whatever period of time the court may specify, and subject to such conditions of probation as the court finds are related to the needs of the child and which the court shall specify, under the supervision of the juvenile probation officer;

c. Excuse the child from compliance with the compulsory school attendance law, provided the court finds that suitable alternative plans can be arranged by the family or through other community resources for one of the following: an education related to the needs or abilities of the child, such as (but not limited to) vocational education or special education; a suitable plan of supervision or placement; or some other plan that the court finds to be in the best interest of the child.

(5) In the case of a child who is delinquent, the court may commit the child to the Office of Youth Development, Department of Social Rehabilitation and Control, for placement in one of the residential programs operated by the Department, provided the court finds that such child meets each of the following four criteria for commitment to an institution and supports such finding with appropriate findings of fact in the order of commitment as follows:

a. The child has not or would not adjust in his own home on probation or while other services are being provided;

b. Community-based residential care has already been utilized or would not be successful or is not available;

c. The child's behavior constitutes some threat to persons or property in the community or to the child's own safety or personal welfare.

d. If the child is less than 10 years of age or his offense would not be a crime if committed by an adult, the court must find that all community-level alternatives for services and residential care have been exhausted.

Said commitment shall be for a definite term or an indefinite term, not to extend beyond the eighteenth birthday of the child, as the Department or its administrative personnel may find to be in the best interest of the child. The Department, or its administrative personnel, shall have final authority to determine when any child who has been admitted to any program operated by the Department has sufficiently benefitted from the program as to be ready for release. If the Department finds that any child committed to its care is not suitable for any program operated by the Department, the Department shall have the right to make a motion in the cause so that the court may enter an alternative disposition."

Sec. 2. This act shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 22nd day of May, 1973.

CHAPTER 676

AN ACT TO AMEND CHAPTER 1 OF THE GENERAL STATUTES BY REWRITING THE PROVISIONS RELATING TO ARBITRATION AND AWARD.

The General Assembly of North Carolina enacts:

Section 1. Chapter 1 of the General Statutes is hereby amended as follows:

(1) By repealing G.S. 1-544 through G.S. 1-567; and

(2) By inserting therein a new Article 45A to read as follows:

“§ 1-567.1. *Arbitration agreements made valid, irrevocable and enforceable; scope.*—(a) Two or more parties may agree in writing to submit to arbitration any controversy existing between them at the time of the agreement, or they may include in a written contract a provision for the settlement by arbitration of any controversy thereafter arising between them relating to such contract or the failure or refusal to perform the whole or any part thereof. Such agreement or provision shall be valid, enforceable, and irrevocable except with the consent of all the parties, without regard to the justifiable character of the controversy.

(b) This Article shall not apply to:

(1) Any agreement or provision to arbitrate in which it is stipulated that this Article shall not apply or to any arbitration or award thereunder;

(2) Arbitration agreements between employers and employees or between their respective representatives, unless the agreement provides that this Article shall apply.

“§ 1-567.2. *Proceedings to compel or stay arbitration.*—(a) On application of a party showing an agreement described in G.S. 1-567.1, and the opposing party's refusal to arbitrate, the court shall order the parties to proceed with arbitration, but if the opposing party denies the existence of the agreement to arbitrate, the court shall proceed summarily to the determination of the issue so raised and shall order arbitration if found for the moving party, otherwise, the application shall be denied.

(b) On application, the court may stay an arbitration proceeding commenced or threatened on a showing that there is no agreement to arbitrate. Such an issue, when in substantial and bona fide dispute, shall be forthwith and

summarily tried and the stay ordered if found for the moving party. If found for the opposing party, the court shall order the parties to proceed to arbitration.

(c) If an issue referable to arbitration under the alleged agreement is involved in an action or proceeding pending in a court having jurisdiction to hear applications under subsection (a) of this section, the application shall be made therein. Otherwise the application may be made in any court of competent jurisdiction.

(d) Any action or proceeding involving an issue subject to arbitration shall be stayed if an order for arbitration or an application therefor has been made under this section or, if the issue is severable, the stay may be with respect thereto only. When the application is made in such action or proceeding, the order for arbitration shall include such stay.

(e) An order for arbitration shall not be refused or a stay of arbitration granted on the ground that the claim in issue lacks merit or bona fides or because any fault or grounds for the claim sought to be arbitrated have not been shown.

“§ 1-567.3. *Appointment of arbitrators by court.*—If the arbitration agreement provides a method of appointment of arbitrators, this method shall be followed. In the absence thereof, or if the agreed method fails or for any reason cannot be followed, or when an arbitrator appointed fails or is unable to act and his successor has not been duly appointed, the court on application of a party shall appoint one or more arbitrators. An arbitrator so appointed has all the powers of one specifically named in the agreement.

“§ 1-567.4. *Majority action by arbitrators.*—The powers of the arbitrators may be exercised by a majority unless otherwise provided by the agreement or by this act.

“§ 1-567.5. *Hearing.*—Unless otherwise provided by the agreement:

- (1) The arbitrators shall appoint a time and place for the hearing and cause notification to the parties to be served personally or by registered mail not less than five days before the hearing. Appearance at the hearing waives such notice. The arbitrators may adjourn the hearing from time to time as necessary and, on request of a party and for good cause, or upon their own motion may postpone the hearing to a time not later than the date fixed by the agreement for making the award unless the parties consent to a later date. The arbitrators may hear and determine the controversy upon the evidence produced notwithstanding the failure of a party duly notified to appear. The court on application may direct the arbitrators to proceed promptly with the hearing and determination of the controversy.
- (2) The parties are entitled to be heard, to present evidence material to the controversy and to cross-examine witnesses appearing at the hearing.
- (3) The hearing shall be conducted by all the arbitrators but a majority may determine any question and render a final award. If, during the course of the hearing, an arbitrator for any reason ceases to act, the remaining arbitrator or arbitrators appointed to act as neutrals may continue with the hearing and determination of the controversy.
- (4) Upon the request of any party or any arbitrator, the arbitrators shall cause to be made a record of the testimony and evidence introduced at the hearing.

“§ 1-567.6. *Representation by attorney.*—A party has the right to be represented by an attorney at any proceeding or hearing under this act. A waiver thereof prior to the proceeding or hearing is ineffective.

“§ 1-567.7. *Witnesses, subpoenas, depositions.*—(a) The arbitrators may issue subpoenas for the attendance of witnesses and for the production of books, records, documents and other evidence, and shall have the power to administer oaths. Subpoenas so issued shall be served, and upon application to the court by a party or the arbitrators, enforced, in the manner provided by law for the service and enforcement of subpoenas in a civil action.

(b) On application of a party and for use as evidence, the arbitrators may permit a deposition to be taken, in the manner and upon the terms designated by the arbitrators, of a witness who cannot be subpoenaed or is unable to attend the hearing.

(c) All provisions of law compelling a person under subpoena to testify are applicable.

(d) Fees for attendance as a witness shall be as provided in G.S. 7A-314.

“§ 1-567.8. *Award.*—(a) The award shall be in writing and signed by the arbitrators joining in the award. The arbitrators shall deliver a copy to each party personally or by registered mail, or as provided in the agreement.

(b) An award shall be made within the time fixed therefor by the agreement or, if not so fixed, within such time as the court orders on application of a party. The parties may extend the time in writing either before or after the expiration thereof. A party waives the objection that an award was not made within the time required unless he notifies the arbitrators of his objection prior to the delivery of the award to him.

“§ 1-567.9. *Change of award by arbitrators.*—On application of a party or, if an application to the court is pending under G.S. 1-567.11, 1-567.12 or 1-567.13, on submission to the arbitrators by the court under such conditions as the court may order, the arbitrators may modify or correct the award upon the grounds stated in subdivisions (1) and (3) of subsection (a) of G.S. 1-567.13, or for the purpose of clarifying the award. The application shall be made within 20 days after delivery of the award to the applicant. Written notice thereof shall be given forthwith to the opposing party, stating he must serve his objections thereto, if any, within 10 days from the notice. The award so modified or corrected is subject to the provisions of G.S. 1-567.11, 1-567.12 and 1-567.13.

“§ 1-567.10. *Fees and expenses of arbitration.*—Unless otherwise provided in the agreement to arbitrate, the arbitrators' expenses and fees, together with other expenses, not including counsel fees, incurred in the conduct of the arbitration, shall be paid as provided in the award.

“§ 1-567.11. *Confirmation of an award.*—Upon application of a party, the court shall confirm an award, unless within the time limits hereinafter imposed grounds are urged for vacating or modifying or correcting the award, in which case the court shall proceed as provided in G.S. 1-567.12 and 1-567.13.

“§ 1-567.12. *Vacating an award.*—(a) Upon application of a party, the court shall vacate an award where:

- (1) The award was procured by corruption, fraud or other undue means;
- (2) There was evident partiality by an arbitrator appointed as a neutral or corruption in any of the arbitrators or misconduct prejudicing the rights of any party;

(3) The arbitrators exceeded their powers;

(4) The arbitrators refused to postpone the hearing upon sufficient cause being shown therefor or refused to hear evidence material to the controversy or otherwise so conducted the hearing, contrary to the provisions of G.S. 1-567.5, as to prejudice substantially the rights of a party; or

(5) There was no arbitration agreement and the issue was not adversely determined in proceedings under G.S. 1-567.2 and the party did not participate in the arbitration hearing without raising the objection; but the fact that the relief was such that it could not or would not be granted by a court of law or equity is not ground for vacating or refusing to confirm the award.

(b) An application under this section shall be made within 90 days after delivery of a copy of the award to the applicant except that, if predicated upon corruption, fraud or other undue means, it shall be made within 90 days after such grounds are known or should have been known.

(c) In vacating the award on grounds other than stated in clause(5) of subsection(a) the court may order a rehearing before new arbitrators chosen as provided in the agreement, or in the absence thereof, by the court in accordance with G.S. 1-567.3, or, if the award is vacated on grounds set forth in clauses(3) or (4) of subsection(a) the court may order a rehearing before the arbitrators who made the award or their successors appointed in accordance with G.S. 1-567.3. The time within which the agreement requires the award to be made is applicable to the rehearing and commences from the date of the order.

(d) If the application to vacate is denied and no motion to modify or correct the award is pending, the court shall confirm the award.

“§ 1-567.13. *Modification or correction of award.*—(a) Upon application made within 90 days after delivery of a copy of the award to the applicant, the court shall modify or correct the award where:

(1) There was an evident miscalculation of figures or an evident mistake in the description of any person, thing or property referred to in the award;

(2) The arbitrators have awarded upon a matter not submitted to them and the award may be corrected without affecting the merits of the decision upon the issues submitted; or

(3) The award is imperfect in a matter of form, not affecting the merits of the controversy.

(b) If the application is granted, the court shall modify and correct the award so as to effect its intent and shall confirm the award as so modified and corrected. Otherwise, the court shall confirm the award as made.

(c) An application to modify or correct an award may be joined in the alternative with an application to vacate the award.

“§ 1-567.14. *Judgment or decree on award.*—Upon the granting of an order confirming, modifying or correcting an award, judgment or decree shall be entered in conformity therewith and be docketed and enforced as any other judgment or decree. Costs of the application and of the proceedings subsequent thereto, and disbursements may be awarded by the court.

“§ 1-567.15. *Applications to court.*—Except as otherwise provided, an application to the court under this act shall be by motion and shall be heard in the manner and upon the notice provided by law or rule of court for the making and hearing of motions. Unless the parties have agreed otherwise, notice of an

initial application for an order shall be served in the manner provided by law for the service of a summons in an action.

“§ 1-567.16. *Court, jurisdiction.*—The term ‘court’ means any court of competent jurisdiction of this State. The making in this State of an agreement described in G.S. 1-567.11, or any agreement providing for arbitration in this State or under the laws thereof, confers jurisdiction on the court to enforce the agreement under this act and to enter judgment on an award thereunder.

“§ 1-567.17. *Appeals.*—(a) An appeal may be taken from:

- (1) An order denying an application to compel arbitration made under G.S. 1-567.2;
- (2) An order granting an application to stay arbitration made under G.S. 1-567.2(b);
- (3) An order confirming or denying confirmation of an award;
- (4) An order modifying or correcting an award;
- (5) An order vacating an award without directing a rehearing; or
- (6) A judgment or decree entered pursuant to the provisions of this act.

(b) The appeal shall be taken in the manner and to the same extent as from orders or judgments in a civil action.

“§ 1-567.18. *Act not retroactive.*—This act applies only to agreements made on or after August 1, 1973.

“§ 1-567.19. *Uniformity of interpretation.*—This act shall be so construed as to effectuate its general purpose to make uniform the law of those states which enact it.

“§ 1-567.20. *Short title.*—This Article may be cited as the Uniform Arbitration Act.”

Sec. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

Sec. 3. This act shall become effective August 1, 1973.

In the General Assembly read three times and ratified, this the 22nd day of May, 1973.

CHAPTER 679

AN ACT TO PROVIDE STATE REMEDIES FOR VICTIMS OF ODOMETER ALTERATION.

The General Assembly of North Carolina enacts:

Section 1. The General Statutes are hereby amended by adding a new Article to Chapter 20, to read as follows:

“Article 15.

“Vehicle Mileage Act.

“§ 20-401. *Purpose.*—This act shall provide State remedies for persons injured by motor vehicle odometer alteration, and to provide purchasers of motor vehicles with information to assist them in determining the condition and value of such vehicles. Such remedies shall be in addition to remedies provided by the federal odometer law. (Motor Vehicle Information and Cost Savings Act, Public Law 92-513, 86 Stat. 947, enacted October 20, 1972).

“§ 20-402. *Definitions.*—As used in this Article:

(1) The term ‘odometer’ means an instrument for measuring and recording the actual distance a motor vehicle travels while in operation; but shall not include any auxiliary odometer designed to be reset by the operator of the motor vehicle for the purpose of recording mileage on trips.

(2) The term ‘repair and replacement’ means to restore to a sound working condition by replacing the odometer or any part thereof or by correcting what is inoperative.

(3) The term ‘transfer’ means to change ownership by purchase, gift, or any other means.

(4) The term ‘transferor’ means any person who transfers his ownership in a motor vehicle by sale, gift or any means other than by creation of a security interest.

(5) The term ‘transferee’ means any person to whom the ownership in a motor vehicle is transferred by purchase, gift, or any means other than by creation of a security interest.

“§ 20-403. *Unlawful devices.*—It is unlawful for any person knowingly to advertise for sale, to sell, to use, or to install or to have installed, any device which causes an odometer to register any mileage other than the true mileage driven. For purposes of this section, the true mileage driven is that mileage driven by the vehicle as registered by the odometer within the manufacturer’s designed tolerance.

“§ 20-404. *Unlawful change of mileage.*—It is unlawful for any person or his agent to disconnect, reset, or alter the odometer of any motor vehicle with the intent to change the number of miles indicated thereon.

“§ 20-405. *Operation with intent to defraud.*—It is unlawful for any person with the intent to defraud to operate a motor vehicle on any street or highway knowing that the odometer of such vehicle is disconnected or nonfunctional.

“§ 20-406. *Conspiracy.*—No person shall conspire with any other person to violate Sections 403, 404, 405, 407, or 408.

“§ 20-407. *Lawful service, repair, or replacement.*—Nothing in this act shall prevent the service, repair, or replacement of an odometer, provided the mileage indicated thereon remains the same as before the service, repair, or replacement. Where the odometer is incapable of registering the same mileage as before such service, repair, or replacement, the odometer shall be adjusted to read zero and a notice in writing shall be attached to the left door frame of the vehicle by the owner or his agent specifying the mileage prior to repair or replacement of the odometer and the date on which it was repaired or replaced. Any removal or alteration of such notice so affixed shall be unlawful.

“§ 20-408. *Disclosure requirements.*—(a) In connection with the transfer of a motor vehicle, the transferor shall deliver to the transferee, prior to execution of any transfer of ownership document, a single written statement which contains the following:

- (1) the odometer reading at the time of the transfer;
- (2) the date of the transfer;
- (3) the transferor's name and current address;
- (4) the identity of the vehicle, including its make, model, body type, its vehicle identification number, and the license plate number most recently used on the vehicle;
- (5) a statement that the mileage is unknown if the transferor knows the odometer reading differs from the number of miles the vehicle has actually traveled, and that the difference is greater than that caused by odometer calibration error;
- (6) a statement describing each known alteration of the odometer reading, including date, person making the alteration, and approximate number of miles removed by the alteration; and
- (7) disclosure of excess mileage when vehicle is known to have exceeded one hundred thousand miles and the odometer records only five whole-mile digits.

(b) A copy of each written disclosure must be forwarded to the Department of Motor Vehicles, as a condition precedent to the reregistration of the vehicle. The odometer reading at the time of transfer, as stated on the written disclosure, shall be recorded on the new certificate of title by the Department.

(c) It shall be unlawful for any transferor to violate any rules under this section or to knowingly give a false statement to a transferee in making any disclosure required by such rules.

(d) The provisions of this disclosure statement section shall not apply to the following transfers:

- (1) a vehicle having a gross vehicle weight rating of more than 16,000 pounds;
- (2) a vehicle that is not self-propelled;

(3) a vehicle that is 25 years old or older; or

(4) a new vehicle prior to its first transfer for purposes other than resale.

“§ 20-409. *Private civil action.*—(a) Any person who, with intent to defraud, violates any requirement imposed under this act shall be liable in an amount equal to the sum of:

(1) three times the amount of actual damages sustained or one thousand five hundred dollars (\$1,500), whichever is the greater; and

(2) in the case of any successful action to enforce the foregoing liability, the costs of the action together with reasonable attorney fees as determined by the court.

(b) An action to enforce any liability created under subsection (a) of this section, may be brought in any court of the trial division of the General Court of Justice of the State of North Carolina within two years from the date on which the liability arises.

“§ 20-410. *Injunctive enforcement.*—Upon petition by the Attorney General of North Carolina, a violation of this act may be enjoined as an unfair and deceptive trade practice, as prohibited by G.S. 75-1.1.

“§ 20-411. *Criminal offense.*—Any person, firm or corporation violating any provision of this act shall be guilty of a misdemeanor.”

Sec. 2. G.S. 20-183.2 is hereby amended by adding a new subsection to read as follows:

The General Assembly of North Carolina enacts:

Section 1. Chapter 10 of the General Statutes of North Carolina is hereby rewritten to read as follows:

“§ 10-1. *Appointment and commission; term of office; revocation of commission.*—The Secretary of State may, from time to time, at his discretion, appoint one or more fit persons in every county to act as notaries public and shall issue to each a commission upon payment of a fee of ten dollars (\$10.00). The commission shall show that it is for a term of five years and shall show the effective date and the date of expiration. The term of the commission shall be computed by including the effective date and shall end at midnight of the day preceding the anniversary of the effective date, five years thereafter. The commission shall be sent to the register of deeds of the county in which the appointee lives and a copy of the letter of transmittal to the register of deeds shall be sent to the appointee concerned. The commission shall be retained by

the register of deeds until the appointee has qualified in the manner provided in G.S. 10-2.

Any commission so issued by the Secretary of State or his predecessor, shall be revocable by him in his discretion upon complaint being made against such notary public and when he shall be satisfied that the interest of the public will be best served by the revocation of said commission. Whenever the Secretary of State shall have revoked the commission of any notary public appointed by him, or his predecessor in office, it shall be his duty to file with the register of deeds in the county of such notary public a copy of said order and mail a copy of same to said notary public.

Any person holding himself out to the public as a notary public, or any person attempting to act in such capacity after his commission shall have been revoked by the Secretary of State, shall be guilty of a misdemeanor and upon conviction shall be fined or imprisoned, or both, in the discretion of the court.

“§ 10-2. *To qualify before register of deeds, record of qualification.*—Upon appearing before the register of deeds to which their commissions were delivered, the notaries shall be duly qualified by taking before the register an oath of office, and the oaths prescribed for officers. Following the administration of the oaths of office, the notary shall place his signature in a book designated as ‘The Record of Notaries Public’. The Record of Notaries Public shall contain the name of the notary, the signature of the notary, the effective date and expiration date of the commission, the date the oath was administered, and the date of revocation if the commission is revoked by the Secretary of State. The information contained in The Record of Notaries Public shall constitute the official record of the qualification of notaries public, and the register of deeds shall deliver the commission to the notary following his qualification and notify the Secretary of State of such qualification.

“§ 10-3. *Clerks notaries ex officio; may certify own seals.*—The clerks of the superior court may act as notaries public, in their several counties, by virtue of their office as clerks, and may certify their notarial acts under the seals of their respective courts.

“§ 10-4. *Register of deeds notary ex officio with respect to certain instruments; to use seal of office.*—With respect to instruments offered for registration in their county, the register of deeds and his assistants and deputies may act as notaries public by virtue of their office, and may certify their notarial acts under the seal of the office of the register of deeds.

“§ 10-5. *Powers of notaries public.*—(a) Subject to the exception stated in subsection (c), a notary public commissioned under the laws of this State acting anywhere in this State may:

- (4) Protest for nonacceptance or nonpayment, notes, bills of exchange and other negotiable instruments; and
- (5) Perform such acts as the law of any other jurisdiction may require of a notary public for the purposes of that jurisdiction.

(b) Any act within the scope of subsection (a) performed in another jurisdiction by a notary public of that jurisdiction has the same force and effect in this State as fully as if such act were performed in this State by a notary public commissioned under the laws of this State.

(c) A notary public who, individually or in any fiduciary capacity, is a party to any instrument, cannot take the proof or acknowledgment of himself in such fiduciary capacity or of any other person thereto.

(d) A notary public who is a stockholder, director, officer, or employee of a corporation is not disqualified to exercise any power, which he is authorized by this section to exercise, with respect to any instrument or other matter to which such corporation is a party or in which it is interested unless he is individually a party thereto.

“§ 10-6. *May exercise powers in any county.*—Notaries public have full power and authority to perform the functions of their office in any and all counties of the State, and full faith and credit shall be given to any of their official acts wheresoever the same shall be made and done.

“§ 10-7. *Certificates of official character.*—The Secretary of State and the register of deeds in the county in which the notary public qualified may certify to the official character and authority of such notary public.

- (4) By a statement of the date of expiration of their commissions; provided, that the failure to comply with the provisions of subdivisions (2) and (4) shall not invalidate their official acts.

“§ 10-10. *Notarial stamp or seal.*—A notary public shall provide and keep an official stamp or seal which shall clearly show and legibly reproduce under photographic methods, when embossed, stamped, impressed or affixed to a document, the name of the notary, the name of the county in which appointed and qualified, the words ‘North Carolina’ or an abbreviation thereof, and the words ‘Notary Public’. It shall be the duty of a notary public to replace a seal which has become so worn that it can no longer clearly show or legibly reproduce under photographic methods the information required by this section. Provided, that a notary public appointed prior to July 1, 1973, who has adopted and is using a seal which does not meet the requirements of this section, shall be entitled to continue to use such seal until the expiration of his current commission.

“§ 10-11. *Acts of minor notaries validated.*—All acts of notaries public for the State of North Carolina who were not yet 21 years of age at the time of the performance of such acts are hereby validated; and in every case where deeds or other instruments have been acknowledged before such notary public who was not yet 21 years of age at the time of taking of said acknowledgment, such acknowledgment taken before such notary public is hereby declared to be sufficient and valid.

“§ 10-12. *Acts of certain notaries prior to qualification validated.*—All acknowledgments taken and other official acts done by any person who has heretofore been appointed as a notary public, but who at the time of acting had failed to qualify as provided by law, shall, notwithstanding, be in all respects valid and sufficient; and property conveyed by instruments in which the acknowledgments were taken by such notary public are hereby validated and shall convey the properties therein purported to be conveyed as intended thereby.

“§ 10-13. *Acts of notaries public in certain instances validated.*—The acts of any person heretofore performed after appointment as a notary public and prior to qualification as a notary public or upon reappointment and prior to qualification:

(1) In taking any acknowledgment, or

(2) In notarizing any instrument,

are all hereby declared to be valid and of the same legal effect as if such person had qualified as a notary public prior to performing any such acts.

“§ 10-14. *Validation of acknowledgment wherein expiration of notary's commission erroneously stated.*—All deeds, deeds of trust, mortgages, conveyances, affidavits, and all other paper writings similar or dissimilar to those enumerated herein, whether or not permitted or required to be recorded or filed under the laws of this State heretofore or hereafter executed, bearing an official act of a notary public in which the date of the notary's commission is erroneously stated, are, together with all subsequent acts or actions taken thereon, including but not limited to probate and registration, hereby declared in all respects to be valid to the extent as if the correct expiration date had been stated and shall be binding on the parties of such paper writings and their privies; and such paper writings, together with their certificates may, if otherwise competent, be read in evidence as a muniment of title for all intents and purposes in any of the courts of this State: Provided, that at the date of such official act the notary's commission was actually in force.

“§ 10-15. *Validation of instruments which do not contain readable impression of notary's name.*—All deeds, deeds of trust, mortgages, conveyances, affidavits and all other paper writings similar or dissimilar to those enumerated herein, whether or not permitted or required to be recorded or filed under the laws of this State heretofore executed, bearing the official act of a notary public as attested by his notarial seal, but which seal does not contain a readable impression of the notary's name are, together with all subsequent acts or actions taken thereon, including but not limited to probate and registration, hereby declared in all respects to be valid to the same extent as if a seal containing a readable impression of the notary's name had been affixed thereto, and shall be binding on the parties of such paper writings and their privies; and such paper writings, together with their certificates, if otherwise competent, may be read in

evidence as a muniment of title for all intents and purposes in any of the courts of this State.

“§ 10-16. *Acts of notaries with seal containing name of another state validated.*—The notarial acts of any person heretofore duly commissioned as a notary public in this State, who used in performing such acts a seal correctly containing the name of the notary and the proper county but mistakenly containing the abbreviation for the State of Georgia instead of North Carolina, are hereby validated and given the same legal effect as if such misprint or incorrect designation of the State had not appeared on the seal or seal imprint so used.

“§ 10-17. *Validation of certain instruments acknowledged prior to January 1, 1945.*—Where any person has taken an acknowledgment as a notary public of a person acting through another by virtue of the execution of a power of attorney and by said person acting in his individual capacity and said notary public has failed to include within his certificate the acknowledgment of said person in his capacity as attorney in fact, and such acknowledgment has been otherwise duly probated and recorded, then such acknowledgment is hereby declared to be sufficient and valid: Provided, this section shall apply only to those deeds and other instruments acknowledged prior to January 1, 1945.”

CHAPTER 682

AN ACT TO CREATE THE NORTH CAROLINA ALCOHOLISM RESEARCH AUTHORITY.

Whereas, the State of North Carolina has provided rehabilitation services for alcoholism for over 20 years; and

Whereas, the prevalence rate of alcoholism has increased during this time; and

Whereas, the problems stemming from alcohol abuse have deleterious effects upon all our citizens by causing broken homes, economic hardships, work difficulties, highway accidents and deaths, other deaths from violence, criminal behavior, medical diseases including sudden death; and

Whereas, until now the State of North Carolina has concentrated its efforts almost exclusively upon treatment and rehabilitation without seeking the root causes of alcoholism and without making efforts at its prevention; and

Whereas, since 1970, the University of North Carolina Center for Alcohol Studies has had a director and small staff supported by a small appropriation; and

Whereas, the initial efforts of the Center for Alcohol Studies have clearly indicated a need for greater expenditure of time, effort and money in the area of alcohol studies; and

Whereas, North Carolina has the potential talent pool of qualified scientists to perform necessary studies; and

Whereas, competent scientists and organizations throughout North Carolina need to be assisted in focusing efforts upon the cause, prevention and cure of alcoholism; and

Whereas, studies in North Carolina of biological (including medical), sociological and psychological factors concerning alcohol use and abuse are needed; and

Whereas, any legal changes hereinafter introduced with regard to the manufacture, distribution, sale and use of alcoholic beverages need to be monitored by modern scientific methods to determine the effects of such legal changes so that further legislative measures might be guided by the results of such scientific study; and

Whereas, an appropriate authority needs to be created to support such efforts; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. The North Carolina Alcoholism Research Authority is hereby created which shall consist of and be governed by a nine-member board to be appointed by the Governor. Sec. 2. The board shall elect one of its members chairman and one as vice-chairman. The director of the Center for Alcohol Studies of the University of North Carolina at Chapel Hill shall serve ex-officio as executive secretary to the Authority. Board members shall receive the same per diem, subsistence, and travel allowances as members of similar State boards and commissions, provided funds are available in the "Alcoholism Research Fund" for this purpose.

Sec. 3. The Authority is hereby authorized to receive funds from State, federal, private, or other sources, which funds shall be held separately and designated as the "Alcoholism Research Fund". The Authority shall expend these funds on research as to the causes and effects of alcohol abuse and alcoholism, and for the training of alcohol research personnel. Expenditures for the purposes specified in this section shall be made as appropriations to nonprofit corporations, organizations, agencies, or institutions engaging in such research or training. The Authority may also pay necessary administrative expenses from the Fund.

Sec. 4. Applications for grants hereinafter shall be processed by the Center for Alcohol Studies. All applications shall be reviewed by scientific consultants to the Center; and the Center, after review and study, shall make recommendations to the Authority as to the awarding of grants. The Center shall also furnish to the Authority such additional clerical assistance as may be required.

The humane treatment of animals is also a charitable purpose.

(c) The fact that a building or facility is incidentally available to and patronized by the general public, so long as there is no material amount of business or patronage with the general public, shall not defeat the exemption granted by this section.

(d) Notwithstanding the exclusive use requirements of this section, if part of a property that otherwise meets the section's requirements is used for a purpose that would require exemption under subsection (a), above, if the entire property were so used, the valuation of the part so used shall be exempted from taxation.

“§ 105-278.6. *Real and personal property used for educational, scientific, literary, or charitable purposes.*—(a) Buildings, the land they actually occupy, and additional adjacent land necessary for the convenient use of any such

Sec. 5. Subdivision (a)(1) of G.S. 105-317, as it appears in 1972 Replacement Volume 2D of the General Statutes of North Carolina, is rewritten to read as follows:

"(1) In determining the true value of land, to consider as to each tract, parcel, or lot separately listed at least its advantages and disadvantages as to location; zoning; quality of soil; water power; water privileges; mineral, quarry, or other valuable deposits; fertility; adaptability for agricultural, timber producing, commercial, industrial, or other uses; past income; probable future income; and any other factors that may affect its value except growing crops of a seasonal or annual nature."

Sec. 6. G.S. 131-110 is rewritten to read as follows:

"§ 131-110. *Tax exemptions.*—The authority shall be exempt from the payment of any taxes or fees to the State or any subdivision thereof, or to any officer or employee of the State or any subdivision thereof. The property of an authority used for public purposes shall be exempt from all local and municipal taxes and for the purposes of such tax exemption, it is hereby declared as a matter of legislative determination that an authority is and shall be deemed to be a municipal corporation. Bonds, notes, debentures and other evidences of indebtedness of an authority are declared to be issued for a public purpose and to be public instrumentalities and, together with interest thereon, shall be exempt from taxes when same are held by the federal government or by any purchaser from the federal government or anyone acquiring title from or through such purchaser."

Sec. 7. G.S. 157-26 is rewritten to read as follows:

"§ 157-26. *Tax exemptions.*—The authority shall be exempt from the payment of any taxes or fees to the State or any subdivision thereof, or to any officer or employee of the State or any subdivision thereof. The property of an authority used for public purposes shall be exempt from all local and municipal taxes and for the purposes of such tax exemption, it is hereby declared as a matter of legislative determination that an authority is and shall be deemed to be a municipal corporation. Bonds, notes, debentures and other evidences of

indebtedness of an authority heretofore or hereafter issued are declared to be issued for a public purpose and to be public instrumentalities and, together with the interest thereon, shall be exempt from taxes."

Sec. 8. G.S. 105-282 is rewritten to read as follows:

"§ 105-282. *Requests for tax relief; burden of proof; records of property given relief.*—(a) An owner of property who seeks to obtain tax relief for his property (through exemption or classification) under the laws of this State has the burden of establishing that the property is entitled thereto. In 1974, and each year thereafter, during the regular listing period, the owner seeking such relief shall file a request therefor with the tax supervisor of the county in which the property, real or personal, would be subject to taxation if taxable. If the property is situated within a city or town and the owner desires relief from municipal taxation, he shall also file a request for tax relief with the person responsible for municipal tax listing. Each such request shall be submitted on a form that has been approved by the Department of Revenue, and such forms shall be made available to owners by the tax supervisor or appropriate municipal tax official. If such a request is denied by a county, the tax supervisor shall notify the owner of this decision in time for him to appeal to the county board of equalization and review and to the Property Tax Commission as provided in G.S. 105-322 and G.S. 105-324. If such a request is denied by a city or town, the person responsible for preparing the municipal tax lists shall notify the owner of this decision in time for him to appeal to the governing body of the city or town and to the Property Tax Commission in accordance with the provisions of G.S. 105-326 or G.S. 105-328. Requests that are approved by a county shall be filed in the office of the county tax supervisor, and requests that are approved by a municipality shall be filed in the office designated by the unit's governing body. The United States, this State, and units of local government in this State are exempted from the requirement of this section that owners make formal request for tax relief. However, this exemption shall not be construed as relieving the State and local units of government from the duty of listing for taxation property that is not used for public purposes.

(b) *Failure to Request Tax Relief; Procedures.* If in any year an owner fails to submit a request for tax relief for his property as provided in subsection (a) above, and also fails to list the property for taxation, the county tax supervisor (and, if the property is situated within a city or town, the person responsible for municipal tax listing) shall treat the property as other unlisted property and proceed as provided in G.S. 105-312. If, upon appeal to the board of equalization and review or board of county commissioners as provided in that section, it is determined that the property is entitled to tax relief, the owner shall be permitted to submit his request for tax relief at that time. The provisions of G.S. 105-312 shall govern the rights, duties, and procedures applicable to the taxpayer, responsible officials, and affected units of local government. The owner's failure to request tax immunity in any year shall not affect his right to proceed under the provisions of subsection (a) above, to obtain tax relief for a subsequent year.

(c) *Roster.* The county tax supervisor shall prepare and maintain a roster of all property in the county that is granted tax relief through classification or exemption. As to affected real and personal property, the roster shall set forth:

(1) The name of the owner of the property.

- (2) A brief description of the property.
- (3) A statement of the use to which the property is put.
- (4) A statement of the value of the property.

The person responsible for preparing the tax lists of a city or town shall prepare and maintain a similar roster of all property in the municipality that is granted tax relief through classification or exemption.

(d) Report. The person required to prepare and maintain any roster prescribed by subsection (c), above, for the year 1974, shall, on or before November 1, 1974, send a duplicate copy thereof to the Department of Revenue and file the original in his office. In subsequent years, on or before November 1, the responsible official shall forward to the Department of Revenue a report of all changes made in the roster first submitted under this subsection."

Sec. 9. The fifth sentence of G.S. 55A-16, as it appears in lines 18 and 19 of the section in 1965 Replacement Volume 2B of the General Statutes of North Carolina, and which reads as follows, is repealed: "All property owned by it and appropriated exclusively for public parks and drives shall not be subject to taxation."

Sec. 10. The following portions of the General Statutes of North Carolina are repealed: G.S. 63-51.1, G.S. 63-52, G.S. 105-281, and paragraph g. of subdivision (b)(2) of G.S. 105-287.

Sec. 11. G.S. 105-283 is rewritten to read as follows:

"§ 105-283. *Uniform appraisal standards*.—All property, real and personal, shall as far as practicable be appraised or valued at its true value in money. When used in this Subchapter, the words 'true value' shall be interpreted as meaning market value, that is, the price estimated in terms of money at which the property would change hands between a willing and financially able buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of all the uses to which the property is adapted and for which it is capable of being used."

Sec. 12. G.S. 105-284 is rewritten to read as follows:

"§ 105-284. *Uniform assessment standard*.—All property, real and personal, shall be assessed for taxation at the valuation established under G.S. 105-283, and taxes levied by all counties and municipalities shall be levied uniformly on assessments determined as provided in this section."

Sec. 13. Subsection (a) of G.S. 105-328 is rewritten to read as follows:

"(a) For purposes of municipal taxation, all property subject to taxation by a city or town situated in two or more counties may, by resolution of the governing body of the municipality, be listed, appraised, and assessed as provided in G.S. 105-326 and 105-327 if, in such a case, in the opinion of the governing body, the same appraisal and assessment standards will thereby apply uniformly throughout the municipality. However, if, in such a case, the governing body shall determine that adoption of the appraisals and assessments fixed by the counties will not result in uniform appraisals and assessments throughout the municipality, the governing body may, by horizontal adjustments, equalize the appraisal and assessment values fixed by the counties in order to obtain the required uniformity. Taxes levied by the city or town shall be levied uniformly on the assessments so determined."

Sec. 14. Subdivision (3) of G.S. 105-273 is rewritten to read as follows:

"(3) 'Assessment' means both the tax value of property and the process by which the assessment is determined."

Sec. 15. Subdivision (4) of G.S. 105-273 is repealed and the remaining subdivisions of that section are renumbered accordingly.

Sec. 16. Subdivision (2) of G.S. 105-115 is rewritten to read as follows:

“(2) The value upon which the tax herein levied shall be assessed by the Secretary of Revenue and the measure of the extent to which every such railroad company is carrying on intrastate commerce within the State of North Carolina shall be fifty-five percent (55%) of the appraised value of the total property, tangible and intangible, in this State, for each such railroad company, as determined for ad valorem taxation during the calendar year in which such report is due.”

Sec. 17. Subsection (d) of G.S. 105-122 is rewritten to read as follows:

“(d) After determining the proportion of its total capital stock, surplus and undivided profits as set out in subsection (c) of this section, which amount so determined shall in no case be less than fifty-five percent (55%) of the appraised value as determined for ad valorem taxation of all the real and tangible personal property in this State of each such corporation plus the total appraised value of intangible property returned for taxation of intangible personal property as herein specified nor less than its total actual investment in tangible property in this State, every corporation taxed under this section shall annually pay to the Secretary of Revenue, at the time the report and statement are due, a franchise or privilege tax, which is hereby levied at the rate of one dollar and fifty cents (\$1.50) per one thousand dollars (\$1,000) of the total amount of capital stock, surplus and undivided profits as herein provided. The tax imposed in this section shall in no case be less than ten dollars (\$10.00) and shall be for the privilege of carrying on, doing business, and/or the continuance of articles of incorporation or domestication of each such corporation in this State: Provided, that the basis for the franchise tax on all corporations, eighty percent (80%) of whose outstanding capital stock is owned by persons or corporations to whom or to which such stock was issued prior to January 1, 1935, in part payment or settlement of their respective deposits in any closed bank of the State of North Carolina, shall be one half the appraised value as determined for ad valorem taxation of the real and tangible personal property of such corporation in this State for the calendar year next preceding the date on which report and statement is due under the provisions of this section. Appraised value of tangible property including real estate shall be the ad valorem valuation for the calendar year next preceding the due date of the franchise tax return. Appraised value of intangible property, except for bank deposits subject to tax under the provisions of G.S. 105-199, shall be the total gross valuation required to be reported for intangible tax purposes on April 15 coincident with or next preceding the due date of the franchise tax return. Appraised value of bank deposits subject to tax under the provisions of G.S. 105-199 shall be the average balance determined under such section for the calendar year next preceding the due date of the franchise tax return. The term ‘total actual investment in tangible property’ as used in this section shall be construed to mean the total original purchase price or consideration to the reporting taxpayer of its tangible properties, including real estate, in this State plus additions and improvements thereto less reserve for depreciation as permitted for income tax purposes, and also less any indebtedness incurred and existing by virtue of the purchase of any real estate and any permanent improvements made thereon. In computing ‘total actual investment in tangible personal property’ there shall also be deducted reserves

for the entire cost of any air cleaning device or sewage or waste treatment plant, including waste lagoons, and pollution abatement equipment purchased or constructed and installed which reduces the amount of air or water pollution resulting from the emission of air contaminants or the discharge of sewage and industrial wastes or other polluting materials or substances into the outdoor atmosphere or into streams, lakes, or rivers, upon condition that the corporation claiming such deduction shall furnish to the Secretary a certificate from the Board of Water and Air Resources certifying that said Board has found as a fact that the air cleaning device, waste treatment plant or pollution abatement equipment purchased or constructed and installed as above described has actually been constructed and installed and that such device, plant or equipment complies with the requirements of said Board with respect to such devices, plants or equipment, that such device, plant or equipment is being effectively operated in accordance with the terms and conditions set forth in the permit, certificate of approval, or other document of approval issued by the Board of Water and Air Resources and that the primary purpose thereof is to reduce air or water pollution resulting from the emission of air contaminants or the discharge of sewage and waste and not merely incidental to other purposes and functions. The cost of constructing facilities of any private or public utility built for the purpose of providing sewer service to residential and outlying areas shall be treated as deductible for the purposes of this section; the deductible liability allowed by this section shall apply only with respect to such pollution abatement plants or equipment constructed or installed on or after January 1, 1955.

In determining the total tax payable by any corporation under this section, there shall be allowed as credit on such tax the amount of intangible tax paid on bank deposits under the provisions of G.S. 105-199 to the extent that such deposits have been concurrently included in the alternative appraised value tax base pursuant to the provisions of this subsection except that the minimum tax herein provided shall not be less than ten dollars (\$10.00). In determining the total tax payable by any corporation under G.S. 105-115 there shall be allowed as credit on such tax the amount of intangible tax paid during the preceding franchise tax year on bank deposits under the provisions of G.S. 105-199."

Sec. 18. The last sentence of G.S. 105-339 is rewritten to read as follows:

"Each local taxing unit receiving such certified valuations shall assess them at the figures certified and shall tax the assessed valuations at the rate of tax levied against other property subject to taxation therein."

Sec. 19. Subsection (c) of G.S. 105-340 is rewritten to read as follows:

"(c) Each local taxing unit receiving certified valuations in accordance with this section shall assess them at the figures certified and shall tax the assessed valuations at the rate of tax levied against other property subject to taxation therein."

Sec. 20. The last sentence of G.S. 105-341 is rewritten to read as follows:

The General Assembly of North Carolina enacts:

Section 1. G.S. 143-214(a) is amended by adding a paragraph immediately following subdivision (9), as follows:

"No person who receives, or during the previous two years has received, a significant portion of his income directly or indirectly from permit holders or applicants for a permit shall be eligible to serve as a member of the Board. The Governor, by executive order, may promulgate criteria for determining the eligibility for persons under this provision, and for this purpose, may promulgate the rules, regulations or guidelines established by any federal agency interpreting and applying equivalent provisions of federal law."

"§ 143-215.2. *Special Orders.*—(a) Issuance. The Board is hereby empowered, after the effective date of classifications, standards and limitations adopted pursuant to G.S. 143-214.1 or G.S. 143-215, to issue (and from time to time to modify or revoke) a special order, or other appropriate instrument, to any person whom it finds responsible for causing or contributing to any pollution of the waters of the State within the area for which standards have been established. Such an order or instrument may direct such person to take, or refrain from taking such action, or to achieve such results, within a period of time specified by such special order, as the Board deems necessary and feasible in order to alleviate or eliminate such pollution. The Board is authorized to enter into consent special orders, assurances of voluntary compliance or other similar documents by agreement with the person responsible for pollution of the water and such document shall have the same force and effect as a special order of the Board issued pursuant to hearing.

(b) Procedure. No special order shall be issued by the Board (unless issued upon consent of the person affected thereby) except after a hearing in accordance with the procedural requirements specified in G.S. 143-215.4 and in any applicable rules of procedure of the Board. Every special order shall be based on and shall set forth the findings of fact resulting from evidence presented at

such hearing and shall specify the time within which the person against whom such order is issued shall achieve the results required by the special order.

(c) Appeals. Any person against whom a special order is issued shall have the right to appeal in accordance with the provisions of G.S. 143-215.5. Unless such appeal is taken within the prescribed time limit, the special order of the Board shall be final and binding.

- (1) The treatment works result in the elimination or alleviation of water pollution to the extent required by such permit, special order, consent special order, assurance of voluntary compliance or other document, or decision and complies with any other terms thereof; and
- (2) Such person complies with the terms and conditions of such permit, special order, consent special order, assurance of voluntary compliance, other document, or decision within the time limit, if any, specified therein or as the same may be extended, and thereafter remains in compliance."

Sec. 4. Subdivision (3) of G.S. 143-215.3(a) is amended to read as follows:

"(3) To conduct public hearings and to delegate the power to conduct public hearings in accordance with the procedures prescribed by this Article;"

Sec. 5. Subdivision (4) of G.S. 143-215.3(a) is hereby amended by rewriting the last sentence thereof to read as follows:

"Any employee of the Department of Natural and Economic Resources to whom a delegation of power is made to conduct a hearing shall report the hearing with its evidence and record to the Board."

Sec. 6. Subdivision (5) of G.S. 143-215.3(a) is amended to read as follows:

"(5) To institute such actions in the superior court of any county in which a violation of this Article or the rules or regulations of the Board has occurred, or, in the discretion of the Board, in the superior court of the county in which any defendant resides, or has his or its principal place of business, as the Board may deem necessary for the enforcement of any of the provisions of this Article or of any official action of the Board, including proceedings to enforce subpoenas or for the punishment of contempt of the Board;"

Sec. 7. G.S. 143-215.3 (a) is amended by rewriting subdivisions (8), (9), and (10), to read as follows:

"(8) After issuance of an appropriate order, to withhold the granting of any permit or permits pursuant to G.S. 143-215.1 or G.S. 143-215.73 for the

construction or operation of any new or additional disposal system or systems or air cleaning device or devices in any area of the State. Such order may be issued only upon determination by the Board, after public hearing held pursuant to the provisions of G.S. 143-215.4, that the permitting of any new or additional source or sources of water or air pollution will result in a generalized condition of water or air pollution within the area contrary to the public interest, detrimental to the public health, safety, and welfare, and contrary to the policy and intent declared in this Article. The Board may make reasonable distinctions among the various sources of water and air pollution and may direct that its order shall apply only to those sources which it determines will result in a generalized condition of water or air pollution.

The determination of the Board shall be supported by detailed findings of fact and conclusions set forth in the order and based upon competent evidence of record. The order shall describe the geographical area of the State affected thereby with particularity and shall prohibit the issuance of permits pending a determination by the Board that the generalized condition of water or air pollution has ceased.

Notice of hearing shall be given by publication at least once a week for two successive weeks in a newspaper or newspapers having general circulation within the area, the date of the first publication to be at least 20 days prior to the date of hearing; and by registered or certified mail at least 20 days in advance of hearing to the governing body of each county, city, town, metropolitan sewerage district, water and sewer district and any other political subdivision lying, in whole or in part, within the area; to every person within the area whose permit application is pending; to every affected or interested agency of local, State, and federal government; and to any other person whom the Board believes to have a direct interest therein.

Any person who is adversely affected by the order of the Board may seek judicial review of the order pursuant to the provisions of G.S. 143-215.5; and the order shall not be stayed by the appeal.

(9) If an investigation conducted pursuant to this Article reveals a violation of any regulations, standards, or limitations adopted by the Board pursuant to this Article, or a violation of any terms or conditions of any permit issued pursuant to G.S. 143-215.1 or G.S. 143-215.73, or special order or other document issued pursuant to G.S. 143-215.2 or G.S. 143-215.74, the Board may assess the reasonable costs of any investigation, inspection or monitoring survey which revealed the violation against the person responsible therefore. If the violation resulted in an unauthorized discharge to the waters or atmosphere of the State, the Board may also assess the person responsible for the violation for any actual and necessary costs incurred by the State in removing, correcting or abating any adverse effects upon the water or air resulting from the unauthorized discharge. If the person responsible for the violation refuses or fails within a reasonable time to pay any sums assessed, the Board may institute a civil action in the superior court of the county in which the violation occurred or, in the Board's discretion, in the superior court of the county in which such person resides or has his or its principal place of business, to recover such sums.

(10) To require any laboratory facility performing or seeking to perform any tests, analyses, measurements, or monitoring required by this Article or regulations of the Board implementing the provisions of this Article to be certified by the Board in accordance with standards established for such

facilities in its regulations; and to charge a reasonable fee for certifying any such laboratory facility.”

Sec. 8. G.S. 143-215.3(a)(12) is amended by renumbering subdivision (12) as subdivision (11).

Sec. 9. G.S. 143-215.3 is amended by adding thereto a new subsection (e), reading as follows:

“(e) Variances. Any person subject to the provisions of G.S. 143-215.1 or G.S. 143-215.73 may apply to the Board for a variance from rules, regulations, standards or limitations established pursuant to G.S. 143-214.1, G.S. 143-215, or G.S. 143-215.72. The Board may grant such variance, but only after public hearing on due notice, if it finds that:

- a. The discharge of waste or the emission of air contaminants occurring or proposed to occur do not endanger human health or safety; and
- b. Compliance with the rules, regulations, standards or limitations from which variance is sought cannot be achieved by application of best available technology economically achievable at the time of application for such variance, or would produce serious hardship without equal or greater benefits to the public.”

Sec. 10. G.S. 143-215.4 is hereby amended by adding “hearing officer” to the tag line and by adding a new subsection (e) as follows:

“(e) One or more qualified employees of the Department of Natural and Economic Resources may be designated as hearing officers to conduct any hearings provided for in this Article in accordance with the procedures established for such hearings by law and the official rules and regulations of the Board. Unless otherwise provided in the Board’s regulations, an order or decision of a hearing officer shall be final and to the same effect as an order or decision of the Board. Appeal from a final order or decision of a hearing officer shall be as provided in G.S. 143-215.5.”

Sec. 11. G.S. 143-215.5 is hereby amended to read as follows:

“§ 143-215.5. *Judicial review.*—(a) Any person against whom a final order or decision has been entered by a hearing officer pursuant to G.S. 143-215.4(d) shall be entitled to a review of the order or decision by the full Board upon written demand by such person within 10 days following notice of the order or decision given by registered or certified mail. The Board shall review the order or decision, the transcript of evidence and exhibits submitted at hearing, and other pertinent matters, and, if good ground be shown therefor, shall reconsider the evidence, receive further evidence, rehear the parties or their representatives, and affirm, modify, or vacate the order or decision. If the order or decision was entered pursuant to a hearing conducted by a member or members of the Board, such member or members shall be disqualified from sitting in review of the order or decision. A majority of the members of the Board shall constitute the full Board on review.

(b) Any person against whom a final order or decision of the Board is entered pursuant to hearing conducted by the Board under G.S. 143-215.4(d), or is entered upon review of an order or decision by a hearing officer or member or members of the Board to whom such authority has been duly delegated, may appeal from the order or decision of the Board within 30 days after receipt of notice by registered or certified mail of the order or decision, but not thereafter, to the Superior Court of Wake County or of the county where the order or decision is effective. Upon such appeal the Board shall send a certified transcript

of all testimony and exhibits introduced before the Board, the order or decision, and the notice of appeal to the superior court. The matter on appeal shall be heard and determined de novo on the transcript certified to the court and any evidence or additional evidence as shall be competent under rules of evidence then applicable to trials in the superior court without a jury upon any question of fact; provided, the court shall allow any party to introduce evidence or additional evidence upon any question of fact. At the conclusion of the hearing, the judge shall make findings of fact and enter his decision thereto. Appeals from the judgment and orders of the superior court shall lie to the Court of Appeals. No bond shall be required of the Board to the Court of Appeals.

- (1) Upon appeal filed by any party, the Board shall forthwith furnish each party to the proceeding with a copy of a certified transcript and exhibits filed with the Board. A reasonable charge shall be paid the Board for said copies.
- (2) Within 15 days after receipt of copy of certified transcript and exhibits, any party may file with the court exceptions to the accuracy or omissions of any evidence or exhibits included in or excluded from said transcript."

Sec. 12. G.S. 143-215.6 is hereby amended to read as follows:

"§ 143-215.6. *Enforcement procedures.*—(a) Civil penalties.

- (1) A civil penalty of not more than five thousand dollars (\$5,000) may be assessed by the Board against any person who:

- a. Violates any classification, standard or limitation established pursuant to G.S. 143-214.1 or G.S. 143-215.
- b. Is required but fails to apply for or to secure a permit required by G.S. 143-215.1, or who violates or fails to act in accordance with the terms, conditions, or requirements of such permit.
- c. Violates or fails to act in accordance with the terms, conditions, or requirements of any special order or other appropriate document issued pursuant to G.S. 143-215.2.
- d. Fails to file, submit, or make available, as the case may be, any documents, data or reports required by this Article.
- e. Refuses access to the Board or its duly designated representatives to any premises for the purpose of conducting any investigations provided for in this Article.
- f. Violates any duly adopted regulation of the Board implementing the provisions of this Article.

- (2) If any action or failure to act for which a penalty may be assessed under this subsection is willful, the Board may assess a penalty not to exceed five thousand dollars (\$5,000) per day for so long as the violation continues.

- (3) The Board may assess the penalties provided for in this subsection. Any person assessed shall be notified of the assessment by registered or certified mail, and the notice shall specify the reasons for the assessment. If the person assessed fails to pay the amount of the assessment to the Department of Natural and Economic Resources within 30 days after receipt of notice, or such longer period, not to exceed 180 days, as the Board may specify, the Board may institute a civil action in the superior court of the county in which the violation occurred or, in the discretion of the Board, in the superior court of the county in which the person

assessed resides or has his or its principal place of business, to recover the amount of the assessment. In any such civil action, the scope of the court's review of the Board's action (which shall include a review of the amount of the assessment), shall be as provided in G.S. 143-315.

(b) Criminal penalties.

(1) Any person who willfully or negligently violates any classification, standard or limitation established pursuant to G.S. 143-214.1 or G.S. 143-215; any term, condition, or requirement of a permit issued pursuant to G.S. 143-215.1 or of a special order or other appropriate document issued pursuant to G.S. 143-215.2; or any regulation of the Board implementing any of the said sections, shall be guilty of a misdemeanor punishable by a fine not to exceed twenty-five thousand dollars (\$25,000) per day of violation, or by imprisonment not to exceed six months, or by both.

(2) Any person who knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Article or regulations of the Board implementing this Article, or who falsifies, tampers with, or knowingly renders inaccurate any recording or monitoring device or method required to be operated or maintained under this Article or regulations of the Board implementing this Article, shall be guilty of a misdemeanor punishable by a fine not to exceed ten thousand dollars (\$10,000), or by imprisonment not to exceed six months, or by both.

(3) Any person convicted of an offense under either subdivision (1) or subdivision (2) of this subsection following a previous conviction under such subdivision shall be subject to a fine, or imprisonment, or both, not exceeding twice the amount of the fine, or twice the term of imprisonment provided in the subdivision under which the second or subsequent conviction occurs.

(4) For purposes of this subsection, the term "person" shall mean, in addition to the definition contained in G.S. 143-213, any responsible corporate or public officer or employee; provided, however, that where a vote of the people is required to effectuate the intent and purpose of this Article by a county, city, town, or other political subdivision of the State, and the vote on the referendum is against the means or machinery for carrying said intent and purpose into effect, then, and only then, this subsection shall not apply to elected officials or to any responsible appointed officials or employees of such county, city, town, or political subdivision.

(c) Injunctive relief. Whenever the Department of Natural and Economic Resources has reasonable cause to believe that any person has violated or is threatening to violate any of the provisions of this Article or any regulations adopted by the Board implementing the provisions of this Article, the Department of Natural and Economic Resources may, either before or after the institution of any other action or proceeding authorized by this Article, request the Attorney General to institute a civil action in the name of the State upon the relation of the Department of Natural and Economic Resources for injunctive relief to restrain the violation or threatened violation and for such other and further relief in the premises as the court shall deem proper. The

Attorney General may institute such action in the superior court of the county in which the violation occurred or may occur or, in his discretion, in the superior court of the county in which the person responsible for the violation or threatened violation resides or has his or its principal place of business. Upon a determination by the court that the alleged violation of the provisions of this Article or the regulations of the Board has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from any penalty prescribed for violation of this Article."

Sec. 13. G.S. 143-215.8 is hereby amended to read as follows:

"§ 143-215.8. *Planning.*—(a) Policy, purpose and intent. The Board and Department of Natural and Economic Resources shall undertake a continuing planning process to develop and adopt plans and programs to assure that the policy, purpose and intent declared in this Article are carried out with regard to establishing and enforcing standards of water purity designed to protect human health, to prevent injury to plant and animal life, to prevent damage to public and private property, to enhance the quality of the environment, to insure the continued enjoyment of the natural attractions of the State, to encourage the expansion of employment opportunities, to provide a permanent foundation for healthy industrial development, and to insure the beneficial use of the water resources of the State.

(b) Goals. The goals of the continuing planning process shall be the enhancement of the quality of life and protection of the environment through development by the Board of water quality plans and programs utilizing the resources of the State on a priority basis to attain, maintain, and enhance water quality standards and water purity throughout the State.

(c) Statewide and regional planning. The planning process may be conducted on a statewide or regional basis, as the Board shall determine appropriate. If the Board elects to proceed on a regional basis, it shall delineate the boundaries of each region by preparation of appropriate maps; by description referring to geographical features, established landmarks or political boundaries; or such other manner that the extent and limits of each region shall be easily ascertainable. The Board shall consult officials and agencies of localities and regions in the development of plans affecting those areas.

(d) Local planning organizations. The Board shall submit to the Governor or his designee any plans, projections, data, comments or recommendations that he may request. If the Governor determines that the goals of this section will be more expeditiously and efficiently achieved, he may designate a representative organization, capable of carrying out a planning process for any region of the State or area therein, to develop plans, consistent with the State's water quality management plans, for the control or abatement of water pollution within such region or area. The Board shall consult with, advise, and assist any organization so designated in the preparation of its plans and shall submit to the Governor the Board's comments and recommendations regarding such plans. All such organizations shall submit plans developed by them to the Governor for review, and no plan shall be effective until concurred in and approved by him.

(e) Interstate planning regions. The Governor may consult and cooperate with the governor of any adjoining state in establishing an interstate planning region or area and in designating a representative organization, capable of

carrying out a planning process for the region or area, to develop plans, consistent with the State's water quality management plans, for the control or abatement of water pollution within such region or area, if he determines that such region or area has common water quality control problems for which an interstate plan would be most effective.

(g) The Board shall establish procedures for the development, revision and modification of plans under this section through adoption of appropriate rules and regulations. The rules and regulations of the Board shall establish procedures for public hearing on all plans prior to their adoption, modification or revision, and upon adoption, they shall become the official water quality management plans of the State."

Sec. 14. G.S. 143-215.13 is amended by adding thereto a new subsection (d), reading as follows:

"(d) The Board may conduct a public hearing pursuant to the provisions of G.S. 143-215.4 in any area of the State, whether or not a capacity use area has been declared, when it has reason to believe that the withdrawal of water from or the discharge of water pollutants to the waters in such area is having an unreasonably adverse effect upon such waters. If the Board determines, pursuant to hearing, that withdrawals of water from or discharge of water pollutants to the waters within such area has resulted or probably will result in a generalized condition of water depletion or water pollution within the area to the extent that the availability or fitness for use of such water has been impaired for existing or proposed uses and that injury to the public health, safety or welfare will result if increased or additional withdrawals or discharges occur, the Board may issue an order:

- (1) Prohibiting any person withdrawing waters in excess of one hundred thousand (100,000) gallons per day from increasing the amount of the withdrawal above such limit as may be established in the order.
- (2) Prohibiting any person from constructing, installing or operating any new well or withdrawal facilities having a capacity in excess of a rate established in the order; but such prohibition shall not extend to any new well or facility having a capacity of less than ten thousand (10,000) gallons per day.
- (3) Prohibiting any person discharging water pollutants to the waters from increasing the rate of discharge in excess of the rate established in the order.
- (4) Prohibiting any person from constructing, installing or operating any facility that will or may result in the discharge of water pollutants to the waters in excess of the rate established in the order.
- (5) Prohibiting any agency or political subdivision of the State from issuing any permit or similar document for the construction, installation, or operation of any new or existing facilities for withdrawing water from or discharging water pollutants to the waters in such area in excess of the rates established in the order.

The determination of the Board shall be supported by detailed findings of fact and conclusions set forth in the order and based upon competent evidence of record. CHAPTER 709

AN ACT TO PROVIDE FOR THE CLASSIFICATION, APPRAISAL, ASSESSMENT AND TAXATION OF AGRICULTURAL, HORTICULTURAL AND FOREST LAND.

The General Assembly of North Carolina enacts:

Section 1. Article 12 of Chapter 105 of the General Statutes of North Carolina is hereby amended by adding the following sections thereto to be numbered and to read as follows:

"§ 105-277.2. *Classifications.*—(a) The following classes of property are hereby designated special classes of property under authority of Article V, Section 2(2) of the North Carolina Constitution and shall be appraised, assessed and taxed as hereinafter provided:

(1) Individually owned agricultural land, consisting of 10 acres or more and having gross income from the sale of agricultural products produced thereon (together with any payments received under a governmental soil conservation or land retirement program) averaging one thousand dollars (\$1,000) per year for each of the three years immediately preceding January 1 of the year for which the benefit of this section is claimed.

(2) Individually owned horticultural land, consisting of 10 acres or more and having gross income from the sale of horticultural products produced thereon (together with any payments received under a governmental soil conservation or land retirement program) averaging one thousand dollars (\$1,000) per year for each of the three years immediately preceding January 1 of the year for which the benefit of this section is claimed.

(3) Individually owned forest land, consisting of 20 acres or more unless the property is included in a farm unit qualifying under G.S. 105-277.2(a)(1).

(b) In order to come within a classification described in subdivision(a)(1), (2) or (3), above, the property must also be:

(1) The owner's place of residence; or

(2) Owned by the present owner, by his siblings, or by one or both of his parents for the seven years immediately preceding January 1 of the year for which the benefit of this section is claimed.

“§ 105-277.3. *Definitions.*—For the purposes of this section the following definitions shall apply:

(1) ‘Land’ includes land and land improvements but not buildings or other improvements.

(2) ‘Agricultural land’ means land, including woodland and wasteland which form a contiguous part thereof, constituting a farm unit actively engaged in the commercial production or growing of crops, plants, or animals under a sound management program.

(3) ‘Horticultural land’ means land constituting a horticultural unit actively engaged in the commercial production or growing of fruits, vegetables, nursery or floral products under a sound management program.

(4) ‘Forest land’ means land constituting a forest unit actively engaged in the commercial growing of trees under a sound management program.

(5) ‘Sound management program’ means a program of production designed to obtain the greatest net return from the land consistent with its conservation and long-term improvement.

(6) ‘Present use value’ means the price estimated in terms of money at which the property would change hands between a willing and financially able buyer and a willing seller, neither being under any compulsion to buy or to sell, assuming that both of them have reasonable knowledge of the capability of the property to produce income in its present use and that the present use of the property is its highest and best use.

(7) Individually owned land (agricultural, horticultural or forest) means land, exclusive of buildings thereon, owned by a natural person or persons and not a corporation.

“§ 105-277.4. *Application for taxation at present use value.*—(a) Property coming within one of the classes defined in G.S. 105-277.2 but having a greater value for other uses shall be eligible for taxation on the basis of the value of the property in its present use if a timely and proper application is filed with the tax supervisor of the county in which the property is located. The application shall clearly show that the property comes within one of the classes and shall also contain any other relevant information required by the tax supervisor in properly appraising the property at its present use value. The application shall be filed annually during the regular listing period. If, in the opinion of the tax supervisor, the property does not meet the requirements of this section, he shall deny the application. Decisions of the tax supervisor may be appealed to the county board of equalization and review or, if that board is not in session, to the board of county commissioners. Decisions of the county board may be appealed to the Property Tax Commission as provided in G.S. 105-324.

(b) Upon receipt of a properly executed application, the tax supervisor shall appraise the property at its present use value as of January 1 of the year for which the application is filed. The property owner may appeal the present use appraisal to the board of equalization and review or, if that board is not in session, to the board of county commissioners and from the county board to the Property Tax Commission. Except for valuation changes made necessary by changes in the number of acres qualified for classification or by changes in the nature of the operations of a qualifying owner, the present use appraisal

established in the year of the initial application shall continue in effect until a revaluation of all property in the county is conducted under the provisions of G.S. 105-286. If all or any part of a qualifying tract of land is located within the limits of an incorporated city or town, the tax supervisor shall furnish a copy of the property record showing both the present use appraisal and the valuation upon which the property would have been taxed in the absence of this classification to the tax collector of the city or town. He shall also notify the tax collector of any changes in the appraisals or in the eligibility of the property for the benefit of this classification.

(c) Property meeting the conditions herein set forth shall be taxed on the basis of the value of the property for its present use. The difference between the taxes due on the present use basis and the taxes which would have been payable in the absence of this classification shall be a lien on all the real property of the taxpayer as provided in G.S. 105-355(a), shall be carried forward in the records of the taxing unit or units as deferred taxes, but shall not be payable, unless and until the owner disposes of the property or the property loses its eligibility for the benefit of this classification for some other reason. The tax for the fiscal year that opens in the calendar year in which a disqualification occurs shall be computed as if the property had not been classified for that year, and taxes for the preceding five fiscal years which have been deferred as provided herein, shall immediately be payable, together with interest thereon as provided in G.S. 105-360 for unpaid taxes which shall accrue on the deferred taxes due herein as if they had been payable on the dates on which they originally became due. If only a part of a qualifying tract of land loses its eligibility, a determination shall be made of the amount of deferred taxes applicable to that part and that amount shall become payable with interest as provided above.

“§ 105-277.5. *Notice of change in use.*—Not later than the close of the listing period following a change in use or disposal of property receiving the benefit of this classification, the property owner shall furnish the tax supervisor with complete information regarding such change or disposal. Any property owner who fails to notify the tax supervisor of a change in use or disposal of a tract of land receiving the benefit of this classification shall be subject to a penalty of ten percent (10%) of the total amount of the deferred taxes and interest thereon for each listing period for which the failure to report continues.

“§ 105-277.6. *Appraisal; computation of deferred tax.*—(a) In determining the amount of the deferred taxes herein provided, the tax supervisor shall use the appraised valuation established in the county's last general revaluation except for any changes made under the provisions of G.S. 105-287. Such appraised valuations shall be adjusted, however, to eliminate any economic obsolescence allowed in the appraisal of improvements on the property on account of the use to which the property was put at the time it was last appraised.

(b) In revaluation years, as provided in G.S. 105-286, all property entitled to classification under G.S. 105-277.2 shall be reappraised at its true value in money and at its present use value as of the effective date of the revaluation. The two valuations shall continue in effect and shall provide the basis for deferred taxes until a change in one or both of the appraisals is required by law.

(c) To insure uniform appraisal of the classes of property herein defined in each county, the tax supervisor shall prepare a schedule of land values, standards and rules which, when properly applied, will result in the appraisal of the

property at its present use value. The schedule of values, standards and rules shall be subject to all of the conditions set forth in G.S. 105-317(c), (c)(1) and (c)(2) relating to the adoption of schedules, standards and rules in revaluation years.

“§ 105-277.7. *Property Tax Commission Supervision.*—To insure reasonable uniformity among the counties of the State in making appraisals as prescribed herein, the Property Tax Commission shall prepare rules, regulations and standards for use by county taxing officials in administering the provisions of this section.”

Sec. 2. This act shall become effective January 1, 1974.

In the General Assembly read three times and ratified, this the 23rd day of May, 1973.

CHAPTER 718

AN ACT TO PRESCRIBE STANDARDS FOR CURB RAMPS OR CURB CUTS FOR HANDICAPPED PERSONS.

Whereas, more than 500,000 North Carolinians are dependent on crutches, braces, or canes; confined to wheelchairs; crippled by arthritis; suffering from heart or lung diseases; enfeebled by old age; limited in mobility by blindness; and otherwise limited in mobility by physical disability; and

Whereas, thousands of North Carolinians become "temporarily disabled" every year due to broken legs, sprained ankles, pregnancy (latter stages); and

Whereas, due to advances in medicine and rehabilitation, the number of disabled and aged people in the population is steadily increasing, and fewer of them need be housebound; and

Whereas, many elderly citizens who are limited by disabilities late in life want to enjoy the fullness of community life which their efforts helped to build; and

Whereas, access to and use of sidewalks, walkways, streets, and highways is necessary for the physically disabled to fulfill their rights and responsibilities as citizens, to become employed and become taxpayers, and to exercise their constitutional right to "life, liberty, and property"; and

Whereas, the Final Report of the Governor's Study Committee on Architectural Barriers included recommendations which, if implemented, would enable the physically handicapped to more fully utilize sidewalks and walkways, and highways and streets; Now, therefore,

The General Assembly of North Carolina enacts:

Section 1. Curbs constructed on each side of any street or road, where both curbs and sidewalks are provided and at other major points of pedestrian flow, shall meet the following minimum requirements:

(1) No less than two (2) curb ramps or curb cuts shall be provided per lineal block, located at intersections.

(2) In no case, shall the width of a curb ramp or curb cut be less than 40 inches.

(3) The maximum gradient of such curb ramps or curb cuts shall be 8.33% (12 inches slope for every 1 inch rise) in relationship to the grade of the street or road.

(4) One (1) curb ramp or curb cut may be provided under special conditions between each radius point of a street turn-out of an intersection, if adequate provisions are made to prevent vehicular traffic from encroaching on the ramp.

Sec. 2. Minimum requirements for curb ramps or curb cuts under Section 1 shall be met (1) in the initial construction of such curbs, and (2) whenever such curbs are reconstructed, including, but not limited to, reconstruction for maintenance procedures and traffic operations, repair, or correction of utilities.

Sec. 3. The Department of Transportation, Division of Highways, Highway Design Section, is authorized and directed to develop guidelines to implement this act in consultation with the Governor's Study Committee on Architectural Barriers (or the Committee on Barrier-Free Design of the Governor's Committee on Employment of the Handicapped if the Governor's Study Committee on Architectural Barriers ceases to exist). All curb ramps or

curb cuts constructed or reconstructed in North Carolina shall conform to the guidelines of the Highway Design Section.

Sec. 4. The Department of Transportation, Division of Highways, Highway Design Section, is authorized and directed to provide free copies of this act together with implementary guidelines and standards, to municipal and county governments and public utilities operating within the State.

Sec. 5. This act shall become effective September 1, 1973.

Section 1. There is hereby created the "Carteret, Craven, Jones, Pamlico Airport Authority" (for brevity hereinafter referred to as the "Authority"), which shall be a body corporate and politic, having the powers and jurisdiction hereinafter enumerated and such other and additional powers as shall be conferred upon it by future acts of the General Assembly.

Sec. 2. The Authority shall consist of eight members, two of whom shall be residents of Carteret County, two of whom shall be residents of Craven County, two of whom shall be residents of Jones County and two of whom shall be residents of Pamlico County.

Each county shall be entitled to have two representatives on said Authority and the representatives shall be appointed biennially by a majority of the board of county commissioners of said county at the first regular meeting of such commissioners in July.

Within 30 days after the ratification of this act, each board of county commissioners shall appoint its representatives on said Authority to hold office until successors shall be appointed in the manner hereinbefore set forth, provided, however, that the representatives first so appointed shall hold office from appointment until the second July thereafter, at which time successors shall be appointed in the manner hereinabove provided.

Upon the occurrence of any vacancy on said Authority, said vacancy shall be filled within 60 days after notice thereof by the board of county commissioners which has a vacancy within its representation.

Each of the members of the Authority and each successor shall take and subscribe to an oath of office before the Clerk of Superior Court of the county in which they reside and file certified copies of same with the boards of county commissioners of the counties of Carteret, Craven, Jones and Pamlico.

Sec. 3. The fiscal year of the Authority shall begin on July 1 and end on June 30. On or before the first day of May of each calendar year, the Authority shall prepare and adopt a budget for its proposed expenditures for the next ensuing fiscal year and file copies of such budget with the boards of commissioners of the counties of Carteret, Craven, Jones and Pamlico.

All vouchers issued for the payment of money by the Authority shall be signed by the county auditor disbursing such funds together with the chairman of the Authority and shall be paid when there are sufficient funds on hand for such payment, provided, however, that no disbursement shall be made which is not authorized and provided for in the budget of the Authority.

Sec. 5. Only a county or counties contributing and having contributed an equal amount to the establishment and operation of airport facilities shall be entitled to have voting representatives on the Authority. Upon the failure of any county (1) to give notice of its intention to contribute equally to the Authority budget, (2) to adopt a county budget providing for equal contribution of the county to the Authority budget, or (3) to make equal contribution to the Authority budget as herein provided, the representatives appointed to the Authority by such county automatically shall be disqualified from voting on any matter requiring a vote of the Authority, such disqualification to be effective as of the date of the aforesaid failure by the county to act with regard to the Authority budget.

Sec. 6. The Authority shall appoint from its voting members a chairman, vice chairman and such other officers as it may deem necessary for the orderly conduct of its business. The proceeds of the sale of any such bonds may be expended by the Authority as may be determined by the board of commissioners of the county issuing same.

Sec. 9. Any lands acquired, owned, controlled or occupied by said Authority shall, and are hereby declared to be acquired, owned, controlled and occupied for a public purpose.

Sec. 12. All rights and powers given to the counties by the statutes of North Carolina, which may now be in effect or be enacted in the future relating to the development, regulation and control of airports and the regulations of aircraft are hereby vested in said Authority, and the counties of Carteret, Craven, Jones and Pamlico may delegate their powers under the said acts to the Authority and the Authority shall have concurrent right with the counties of Carteret, Craven, Jones and Pamlico to control, regulate, and provide for the development of aviation in the counties of Carteret, Craven, Jones and Pamlico as hereinbefore provided and limited.

Sec. 13. The Authority is hereby authorized to employ such agents, engineers, attorneys and other persons whose services may be deemed by the Authority to be necessary or useful in carrying out the provisions of this act. Members of the Authority shall not be personally liable, in any manner, for their acts as members of the Authority, except for misfeasance or malfeasance.

Sec. 14. "§ 20-78.3. *Secretary may adopt rules and regulations.*—The Secretary is hereby vested with the power and is charged with the duties of administering the provisions of this Part and is authorized to adopt such rules and regulations as may be necessary to carry out the provisions thereof.

"§ 20-78.4. *Removal from private property.*—Any abandoned or any derelict vehicle in this State shall be subject to be removed from public or private property provided not objected to by the owner of the private property after notice as hereinafter provided and disposed of in accordance with the provisions of this Part, provided, that all abandoned motor vehicles left on any right-of-way of any road or highway in this State may be removed in accordance with G.S. 20-161.

The notice of publication may contain multiple listings of vehicles. Five days after date of publication the advertised vehicles may be sold. The proceeds of such sale shall be deposited in the highway fund established for the purpose of administering the provisions of this Part.

Any demolisher purchasing or acquiring any vehicle hereunder shall, under oath, state to the Department that the vehicles purchased or acquired by it have been shredded or recycled.

The Secretary shall remove and destroy all departmental records relating to such vehicles in such method and manner as he may prescribe.

“§ 20-78.7. *Secretary may contract for disposal.*—The Secretary is hereby authorized to contract with any federal, other state, county or municipal authority or private enterprise for tagging, collection, storage, transportation or any other services necessary to prepare derelict or abandoned vehicles for recycling or other methods of disposal. “§ 20-78.9. *Enclosed, antique, registered and certain other vehicles exempt.*—The provisions of this Part shall not apply to vehicles located on used car lots, in private garages, enclosed parking lots, or on any other parking area on private property which is not visible from any public street or highway, nor to motor vehicles classified as antiques and registered under the laws of the State of North Carolina, those not required by law to be registered, or those in possession of a salvage yard as defined in Section 2 of this act, unless that vehicle presents some safety or health hazard or constitutes a nuisance.”

RELATING TO COMMITMENT OF PERSONS TO TREATMENT
FACILITIES FOR THE MENTALLY ILL.

The General Assembly of North Carolina enacts:

Section 1. Article 5 of Chapter 122 of the General Statutes is hereby amended to read as follows:

“Article 5.

“Involuntary Commitment.

“§ 122-60. *Declaration of policy.*—It is the policy of the State to insure that no person shall be committed to a treatment facility unless he is determined to be dangerous to himself or others or gravely disabled. It is further the policy of the State to insure that the commitment of any person with mental illness or inebriety to a treatment facility will be implemented under conditions that protect the dignity and rights of the person; to establish procedures which promptly respond to the needs of the person; to encourage the utilization of voluntary admissions to programs and treatment facilities; and to assure that any person admitted to inpatient treatment facilities is discharged as soon as a less restrictive mode of treatment is appropriate.

“§ 122-61. *Definitions.*—(a) The words ‘law enforcement officer’, as used in this Article, shall mean sheriffs, deputy sheriffs, constables, police officers, and highway patrolmen.

(b) The words ‘gravely disabled’, as used in this Article, shall mean unable because of mental illness or inebriety to provide for basic personal needs for food, clothing, or shelter.

(c) The word ‘custody’, as used in this Article, shall mean such physical restraint as is necessary to bring a person before a magistrate for a hearing, or to a qualified physician for examination, or to a treatment facility for evaluation after the hearing, including the detaining of a person in his own home, in a private hospital or in a treatment facility, if necessary to locate a magistrate or qualified physician, for a period not to exceed 24 hours, provided that in no event may custody include detention in a nonmedical facility used for the detention of individuals charged with or convicted of penal offenses.

(d) The word ‘person’, as used in this Article, shall mean the person taken into custody or admitted to a treatment facility.

(e) The words ‘qualified physician’, as used in this Article, shall have the same meaning as defined in G.S. 122-36(f).

(f) The words ‘treatment facility’, as used in this Article, shall mean any hospital or institution operated by the State of North Carolina and designated for the admission of any person in need of care and treatment due to mental illness or mental retardation, any center or facility operated by the State of North Carolina for the care, treatment or rehabilitation of inebriates, and any

community mental health clinic or center administered by the State of North Carolina, and, provided that approval of admission or commitment is obtained from the Director of the Inpatient Service, the Psychiatric Training and Research Center at the South Wing of the North Carolina Memorial Hospital at Chapel Hill for admission or commitment to that facility.

(h) The word 'inebriety', as used in this Article, shall mean 'inebriety' as defined in G.S. 122-36(c).

"§ 122-62. *Involuntary commitment*.—A person may be involuntarily committed only in the following ways:

(1) *Judicial hospitalization*. Any person who, by reason of the commission of overt acts, is determined by a law enforcement officer to be violent and of imminent danger to himself or others, or to be gravely disabled, may be taken into custody by a law enforcement officer but only for the purpose of obtaining a personal medical examination and evaluation of the person by a qualified physician. The law enforcement officer may not retain the person in custody after such personal examination and evaluation without the authorization required by this section, nor may the law enforcement officer retain the person in custody for more than 24 hours prior to obtaining the personal medical examination and evaluation. Any person who, by reason of the commission of overt acts, is determined by a qualified physician to be violent and of imminent danger to himself or others, or to be gravely disabled, may be taken into custody by a law enforcement officer as authorized by this section. Authorization may be given by any qualified physician in the form of a written statement that he has made a personal examination of the person within 24 hours of the date of his statement and that it is his professional opinion, based upon such examination, that the person is violent and of imminent danger to himself or others, or is gravely disabled. The written statement of the qualified physician must specify the overt acts upon which his professional opinion is based. The qualified physician's written statement, when in the possession of the law enforcement officer for a period not to exceed 72 hours after it is made, shall constitute authority, without any court order, for such law enforcement officer to bring the person and the written authorization of the qualified physician immediately before a magistrate.

(2) *Emergency hospitalization*. If a law enforcement officer has reasonable grounds to believe, by reason of the commission of overt acts, that any person is violent and of imminent danger to himself or others and that the delay of obtaining a medical examination would likely endanger life or property, such law enforcement officer may take the person into custody and bring the person immediately before a magistrate.

"§ 122-63. *Duties of magistrate*.—Judicial hospitalization.

(1) When the person is brought before the magistrate pursuant to G.S. 122-62(1), it shall be the duty of the magistrate to determine if there are reasonable grounds to believe, by reason of the commission of overt acts, that the person is violent and of imminent danger to himself or others, or is gravely disabled. In making such determination, the magistrate must first take and consider oral testimony and may also consider any written authorization of a qualified physician.

After hearing the evidence, the magistrate shall issue a written order either releasing the person from custody or directing the law enforcement officer to transport the person to a treatment facility where the person shall remain pending the hearing unless released according to G.S. 122-64.

If the magistrate orders the law enforcement officer to transport the person to a treatment facility, the written order shall contain findings of fact which specify the overt acts that give reasonable grounds to believe that the person is violent and of imminent danger to himself or others, or is gravely disabled.

(2) Emergency hospitalization. When the person is brought before the magistrate pursuant to G.S. 122-62(2), the magistrate shall order the release of the person from custody if he determines that there are not reasonable grounds to believe, by reason of the commission of overt acts, that the person is violent and of imminent danger to himself or others or is gravely disabled, or if he determines that there are not reasonable grounds to believe that the delay of obtaining a medical examination prior to taking the person into custody would likely endanger life or property.

In making his determination, the magistrate must take and consider oral testimony.

If the magistrate does not order the release of the person from custody, he shall issue an order directing a law enforcement officer to transport the person to a treatment facility for the purpose of obtaining a medical examination as provided in G.S. 122-64.

Upon receiving the written statement of the qualified physician who has examined the patient pursuant to G.S. 122-64, the magistrate shall determine if there are reasonable grounds to believe, by reason of the commission of overt acts, that the person is violent and of imminent danger to himself or others, or is gravely disabled. In making such determination, the magistrate shall consider oral testimony which he has previously heard and may also consider the written statement of the qualified physician and additional oral testimony.

If the magistrate determines that there are not reasonable grounds to believe, by reason of the commission of overt acts, that the person is violent and of imminent danger to himself or others, or is gravely disabled, then he shall order the release of the person from custody.

If the magistrate determines that there are reasonable grounds to believe, by reason of the commission of overt acts, that the person is violent and of imminent danger to himself or others, or is gravely disabled, then the magistrate shall order that the person be retained in custody pending the district court hearing provided for in G.S. 122-65; provided that if the written statement of the qualified physician who has examined the person pursuant to G.S. 122-64 concludes that the person is not violent and of imminent danger to himself or others and is not gravely disabled, then the magistrate shall order the person released from custody pending the district court hearing provided for in G.S. 122-65.

If the magistrate orders that the person be retained in custody or released pending the district court hearing, the written order shall contain findings of fact which specify the overt acts that give reasonable grounds to believe that the person is violent and of imminent danger to himself or others, or is gravely disabled.

If no written statement containing the determination of a qualified physician pursuant to G.S. 122-64 is furnished to the magistrate within 48 hours of the

arrival of the person at the treatment facility, the magistrate shall order the immediate release of the person from custody.

“§ 122-64. *Examination by qualified physician at treatment facility.*—(1) Within 24 hours of arrival of a person at a treatment facility pursuant to G.S. 122-63, he shall receive a personal medical examination and evaluation by a qualified physician, who shall determine on the basis of the examination whether the person is violent and of imminent danger to himself or others, or is gravely disabled. The determination shall be in the form of a written statement. If the qualified physician determines that the person is violent and of imminent danger to himself or others, he shall record reasons for his determination in his written statement.

(2) (a) If a person is brought to the treatment facility for judicial hospitalization pursuant to G.S. 122-63(1),

(i) he may be released from the treatment facility pending the time of the district court hearing provided for in G.S. 122-65 if the qualified physician who examines him determines that he is not violent and of imminent danger to himself or others and is not gravely disabled;

(ii) he shall remain at the treatment facility pending the district court hearing provided for in G.S. 122-65 if the qualified physician who examined him determines that he is violent and of imminent danger to himself or others or is gravely disabled.

(b) If a person is brought to the treatment facility for emergency hospitalization pursuant to G.S. 122-63(2), the written statement of the qualified physician shall be furnished to the magistrate within 24 hours of the medical examination.

“§ 122-65. *District Court hearing.*—(1) Within five days, or for good cause shown for delay, within 10 days of the date that the person is taken into custody, a District Court Judge shall hear the case to determine, by reason of the commission of overt acts, whether the person is violent and of imminent danger to himself or others, or is gravely disabled. If the District Court Judge makes such determination, he shall order the person to be committed to a treatment facility, or, in the alternative, he may order outpatient treatment of the person at a treatment facility or at a private facility which provides mental health care and treatment; provided, that treatment provided by a private facility shall be paid for by the person.

Calendaring of the hearing shall be in accordance with G.S. 7A-146. The Clerk of Court shall give notice to the person taken into custody and his attorney of the date of the hearing, no later than 48 hours preceding the date of hearing, unless such notice is waived by the attorney of the person.

(2) If the hearing has not been held and a written order of involuntary commitment signed by the District Court Judge within 10 days of the date the person is taken into custody, the person shall be immediately released from custody and from the treatment facility.

(3) The court shall inquire whether the person is indigent as defined in 7A-450 of the General Statutes. If the court finds the person to be indigent, counsel shall be appointed by the court pursuant to Chapter 7A. The judge at the time of or prior to the hearing shall inquire whether the person is represented by counsel and, if not, shall appoint counsel. Such fees and other necessary expenses of representation shall be borne by the State, provided that such fees and other necessary expenses of representation paid by the State shall be reimbursed to the

State by the person represented unless the person is determined to be indigent under Chapter 7A.

(4) The person shall be present at the hearing, and such right shall be waived only at the written recommendation of the attorney of the person, with the concurrence of the court.

(5) The person has a right to be represented by counsel at the hearing, but this right may be waived with the consent of the Court.

(6) A transcript of the hearing shall be made, and the cost of the transcript added to the court costs. If the person is eligible for court appointed counsel under Chapter 7A, he shall be provided with a transcript, and such cost shall be borne by the State.

(7) The order of the District Court Judge may be appealed to the Superior Court for a hearing *de novo*. The person at such hearing shall retain the right to a jury determination of the issues in accordance with the North Carolina Rules of Civil Procedure.

“§ 122-66. *Length of involuntary commitment, rehearing.*—(1) Length of involuntary commitment. If the District Court Judge determines at the hearing provided for in G.S. 122-65, by reason of the commission of overt acts, that the person is violent and of imminent danger to himself or to others, or is gravely disabled, the District Court Judge shall issue an order that such person be admitted for care and treatment at the appropriate treatment facility for a period not to exceed 90 days.

(2) Rehearing. If the superintendent or director of the treatment facility determines that the person will be in need of care and treatment beyond the initial period of commitment, he shall make written request for rehearing to the Chief District Judge at least 30 days prior to the end of the commitment period. At the time he makes this request, the superintendent or director shall give a copy of such request to the person, or to his guardian if the person has been adjudicated incompetent under Chapter 35 and has not been restored to legal capacity, and to the person's attorney. At least 15 days before the rehearing, the Clerk of Court shall notify the person, or his guardian if the person has been adjudicated incompetent according to Chapter 35 and has not been restored to legal capacity, and his attorney of the date set for rehearing. The rehearing shall be conducted according to the procedure set forth in G.S. 122-65(3), (4), (5), (6), and (7). At the rehearing, the person shall be accorded all rights to which he was entitled at the initial commitment hearing before the District Court Judge. Each subsequent commitment ordered after rehearing by the District Court Judge shall not exceed 120 days and shall not be extended except by the procedures set forth in this section.

“§ 122-67. *Discharge.*—The superintendent or the director of the treatment facility may discharge an involuntarily committed person at any time before the expiration of the commitment period.

When an involuntarily committed person is discharged from the treatment facility, transportation must be provided for him to the county of his residence by the sheriff of such county. The cost of such return shall be borne by the county of residence.

An involuntarily committed person who is discharged may, however, elect to use alternate means of transportation, including bus or private automobile. Should such an election be made by the person, he may be discharged provided that he bears the cost of such transportation.

Within 10 days following the discharge of an involuntarily committed person, the superintendent or director of the treatment facility shall prepare and send to the District Court Judge upon whose order commitment was authorized a certificate of discharge which shall be filed in the court record. In such certificate, the superintendent or director may find that the patient is no longer in need of care and treatment in a treatment facility, in which case such certificate shall operate to remove all disabilities arising from the commitment."

CHAPTER 727

AN ACT TO RECALL FUNDS PREVIOUSLY APPROPRIATED TO THE NORTH CAROLINA HOUSING CORPORATION AND TO ESTABLISH A SPECIAL COMMITTEE TO STUDY THE ROLE OF THIS STATE IN HOUSING FOR PERSONS AND FAMILIES OF LOWER INCOME AND TO REPORT ITS FINDINGS TO THE GENERAL ASSEMBLY.

Whereas, the North Carolina Housing Corporation was established by Chapter 1235, Session Laws of 1969, and was at that time granted an appropriation in the amount of five hundred thousand dollars (\$500,000), for the purpose of aiding families of lower income in obtaining residential housing; and

Whereas, during the four years of its operation the effect of the North Carolina Housing Corporation on housing problems within this State has been negligible; and

Whereas, there is a severe housing shortage in this State acutely felt by nearly one and a half million North Carolinians; and

Whereas, some twenty other states have housing finance agencies similar to the North Carolina Housing Corporation which have enjoyed moderate success and in particular the Michigan State Housing Authority is not only self-supporting but is returning excess income over expenses to the state; and

Whereas, none of the housing finance agencies of other states have been abolished; and

Whereas, the reasons for the failure of the North Carolina Housing Corporation to make a significant impact on this State's housing problem despite the personal efforts of those involved with the North Carolina Housing Corporation are extremely complex and varied; and

Whereas, the entire role of the State in the field of housing, as to how the State of North Carolina may most properly and efficiently aid those in need of adequate housing, is unclear due to several uncertainties, including uncertainties as to the effect of actions taken and to be taken by the United States Government; and

Whereas, the General Assembly of North Carolina intends to fulfill its obligations to the people of this State in the field of housing, but does not intend to allow the further expenditure of tax monies in an ineffective manner; Now therefore,

The General Assembly of North Carolina enacts:

Section 1. Thirty days following ratification of this act, no further expenditures will be made from any funds appropriated to the North Carolina Housing Corporation for salaries of any employees or officers of the Corporation, and at that time all employees and officers of the North Carolina Housing Corporation shall be released.

Thirty days following ratification of this act, the State Treasurer of North Carolina will act as trustee for the North Carolina Housing Corporation. As trustee for the corporation, it shall be the duty of the State Treasurer of North Carolina to pay all legally enforceable obligations of the corporation and to collect any obligation owed it. The State Treasurer of North Carolina shall succeed to all powers of the corporation as may be necessary to carry out his duties as trustee and shall be entitled to perform all acts in the name of the corporation as may be necessary to carry out his duties as trustee or to fulfill the obligations of the corporation.

Thirty days following the ratification of this act, all monies held by the North Carolina Housing Corporation shall be delivered to the State Treasurer as trustee. Any other assets of the corporation shall be delivered to the State Treasurer who shall dispose of them as personal property of the State of North Carolina and shall hold the proceeds thereof in like trust. As trustee for said funds, the State Treasurer shall await direction of the General Assembly of North Carolina for disposition of the funds.

Sec. 2. Because of current uncertainty as to the status of federal funding, a state of crisis exists in the funding of many limited-income housing projects. To ameliorate the impact of this situation, the Treasurer of the State is hereby authorized to issue in the name of the North Carolina Housing Corporation up to \$25,000,000 of bonds or bond anticipation notes and to spend the proceeds of such bonds or notes or of contributions, grants, or other funds held in the name of the Corporation, as if he were the Corporation, pursuant to the provisions of Chapter 1235 of the Session Laws of 1969. Provided, however, that such action shall be taken only upon application of a public or non-profit private agency concerned with the provision of limited-income housing, and that no such action shall be taken without the concurrence of the Council of State and the Attorney General.

Sec. 3. The North Carolina Housing Corporation is granted express authority to complete projects presently under way and directed to undertake no new projects or to make any new expenditures except as may be incidental to or required by projects presently under way and as may be necessary to the winding up of its affairs and except as provided in Section 2 above.

Sec. 4. After ratification of this act, the State Treasurer may, if he deems it necessary and advisable, order an audit of the financial records of the North Carolina Housing Corporation and report the results of said audit to the General Assembly.

Sec. 5. A committee is hereby established to study the advisability of maintaining the North Carolina Housing Corporation and to generally study the proper and effective role of the State in housing. The committee is to be composed of two members of the Senate appointed by the President of the Senate, two members of the House of Representatives appointed by the Speaker of the House, the State Treasurer, the Attorney General, the Secretary of Human Resources, and six other members to be chosen by the committee; one representative of the mortgage bankers of North Carolina, one representative of the North Carolina Association of Realtors, one representative of the North Carolina Home Builders Association, the administrator of a public or non-profit agency established to provide housing for limited-income persons, one representative of the North Carolina Manufactured Housing Institute, and a housing specialist with professional experience in analyzing housing needs and public policy relating thereto. The committee is to report its findings and recommendations to the next session of the General Assembly.

Sec. 6. This act shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 23rd day of May, 1973.

CHAPTER 729

AN ACT TO REWRITE THE LAWS RELATING TO THE APPORTIONMENT OF PRINCIPAL AND INCOME.

The General Assembly of North Carolina enacts:

Section 1. Chapter 37 of the General Statutes is hereby amended by rewriting the title thereof to read "Allocation of Principal and Income" and by designating the existing provisions of Chapter 37 as Article 1 entitled "Uniform Principal and Income Act."

Sec. 2. Chapter 37 is further amended by adding a new Article 2 to read as follows:

"Article 2.

"Principal and Income Act of 1973.

"§ 37-16. *Definitions.*—(a) As used in this article:

- (1) 'Income beneficiary' means the person to whom income is presently payable or for whom it is accumulated for distribution as income.
- (2) 'Inventory value' means the cost of property purchased by the trustee and the market value of other property at the time it became subject to the trust, but in the case of a testamentary trust the trustee may use any value finally determined for the purposes of an estate or inheritance tax.
- (3) 'Personal representative' shall include executor, any successor executor, administrator of intestate estates, administrator CTA, successor administrator, collector, or any fiduciary appointed to administer or conserve an estate.
- (4) 'Remainderman' means the person entitled to principal, including income which has been accumulated and added to principal.
- (5) 'Trustee' means an original trustee and any successor or added trustee and, where applicable, the personal representative of a decedent's estate.
- (6) 'Trust' includes, where applicable, a decedent's estate whether testate or intestate.
- (7) 'Tax' includes any interest or penalty thereon except where such interest or penalty is separately provided for in this article.

“§ 37-17. *Duty of trustee or personal representative as to receipts and expenditures.*—(a) A trust or a decedent's estate shall be administered with due regard to the respective interests of income beneficiaries and remaindermen. A trust or a decedent's estate is so administered with respect to the allocation of receipts and expenditures if a receipt is credited or an expenditure is charged to income or principal or partly to each:

- (1) In accordance with the terms of the trust instrument or will, notwithstanding contrary provisions of this article; or
- (2) In the absence of any contrary terms of the trust instrument or will, in accordance with the provisions of this article; or
- (3) If neither of the preceding rules of administration is applicable, in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as of those entitled to principal, and in view of the manner in which men of ordinary prudence, discretion and judgment would act in the management of their own affairs.

(b) If the trust instrument or will gives the trustee or personal representative discretion in crediting a receipt or charging an expenditure to income or principal or partly to each, no inference of imprudence, partiality or abuse of discretion arises from the fact that the trustee or personal representative has made an allocation contrary to a provision of this article.

“§ 37-18. *Income; principal; charges.*—(a) Income is the return in money or property derived from the use of principal, including return received as:

- (1) Rent of real or personal property, including sums received for cancellation or renewal of a lease;
- (2) Interest on money lent, including sums received as consideration for the privilege of prepayment of principal, except as provided in G.S. 37-22 with respect to bond premium;
- (3) Income earned during administration of a decedent's estate as provided in G.S. 37-20;
- (4) Corporate distributions as provided in G.S. 37-21;
- (5) Accrued increment on bonds or other obligations issued at discount, as provided in G.S. 37-22;
- (6) Receipts from business and farming operations, as provided in G.S. 37-26;
- (7) Receipts from disposition of natural resources, as provided in sections G.S. 37-24 and G.S. 37-25, and receipts from other principal subject to depletion, as provided in G.S. 37-26; or
- (8) Receipts from disposition of underproductive property as provided in G.S. 37-27.

(b) Principal is the property which has been set aside by the owner or the person legally empowered so that it is held to be delivered eventually to a remainderman while the return or use of the principal is in the meantime taken or received by or held for accumulation for an income beneficiary. Principal includes:

- (1) Consideration received by the trustee or personal representative on the sale or other transfer of principal or on repayment of a loan or as a refund or replacement or change in the form of principal;
- (2) Proceeds of property taken in eminent domain proceedings;
- (3) Proceeds of insurance upon property forming part of the principal

except proceeds of insurance upon a separate interest of an income beneficiary;

- (4) Certain stock dividends, receipts on liquidation of a corporation, and other corporate distributions, as provided in G.S. 37-21;
- (5) Amortization of premium and certain receipts from the disposition of securities, as provided in G.S. 37-22;
- (6) Royalties and other receipts from disposition of natural resources, as provided in G.S. 37-24 and G.S. 37-25, and receipts from other principal subject to depletion as provided in G.S. 37-26;
- (7) Any profit resulting from any change in the form of principal except as provided in G.S. 37-27 on underproductive property;
- (8) Receipts from disposition of underproductive property as provided in G.S. 37-27; and
- (9) Any allowances for depreciation established under G.S. 37-23 and G.S. 37-26.

(c) After determining income and principal in accordance with this article, the trustee or personal representative shall charge expenses and other charges to income or principal as provided in G.S. 37-20 and G.S. 37-28 through G.S. 37-38.

“§ 37-19. *When right to income arises; apportionment of income.*—(a) An income beneficiary is entitled to income for the period beginning on the date specified in the trust instrument or will, or, if no date is specified, on the date an asset becomes subject to the trust or on the date of the decedent's death and ending on the date the income interest of the beneficiary terminates. In the case of an asset becoming subject to a trust by reason of a will, it becomes subject to the trust as of the date of the death of the testator even though there is an intervening period of administration of the testator's estate.

(b) In the administration of a decedent's estate or when an asset becomes subject to a trust by reason of a will:

- (1) Receipts due but not paid at the date of death are principal; and
- (2) Receipts in the form of periodic payments (other than corporate distributions to stockholders and receipts incident to the operation of a trade or business), including rent, interest or annuities, not due at the date of death shall be treated as accruing day to day. That portion of any receipt accruing before the date of death is principal, and the balance is income.

(c) On termination of an income interest, the income beneficiary whose interest is terminated, or his estate, is entitled to:

- (1) Income undistributed on the date of termination;
- (2) Income due but not paid to the trustee or personal representative on the date of termination; and
- (3) Income in the form of periodic payments (other than corporate distributions to stockholders and receipts incident to the operation of a trade or business), including rent, interest, or annuities, not due on the date of termination, accrued, on a day-to-day basis, on or before the date of termination.

(d) In the administration of a decedent's estate or when an asset becomes subject to a trust, income defined in G.S. 37-23 for the period ending on the date of death or when the asset becomes subject to a trust is principal.

(e) Corporate distributions to stockholders shall be treated as due on the day fixed by the corporation for determination of stockholders of record entitled to distribution or, if no date is fixed, on the date of declaration of the distribution by the corporation.

(f) In all other cases any receipt from an income-producing asset is income as of the date of receipt even though it was earned or accrued in whole or in part before or after such date.

“§ 37-20. *Income earned and expenses incurred during administration of a decedent's estate.*—(a) Unless the will otherwise provides or the court otherwise directs:

- (1) All expenses incurred in connection with the administration and settlement of a decedent's estate (other than expenses of management and operation of the estate property), including debts, funeral and burial expenses, death taxes, penalties concerning death taxes, family allowances shall be charged against the principal of the estate; and
- (2) Compensation of attorneys and personal representatives and court costs, to the extent they are incurred in the administration and settlement of a decedent's estate, shall be charged against the principal of the estate. All expenses incurred in the management and operation of the estate property shall be charged against principal or income of the estate in accordance with the rules applicable to a trustee under this article.

(b) Unless the will otherwise provides, or the court otherwise directs, income from the assets of a decedent's estate after the death of the decedent and before distribution, including income from property used to discharge liabilities, shall be determined in accordance with the rules applicable to a trustee under this chapter and distributed as follows:

- (1) To specific legatees and devisees, the income from the property bequeathed or devised to them respectively, less taxes, ordinary repairs and other expenses of management and operation of the property, and appropriate portions of interest expense accrued since the death of the decedent and taxes imposed on income (excluding taxes chargeable against principal) which accrue during the period of administration;
- (2) To all other legatees and devisees (except legatees of pecuniary bequests not in trust) and to all takers by intestacy, the balance of the income, less the balance of taxes, ordinary repairs and other expenses of management and operation of all property from which the estate is entitled to income, interest expense accrued since the death of the decedent and taxes imposed on income (excluding taxes chargeable against principal) which accrue during the period of administration, in proportion to their respective interests in the undistributed assets of the estate computed at times of distribution on the basis of inventory value.

(c) Income received under subsection (b) by a trustee shall be treated as income of the trust.

“§ 37-21. *Corporate distributions.*—(a) Except as otherwise provided in this section, corporate distributions of shares of the distributing corporation, including distributions in the form of a stock split or stock dividend, are principal. A right to subscribe to shares or other securities issued by the distributing corporation accruing to stockholders on account of their stock ownership and the proceeds of any sale of the right are principal.

(b) Except to the extent that the corporation indicates that some part of a corporate distribution is a settlement of preferred or guaranteed dividends accrued since the trustee or personal representative became a stockholder or is in lieu of an ordinary cash dividend, a corporate distribution is principal if the distribution is pursuant to:

- (1) A call of shares;
- (2) A merger, consolidation, reorganization, or other plan by which assets of the corporation are acquired by another corporation; or
- (3) A total or partial liquidation of the corporation, including any distribution which the corporation indicates is a distribution in total or partial liquidation or any distribution of assets, other than cash, pursuant to a court decree or final administrative order by a government agency ordering distribution of the particular assets.

(c) Except as otherwise provided in this section, distributions made from ordinary income or from realized capital gains by a regulated investment company or by a trust qualifying and electing to be taxed under federal law as a real estate investment trust are income. All other distributions made by the company or trust, whether in the form of cash or an option to take new stock or cash or an option to purchase additional shares, are principal.

(d) Except as provided in subsections (a), (b), and (c), all corporate distributions are income, including cash dividends, distributions of or rights to subscribe to shares or securities or obligations of corporations other than the distributing corporation, and the proceeds of the rights or property distributions. In addition, in the following instances, a distribution is income notwithstanding that it is in shares of the distributing corporation:

- (1) If the distribution is, at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either in the stock of the distributing corporation or in property;
- (2) If the distribution (or a series of distributions of which such distribution is one) has the result of the receipt of property by some shareholders and an increase in the proportionate interests of other shareholders in the assets or earnings and profits of the distributing corporation;
- (3) If the distribution (or a series of distributions of which such distribution is one) has the result of the receipt of preferred stock by some common shareholders and the receipt of common stock by other common shareholders; or
- (4) If the distribution is with respect to preferred stock, other than an increase in the conversion ratio of convertible preferred stock made solely to take account of a stock dividend or stock split with respect to the stock into which such convertible stock is convertible.

(e) The trustee or personal representative may rely upon any statement of the distributing corporation as to any fact relevant under any provision of this section concerning the source or character of dividends or distributions of corporate assets.

“§ 37-22. *Bond premium and discount.*—(a) Bonds or other obligations for the payment of money are principal at their inventory value, except as provided in subsection (b) for discount bonds. No provision shall be made for amortization of bond premiums or for accumulation for discount. The proceeds of sale, redemption, or other disposition of the bonds or obligations are principal.

(b) The increment in value of a bond or other obligation for the payment of money payable at a future time in accordance with a fixed schedule of appreciation in excess of the price at which it was issued is distributable as income. The increment in value is distributable to the beneficiary who was the income beneficiary at the time of increment from the first principal cash available or, if none is available, when realized by sale, redemption, or other disposition. Whenever unrealized increment is distributed as income but out of principal, the principal shall be reimbursed for the increment when realized.

“§ 37-23. *Business and farming operations.*—(a) If a trustee or personal representative uses any part of the principal in the continuance of a business of which the settlor or decedent was a sole proprietor or a partner, the net profits of the business, computed in accordance with generally accepted accounting principles for a comparable business, are income. If a loss results in any fiscal or calendar year, the loss falls on principal and shall not be carried into any other fiscal or calendar year for purposes of calculating net income.

(b) Generally accepted accounting principles shall be used to determine income from an agricultural or farming operation, including the raising of animals or the operation of a nursery.

“§ 37-24. *Disposition of natural resources.*—(a) If any part of the principal consists of a right to receive royalties, overriding or limiting royalties, working interests, production payments, net profit interests, or other interests in minerals or other natural resources in, on or under land, the receipts from taking the natural resources from the land shall be allocated as follows:

- (1) If received as rent on a lease or extension payments on a lease, the receipts are income.
- (2) If received from a production payment, the receipts are income to the extent of any factor for interest or its equivalent provided in the governing instrument. There shall be allocated to principal the fraction of the balance of the receipts which the unrecovered cost of the production payment bears to the balance owed on the production payment, exclusive of any factor for interest or its equivalent. The receipts not allocated to principal are income.
- (3) If received as a royalty, overriding or limited royalty, or bonus, or from a working, net profit, or any other interest in minerals or other natural resources, receipts not provided for in the preceding paragraphs of this section shall be apportioned on a yearly basis in accordance with this paragraph whether or not any natural resource was being taken from the land at the time the trust or decedent's estate came into existence. Fifty percent (50%) of the gross receipts attributable to the permanent severance of the natural resources (but not to exceed sixty-six and two-thirds percent (66 2/3%) of the net receipts attributable to the permanent severance of the natural resources remaining after payment of all expenses, direct and indirect, computed without allowance for depletion) shall be added to principal as an allowance for depletion. The balance of the gross receipts, after provision therefrom for all expenses, direct and indirect, is income.

(b) If a trustee or personal representative, on the effective date of this article, held an item of depletable property of a type specified in this section, he shall allocate receipts from the property in the manner used before the effective date of this article, but as to all depletable property acquired after the effective date

of this article by an existing or new trust or decedent's estate, the method of allocation provided herein shall be used.

(c) This section does not apply to timber, water, soil, sod, dirt, turf, or mosses.

"§ 37-25. *Timber*.—If any part of the principal consists of land from which merchantable timber may be removed, the receipts from taking the timber from the land shall be allocated in accordance with G.S. 37-17(a)(3).

"§ 37-26. *Other property subject to depletion*.—Except as provided in G.S. 37-24 and G.S. 37-25, if the principal consists of tangible or intangible property subject to depletion, including leaseholds, patents, copyrights, royalty rights, and rights to receive payments on a contract for deferred compensation, or other intangible assets of a wasting nature, receipts from the property, not in excess of five percent (5%) per year of its inventory value or of its fair market value at the end of the particular fiscal or calendar year, whichever is greater, are income and the balance is principal.

"§ 37-27. *Underproductive property*.—(a) Except as otherwise provided in this section, a portion of the net proceeds of sale of any part of principal which part has not produced an average net income of at least one percent (1%) per year of its inventory value for more than a year (including as income the value of any beneficial use of the property by the income beneficiary) shall be treated as delayed income to which the income beneficiary is entitled as provided in this section. The net proceeds of sale are the gross proceeds received, including the value of any property received in substitution for the property disposed of, less the expenses, including capital gains tax, if any, incurred in disposition and less any carrying charges paid while the property was underproductive.

(b) The sum allocated as delayed income is the difference between the net proceeds and the amount which, had it been invested at simple interest at four percent (4%) per year while the property was underproductive, would have produced the net proceeds. This sum, plus any carrying charges and expenses previously charged against income while the property was underproductive, less any income received by the income beneficiary from the property and less the value of any beneficial use of the property by the income beneficiary, is income, and the balance is principal.

(c) Anything herein to the contrary notwithstanding:

(1) No amount shall be allocated as delayed income under this section on account of the sale of any underproductive part of principal from a trust, when the whole of such principal has produced an average net income of four percent (4%) per annum of its inventory value for each year that the trust principal included such underproductive part;

(2) The sum allocated as delayed income on account of the sale of the underproductive part of the trust principal shall not exceed that amount which is the difference between the actual average net income of the trust principal and that greater amount which would have been produced if the trust principal had yielded four percent (4%) per annum of its inventory value during the years in which the trust contained such underproductive part.

(d) An income beneficiary or his estate is entitled to delayed income under this section as if it accrued from day to day during the time he was a beneficiary.

(e) If principal subject to this section is disposed of by conversion into property which cannot be apportioned easily, including land or mortgages (for example, realty acquired by or in lieu of foreclosure), the income beneficiary is

not, on account of such conversion, entitled to any allocation as delayed income under this section; however, the income beneficiary is entitled to the net income from any property or obligation into which the original principal is converted while the substituted property or obligation is held.

“§ 37-28. *Expenses.*—Expenses not included in G.S. 37-29 through G.S. 37-38 shall be charged against income if such expenses are ordinary expenses reasonably incurred in connection with the administration, management or preservation of the trust property; otherwise they shall be charged against principal.

“§ 37-29. *Taxes.*—(a) Regularly recurring taxes assessed against any portion of the principal and any tax levied on receipts defined as income under this article or the trust instrument shall be charged against income.

(b) Any tax levied upon profits, gains or receipts allocated to principal shall be charged against principal notwithstanding denomination of the tax as an income tax by the taxing authority.

(c) If an estate or inheritance tax is levied in respect of a trust in which both an income beneficiary and a remainderman have an interest, any amount apportioned to the trust shall be charged against principal even though the income beneficiary also has rights in the principal.

“§ 37-30. *Compensation of trustee.*—(a) Unless the Court otherwise directs, one-half of the regular compensation of the trustee, whether based on a percentage of principal or income, shall be charged against income, and one-half of such compensation shall be charged against principal.

(b) Unless the Court otherwise directs, compensation of the trustee other than regular compensation shall be charged against income if the matter primarily concerns the income interest, shall be charged against principal if the matter primarily concerns principal and shall be charged one-half against each if the primary concern cannot readily be determined; provided that compensation computed on principal as an acceptance, distribution or termination fee shall be charged against principal.

“§ 37-31. *Court costs and attorneys' fees.*—(a) Unless the Court otherwise directs, one-half of court costs and attorneys' fees on periodic judicial accountings shall be charged against income and one-half shall be charged against principal.

(b) Unless the Court otherwise directs, court costs, attorneys' fees and other expenses incurred in any judicial proceeding, other than periodic judicial accountings, shall be charged against income if the matter primarily concerns the income interest and shall be charged against principal if the matter primarily concerns principal and shall be charged one-half against each if the primary concern cannot readily be determined.

“§ 37-32. *Management of principal and application of income.*—All expenses reasonably incurred for current management of principal and application of income shall be charged against income; except that the direct costs of investing and reinvesting principal shall be charged against principal.

“§ 37-33. *Interest and payments on indebtedness.*—Interest paid by the trustee, including interest on death tax deficiencies, shall be charged against income. Payments on principal of an indebtedness (including a mortgage amortized by periodic payments of principal) shall be charged against principal.

“§ 37-34. *Premiums on insurance.*—Premiums on insurance taken upon the interests of the income beneficiary, remainderman, or trustee shall be charged against income.

“§ 37-35. *Repairs, improvements, and special assessments.*—(a) Ordinary repairs shall be charged against income.

(b) Expenses, other than ordinary repairs, in connection with the preparation of property for rental or sale, extraordinary repairs, expenditures for capital improvements to principal, and special assessments shall be charged against principal.

“§ 37-36. *Depreciation.*—A reasonable allowance for depreciation of property subject to depreciation under generally accepted accounting principles shall be charged against income, but no allowance for depreciation shall be made for that portion of any real property used by a beneficiary as a residence and no allowance for depreciation need be made for any property held by the trustee on the effective date of this article for which the trustee was not then required to make and was not then making an allowance for depreciation.

“§ 37-37. *Spreading charges against income.*—If charges against income are of unusual amount, the trustee may by means of reserves or other reasonable means charge them over a reasonable period of time and withhold from distribution sufficient sums to regularize distributions.

“§ 37-38. *Recurring charges; apportionment.*—Regularly recurring charges payable from income shall be apportioned to the same extent and in the same manner that income is apportioned under G.S. 37-19.

“§ 37-39. *Application of article.*—Except as specifically provided in the trust instrument or the will or in this article, this article shall apply to any receipt or expense received or incurred after the effective date of this article by any trust or decedent's estate whether established before or after the effective date of this article and whether the asset involved was acquired by the trustee before or after the effective date of this article.

“§ 37-40. *Short title.*—This article may be cited as the Principal and Income Act of 1973.”

AN ACT TO AMEND G.S. 105-285 AND G.S. 105-304 TO MAKE CLEAR WHEN AND WHERE CERTAIN TANGIBLE PERSONAL PROPERTY IS TO BE LISTED FOR TAXATION.

The General Assembly of North Carolina enacts:

Section 1. G.S. 105-285 is rewritten to read as follows:

“§ 105-285. *Date as of which property is to be listed and appraised.*—(a) Annual listing required. All property subject to ad valorem taxation shall be listed annually.

(b) Personal property; general rule. Except as provided in subsection (c) below, the value, ownership, and place of taxation of personal property, both tangible and intangible, shall be determined annually as of January 1.

(c) Business inventories. The value, ownership, and place of taxation of inventories held and used in connection with the mercantile manufacturing, processing, or producing business enterprise of a taxpayer having a place of business in this State, whose fiscal year closes at a date other than December 31, shall be determined annually as of the ending date of the taxpayer's latest completed fiscal year. However, if with respect to any business enterprise or any new or additional business location a taxpayer has not completed a fiscal year as of January 1, the value, ownership, and place of taxation of inventories held and used in connection with the taxpayer's new business enterprise or new or additional business location shall be determined as of January 1.

For purposes of this section, the word 'inventories' means goods held for sale in the regular course of business, raw materials, and goods in process of manufacture or processing; it also means other goods and materials that are used or consumed in manufacture or processing or that accompany and are sold with the goods manufactured or processed.

(d) Real property. The value of real property shall be determined as of January 1 of the years prescribed by G.S. 105-286 and G.S. 105-287. CHAPTER 748

AN ACT TO PROTECT YOUTHFUL OFFENDERS.

The General Assembly of North Carolina enacts:

Section 1. Purpose of Act. The purpose of this act is to protect the future of youthful offenders of the law. Once a criminal record is created by conviction of a person, said criminal record remains a part of his past for so long as he may live. Many youths have only one small encounter with the law. They go on to be excellent citizens, raise good families, but are always hindered by having a criminal conviction on their record. This bill is not intended to excuse those who repeat their wrongdoing, but to somehow pardon a youthful oversight in an isolated occurrence.

Sec. 2. Chapter 90 of the General Statutes is hereby amended by adding a new section immediately following G.S. 90-113.14, to be designated G.S. 90-113.15, and to read as follows:

“§ 90-113.15. *Expunction of records for first offenders under the age of 18 at the time of conviction of misdemeanor.*—(a) Whenever any person who has not yet attained the age of 18 years and has not previously been convicted of any felony, or misdemeanor other than a traffic violation, under the laws of the United States, the laws of this State or any other state, pleads guilty to, or is guilty of a misdemeanor, he may file a petition in the court where he was convicted for expunction of the misdemeanor from his criminal record. The petition cannot be filed earlier than two years after the date of the conviction or

any period of probation, whichever occurs later and the petition shall contain, but not be limited to, the following:

- (1) An affidavit by the petitioner that he has been of good behavior for the two-year period since the date of conviction of the misdemeanor in question and has not been convicted of any felony, or misdemeanor other than a traffic violation, under the laws of the United States or the laws of this State or any other state.
- (2) Verified affidavits of two persons who are not related to the petitioner or to each other by blood or marriage, that they know the character and reputation of the petitioner in the community in which he lives and that his character and reputation are good.
- (3) A statement that the petition is a motion in the cause in the case wherein the petitioner was convicted.
- (4) Affidavits of the clerk of superior court, Chief of Police, where appropriate, Sheriff of the county wherein the petitioner was convicted, and official records of the Federal Bureau of Investigation and the State Bureau of Investigation, all showing that the petitioner has not been convicted of a felony or misdemeanor under the laws of the United States or the laws of this State or any other state at any time prior to the conviction for the misdemeanor in question or during the two-year period following the conviction for the misdemeanor in question.

The petition shall be served upon the solicitor of the court wherein the case was tried resulting in conviction. The solicitor shall have 10 days thereafter in which to file any objection thereto and shall be duly notified as to the date of the hearing of the petition.

(b) If the court, after hearing, finds that the petitioner had remained of good behavior and been free of conviction of any felony or misdemeanor, other than a traffic violation, for two years from the date of conviction of the misdemeanor in question, and petitioner was not 18 years old at the time of the conviction in question, it shall order that such person be restored, in the contemplation of the law, to the status he occupied before such arrest or indictment or information. No person as to whom such order has been entered shall be held thereafter under any provision of any laws to be guilty of perjury or otherwise giving a false statement by reason of his failure to recite or acknowledge such arrest, or indictment, information, or trial, or response to any inquiry made of him for any purpose.

(c) The court shall also order that said misdemeanor conviction be expunged from the records of the court, and direct all law enforcement agencies bearing record of the same to expunge their records of the conviction and the clerk shall forward a certified copy of the order to all law enforcement agencies concerned and to the FBI and SBI with the cost thereof to be taxed against the petitioner.

(d) The clerk of superior court in each county in North Carolina shall, as soon as practicable after each term of court in his county, file with the North Carolina Department of Justice, the names of those persons granted a discharge under the provisions of this section, and the North Carolina Department of Justice shall maintain a confidential file containing the names of persons granted conditional discharges. The information contained in such file shall be disclosed only to judges of the General Court of Justice of North Carolina for the purpose of ascertaining whether any person charged with an offense has been previously granted a discharge."

Sec. 2. This act shall become effective upon its ratification.

In the General Assembly read three times and ratified, this the 23rd day of May, 1973.

Excess deviations which cannot be corrected by transfer of teachers and by use of contingency funds shall be temporarily allowed with permission of the State Board of Education.

Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided herein shall constitute sufficient cause for the cancellation of all registrations on file for the distributor.

Sec. 12. Rules and Regulations. (a) The Board is authorized to promulgate such rules and regulations for commercial feeds and pet foods as are specifically authorized in this act and such other reasonable rules and regulations as may be necessary for the efficient enforcement of this act.  - (2) Any regulations promulgated pursuant to the authority of the Federal Food, Drug and Cosmetic Act (U.S.C. Sec. 301, et. seq.).

After consideration of all views presented by interested persons, the Board shall take appropriate action to issue the proposed rule or regulation or to amend or repeal an existing rule or regulation. The provisions of this paragraph notwithstanding, if the Board pursuant to the authority of this act, adopts the Official Definitions

of Feed Ingredients or Official Feed Terms as adopted by the Association of American Feed Control Officials, or regulations promulgated pursuant to the authority of the Federal Food, Drug and Cosmetic Act, any amendment or modification adopted by said Association or by the Secretary of Health, Education and Welfare in the case of regulations promulgated pursuant to the Federal Food, Drug and Cosmetic Act, shall be deemed adopted automatically under this act without regard to the publication of the notice required by this paragraph (b), unless the Board, by resolution specifically determines that said amendment or modification shall not be adopted.

Sec. 13. *Inspection, Sampling, and Analysis.* (a) For the purpose of enforcement of this act, and in order to determine whether its provisions have been complied with, including whether or not any operations may be subject to such provisions, officers or employees duly designated by the Commissioner upon presenting appropriate credentials, to the owner, operator, or agent in charge, are authorized (1) to enter, during normal business hours or actual operation, any factory, warehouse, or establishment within the State in which commercial feeds are manufactured, processed, packed, or held for distribution and take samples therefrom or to enter any vehicle being used to transport or hold such feeds and take samples therefrom; and (2) to inspect during normal business hours or while in operation, such factory, warehouse, establishment or vehicle and all pertinent equipment, finished or unfinished materials, containers, and labeling therein. The inspection may include the verification of such records, and production and control procedures as may be necessary to determine compliance with this act.

(b) A separate presentation of appropriate credentials shall be given for each such inspection, but a presentation shall not be required for each entry made during the period covered by the inspection. Each such inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

(c) If the officer or employee making such inspection of a factory, warehouse, or other establishment has obtained a sample(s) in the course of the inspection, upon completion of the inspection and prior to leaving the premises he shall give to the owner, operator, or agent in charge a receipt describing the sample(s) obtained.

(d) If the owner of any factory, warehouse or establishment described in paragraph (a), or his agent, refuses to admit the Commissioner or his agent to inspect in accordance with paragraphs (a) and (b), the Commissioner or his agent is authorized to obtain without notice from any district or superior court judge within the county where the facility is located, an order directing such owner or his agent to submit the premises described in such order to inspection.

(e) Sampling and analysis shall be conducted in accordance with methods published by the Association of Official Analytical Chemists, or in accordance with other generally recognized methods.

(f) The results of all analyses of official samples shall be forwarded by the Commissioner to the person named on the label and to the dealer. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded, and upon written request within 30 days following receipt of the analysis, the Commissioner shall furnish to the registrant a portion of the sample concerned.

(g) The Commissioner, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided by the official sample as defined in paragraph (q) Section 4 and obtained and analyzed as provided for in paragraphs (a), (c), and (e) of Section 13 of this act.

(h) The Board is authorized to adopt regulations establishing permitted analytical variation providing for reasonable deviation from the guaranteed analysis.

(i) The registrant of a commercial feed found to be in significant violative deviation from the guarantee shall be subject to a penalty for this deviation.

(j) If the analysis of a sample shows a deviation from permitted analytical variation established by the Board, the registrant or other responsible person shall be penalized according to the following schedule:

<u>Component Deviating</u>	<u>Method of Penalty Assessment</u>
Crude protein	3 times the relative percentage* of deviation from the guarantee times the retail value of the commercial feed.
Crude fat	10 percent of retail value of the lot of commercial feed.
Crude fiber	10 percent of retail value of the lot of commercial feed.
Vitamins	10 percent of retail value of the lot of commercial feed.
Minerals	10 percent of retail value of the lot of commercial feed.
Crude protein equivalent from non-protein nitrogen	10 percent of retail value of the lot of commercial feed.
Animal drugs	20 percent of retail value of the lot of commercial feed.
Antibiotics	20 percent of retail value of the lot of commercial feed.
Other analysis	10 percent of retail value of the lot of commercial feed.

*Example, a feed guaranteed 16.0% protein and assaying only 14.0%, will be considered as $2.0\%/16.0\%$, or 12.5% deficient in protein. The penalty will be computed as $3 \times 0.125 \times$ retail value of the feed, or $0.375 \times$ retail value of the feed.

(k) Penalties for multiple deficiencies within a sample shall be additive; provided that in no case shall the penalty exceed the retail value of the product. The minimum penalty under any of the foregoing provisions shall be twenty-five dollars (\$25.00) or the retail value of the product whichever is smaller, regardless of the value of the deficiency.

(l) Within 60 days from the date of written notice by the Commissioner or his duly designated agent to the manufacturer, guarantor, dealer or agent, all penalties assessed and collected under this section shall be paid to the purchaser of the lot of feed or canned pet food represented by the sample analyzed. When such penalties are paid, receipts shall be taken and promptly forwarded to the Commissioner of Agriculture. If said consumers cannot be found, the amount of

the penalty assessed shall be paid to the Commissioner of Agriculture who shall deposit the same in the Department of Agriculture fund, of which the State Treasurer is custodian, for the express purpose of enforcement of this act.

Sec. 14. *Detained Commercial Feeds.* (a) "Withdrawal from distribution" orders: When the Commissioner or his authorized agent has reasonable cause to believe any lot of commercial feed is being distributed in violation of any of the provisions of this act or of any of the prescribed regulations under this act, he may issue and enforce a written or printed "withdrawal from distribution" order, ordering the distributor not to dispose of the lot of commercial feed in any manner until written permission is given by the Commissioner or a court. The Commissioner shall release the lot of commercial feed so withdrawn when said provisions and regulations have been complied with. If compliance is not obtained within 30 days, the Commissioner may begin, or upon request of the distributor or registrant shall begin, proceedings for condemnation.

(b) "Condemnation and confiscation": Any lot of commercial feed not in compliance with said provisions and regulations shall be subject to seizure on complaint of the Commissioner to the superior court in the county in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this act, and orders the condemnation of said commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the State, provided, that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this act. All costs and expenses incurred by the Department of Agriculture in any proceedings associated with such seizure and confiscation shall be paid by the claimant.

Sec. 15. *Penalties.* (a) Any person who shall be adjudged to have violated any provision of this act, or any regulation of the Board adopted pursuant to this act, shall be guilty of a misdemeanor, and for each violation shall be fined not less than one hundred dollars (\$100.00) nor more than one thousand dollars (\$1,000) or shall be imprisoned for not more than 60 days, or both. In addition, if any person continues to violate or further violates any provision of this act after written notice from the Commissioner, or his duly designated agent, the court may determine that each day during which the violation continued or is repeated constitutes a separate violation subject to the foregoing penalties.

(b) Nothing in this act shall be construed as requiring the Commissioner or his representative to: (1) report for prosecution, or (2) institute seizure proceedings, or (3) issue a withdrawal from distribution order, as a result of minor violations of the act, or when he believes the public interest will best be served by suitable notice of warning in writing.

(c) It shall be the duty of each solicitor to whom any violation is reported to cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay. Before the Commissioner reports a violation for such prosecution, an opportunity shall be given the distributor to present his view to the Commissioner or his designated agent.

(d) The Commissioner is hereby authorized to apply for and the court to grant a temporary restraining order and a preliminary or permanent injunction restraining any person from violating or continuing to violate any of the

provisions of this act or any rule or regulation promulgated under the act notwithstanding the existence of other remedies at law.

(e) Any person adversely affected by an act, order, or ruling made pursuant to the provisions of this act may within 30 days thereafter bring action in the Superior Court of Wake County for judicial review of such act, order or ruling according to the provisions of Article 33 of Chapter 143 of the General Statutes.

(f) Any person who uses to his own advantage, or reveals to other than the Board, or officers of the other State agencies whose requests are deemed justifiable by the Commissioner, or to the courts when relevant in any judicial proceeding, any information acquired under the authority of this act, concerning any method, records, formulations, or processes which as a trade secret is entitled to protection, is guilty of a misdemeanor and shall be subject upon conviction to the penalties contained in subsection (a) of this section; provided, that this prohibition shall not be deemed as prohibiting the Commissioner, or his duly authorized agent, from exchanging information of a regulatory nature with duly appointed officials of the United States Government, or of the other states, who are similarly prohibited by law from revealing this information.

Sec. 16. *Cooperation with Other Entities.* The Commissioner may cooperate with and enter into agreements with governmental agencies of this State, other states, agencies of the Federal Government, and private associations in order to carry out the purpose and provisions of this act.

Sec. 17. *Publication.* The Commissioner shall publish at least annually, in such forms as he may deem proper, information concerning the sales of commercial feeds, together with such data on their production and use as he may consider advisable, and a report of the results of the analyses of official samples of commercial feeds sold within the State as compared with the analyses guaranteed in the registration and on the label; provided, that the information concerning production and use of commercial feed shall not disclose the operations of any person.

Sec. 18. *Constitutionality.* If any clause, sentence, paragraph, or part of this act shall for any reason be judged invalid by any court of competent jurisdiction, such judgment shall not affect, impair, or invalidate the remainder thereof but shall be confined in its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

Sec. 19. *Repeal.* (a) All laws and clauses of laws in conflict with or inconsistent with the provisions of this act are hereby repealed and Articles 9 and 13, Chapter 106 of the General Statutes are hereby specifically repealed.

(b) Notwithstanding any other provisions of law, all existing rules and regulations concerning commercial feeds and canned pet foods of the North Carolina Department of Agriculture and any other agency of the State of North Carolina, not inconsistent with the provisions of this act shall continue in full force and effect until repealed, modified or amended.

Sec. 20. There is hereby appropriated out of the General Fund, in addition to all other appropriations, to the Department of Agriculture eighty thousand six hundred thirty-nine dollars (\$80,639) for fiscal year 1973-74 to carry out the provisions of this act.

CHAPTER 782

AN ACT TO AMEND G.S. 115-142, THE TEACHER EMPLOYMENT AND DISMISSAL ACT, IN ORDER TO MAKE IT MORE WORKABLE AND TO ELIMINATE AMBIGUITIES.

The General Assembly of North Carolina enacts:

Section 1. G.S. 115-142(a)(1) is hereby rewritten to eliminate the definition of "administrator" and to add a definition of "day" as follows:

"'Day' means any day except Saturday, Sunday, or a legal holiday. In computing any period of time, the day in which notice is received is not counted, but the last day of the period so computed is to be counted."

Sec. 2. G.S. 115-142(a)(3) is hereby rewritten to read as follows:

"'Career teacher' means a teacher who has obtained career status as provided in G.S. 115-142(c)."

Sec. 3. G.S. 115-142(a)(5) is hereby rewritten to read as follows:

"'Demote' means to reduce the compensation of a person who is classified or paid by the State Board of Education as a classroom teacher or to transfer him to a new position carrying a lower salary. The word demote does not include a reduction in compensation that results from the elimination of a special duty, such as the duty of an athletic coach, assistant principal, or a choral director."

Sec. 4. G.S. 115-142(a)(6) is hereby rewritten to read as follows:

"'Probationary teacher' means a certificated person, other than a superintendent, associate superintendent, or assistant superintendent, who has not obtained career-teacher status and whose major responsibility is to teach or to supervise teaching."

Sec. 5. G.S. 115-142(a)(7) is hereby rewritten to eliminate the definition of "substitute teacher" and to add a definition of "supervisor" as follows:

"'Supervisor' means a person paid on the supervisor's salary schedule who supervises the instructional program in one or more schools and is under the immediate supervision of the superintendent or his designee."

Sec. 6. G.S. 115-142(a)(10) is hereby repealed and G.S. 115-142(a)(9) rewritten to read as follows:

"'Teacher' means a person who holds at least a current, not expired, Class A certificate or a regular, not provisional or expired, vocational certificate issued by the State Department of Public Instruction; whose major responsibility is to teach or directly supervise teaching or who is classified by the State Board of Education or is paid as a classroom teacher; and who is employed to fill a full-time, permanent position."

Sec. 7. G.S. 115-142(b) is hereby rewritten to read as follows:

"The superintendent shall maintain in his office a personnel file for each teacher that contains any complaint, commendation, or suggestion for correction or improvement about the teacher. The complaint, commendation, or suggestion shall be signed by the person who makes it and shall be placed in the teacher's file only after five (5) days' notice to the teacher. Any denial or explanation relating to such complaint, commendation, or suggestion that the teacher desires to make shall be placed in the file.

The personnel file shall be open for the teacher's inspection at all reasonable times but shall be open to other persons only in accordance with such rules and regulations as the board adopts. Any pre-employment data or other information

obtained about a teacher before his employment by the board may be kept in a file separate from his personnel file and need not be made available to him. No data placed in the pre-employment file may be introduced as evidence at a hearing on the dismissal or demotion of a teacher."

Sec. 8. G.S. 115-142(c) is hereby rewritten to read as follows:

"(1) Status of teachers employed on July 1, 1972. No teacher may become a career teacher before July 1, 1973. To be eligible to become a career teacher on July 1, 1973, a teacher must have been employed by a North Carolina school system on July 1, 1972, and, at the end of the 1971-72 school year, have either (1) been employed by that school system (or successor school system if the system has been consolidated) for four consecutive years, or (2) been employed in a North Carolina public school system for five consecutive years. Notwithstanding the requirement that the period of employment must be consecutive, a board may waive this requirement if the teacher has taught in its school system for a total of four years at the end of the 1971-72 school year and if, in the board's opinion, there was good reason why the service was not consecutive. A teacher who satisfies these requirements shall automatically become a career teacher on July 1, 1973, if he taught in that school system during the 1972-73 school year and was reemployed for the 1973-74 school year. All other teachers are probationary teachers.

(2) Normal election of a teacher to career status. When a teacher will have been employed by a North Carolina public school system for three consecutive years, the board, near the end of the third year, shall vote upon his employment for the next school year. The board shall give him written notice of that decision at least 30 days before the end of his third year of employment. If a majority of the board votes to reemploy him, he becomes a career teacher on the first day of the fourth year of employment. If the board votes to reemploy the teacher and thus grant career status at the beginning of the next school year, and if it has notified him of this decision, it may not later rescind that action but must proceed under the provisions of this act for the demotion or discharge of a teacher if it decides to terminate his employment.

If a majority of the board votes against reemploying the teacher, he shall not teach beyond the current school term. If the board fails to vote on granting career status but reemploys him for the next year, he automatically becomes a career teacher on the first day of the fourth year of employment.

A year, for purposes of computing time as a probationary teacher, shall be not less than 120 work days performed as a full-time, permanent teacher in a normal school year.

(3) Employment of a career teacher. A teacher who has obtained career status in another North Carolina public school system, need not serve another probationary period of more than two years, and may, at the option of the board, be employed immediately as a career teacher. In any event, if the teacher is reemployed for a third consecutive year, he shall automatically become a career teacher. A teacher with career status who resigns and within five years seeks to be reemployed by the same school system need not serve another probationary period of more than one year and may, at the option of the board, be reemployed as a career teacher. In any event, if he is reemployed for a second consecutive year, he shall automatically become a career teacher.

(4) Ineligible for career status. No superintendent, associate superintendent, assistant superintendent or other school employee who is not a teacher as

defined by G.S. 115-142(a)(9) is eligible to obtain career status or continue in a career status if he no longer performs the responsibilities of a teacher as defined in G.S. 115-142(a)(9).

(5) Leaves of absence. A career teacher who has been granted a leave of absence by a board shall maintain his career status if he returns to his teaching position at the end of the authorized leave."

Sec. 9. G.S. 115-142(d)(2) is rewritten to read as follows:

"A career teacher who has performed the duties of a principal or supervisor in a particular position in the school system for three consecutive years shall not be transferred from that position to a lower-paying administrative position or to a lower-paying nonadministrative position without his consent except for the reasons given in G.S. 115-142(e) and in accordance with the procedure for the dismissal of a career teacher set out in this act."

Sec. 10. G.S. 115-142(e)(1) is hereby amended by adding the words "or employed on a part-time basis" on line 1 after the word "demoted" and before the word "except".

Sec. 11. G.S. 115-142(e)(1)f. is hereby rewritten to read as follows:

"f. Habitual or excessive use of alcohol or nonmedical use of a controlled substance as defined in Article 5 of Chapter 90 of the General Statutes."

Sec. 12. G.S. 115-142(e)(1) is hereby amended by adding the following subsection:

"m. Failure to maintain one's certificate in a current status."

Sec. 13. G.S. 115-142(e)(2) is hereby amended by adding at the end of the last sentence:

"However, if the school system offers the dismissed teacher a position for which he is certified and he refuses it, his name shall be removed from the priority list."

Sec. 14. G.S. 115-142(f) is hereby rewritten to read as follows:

"(f) Suspension without pay. If a board believes that cause exists for dismissing a probationary or career teacher for any reason specified in G.S. 115-142(e)(1)(b) through G.S. 115-142(e)(1)(h) and that immediate suspension of the teacher is necessary, the board may by resolution suspend him without pay and without giving notice and a hearing.

If a board thinks a probationary or career teacher's performance is so inadequate that an emergency situation exists requiring the teacher to be removed immediately from his duties, the board shall give him written notice that it plans to suspend him and the reasons for the planned action. Not less than two or more than five days after the teacher receives the board's notice, the board shall hold a hearing on whether it should suspend the teacher. The hearing procedures provided in G.S. 115-142(j) shall be followed and all teacher evaluations and other information in the teacher's personnel file shall be made available to the board. If the board finds it necessary to suspend the teacher, it may by resolution suspend him without pay.

Within five days after a suspension under this section, the superintendent shall initiate a dismissal as provided in this act. If it is finally determined that no grounds for dismissal exist, the teacher shall be reinstated immediately and shall be paid for the period of suspension."

Sec. 15. G.S. 115-142(g)(3) is hereby amended by adding the following sentence at the end:

"The compensation shall be paid by the State Board of Education."

Sec. 16. G.S. 115-142(h)(1) is hereby rewritten as follows:

“A career teacher may not be dismissed, demoted, or reduced to part-time employment except upon the superintendent’s recommendation.”

Sec. 17. G.S. 115-142(h)(2) is hereby amended by striking the words, “At least 20 days”, as they appear at the beginning of the sentence. G.S. 115-142(h)(2) is further amended by adding the following sentence at the end: “If the teacher does not request a panel hearing within the 15 days provided, the superintendent may submit his recommendation to the board.”

The chairman shall call a meeting of the Board upon the written application or applications of any two members thereof. If there is no chairman, or if the chairman does not call a meeting within three days after receiving a written request or requests from two members, any three members of the Board shall have power to call a meeting of the Board, and any duties imposed or powers conferred on the Board by this Chapter may be performed or exercised at that meeting, although the time for performing or exercising the same prescribed by this Chapter may have expired.

(b) Place of meeting. Except as provided in subsection (c), below, the State Board of Elections shall meet in its offices in the City of Raleigh, or at another place in Raleigh to be designated by the chairman. However, subject to the limitation imposed by subsection (c), below, upon the prior written request of any four members, the State Board of Elections shall meet at any other place in the State designated by the three members.

(c) Meetings to investigate alleged violations of this Chapter. When called upon to investigate or hear sworn alleged violations of this Chapter, the State Board of Elections shall meet and hear the matter in the county in which the violations are alleged to have occurred.

(d) Quorum. A majority of the members constitutes a quorum for the transaction of business by the State Board of Elections. If any member of the Board fails to attend a meeting, and by reason thereof there is no quorum; the members present shall adjourn from day to day for not more than three days, by the end of which time, if there is no quorum, the Governor may summarily remove any member failing to attend and appoint his successor.

(e) Minutes. The State Board of Elections shall keep minutes recording all proceedings and findings at each of its meetings. The minutes shall be recorded in a book which shall be kept in the office of the Board in Raleigh."

Sec. 4. G.S. 163-23 is repealed and rewritten to read as follows:

Upon the written request or requests of two or more members of the State Board of Elections, he shall issue subpoenas for designated witnesses or identified papers, books, records and other evidence. In the absence of the chairman or upon his refusal to act, any two members of the State Board of Elections may issue subpoenas, summon witnesses, and compel the production of papers, books, records and other evidence. In the absence of the chairman or upon his refusal to act, any member of the Board may administer oaths."

Sec. 5. Chapter 163 of the General Statutes is amended by adding a new section 163-22.1, to read as follows:

"§ 163-22.1. *Power of State Board to order new elections.*—If the State Board of Elections, acting upon the agreement of at least four of its members, and after holding public hearings on election contests, alleged election irregularities or fraud, or violations of election laws, determines that a new primary, general or special election should be held, the Board may order that a new primary, general or special election be held, either statewide, or in any counties, electoral districts, special districts, or municipalities over whose elections it has jurisdiction.

Any new primary, general or special election so ordered shall be conducted under applicable constitutional and statutory authority and shall be supervised by the State Board of Elections and conducted by the appropriate elections officials.

The State Board of Elections has authority to adopt rules and regulations and to issue orders to carry out its authority under this section."

Sec. 8. G.S. 163-32 is amended by rewriting the first paragraph thereof to read as follows:

"§ 163-32. *Compensation of members of county boards of elections.*—In full compensation for their services, members of the county board of elections (including the chairman) shall be paid by the county twenty-five dollars (\$25.00) per day for the time they are actually engaged in the discharge of their duties, together with reimbursement for expenditures necessary and incidental to the discharge of their duties. The per diem payment shall be prorated if a board member is not actually engaged in the discharge of his duties for a full day. For the purposes of this section, a full day consists of five hours. In its discretion, the board of county commissioners of any county may pay the chairman of the county board of elections compensation in addition to the per diem and expense allowance provided in this paragraph."

Sec. 9. G.S. 163-33(2) and G.S. 163-33(3) are rewritten to read as follows:

"(2) To appoint all registrars, judges, assistants, and other officers of elections, and designate the precinct in which each shall serve; and, after notice and hearing, to remove any registrar, judge of elections, assistant, or other officer of election appointed by it for incompetency, failure to discharge the duties of office, failure to qualify within the time prescribed by law, fraud, or for any other satisfactory cause. In exercising the powers and duties of this subsection, the board may act only when a majority of its members are present at any meeting at which such powers or duties are exercised.

(3) To investigate irregularities, nonperformance of duties, and violations of laws by election officers and other persons, and to report violations to the State Board of Elections. In exercising the powers and duties of this subsection, the Board may act only when a majority of its members are present at any meeting at which such powers or duties are exercised."

Sec. 10. G.S. 163-33(8) is amended by adding the following sentence to the end thereof:

"In addition, the county board of elections shall give notice at least twenty (20) days prior to the date on which the registration books or records are closed that there will be a primary, general or special election, the date on which it will be held, and the hours the voting places will be open for voting in that election.

The notice also shall describe the nature and type of election, and the issues, if any, to be submitted to the voters at that election. Notice shall be given by advertisement at least once weekly during the 20-day period in a newspaper having general circulation in the county and by posting a copy of the notice at the courthouse door. This paragraph shall not apply in the case of bond elections called under the provisions of G. S. 159."

Sec. 11. G.S. 163-33 is amended by adding a new subsection thereto, as subsection (13), to read as follows:

"(13) Notwithstanding the provisions of any other section of this Chapter, to have access to any ballot boxes and their contents, any voting machines and their contents, any registration records, pollbooks, voter authorization cards or voter lists, any lists of absentee voters, any lists of presidential registrants under the Voting Rights Act of 1965 as amended, and any other voting equipment or similar records, books or lists in any precinct or municipality over whose elections it has jurisdiction or for whose elections it has responsibility."

Sec. 12. G.S. 163-42 is amended by adding thereto a new sentence to the first paragraph to read as follows:

"Where there are two precinct assistants in each precinct, each shall be a registered voter of a different political party than the other, and where there are more than two precinct assistants in each precinct, no more than a majority of them shall be registered voters of the same political party; provided, however, that if the requirements of this sentence cannot be met because there is an insufficient number of voters of the political parties available for appointment as precinct assistants, the county board of elections may, notwithstanding this statute, secure bi-partisan representation among precinct assistants."

Sec. 13. G.S. 163-44 is repealed.

Sec. 14. G.S. 163-45 is amended by rewriting the second sentence of the second paragraph to read as follows:

"Individuals authorized to appoint watchers must, prior to 10:00 a.m. on the fifth day prior to any primary or general election, submit in writing to the chairman of the county board of elections two signed copies of a list of watchers appointed by them, designating the precinct for which each watcher is appointed. Before the opening of the voting place on the day of a primary or general election, the chairman shall deliver one copy of the list to the registrar for each affected precinct. He shall retain the other copy. The chairman, or the registrar and judges for each affected precinct, may for good cause reject any appointee and require that another be appointed. The names of any persons appointed in place of those persons rejected shall be furnished in writing to the registrar of each affected precinct no later than the time for opening the voting place on the day of any primary or general election, either by the chairman of the county board of elections or the person making the substitute appointment."

Sec. 15. G.S. 163-46 is amended by adding a new sentence to the end of the first paragraph thereof to read as follows:

"Ballot counters appointed pursuant to G.S. 163-43 shall be paid a minimum of five dollars (\$5.00) for their services on the day of a primary, general or special election."

Sec. 16. G.S. 163-46 is amended by rewriting the fourth paragraph thereof to read as follows:

judges, assistants, and ballot counters in addition to the amounts specified in this section. Watchers shall be paid no compensation for their services."

Sec. 17. G.S. 163-47(a) is amended by adding a new sentence to the end thereof to read as follows:

"On the day of each primary and general and special election, the precinct registrar and judges shall remain at the voting place from the time fixed by law for the commencement of their duties there until they have completed all those duties, and they shall not separate nor shall any one of them leave the voting place except for unavoidable necessity."

Sec. 18. G.S. 163-55 is rewritten as follows:

"§ 163-55. *Qualifications to vote; exclusion from electoral franchise.*—Every person born in the United States, and every person who has been naturalized, and who shall have resided in the State of North Carolina and in the precinct in which he offers to register and vote for 30 days next preceding the ensuing election, shall, if otherwise qualified as prescribed in this Chapter, be qualified to register and vote in the precinct in which he resides: Provided, that removal from one precinct to another in this State shall not operate to deprive any person of the right to vote in the precinct from which he has removed until 30 days after his removal.

The following classes of persons shall not be allowed to register or vote in this State:

(1) Persons under 18 years of age.

(2) Any person adjudged guilty of a felony against this State or the United States, or adjudged guilty of a felony in another state that also would be a felony if it had been committed in this State, unless that person shall be first restored to the rights of citizenship in the manner prescribed by law."

Sec. 19. G.S. 163-56 is repealed.

Sec. 20. G.S. 163-59 is amended by rewriting the last paragraph thereof to read as follows:

"Any person who will become qualified by age or residence to register and vote in the general election or regular municipal election for which the primary is held, even though not so qualified by the date of the primary, shall be entitled to register for the primary and general or regular municipal election prior to the primary and then to vote in the primary after being registered. Such person may register not earlier than 60 days nor later than 21 days prior to the primary."

Sec. 21. G.S. 163-65(b) is repealed and G.S. 163-65(c) is renumbered as G.S. 163-65(b) and rewritten to read as follows:

"(b) Registration records. The applicant's application to register, when approved by the county board of elections, as provided in G.S. 163-67, shall become an official registration certificate. All original registration certificates shall be kept by the county board of elections in a safe place to be provided by the board of county commissioners. The county board of elections shall place an exact duplicate or copy of each original registration certificate in the proper precinct registration book, and certify each such book as containing the registration certificates of all persons entitled to vote in that precinct. Duplicate registration certificates filed in the precinct registration books, when properly certified by the county board of elections, shall be used in the precincts for purposes of all primaries and elections; provided, however, that the original registration certificates shall at all times be the official and final evidence of registration, and the county board of elections shall have the power to correct

the duplicates in the precinct registration books to conform to the original registration certificates at any time, including the day of any primary or election.”

Sec. 22. G.S. 163-66 is rewritten to read as follows:

“§ 163-66. *Custody of registration records and pollbooks; access; obtaining copies.*—In all counties the registration records, books, registration certificates, indexes, and other records of registration and voting shall be and remain in the possession of the county board of elections. The county board of elections shall keep these books in a safe and secure place where they may not be tampered with, stolen, or destroyed. If possible, the board shall keep them in a fireproof vault. The board may exercise supervision and control of these records through its properly designated officers and employees. It shall be the duty of the county board of elections, on application of any candidate, or the county chairman of any political party, or any other person, to furnish a list of the persons registered to vote in the county or in any precinct or precincts therein. No registrar shall furnish lists of registered voters or permit the registration records of his precinct to be copied. The county board of elections shall furnish such lists and, upon request, it may furnish selective lists according to party affiliation, sex, race, date of registration, or any other reasonable category. In all instances, however, the county board of elections shall require persons to whom any list is furnished to make full reimbursement for the expense incurred in preparing it. Notwithstanding the above, however, the chairman of each political party, as defined in G.S. 163-96, shall be entitled biennially, upon request, to one free list of all registered voters in his county showing the name, address, sex, political affiliation and precinct of each registered voter.”

Sec. 23. G.S. 163-67.1 is amended by striking the words “The county boards of elections, whether operating under the provisions of G.S. 163-67(a) or (b)” and by inserting in lieu thereof the words “Each county board of elections”.

Sec. 24. G.S. 163-68 is repealed.

Sec. 25. G.S. 163-69 is rewritten as follows:

“§ 163-69. *Permanent registration.*—The registration certificates shall be a permanent public record of registration and qualification to vote, and they shall not thereafter be cancelled except as otherwise provided in this Chapter. No new registration shall be ordered pursuant to G.S. 163-78 either by precinct, or countywide, unless the permanent registration certificates have been lost or destroyed by theft, fire, or other hazard.

In the event of any division of precincts or changes in precinct boundaries, the board of elections shall not cancel the existing registration or order a new registration, but it shall immediately correct the existing precinct registration certificates to conform to the division or change.

To the end that the permanent registration records shall be purged of the names of registrants who have died or who have become disqualified to vote since registration, the register of deeds of the county shall furnish free of charge, to the county board of elections a certification of all death certificates as soon as they are recorded in his office. Upon receipt of such a certification from the register of deeds, the county board of elections shall cause to be removed from its permanent registration records the name of any person appearing on the register of deeds' death certificate certification.

In addition, beginning in the twelve-month period following the Presidential election in 1972 and thereafter in the period beginning no later than 30 days

after each subsequent Presidential election, the county board of elections shall remove from the permanent registration records the names of all persons who have failed to vote, according to the poll or other record of voting, for a period of four years. Also, at any other time, including the time required by this section for mandatory purging of persons who have not voted for a period of four years, the county board of elections may remove from the permanent registration records the names of all persons who have moved their residence from the county. Prior to removing any person's name from the registration records for failure to vote for four consecutive years or for removal of residence from the county as authorized by this section, the county board of elections shall cause to be mailed to the person affected, at the address shown on the permanent registration records, a notice to show cause why his registration should not be voided. If such a person shall appear and show that his qualifications to register and vote remain as they were when he was first registered, his name shall not be removed from the permanent registration records. Any person whose name has been removed from these records for failure to vote for four consecutive years or for removal of residence from the county shall be permitted to reregister at any time he can demonstrate that he is qualified to register and vote.

Nothing in this section shall prohibit the county board of elections from restoring to the permanent registration records the name of any person upon proof that he is not dead, or that he has voted in the county within the four-year period, or has not removed his residence from the county."

Sec. 26. G.S. 163-70 is rewritten to read as follows:

"§163-70. *Chairman to certify to State Board of Elections number of registered voters in county.*—The chairman of a county or municipal board of elections shall certify to the State Board of Elections the number of registered voters in the county or municipality. The certification shall be made on such forms as the State Board may prescribe and at such times as the State Board may fix."

Sec. 27. G.S. 163-72 is rewritten to read as follows:

"§163-72. *Registration procedure; oath.*—(a) Before questioning any applicant for registration as to his qualifications, the registrar shall administer the following oath to him:

'You swear (or affirm) that the statements and information you shall give me with respect to your identity and qualifications to register to vote shall be the truth, the whole truth, and nothing but the truth, so help you, God.'

After being sworn, the applicant shall state as accurately as possible his name, age, place of birth, place of residence, political party affiliation, if any, under the provisions of G.S. 163-74, the name of any municipalities in which he resides, and any other information which may be material to a determination of his identity and qualification to be admitted to registration. The applicant shall also present to the registrar written or documentary evidence that he is the person he represents himself to be. The registrar, if in doubt as to the right of the applicant to register, may require other evidence satisfactory to him as to the applicant's qualifications.

(b) If the registrar finds the applicant duly qualified and entitled to be registered, he shall administer the following registration oath to him, omitting the words in parentheses if the applicant does not claim residence in any municipality:

'I, _____, do solemnly swear (or affirm) that I will support the Constitution of the United States, and the Constitution of the State of North Carolina not inconsistent therewith; that I have been or will have been a resident of the State of North Carolina and of this precinct for 30 days by the date of the next primary, special or general election; (that I am a resident of _____ (municipal corporation)); that I am at least 18 years of age or will be by the date of the next general election; and that I have not registered to vote in any other precinct, county, or state, nor will I vote in any other precinct, county, or state, so help me, God.'

If the registrar finds the applicant qualified and entitled to be registered, and if the applicant has taken the oath prescribed in the preceding paragraph, the registrar shall register him by recording his name, age, race, residence, place of birth, municipality in which entitled to vote, and the precinct, municipality, county, or state from which he has removed in the event of a removal, in the appropriate columns of the registration book or other registration record.

The registration book or other record containing the information required by the preceding paragraph shall be evidence against the applicant in any court of law in a proceeding for false or fraudulent registration.

(c) No registered voter shall be required to reregister upon moving from one precinct to another in the same county. In lieu thereof, in accordance with regulations prescribed by the county board of elections, the voter, not less than 21 days before any primary or election in which the removing elector desires to vote, shall file with the county board of elections or with a registrar an affidavit setting forth his former residence, and a statement that all his other qualifications to register and vote remain as they were at the time he was registered. If a registered voter by moving his place of residence from one place to another within the same county thereby affects his eligibility to vote in one or more municipalities, the affidavit also shall state the municipality in which he is now qualified to vote and/or those in which he is no longer qualified to vote. If the county board of elections finds the facts asserted in the affidavit to be true, it shall immediately transfer the voter's registration to the precinct of his new residence or shall correct his registration for municipal elections. Thereafter the voter shall be considered registered and qualified to vote in his new precinct of residence."

Sec. 28. Chapter 163 of the General Statutes is amended by adding a new section, immediately after G.S. 163-72, to read as follows:

"§ 163-72.1. *Cancellation of prior registration.*—(a) After having accepted the application for registration, and after advising the applicant that he is still bound by the oath first administered pursuant to G.S. 163-72, the registrar shall ask the applicant whether he is, at that time, also registered to vote in any other county, municipality or state. If the applicant answers in the affirmative, the registrar shall obtain from him a signed authorization (in triplicate) to cancel all prior registrations. The authorization shall set forth the name under which the person previously was registered, his prior address (including state, county, street address, and precinct, if known), and the name under which he is applying to register. It shall be addressed to the appropriate election officials in the other county, municipality or state and shall request them to cancel his voting registration in that county or state. It also shall direct the county board of elections to which he is currently applying for registration to transmit a signed

copy of the authorization to the appropriate election officials in the other county, municipality or state.

(b) The registrar shall deliver all copies of the signed authorization, together with the person's application for registration, to the county board of elections. If the person, having stated that he is registered in another county or state, refuses to sign the authorization, the registrar shall complete the authorization as completely as possible without obtaining the person's signature and shall transmit it, together with the person's application for registration, to the county board of elections, noting in the appropriate place on the authorization that the person refused to sign it after having stated that he is registered in another county or state.

(c) If the person's application for registration is rejected pursuant to G.S. 163-67, and upon exhaustion of any appeal from rejection that does not result in the granting of registration, the chairman of the county board of elections shall promptly destroy all copies of the person's authorization.

(d) If the person's application for registration is not rejected, the chairman of the county board of elections forthwith shall mail a signed copy of the authorization to the appropriate elections officials in the county, municipality or state where the person previously was registered.

(e) When a county or municipal board of elections in this State receives from another county or municipal board of elections in this State, or from appropriate elections officials of another state or political subdivision in another state, a signed authorization directing the removal of a person's name from the county's or municipality's permanent registration records, the board, ten days after giving written notice of receipt of the authorization to the person at the local address shown in the county's registration records and in the authorization, shall remove the person's name from its registration records.

If within 20 days after giving notice to the person affected the board is notified by the person that he objects to the removal of his name from the records, the chairman of the board shall enter a challenge to the person's qualifications to remain registered or vote. The challenge may be based on the person's removal of residence from the county or municipality or any other sufficient ground for objecting to the right of the person to remain registered or vote, and the challenge shall be heard as provided in G.S. Chapter 163, Article 8.

(f) The board of elections is responsible for the safekeeping of the authorization and any other documents relating to the cancellation of prior registration pursuant to this section. Except as provided in subsection (c), the board shall retain them for a period of at least one year after obtaining the authorization.

(g) The authorization form and the form for written notice of receipt of authorization shall be prescribed or approved by the State Board of Elections. No county or municipality may use any other such forms.

(h) For the purposes of this section, the word 'state' includes the District of Columbia."

Sec. 29. G.S. 163-73 is repealed.

Sec. 30. G.S. 163-74(a) is amended by striking the words "during a regular registration period" after the words "applies for registration" and before the words "prior to any primary or election" in the first paragraph.

Sec. 31. G.S. 163-74(b) is rewritten to read as follows:

“(b) Change of party affiliation. Any registered voter who desires to have his party affiliation changed on the registration records of the county shall, not less than 21 days prior to any primary, file an affidavit with the county board of elections, or a registrar, in accordance with regulations to be adopted by the county board of elections, in the following form:

‘I, _____, do solemnly swear (or affirm) that I desire in good faith to change my party affiliation from the _____ party to the _____ party, and that such change of affiliation be made on the registration records in the manner provided by law, so help me, God.’

Upon receipt of the required oath, the county board of elections shall immediately change the record of the registrant’s party affiliation to conform to that stated in the oath. Thereafter the voter shall be considered registered and qualified to vote in the primaries of the political party which he designated in the oath.”

Sec. 32. G.S. 163-78 is rewritten to read as follows:

“§ 163-78. *New registration; when permanent registration certificates lost or destroyed.*—If all of the permanent registration certificates, required by G.S. 163-65, for any precinct, for the entire county, or for any municipality, are, prior to 30 days preceding any primary, general or special elections, lost or destroyed by theft, fire, or other hazard, the county or municipal board of elections shall promptly provide the precinct registrar of each affected precinct with new loose-leaf registration books and new applications for registration, and shall order a new registration of qualified persons in each affected precinct. The new registration shall be conducted at the times and places in the manner prescribed by G.S. 163-67(a). The board of elections shall give notice that a new registration is in process by advertisement in a newspaper having general circulation in the county and by posting notice at the courthouse door. The notice shall state that a new registration is in process, and the location of the voting place and the name of the registrar in each affected precinct.

If the destruction or mutilation of the precinct registration book occurs less than 30 days before any primary, general, or special election, the board of elections shall, insofar as time will permit, adhere to the provisions of the first paragraph of this section. If the time available makes it impossible to conduct a new registration in the affected precinct, each person presenting himself to vote in the precinct on the day of the ensuing general or special election shall be allowed to cast his ballot after signing and delivering to the registrar an affidavit in the following form:

‘I, _____, do solemnly swear (or affirm) that I will support the Constitution of the United States, and the Constitution of the State of North Carolina not inconsistent therewith; that I have been a resident of the State of North Carolina and of this precinct or municipality for 30 days; that I am at least 18 years of age; and that I have not registered to vote in any other precinct, county, municipality or state, so help me, God.’

If the ensuing election is a primary rather than a general or special election, the following affidavit shall be used:

‘I, _____, do solemnly swear (or affirm) that I will support the Constitution of the United States, and the Constitution of the State of North Carolina not inconsistent therewith; that I have been or will have been a resident of the State of North Carolina and of this precinct or municipality for 30 days by the date of the next general election; that I am at

least 18 years of age or will be by the date of the next general election; and that I have not registered to vote in any other precinct, county, municipality, or state, so help me, God.'

Persons permitted to vote under this procedure may be challenged in accordance with the provisions of G.S. 163-87 and G.S. 163-88. The registrar shall deliver all affidavits deposited with him to the board of elections on canvass day. The affidavits shall not be deemed to constitute a new record of registration for the precinct, county or municipality for subsequent primaries and elections."

Sec. 33. G.S. 163-84 is rewritten to read as follows:

"§ 163-84. *Time for challenge other than on day of primary or election.*—The registration records of each county shall be open to inspection by any registered voter of the county, including any registrar or judge of elections, during the normal business hours of the county board of elections on the days when the board's office is open pursuant to G.S. 163-67. At those times the right of any person to register, remain registered, or vote shall be subject to objection and challenge."

Sec. 34. G.S. 163-85 is rewritten to read as follows:

"§ 163-85. *Challenge procedures other than on day of primary or election.*—

(a) Who may challenge. Any registered voter of the county may challenge the right of any person to register, remain registered, or vote in the county.

(b) To whom challenge made; form and nature of challenge. Challenges shall be made to the county board of elections. Each challenge shall be made separately. The burden of proof shall be on the challenger in each case. Each challenge shall be made in writing and, if they are available, shall be made on forms prescribed by the State Board of Elections. Each challenge shall specify the reasons why the challenged voter is not entitled to be or remain registered or to vote. The challenge shall be signed by the challenger and shall set forth the challenger's address.

(c) Recording challenge. When a challenge is made, the official to whom it is made shall write the word 'challenged' in pencil in the registration records beside the name of the person who is challenged. The official then shall prepare a written notice of the challenge, stating succinctly the grounds asserted. As soon as the challenge has been recorded, the official shall also set a time and place at which the merits of the challenge shall be heard. The official shall serve the notice of the time and place of the hearing on the challenged person either in person or by leaving a copy of the notice at the place of residence of the challenged person, as shown on the registration records. The official receiving the challenge shall also furnish the challenger with a copy of the notice either in person or by leaving it at the challenger's place of residence, as shown on the registration records.

(d) If the challenge is based on the challenged person's removal of his permanent residence to another county or state, the official receiving the challenge shall not set a time and place for the hearing to be held before the next ensuing primary or election day, but if the challenged person appears and seeks to vote on that day, the challenge shall be heard and decided as if it were held on that day."

Sec. 35. G.S. 163-86 is rewritten to read as follows:

"§ 163-86. *Challenge hearings other than on day of primary or election.*—(a) Hearing on challenge made prior to primary or election day. A challenge entered

on a day other than the day of a primary or election shall be heard and decided before the date of the next ensuing primary or election. Challenges shall be heard and decided by the county board of elections.

At the time and place set for the hearing on a challenge entered prior to the date of a primary or election, the county board of elections shall explain to the challenged registrant the qualifications for registration and voting in this State. The board chairman, or in his absence the board secretary, shall then administer the following oath to the challenged registrant:

any other referendum or election, but may not be otherwise held within the period of time beginning 30 days before and ending 30 days after any other referendum or election. The referendum shall be conducted by the county board of elections.

The proposition submitted to the voters shall be substantially in the following form:

Shall the effective property rate limitation applicable to _____ County be increased from _____ on the one hundred dollars (\$100.00) value of property subject to taxation to _____ on the one hundred dollars (\$100.00) value of property subject to taxation?

If a majority of those participating in the referendum approve the proposition, the rate limitation imposed in subsection (c) shall be increased for the county.

(f) With respect to any of the categories listed in subsections (b) and (c) of this section, the county may provide the necessary personnel, land, buildings, equipment, supplies, and financial support from property tax revenues for the program, function, or service.

(g) This section does not authorize any county to undertake any program, function, joint undertaking, or service not otherwise authorized by law. It is intended only to authorize the levy of property taxes within the limitations set out herein to finance programs, functions, or services authorized by other portions of the General Statutes or by local acts."

(d) Property taxes may be levied for one or more of the purposes listed in subsection (c) up to a combined effective rate of one dollar and fifty cents (\$1.50) on the one hundred dollars (\$100.00) appraised value of property subject to taxation before the application of any assessment ratio. To find the actual rate limit for a particular city, divide the effective rate limit of one dollar and fifty cents (\$1.50) by the county assessment ratio.

(e) With an approving vote of the people, any city may levy property taxes for any purpose for which the city is authorized by its charter or general law to appropriate money. Any property tax levy approved by a vote of the people shall not be counted for purposes of the rate limitation imposed in subsection (d).

The city council may call a referendum on approval of a property tax levy. The referendum may be held at the same time as any other city referendum or city election, but may not be otherwise held (i) on the day of any federal, State, district, or county election already validly called or scheduled by law at the time the tax referendum is called, or (ii) within the period of time beginning 30 days before and ending 10 days after the day of any other city referendum or city election already validly called or scheduled by law at the time the tax referendum is called. The referendum shall be conducted by the same board of elections that conducts regular city elections. The city clerk shall publish a notice of the referendum at least twice. The first publication shall be not less than 14 days and the second publication not less than seven days before the last day on which voters may register for the referendum. The notice shall state the date of the referendum, the purpose for which it is being held, and a statement as to the last day for registration for the referendum under the election laws then in effect.

The proposition submitted to the voters shall be substantially in one of the following forms:

- (1) Shall the City/Town of _____ be authorized to levy annually a property tax at an effective rate not in excess of _____ cents on the one hundred dollars (\$100.00) value of property subject to taxation for the purpose of _____?
- (2) Shall the City/Town of _____ be authorized to levy

annually a property tax at a rate not in excess of that which will produce \$_____ for the purpose of _____?

- (3) Shall the City/Town of _____ be authorized to levy annually a property tax without restriction as to rate or amount for the purpose of _____?

If a majority of those participating in the referendum approve the proposition, the city council may proceed to levy annually a property tax within the limitations (if any) described in the proposition. Unless otherwise provided in the proposition submitted to the voters, a vote on a property tax levy not to exceed a specified rate per one hundred dollars (\$100.00) value of property subject to taxation is a vote on an effective rate per one hundred dollars (\$100.00) of appraised value of property before the application of any assessment ratio.

The board of elections shall canvass the referendum and certify the results to the city council. The council shall then certify and declare the result of the referendum and shall publish a statement of the result once, with the following statement appended: 'Any action or proceeding challenging the regularity or validity of this tax referendum must be begun within 30 days after (date of publication).' The statement of results shall be filed in the clerk's office and inserted in the minutes of the council.

Any action or proceeding in any court challenging the regularity or validity of a tax referendum must be begun within 30 days after the publication of the results of the referendum. After the expiration of this period of limitation, no right of action or defense based upon the invalidity of or any irregularity in the referendum shall be asserted, nor shall the validity of the referendum be open to question in any court upon any ground whatever, except in an action or proceeding begun within the period of limitation prescribed herein.

Except for tax referendums on functions not included in subsection (c) of this section, any referendum held before July 1, 1973, on the levy of property taxes is not valid for the purposes of this subsection. Cities in which such referendums have been held may support programs formerly supported by voted property taxes within the general rate limitation set out in subsection (d) at any appropriate level and are not subject to the former voted rate limitation.

(f) With an approving vote of the people, any city may increase the property tax rate limitation imposed in subsection (c) and may call a referendum for that purpose. The referendum may be held at the same time as any other city referendum or election, but may not be otherwise held (i) on the day of any federal, State, district, or county election, or (ii) within the period of time beginning 30 days before and ending 30 days after the day of any other city referendum or city election. The election shall be conducted by the same board of elections that conducts regular city elections.

The proposition submitted to the voters shall be substantially in the following form:

Shall the effective property rate limitation applicable to the City/Town of _____ be increased from _____ on the one hundred dollars (\$100.00) value of property subject to taxation to _____ on the one hundred dollars (\$100.00) value of property subject to taxation?

If a majority of those participating in the referendum approve the proposition, the rate limitation imposed in subsection (c) shall be increased for the city.

(g) With respect to any of the categories listed in subsection (b) and (c) of this section, the city may provide the necessary personnel, land, buildings, equipment, supplies, and financial support from property tax revenues for the program, function, or service.

(h) This section does not authorize any city to undertake any program, function, joint undertaking, or service not otherwise authorized by law. It is intended only to authorize the levy of property taxes within the limitations set out herein to finance programs, functions, or services authorized by other portions of the General Statutes or by city charters."

CHAPTER 813

AN ACT TO EXPEDITE JUSTICE IN NORTH CAROLINA BY AUTHORIZING THE ATTORNEY GENERAL TO PROVIDE PROSECUTORIAL ASSISTANCE UPON REQUEST OF THE SOLICITOR.

Whereas, the people of North Carolina are concerned that every reasonable effort be made to expedite Justice and provide speedy trials; and

Whereas, it is recognized that the solicitors of our State generally are carrying tremendous caseloads and often are without time and resources to prepare and try cases which involve complex legal questions, extensive research and expert trial assistance; and

Whereas, the Attorney General has initiated a pilot program of prosecutorial assistance to provide these services to solicitors and this program has proved highly successful and drawn praise from the various solicitors of the State; and

Whereas, the continuation of this service would be of invaluable assistance to solicitors and would serve the cause of criminal justice in North Carolina; Now, therefore,

AN ACT TO AUTHORIZE THE STATE DEPARTMENT OF SOCIAL SERVICES TO ADJUST RATES IN LICENSED REST HOMES TO OFFSET ADDED COSTS OF MINIMUM WAGE LAWS.

The General Assembly of North Carolina enacts:

Section 1. Findings and Intent. The General Assembly of North Carolina finds that for the biennium ending June 30, 1973, the rates established for the room, board, care and custody of indigent citizens assigned by the State Department of Social Services to licensed family care homes or homes for the aged were based on the actual average cost of such services as determined by a Research Triangle Institute Cost Study, adjusted through 1971 to meet the added costs of minimum wage increases under Federal or State minimum wage laws. It is the intent of this act to authorize the use of available funds for such further adjustments as may be necessary to offset the increased costs of services due to any additional increases in minimum wages required by Federal or State laws after April 15, 1973.

Sec. 2. G.S. 108-27 is hereby amended by adding a new subsection (c) to read as follows:

"G.S. 108-27(c). Every such insurer, as a prerequisite to further engaging in writing such insurance in this State shall be a member of the Facility and shall be bound by the Rules of Operation thereof as provided for in this Article and as promulgated by the Board of Governors. No company may withdraw from membership in the Facility unless it ceases to write motor vehicle insurance in this State or ceases to be licensed to write such insurance.

“§ 58-317. *Obligations after termination of membership.*—Any company whose membership in the Facility has been terminated by withdrawal shall, nevertheless, with respect to its business prior to midnight of the effective date of such termination continue to be governed by this Article.

“§ 58-319. *Merger, consolidation or cession.*—When a member has been merged or consolidated into another insurer, or has ceded its entire motor vehicle liability insurance business in the State to another insurer, such Company or its successor in interest, shall remain liable for all obligations hereunder and such Company and its successor in interest and the other insurers with which it has been merged or consolidated shall continue to participate in the Facility according to the Rules of Operation.

All such insurers shall equitably share the results of such otherwise unacceptable business through the Facility and shall be bound by the acts of their agents in accordance with the provisions of this Article. No insurer shall impose upon any of its agents, solely on account of ceded business received from such agents, any quota or matching requirement for any other insurance as a condition for further acceptance of ceded business from such agents.

“§ 58-321. *General obligations of agents.*—Except as otherwise provided in this Article, no licensed agent of an insurer authorized to solicit and accept premiums for motor vehicle insurance or any component thereof by the company he represents shall refuse on behalf of said company to accept any application from an eligible risk for such insurance and to immediately bind the coverage applied for and for a period of not less than six months if cession of the particular coverage and coverage limits applied for are permitted in the Facility, provided the application is submitted during the agent's normal business hours, at his customary place of business and in accordance with the agent's customary practices and procedures. The commission paid on the insurance coverages provided in this act shall not be less than the commission on insurance coverage written through the N. C. Insurance Plan on May 1, 1973. The same commission shall apply uniformly statewide.

“§ 58-322. *Definitions.*—As used in this Article:

(b) The Facility shall reinsure for each coverage available therein to the standard percentage of 100% or lesser equitable percentage established in the Plan of Operation as follows:

(1) For the following coverages of motor vehicle insurance and in at least the following amounts of insurance:

- a. Bodily Injury Liability: \$25,000 each person, \$50,000 each accident;

Any other motor vehicle insurance required by law: In twice the amount of coverage limits required by law.

(c) The Facility shall require each member to adjust losses for ceded business fairly and efficiently in the same manner as voluntary business losses are adjusted and to effect settlement where settlement is appropriate.

(d) The Facility shall be administered by a Board of Governors. The Board of Governors shall consist of nine members having one vote each from the classifications hereinafter enumerated plus the Commissioner who shall serve ex officio without vote. Each Facility insurance company member serving on the Board shall be represented by a senior officer of the company. Not more than one company in a group under the same ownership or management shall be represented on the Board at the same time. Five members of the Board shall be selected by the member insurers, which members shall be fairly representative of the industry. To insure representative member insurers, one each shall be selected from the following groups: the American Insurance Association (or its successors), the American Mutual Insurance Alliance (or its successors), the National Association of Independent Insurers (or its successors), all other stock insurers not affiliated with the above groups, and all other non-stock insurers not affiliated with the above groups. The Commissioner of Insurance shall appoint four members of the Board who shall be fire and casualty insurance agents licensed in this State and actively engaged in writing motor vehicle insurance in this State. The Commissioner shall select one agent from among a list of two nominees submitted by the Independent Insurance Agents of North Carolina, Inc., and one agent from among a list of two nominees submitted by The Carolinas Association of Mutual Insurance Agents, North Carolina Division. The initial term of office of said Board members shall be two years. Following completion of initial terms, successors to the members of the original Board of Governors shall be selected to serve three years. All members of the Board of Governors shall serve until their successors are selected and qualified and the Commissioner may fill any vacancy on the Board from any of the aforementioned classifications until such vacancies are filled in accordance with the provisions of this Article.

(e) The Commissioner and member companies shall provide for a Board of Governors within thirty days after the ratification of the act enacting this Article. If any member seat on the initial Board of Governors is not filled in accordance with this Article within such time, then, in that event the Commissioner shall appoint natural persons from any of the classifications specified in subsection (d) of this section to serve the initial term on the Board of Governors. As soon as possible after its selection, the Commissioner shall call for the initial meeting of the Board. After the Board of Governors have been selected it shall then elect from its membership a Chairman and shall then meet thereafter as often as the Chairman shall require or at the request of three members of the Board of Governors. The Chairman shall retain the right to vote

on all issues. Five members of the Board of Governors shall constitute a quorum. The same member may not serve as Chairman for more than two consecutive years.

(f) The Board of Governors shall have full power and administrative responsibility for the operation of the Facility. Such administrative responsibility shall include but not be limited to:

- (1) Proper establishment and implementation of the Facility.
- (2) Employment of a manager who shall be responsible for the continuous operation of the Facility and such other employees, officers and committees as it deems necessary.
- (3) Provision for appropriate housing and equipment to assure the efficient operation of the Facility.
- (4) Promulgation of reasonable rules and regulations for the administration and operation of the Facility and delegation to the manager of such authority as it deems necessary to insure the proper administration and operation thereof.

(g) Except as may be delegated specifically to others in the Plan of Operation or reserved to the members, power and responsibility for the establishment and operation of the Facility is vested in the Board of Governors, which power and responsibility include but is not limited to the following:

- (1) To sue and be sued in the name of the Facility. No judgment against the Facility shall create any direct liability in the individual member companies of the Facility.
- (2) To receive and record reinsurance cessions from member companies.
- (3) To assess members on the basis of participation ratios established in the Plan of Operation to cover anticipated or incurred costs of operation and administration of the Facility at such intervals as are established in the Plan of Operation.
- (4) To contract for goods and services from others to assure the efficient operation of the Facility.
- (5) To hear and determine complaints of any company, agent or other interested party concerning the operation of the Facility.
- (6) To review the market for motor vehicle insurance throughout North Carolina to make certain that eligible risks can readily obtain such insurance and to provide in the Plan of Operation a reasonable means for achieving this objective. The Facility is authorized to require all companies in a fair and equitable manner who are writers of motor vehicle insurance in this State to appoint and license any fire and casualty agent duly licensed to write insurance in North Carolina, in such places where a market need has been demonstrated, to be their agent to write motor vehicle insurance. The companies and agents may enter into such agency contract as may be agreeable to both parties. If a company ceases to be a member of the Facility after appointing and licensing agents pursuant to this provision, then the Facility shall promptly require another company or companies to appoint and license such agents in these places. Notwithstanding the provisions of this subdivision, the Commissioner may review the market for motor vehicle insurance or any component thereof. After notice to and consultation with the Board of Governors, if the Commissioner finds that reasonable facilities are not being provided to make motor vehicle insurance or any

component thereof available in a particular county, then in that event, he may require the Board to provide adequate facilities in such county. If the Board fails to comply with the requirements of the Commissioner, then the Commissioner may exercise all the powers of the Facility to provide such adequate facilities. Additionally, the Commissioner may require the company or companies selected to service a particular county to pay or provide for reasonable compensation for the services of the agent appointed to represent said company or companies, and, if necessary, the Commissioner may appoint such agent.

- (7) To maintain all loss, expense, and premium data relative to all risks reinsured in the Facility, and to require each member to furnish such statistics relative to insurance reinsured by the Facility at such times and in such form and detail as may be required.
- (8) To establish fair and reasonable procedures for the sharing among the members of profit and loss on Facility business and other costs, charges, expenses, liabilities, income, property and other assets of the Facility and for assessing or distributing to members their appropriate shares. Such shares may be based on the member's premiums for voluntary business for the appropriate category of motor vehicle insurance or by any other fair and reasonable method.
- (9) To receive or distribute all sums required by the operation of the Facility.
- (10) To accept all risks submitted from the companies in accordance with this Article.
- (11) To establish procedures for reviewing claims practices of member companies to the end that claims to the account of the Facility will be handled fairly and efficiently.
- (12) To adopt and enforce all rules and to do anything else where the Board is not elsewhere herein specifically empowered which is otherwise necessary to accomplish the purpose of the Facility and is not in conflict with the other provisions of this Article.

(h) Each member company shall authorize the Facility to audit that part of the company's business which is written subject to the Facility in a manner and time prescribed by the Board of Governors.

(i) The Board of Governors shall fix a date for an annual meeting and shall annually meet on that date. Twenty days' notice of such meeting shall be given in writing to all members of the Board of Governors.

(j) There shall be furnished to each member an annual report of the operation of the Facility in such form and detail as may be determined by the Board of Governors.

(k) Each member shall furnish statistics in connection with insurance subject to the Facility as may be required by the Facility. Such statistics shall be furnished at such time and in such form and detail as may be required but at least will include premiums charged, expenses and losses.

"§ 58-324. *Plan of operation.*—(a) Within 60 days after the initial organizational meeting, the Facility shall submit to the Commissioner, for his approval, a proposed Plan of Operation, consistent with the provisions of this act, which shall provide for economical, fair and non-discriminating administration and for the prompt and efficient provision of motor vehicle insurance to eligible risks. Should no plan be submitted within the aforesaid 60-day period, then the

Commissioner of Insurance shall formulate and place into effect a plan consistent with the provisions of this act.

(b) The Plan of Operation, unless sooner approved in writing, shall be deemed to meet the requirements of the act if it is not disapproved by order of the Commissioner within 30 days from the date of filing. Prior to the disapproval of all or any part of the proposed Plan of Operation the Commissioner shall notify the Facility in what respect the Plan of Operation fails to meet the specific requirements of this act. The Facility shall, within 30 days thereafter, submit for his approval a revised Plan of Operation which meets the specific requirements of this act. In the event the Facility fails to submit a revised Plan of Operation which meets the specific requirements of this act within the aforesaid 30-day period, the Commissioner of Insurance shall enter an order accordingly and shall immediately thereafter formulate and place into effect a plan consistent with the provisions of this act.

(c) Any revision of the proposed Plan of Operation or any subsequent amendments to an approved Plan of Operation shall be subject to approval or disapproval by the Commissioner in the manner herein provided in subsection (b) with respect to the initial Plan of Operation.

(d) Any order of the Commissioner with respect to the Plan of Operation or any revision of amendment thereof shall be subject to court review as provided in G.S. 58-9.3.

(e) Upon approval of the Commissioner of the Plan so submitted or the promulgation of a Plan deemed approved by the Commissioner, all insurance companies licensed to write motor vehicle insurance in this State or any component thereof as a prerequisite to further engaging in writing such insurance shall formally subscribe to and participate in the Plan so approved.

The Plan of Operation shall provide for, among other matters, the establishment of necessary facilities, the management of the Facility, the preliminary assessment of all members for initial expenses necessary to commence operations, the assessment of members to defray losses and expenses, the distribution of gains, the standard amount (100% or any equitable lesser amount) of coverage afforded on eligible risks which a member company may cede to the Facility, and the procedure by which reinsurance shall be accepted by the Facility; and shall further provide that:

- (1) Members of the Board of Governors shall receive reimbursement from the Facility for their actual and necessary expenses incurred on Facility business, en route to perform Facility business, and while returning from Facility business plus a per diem allowance of \$25.00 a day which may be waived.
- (2) In order to obtain a transfer of business to the Facility effective when the binder or policy or renewal thereof first becomes effective, the company must within 30 days of the binding or policy effective date notify the Facility of the identification of the insured, the coverage and limits afforded, classification data, and premium. The Facility shall accept risks at other times on receipt of necessary information, but such acceptance shall not be retroactive. The Facility shall accept renewal business after the member on underwriting review elects to again cede the business.

“§ 58-325. *Limit on cessions.*—Upon receipt by the company of a risk which it does not elect to retain, the company shall follow such procedures for ceding the

risk as are established by the Plan of Operation; provided, however, that no company can cede to the Facility more than fifty percent (50%) of all its motor vehicle insurance business in North Carolina without specific approval of the Board of Governors.

“§ 58-326. *Termination of insurance.*—No member may terminate insurance to the extent that cession of a particular type of coverage and limits is available under the provisions of this Article except for the following reasons:

(1) Non-payment of premium when due to the insurer or producing agent.

(2) The named insured has become a non-resident of this State and would not otherwise be entitled to insurance on submission of new application under this Article.

(3) A member company has terminated an agency contract for reasons other than the quality of the agent's insureds or the agent has terminated the contract and such agent represented the company in taking the original application for insurance.

(4) When the insurance contract has been cancelled pursuant to a power of attorney given a company licensed pursuant to the provisions of G.S. 58-56.

“§ 58-327. *Exemption from requirements of this Article of companies and their agents.*—By reason of the limit on cessions provided in this Article, the Board of Governors may exempt a company and its agents from the requirements of this Article, insofar as new business is concerned. The Board may further exempt a company and its agents from the requirements of this Article regarding the selling and servicing a particular category of business, if the company is not qualified to service the business.

“§ 58-327.1. *Physical damage insurance availability.*—No physical damage insurer shall refuse to make physical damage coverage available to any applicant for the reason that such applicant has, or may acquire, auto liability insurance through the facility plan as provided herein; further that no such insurer may levy a surcharge or increased rate for such physical damage coverage on the basis that such applicant has, or may acquire, auto liability insurance through the facility plan as provided herein.

Any such insurer or representative thereof failing to comply with, or otherwise violating the provisions of this section, shall be punished as prescribed in G.S. 58-248.4 and G.S. 58-248.5.

“§ 58-328. *Hearings; review.*—(a) Any applicant for a policy from any carrier, any person insured under such a policy, any member of the Facility and any agent duly licensed to write motor vehicle insurance, may request a formal hearing and ruling by the Board of Governors of the Facility on any alleged violation of or failure to comply with the Plan of Operation or the provisions of this Article or any alleged improper act or ruling of the Facility directly affecting him as to coverage or premium or in the case of a member directly affecting its assessment, and in the case of an agent, any matter affecting his appointment to a carrier or his account therewith. The request for hearing must be made within 15 days after the date of the alleged violation or improper act or ruling. The hearing shall be held within 15 days after the receipt of the request. The hearing may be held by any panel of the Board of Governors consisting of not less than three members thereof, and the ruling of a majority of the panel shall be deemed to be the formal ruling of the Board, unless the full Board on its own motion shall modify or rescind the action of the panel.

(b) Any formal ruling by the Board of Governors may be appealed to the Commissioner by filing notice of appeal with the Facility and Commissioner within 30 days after issuance of the ruling.

(c) The Commissioner shall issue an order approving the action or decision, disapproving the action or decision, or directing the Board of Governors to reconsider the ruling.

(d) Any aggrieved person or organization, any member of the Facility or the Facility may request a public hearing and ruling by the Commissioner on the Provisions of the Plan of Operation, rules, regulations or policy forms approved by the Commissioner. The request for hearing shall specify the matter or matters to be considered. The hearing shall be held within 30 days after receipt of the request. The Commissioner shall give public notice of the hearing and the matter or matters to be considered not less than 15 days in advance of the hearing date.

(e) In any hearing held pursuant to this section by the Board of Governors or the Commissioner, the Board or the Commissioner, as the case may be, shall issue a ruling or order within 30 days after the close of the hearing.

(f) All rulings or orders of the Commissioner under this section shall be subject to judicial review as approved in G.S. 58-9.3."

Sec. 2. The Commissioner of Insurance is authorized and directed to terminate the North Carolina Automobile Insurance Plan established pursuant to G.S. 20-279.34 when it appears to his satisfaction that the Facility herein established is fully operational and when the policies issued under the prior Plan have expired.

Sec. 3. Severability. If any provision or part of this act or application thereof is held invalid, the invalidity shall not affect other provisions, parts or applications of the act which can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable.

Sec. 4. This act shall become effective upon ratification; provided, however, the Facility shall not be required by the Commissioner to be operational earlier than prior to 60 days after the Plan of Operation has been approved and in no event later than January 1, 1974.

The General Assembly of North Carolina enacts:

Section 1. G.S. 143-213(18) is hereby amended by adding thereto a new subdivision as follows:

"d. 'Toxic waste' means that waste, or combinations of wastes, including disease-causing agents, which after discharge and upon exposure, ingestion, inhalation, or assimilation into any organism, either directly from the environment or indirectly by ingestion through food chains, will cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunctions in reproduction) or physical deformities, in such organisms or their offspring."

Sec. 2. G.S. 143-213 is amended by rewriting subdivisions (10), (13), (15), (17), and (19) and adding a new subdivision (26) to read as follows:

"(10) The term 'disposal system' means a system for disposing of waste, and including sewer systems and treatment works."

“(13) The term ‘outlet’ means the terminus of a sewer system, or the point of emergence of any waste or the effluent therefrom, into the waters of the State.”

“(15) The term ‘sewer system’ means pipelines or conduits, pumping stations, and force mains, and all other construction, devices, and appliances appurtenant thereto, used for conducting wastes to a point of ultimate disposal.”

“(17) The term ‘treatment works’ means any plant, septic tank disposal field, lagoon, pumping station, constructed drainage ditch or surface water intercepting ditch, incinerator, area devoted to sanitary landfill, or other works not specifically mentioned herein, installed for the purpose of treating, equalizing, neutralizing, stabilizing or disposing of waste.”

“(19) The term ‘water pollution’ means the man-made or man-induced alteration of the chemical, physical, biological, or radiological integrity of the waters of the State, including, but specifically not limited to, alterations resulting from the concentration or increase of natural pollutants caused by man-related activities.”

“(22) The term ‘complex sources’ means any facility which is or may be an air pollution source or which will induce or tend to induce development or activities which will or may be air pollution sources, and which shall include, but not be limited to shopping centers; sports complexes; drive-in theaters; parking lots and garages; residential, commercial, industrial or institutional developments; amusement parks and recreation areas; highways; and any other facilities which will result in increased emissions from motor vehicles or stationary sources.”

Sec. 3. G.S. 143-213 is hereby amended by renumbering existing subdivisions (12)-(14) as (13)-(15), by renumbering existing subdivisions (15)-(21) as (19)-(25), and by inserting four new subdivisions, to be numbered subdivisions (12), (16), (17), and (18), respectively, to read as follows:

“(12) The term ‘effluent standards’ or ‘effluent limitations’ means any restrictions established pursuant to this Article on quantities, rates, characteristics and concentrations of chemical, physical, biological and other constituents of wastes which are discharged from any pretreatment facility or from any outlet or point source to the waters of the State.”

“(16) The term ‘point source’ means any discernible, confined, and discrete conveyance, including, but specifically not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, or concentrated animal feeding operation from which wastes are or may be discharged to the waters of the State.”

“(17) The term ‘pretreatment facility’ means any treatment works installed for the purpose of treating, equalizing, neutralizing or stabilizing waste from any source prior to discharge to any disposal system subject to effluent standards or limitations.”

“(18) The term ‘pretreatment standards’ means effluent standards or limitations applicable to waste discharged from a pretreatment facility.”

Sec. 4. G.S. 143-215 is rewritten to read as follows:

“§ 143-215. *Effluent standards and limitations.*—(a) The Board is authorized and directed to develop, adopt, modify and revoke effluent standards and limitations as it determines necessary to prohibit, abate, or control water pollution. The effluent standards or limitations may provide, without limitation, standards or limitations for any point source or sources; standards, limitations or prohibitions for toxic wastes or combinations of toxic wastes

discharged from any point source or sources; and pretreatment standards for wastes discharged to any disposal system subject to effluent standards or limitations.

(b) The effluent standards and limitations developed and adopted by the Board shall be promulgated in its official regulations as provided in G.S. 143-215.3(a)(1) and shall provide limitations upon the effluents discharged from pretreatment facilities and from outlets and point sources to the waters of the State adequate to limit the waste loads upon the waters of the State to the extent necessary to maintain or enhance the chemical, physical, biological and radiological integrity of the waters concomitant with the public interest therein and the best use thereof; to preserve and protect the public health, safety and welfare; to promote propagation of and protect fish, shellfish and wildlife; to prevent damage to private and public property; and to preserve and enhance esthetic values."

Sec. 5. G.S. 143-215.1 is hereby amended by amending the title and rewriting the section to read as follows:

"§ 143-215.1. *Control of sources of water pollution; permits required.*—(a) After the effective date of water quality standards and classifications established pursuant to G.S. 143-214.1 or effluent standards or limitations established pursuant to G.S. 143-215, no person shall do any of the following things or carry out any of the following activities until or unless such person shall have applied for and shall have received from the Board a permit therefor and shall have complied with such conditions, if any, as are prescribed by such permit:

- (1) Make any outlets into the waters of the State;
- (2) Construct or operate any sewer system, treatment works, or disposal system within the State;
- (3) Alter, extend, or change the construction or method of operation of any sewer system, treatment works, or disposal system within the State;
- (4) Increase the quantity of waste discharged through any outlet or processed in any treatment works, or disposal system to an extent which would result in any violation of the effluent standards or limitations established for any point source or which would adversely affect the condition of the receiving waters to the extent of violating any of the standards applicable to such water, or to an extent beyond such minimum limits as the Board may prescribe, by way of general exemption from the provisions of this paragraph, by its official regulations;
- (5) Change the nature of the waste discharged through any disposal system in any way which would exceed the effluent standards or limitations established for any point source or which would adversely affect the condition of the receiving waters in relation to any of the standards applicable to such waters;
- (6) Cause or permit any waste, directly or indirectly, to be discharged to or in any manner intermixed with the waters of the State in violation of the water quality standards applicable to the assigned classifications or in violation of any effluent standards or limitations established for any point source, unless allowed as a condition of any permit, special order or other appropriate instrument issued or entered into by the Board under the provisions of this Article;
- (7) Cause or permit any wastes for which pretreatment is required by

pretreatment standards to be discharged directly or indirectly, from a pretreatment facility to any disposal system or to alter, extend or change the construction or method of operation or increase the quantity or change the nature of the waste discharged from or processed in such facility;

- (8) Enter into a contract for the construction and installation of any outlet, sewer system, treatment works, pretreatment facility or disposal system or for the alteration or extension of any such facilities.

In the event that both effluent standards or limitations and classifications and water quality standards are applicable to any point source or sources and to the waters to which they discharge, the more stringent among the standards established by the Board shall be applicable and controlling.

In connection with the above, no such permit shall be granted for the disposal of waste into waters classified as sources of public water supply, where the State Board of Health determines and advises the Board that such disposal is sufficiently close to the intake works or proposed intake works of a public water supply as to have an adverse effect thereon, until the Board has referred the complete plans and specifications to the State Board of Health and has received advice in writing that same are approved in accordance with the provisions of G.S. 130-161.

In any case where the Board denies a permit, it shall state in writing the reason for such denial and shall also state the Board's estimate of the changes in the applicant's proposed activities or plans which will be required in order that the applicant may obtain a permit.

(b) Board's power as to permits. The Board shall act upon all applications for permits so as to effectuate the purpose of this section, by preventing, so far as reasonably possible, any pollution or any increased pollution of the waters of the State from any additional or enlarged sources.

The Board shall have the power:

- (1) To grant a permit with such conditions attached as the Board believes necessary to achieve the purposes of this section;
- (2) To grant any temporary permit for such period of time as the Board shall specify even though the action allowed by such permit may result in pollution or increased pollution where conditions make such temporary permit essential; and
- (3) To modify or revoke any permit upon not less than 60 days' written notice to any person affected.

No permit shall be denied and no condition shall be attached to the permit, except when the Board finds such denial or such conditions necessary to effectuate the purposes of this section.

(c) Applications for permits and renewals for pretreatment facilities and for other facilities discharging to the surface waters.

- (1) All applications for permits and for renewal of existing permits for pretreatment facilities, outlets and point sources and for treatment works and disposal systems discharging to the surface waters of the State shall be in writing, and the Board may prescribe the form of such applications. All applications shall be filed with the Board at least 180 days in advance of the date on which it is desired to commence the discharge of wastes or the date on which an existing permit expires, as the case may be. The Board shall act on all applications for permits as

rapidly as possible, but it shall have the power to request such information from the applicant and to conduct such inquiry or investigation as it may deem necessary prior to acting on any application. The Board may adopt such rules as it deems necessary, to be published as a part of its rules of procedure, with respect to the consideration of any application for permit or renewal and to the granting or denial thereof. Such rules may require the submission of plans and specifications and such other information as the Board deems necessary to the proper evaluation of the application.

- (2) The Board, pursuant to appropriate rules of procedure adopted by it, shall refer each application for permit, or renewal of an existing permit, for pretreatment facilities, outlets and point sources and treatment works and disposal systems discharging to the surface waters of the State to its staff for written evaluation and proposed determination with regard to issuance or denial of the permit. If the Board concurs in the proposed determination, it shall cause notice of the application and of the proposed determination, along with any other data that the Board may determine appropriate, to be given to the appropriate State, interstate and federal agencies, to interested persons, and to the public. The Board, through its official rules, shall prescribe the form and content of the notice.

The notice required herein shall be given at least 45 days prior to any proposed final action granting or denying the permit. Public notice shall be given by posting a copy of the notice at the courthouse in the county in which the pretreatment facility, outlet or point source or treatment works or disposal system discharging to the surface waters of the State lies and by publication of the notice one time in a newspaper having general circulation within the county.

- (3) If any person desires a public hearing on any application for permit or renewal of an existing permit provided for in this subsection, he shall so request in writing to the Board within 30 days following date of the notice of application. The Board shall consider all such requests for hearing, and if the Board determines that there is a significant public interest in holding such hearing, at least 30 days' notice of such hearing shall be given to all persons to whom notice of application was sent and to any other person requesting notice. At least 30 days prior to the date of hearing, the Board shall also cause a copy of the notice thereof to be posted at the courthouse door of the county in which the pretreatment facility, outlet, point source, treatment works or disposal system lies, and shall cause the notice to be published at least one time in a newspaper having general circulation in such county. The Board, through its official rules, shall prescribe the form and content of the notices.

The Board shall adopt appropriate rules and regulations governing the procedures to be followed in such hearings. If the hearing is not conducted by the Board, detailed minutes of the meeting shall be kept and shall be submitted, along with any other written comments, exhibits or documents presented at the hearing, to the Board for its consideration prior to final action granting or denying the permit.

- (4) Forty-five days following notice of application or, if a public hearing is

held, within 90 days following consideration of the matters and things presented at such hearing, the Board shall grant or deny any application for issuance of a new permit or for renewal of an existing permit. All permits or renewals issued by the Board and all decisions denying application for permit or renewal shall be in writing.

(5) No permit issued pursuant to this subsection (c) shall be issued or renewed for a term exceeding five years.

(d) Applications and permits for sewer systems, sewer system extensions, and for wastewater treatment facilities not discharging to the surface waters of the State. All applications for new permits and for renewals of existing permits for sewer systems, sewer system extensions and for disposal systems or treatment works which do not discharge to the surface waters of the State, and all permits or renewals and decisions denying any application for permit or renewal shall be in writing. The Board shall act on all applications for permits as rapidly as possible, but it shall have power to request such information from an applicant and to conduct such inquiry or investigation as it may deem necessary prior to acting on any application for a permit. Failure of the Board to take action on an application for a permit or renewal within 90 days after all data, plans, specifications and other required information have been furnished by the applicant, shall be treated as approval of such application. The Board shall adopt such rules and regulations as it deems necessary, establishing the form of and procedures for processing applications, permits and renewals. Such regulations may require the submission of plans and specifications and other information as the Board deems necessary to the proper evaluation of an application. Permits and renewals issued in approving such facilities pursuant to this subsection (d) shall be effective until the date specified therein or until rescinded unless modified or revoked by the Board.

(e) Hearings and appeals. Any person whose application for a permit or renewal is denied, or is granted subject to conditions which are unacceptable to such person, or whose permit is modified or revoked, shall have the right to a hearing before the Board upon making demand therefor within 30 days following the giving of notice by the Board as to its decision on such application. Unless such a demand for a hearing is made, the decision of the Board on the application shall be final and binding. If demand for a hearing is made, the procedure with respect thereto and with respect to all further proceedings shall be as specified in G.S. 143-215.4 and in any applicable rules of procedure of the Board."

Sec. 6. Article 21, Chapter 143 of the North Carolina General Statutes is amended by adding thereto a new Part 8, reading as follows:

"Part 8. Air Pollution Control

"§ 143-215.70. *Declaration of policy; definitions.*—The declaration of public policy set forth in G.S. 143-211 and the definitions set forth in G.S. 143-213, applicable to the control and abatement of air pollution, shall be applicable to this Part.

"§ 143-215.71. *Administration.*—The air quality program of the State of North Carolina shall be administered by the Department of Natural and Economic Resources under the rules, regulations and policies of the North Carolina Board of Water and Air Resources created pursuant to G.S. 143-214. The Board shall review and have general oversight and supervision over the creation and administration of local air pollution control programs authorized

by this Part. Public hearings on the adoption by the Board of air quality standards, emission control standards, and classifications for air contaminant sources as well as any proposed revisions in such standards and classifications shall be conducted in accordance with the procedure set forth in subsections (e)(1), (e)(2) and (e)(3) of G.S. 143-214.1.

“§ 143-215.72. *Air quality standards and classifications.*—(a) The Board is hereby directed and empowered, as rapidly as possible within the limits of funds and facilities available to it, and subject to the procedural requirements of this Article:

- (1) To prepare and develop, after proper study, a comprehensive plan or plans for the prevention, abatement and control of air pollution in the State or in any designated area of the State.
 - (2) To determine by means of field sampling and other studies, including the examination of available data collected by any local, State or federal agency or any person, the degree of air contamination and air pollution in the State and the several areas of the State.
 - (3) To develop and adopt, after proper study, air quality standards applicable to the State as a whole or to any designated area of the State as the Board deems proper in order to promote the policies and purposes of this Article most effectively.
 - (4) To develop and adopt classifications for use in classifying air contaminant sources, which in the judgment of the Board may cause or contribute to air pollution, according to levels and types of emissions and other characteristics which relate to air pollution and may require reporting for any such class or classes. Such classifications may be for application to the State as a whole or to any designated area of the State, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property. Any person operating or responsible for the operation of air contaminant sources of any class for which the Board requires reporting shall make reports containing such information as may be required by the Board concerning location, size, and height of contaminant outlets, processes employed, fuels used, and the nature and time periods or duration of emissions, and such other information as is relevant to air pollution and available or reasonably capable of being assembled.
 - (5) To develop and adopt such emission control standards as in the judgment of the Board may be necessary to prohibit, abate or control air pollution commensurate with established air quality standards. Such standards may be applied uniformly to the State as a whole or to any area of the State designated by the Board.
 - (6) To adopt, when necessary and practicable, a program for testing emissions from motor vehicles and to adopt motor vehicle emission standards in compliance with applicable federal regulations.
- (b) Criteria for standards. In developing air quality and emission control standards, the Board shall recognize varying local conditions and requirements and may prescribe different standards for different areas, as may be necessary and appropriate to facilitate accomplishment of the stated purposes of this Article.
- (c) Proposed adoption of standards and classifications. Prior to the adoption by the Board of air quality standards, emission control standards and

classifications for air contaminant sources, and prior to any modification of any such actions previously taken, the Board shall give notice of its proposed action and shall conduct one or more public hearings with respect to any such proposed action in accordance with the procedure set forth in subsections (e)(1), (e)(2), and (e)(3) of G.S. 143-214.1.

(d) Final adoption of air quality standards, emission control standards and classifications for air contaminant sources. Upon completion of hearings and consideration of submitted evidence and arguments concerning any proposed action by the Board with respect to the adoption of air quality standards, emission control standards and classifications for air contaminant sources, the Board shall adopt its final action with respect thereto and shall publish such final action as a part of its official regulations. When final action has been adopted and is published with respect to the aforesated standards and classifications, the Board shall likewise publish as a part of its official regulations, the effective date for the application of the provisions of G.S. 143-215.73 and G.S. 143-215.74 to persons within the State as a whole or within any designated area of the State.

(e) The Board's power to modify or revoke. The Board is hereby empowered to modify or revoke from time to time any final action previously taken by it pursuant to the provisions of this Part, any such modification or revocation, however, to be subject to the procedural requirements of this Article.

“§ 143-215.73. *Control of sources of air pollution; permits required.*—(a) After the effective date applicable to any air quality or emission control standards established pursuant to G.S. 143-215.72, no person shall do any of the following things or carry out any of the following activities which contravene or will be likely to contravene such standards until or unless such person shall have applied for and shall have received from the Board a permit therefor and shall have complied with such conditions, if any, as are prescribed by such permit:

- (1) Establish or operate any air contaminant source;
- (2) Build, erect, use or operate any equipment which may result in the emission of air contaminants or which is likely to cause air pollution;
- (3) Alter or change the construction or method of operation of any equipment or process from which air contaminants are or may be emitted;
- (4) Enter into a contract for the construction and installation of any air-cleaning device, or allow or cause such device to be constructed, installed, or operated.

(b) The Board shall act upon all applications for permits so as to effectuate the purpose of this section, by reducing existing air pollution and preventing, so far as reasonably possible, any increased pollution of the air of the State from any additional or enlarged sources.

The Board shall have the power:

- (1) To grant and renew a permit with such conditions attached as the Board believes necessary to achieve the purposes of this section;
- (2) To grant and renew any temporary permit for such period of time as the Board shall specify even though the action allowed by such permit

may result in pollution or increase pollution where conditions make such temporary permit essential;

- (3) To modify or revoke any permit upon not less than 60 days' written notice to any person affected;
- (4) To require all applications for permits and renewals to be in writing and to prescribe the form of such applications;
- (5) To request such information from an applicant and to conduct such inquiry or investigation as it may deem necessary and to require the submission of plans and specifications prior to acting on any application for a permit; and
- (6) To adopt rules, as it deems necessary, establishing the form of applications and permits and procedures for the granting or denial of permits and renewals pursuant to this section; and all permits, renewals and denials shall be in writing.

The Board shall act on all applications for permits as rapidly as possible, but it shall have the power to request such information from an applicant and to conduct such inquiry or investigation as it may deem necessary prior to acting on any application for a permit. Failure of the Board to take action on an application for a permit within 90 days after all data, plans, specifications and other required information have been furnished by the applicant shall be deemed as approval of such application.

Any person whose application for a permit or renewal thereof is denied or is granted subject to conditions which are unacceptable to such person or whose permit is modified or revoked shall have the right to a hearing before the Board upon making demand therefor within 30 days following the giving of notice by the Board as to its decision upon such application. Unless such a demand for a hearing is made, the decision of the Board on the application shall be final and binding. If demand for a hearing is made, the procedure with respect thereto and with respect to all further proceedings shall be as specified in G.S. 143-215.4 and in any applicable rules of procedure of the Board.

“§ 143-215.74. *Control of Complex Sources.*—(a) The Board shall develop and adopt regulations establishing criteria for controlling the effects of complex sources on air quality. The regulations shall set forth such basic minimum criteria or standards under which the Board shall approve or disapprove any such construction or modification. The regulations shall further provide for the submission of plans, specifications and such other information as may be necessary for the review and evaluation of proposed or modified complex sources.

(b) If the Board shall determine that the construction or modification of any complex sources will result in a violation of ambient air quality standards or interfere with the attainment of such standards in any area where an air pollution abatement control program has been established, the Board shall have authority to disapprove such construction or modification or to approve such construction or modification under such conditions as the Board shall deem necessary or appropriate.

(c) In adopting the regulations required by this section and in applying such regulations to any complex source, the Board may conduct such public hearings as it, in its sole discretion, shall deem appropriate, after such notice and pursuant to such procedures as the Board shall establish in its rules of procedure.

“§ 143-215.75. *Special orders.*—(a) Issuance. The Board is hereby empowered, after the effective date of standards and classifications adopted pursuant to G.S. 143-215.72, to issue (and from time to time to modify or revoke) a special order or other appropriate instrument, to any person whom it finds responsible for causing or contributing to any pollution of the air within the area for which standards have been established. Such an order or instrument may direct such person to take, or refrain from taking such action, or to achieve such results, within a period of time specified by such special order, as the Board deems necessary and feasible in order to alleviate or eliminate such pollution. The Board is authorized to enter into consent special orders, assurances of voluntary compliance or other similar documents by agreement with the person responsible for pollution of the air, and such document shall have the same force and effect as a special order of the Board issued pursuant to hearing.

(b) Procedure. No special order shall be issued by the Board (unless issued upon the consent of the person affected thereby) except after a hearing in accordance with the procedural requirements specified in G.S. 143-215.76 and in any applicable rules of procedure of the Board. Any special order shall be based on and shall set forth the findings of fact resulting from evidence presented at such hearing and shall specify the time within which the person against whom such order is issued shall achieve the results required by the special order.

(c) Appeals. Any person against whom a special order is issued shall have the right to appeal in accordance with the provisions of G.S. 143-215.5. Unless such appeal is taken within the prescribed time limit, the special order of the Board shall be final and binding.

(d) Effect of compliance. Any person who installs an air-cleaning device for the purpose of alleviating or eliminating air pollution in compliance with the terms of, or as a result of the conditions specified in, a permit issued pursuant to G.S. 143-215.73, or a special order, consent special order, assurance of voluntary compliance or similar document issued pursuant to this section, or a final decision of the Board or a court, rendered pursuant to either of said sections, shall not be required to take or refrain from any further action nor be required to achieve any further results under the terms of this or any other State law relating to the control of air pollution, for a period to be fixed by the Board or court as it shall deem fair and reasonable in the light of all the circumstances after the date such special order, consent special order, assurance of voluntary compliance, other document or decision, or the conditions of such permit become finally effective, if:

- (1) The air-cleaning devices result in the elimination or alleviation of air pollution to the extent required by such permit, special order, consent special order, assurance of voluntary compliance, or other document or decision and complies with any other terms thereof; and
- (2) Such person complies with the terms and conditions of such permit, special order, consent special order, assurance of voluntary compliance, other document or decision within the time limit, if any, specified therein or as the same may be extended, and thereafter remains in compliance.

“§ 143-215.76. *General powers of Board; auxiliary powers.*—In addition to the specific powers prescribed elsewhere in this Article and the applicable general

powers prescribed in G.S. 143-215.3, and for the purpose of carrying out its duties, the Board shall have the power:

(a) To make a continuing study of the effects of the emission of air contaminants from motor vehicles on the quality of the outdoor atmosphere of the State and the several areas thereof, and make recommendations to the General Assembly and other appropriate public and private bodies for the control of such air contaminants.

(b) To consult, upon request, with any person proposing to construct, install, or otherwise acquire an air pollution source or air-cleaning device for the control of air contaminants concerning the efficacy of such device, or the air problem which may be related to such source, or device; provided, however, that nothing in any such consultation shall be construed to relieve any person from compliance with this Article, rules and regulations adopted pursuant thereto, or any other provision of law.

(c) To encourage local units of government to handle air pollution problems within their respective jurisdictions and on a cooperative basis, and to provide such local units technical and consultative assistance to the maximum extent possible.

“§143-215.77. *Local air pollution control programs.*—(a) The Board is authorized and directed to review and have general oversight and supervision over all existing or proposed local air pollution control programs and to this end shall review and certify such programs as being adequate to meet the requirements of this Article and any applicable standards and rules and regulations adopted pursuant thereto. The Board shall certify any local program which:

- (1) Provides by ordinance or local law for requirements compatible with those imposed by the provisions of this Article, and the standards and rules and regulations issued pursuant thereto; provided, however, the Board upon request of a municipality or other local unit may grant special permission for the governing body of such unit to adopt a particular class of air contaminant regulations which would result in more effective air pollution control than applicable standards, rules, or regulations promulgated by the Board;
- (2) Provides for the adequate enforcement of such requirements by appropriate administrative and judicial process;
- (3) Provides for an adequate administrative organization, staff, financial and other resources necessary to effectively and efficiently carry out its programs; and
- (4) Is approved by the Board as adequate to meet the requirements of this Article and any applicable rules and regulations pursuant thereto.

(b) No municipality, county, local board or commission or group of municipalities and counties may establish and administer an air pollution control program unless such program meets the requirements of this section and is so certified by the Board.

- (c) (1) The governing body of any county, municipality, or group of counties and municipalities within a designated area of the State, as defined in this Article, subject to the approval of the Board of Water and Air Resources, is hereby authorized to establish, administer, and enforce a local air pollution

control program for the county, municipality, or designated area of the State which includes but is not limited to:

- a. Development of a comprehensive plan for the control and abatement of new and existing sources of air pollution;
 - b. Air quality monitoring to determine existing air quality and to define problem areas, as well as to provide background data to show the effectiveness of a pollution abatement program;
 - c. An emissions inventory to identify specific sources of air contamination and the contaminants emitted, together with the quantity of material discharged into the outdoor atmosphere;
 - d. Adoption, after notice and public hearing, of air quality and emission control standards, or adoption by reference, without public hearing, of any applicable rules, regulations and standards duly adopted by the Board of Water and Air Resources; and administration of such rules, regulations and standards in accordance with provisions of this section.
 - e. Provisions for the establishment or approval of time schedules for the control or abatement of existing sources of air pollution and for the review of plans and specifications and issuance of approval documents covering the construction and operation of pollution abatement facilities at existing or new sources;
 - f. Provision for adequate administrative staff, including an air pollution control officer and technical personnel, and provision for laboratory and other necessary facilities.
- (2) Subject to the approval of the Board of Water and Air Resources as provided in this Article, the governing body of any county or municipality may establish, administer, and enforce an air pollution control program by either of the following methods:
- a. Establishing a program under the administration of the duly elected governing body of the county or municipality;
 - b. Appointing an air pollution control board consisting of not less than five nor more than seven members who shall serve for terms of six years each and until their successors are appointed and qualified. Two members shall be appointed for two-year terms, two shall be appointed for four-year terms, and the remaining member or members shall be appointed for six-year terms. Where the term 'governing body' is referred to in this section, it shall include the air pollution control board. Such board shall have all the powers and authorities granted to any local air pollution control program. The board shall elect a chairman and shall meet at least quarterly or upon the call of the chairman or any two members of the board;
 - c. Appointing an air pollution control board as provided in this subdivision, and by appropriate written agreement designating the local health department or other department of county or municipal government as the administrative agent for the air pollution control board; and
 - d. Designating, by appropriate written agreement, the local board of health and the local health department as the air pollution control board and agency.
- (3) If the Board finds that the location, character or extent of particular

concentrations of population, air contaminant sources, the geographic, topographic or meteorological considerations, or any combinations thereof, are such as to make impracticable the maintenance of appropriate levels of air quality without an area-wide air pollution control program, the Board may determine the boundaries within which such program is necessary and require such area-wide program as the only acceptable alternative to direct State administration. Subject to the provisions of this section, each governing body of a county or municipality is hereby authorized and empowered to establish by contract, joint resolution, or other agreement with any other governing body of a county or municipality, upon approval by the Board of Water and Air Resources, an air pollution control region containing any part or all of the geographical area within the jurisdiction of those boards or governing bodies which are parties to such agreement, provided the counties involved in the region are contiguous or lie in a continuous boundary and comprise the total area contained in any region designated by the Board of Water and Air Resources for an area-wide program. The participating parties are authorized to appoint a regional air pollution control board which shall consist of at least five members who shall serve for terms of six years and until their successors are appointed and qualified. Two members shall be appointed for two-year terms, two shall be appointed for four-year terms and the remaining member or members shall be appointed for six-year terms. A participant's representation on the board shall be in relation to its population to the total population of the region based on the latest official United States census with each participant in the region having at least one representative; provided, that where the region is comprised of less than five counties, each participant will be entitled to appoint members in relation to its population to that of the region so as to provide a board of at least five members. Where the term 'governing body' is used, it shall include the governing board of a region. The regional board is hereby authorized to exercise any and all of the powers provided in this section. The regional air pollution control board shall elect a chairman and shall meet at least quarterly or upon the call of the chairman or any two members of the board. In lieu of employing its own staff, the regional air pollution control board is authorized, through appropriate written agreement, to designate a local health department as its administrative agent.

- (4) Each governing body is authorized to adopt any ordinances, resolutions, rules or regulations which are necessary to establish and maintain an air pollution control program and to prescribe and enforce air quality and emission control standards, a copy of which must be filed with the Board of Water and Air Resources and with the clerk of court of any county affected. Provisions may be made therein for the registration of air contaminant sources; for the requirement of a permit to do or carry out specified activities relating to the control of air pollution, including procedures for application, issuance, denial and revocation; for notification of violators or potential violators about requirements or conditions for compliance; for procedures to grant temporary permits or variances from requirements or standards; for the declaration of an emergency when it is found that a generalized condition of air pollution

is causing imminent danger to the health or safety of the public and the issuance of an order to the responsible person or persons to reduce or discontinue immediately the emission of air contaminants; for notice and hearing procedures for persons aggrieved by any action or order of any authorized agent; for the establishment of an advisory council and for other administrative arrangements; and for other matters necessary to establish and maintain an air pollution control program.

(d) (1) Violation of any ordinances, resolutions, rules or regulations duly adopted by a governing body shall constitute a misdemeanor, punishable as provided in G.S. 143-215.79(b).

(2) Each governing body, or its duly authorized agent, may institute a civil action in the superior court, brought in the name of the agency having jurisdiction, for injunctive relief to restrain any violation or immediately threatened violation of such ordinances, orders, rules, or regulations and for such other relief as the court shall deem proper. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from the penalty prescribed by this Article for any violation of same.

(3) In addition, each governing body is authorized to expend tax funds, nontax funds, or any other funds available to it to finance an air pollution control program and such expenditures are hereby declared to be for a public purpose and a necessary expense.

(4) Any final administrative decision rendered in an air pollution control program of such governing body shall be subject to judicial review as provided by Article 33 of Chapter 143, and 'administrative agency' or 'agency' as used therein shall mean and include for this purpose the governing body of any county or municipality, regional air pollution control governing board, and any agency created by them in connection with an air pollution control program.

(e) (1) If the Board has reason to believe that a local air pollution control program certified and in force pursuant to the provisions of this section is inadequate to abate or control air pollution in the jurisdiction to which such program relates, or that such program is being administered in a manner inconsistent with the requirements of this Article, the Board shall, upon due notice, conduct a hearing on the matter.

(2) If, after such hearing the Board determines that an existing local air pollution control program or one which has been certified by the Board is inadequate to abate or control air pollution in the municipality, county, or municipalities or counties to which such program relates, or that such program is not accomplishing the purposes of this Article, it shall set forth in its findings the corrective measures necessary for continued certification and shall specify a reasonable period of time, not to exceed one year, in which such measures must be taken if certification is not to be rescinded.

(3) If the municipality, county, local board or commission or municipalities or counties fail to take such necessary corrective action within the time specified, the Board shall rescind any certification as may have been issued for such program and shall administer within such municipality, county, or municipalities or counties all of the regulatory provisions of this Article. Such air pollution control program shall

supersede all municipal, county or local laws, regulations, ordinances and requirements in the affected jurisdiction.

- (4) If the Board finds that the control of a particular class of air contaminant source because of its complexity or magnitude is beyond the reasonable capability of the local air pollution control authorities or may be more efficiently and economically performed at the State level, it may assume and retain jurisdiction over that class of air contaminant source. Classification pursuant to this paragraph may be either on the basis of the nature of the sources involved or on the basis of their relationship to the size of the communities in which they are located.
- (5) Any municipality or county in which the Board administers its air pollution control program pursuant to subdivision (3) of this subsection may, with the approval of the Board, establish or resume a municipal, county, or local air pollution control program which meets the requirements for certification by the Board.
- (6) Nothing in this Article shall be construed to supersede or oust the jurisdiction of any local air pollution control program in operation on June 22, 1967; provided that within two years from such date any such program shall meet all requirements of this Article for certification by the Board as an approved local air pollution control program. Any certification required from the Board shall be deemed granted unless the Board takes specific action to the contrary.
- (7) Any municipality, county, local board or commission or municipalities or counties or designated area of this State for which a local air pollution control program is established or proposed for establishment may make application for, receive, administer and expend federal grant funds for the control of air pollution or the development and administration of programs related to air pollution control; provided that any such application is first submitted to and approved by the Board. The Board shall approve any such application if it is consistent with this Article and other applicable requirements of law.
- (8) Notwithstanding any other provision of this section, if the Board determines that an air pollution source or combination of sources is operating in violation of the provisions of this Article and that the appropriate local authorities have not acted to abate such violation, the Board, upon written notice to the appropriate local governing body, may act on behalf of the State to require any person causing or contributing to the pollution to cease immediately the emission of air pollutants causing or contributing to the violation or may require such other action as it shall deem necessary.

“§ 143-215.78. *General provisions as to procedure; seal; hearing officer; appeals.*—All hearings provided for in this Part to be conducted by the Board shall be in accordance with the provisions of G.S. 143-215.4. Appeals from any final order or decision of the Board shall be pursuant to the provisions of G.S. 143-215.5.

“§ 143-215.79. *Enforcement procedures.*—(a) Civil Penalties.

- (1) A civil penalty of not more than five thousand dollars (\$5,000) may be assessed against any person who:
 - a. Violates any classification, standard or limitation established pursuant to G.S. 143-215.72;

- b. Is required but fails to apply for or to secure a permit required by G.S. 143-215.73 or who violates or fails to act in accordance with the terms, conditions, or requirements of such permit;
 - c. Violates or fails to act in accordance with the terms, conditions, or requirements of any special order or other appropriate document issued pursuant to G.S. 143-215.75;
 - d. Fails to file, submit, or make available, as the case may be, any documents, data or reports required by this Article;
 - e. Refuses access to the Board of its duly designated representatives to any premises for the purpose of conducting any investigations provided for in this Article; or
 - f. Violates any duly adopted regulation of the Board implementing the provisions of this Article.
- (2) If any action or failure to act for which a penalty may be assessed under this subsection is willful, the Board may assess a penalty not to exceed five thousand dollars (\$5,000) per day for so long as the violation continues.
- (3) The Board, or, if authorized by the Board, the Department of Natural and Economic Resources may assess the penalties provided for in this subsection. Any person assessed shall be notified of the assessment by registered or certified mail, and the notice shall specify the reasons for the assessment. If the person assessed fails to pay the amount of the assessment to the Department of Natural and Economic Resources within 30 days after receipt of notice, or such longer period, not to exceed 180 days, as the Board may specify, the Board may institute a civil action in the Superior Court of Wake County to recover the amount of the assessment. In any such civil action, the scope of the court's review of the Board's action (which shall include a review of the amount of the assessment), shall be as provided in G.S. 143-315.
- (b) Criminal penalties.
- (1) Any person who willfully or negligently violates any classification, standard or limitation established pursuant to G.S. 143-21.72; any term, condition, or requirement of a permit issued pursuant to G.S. 143-215.73 or of a special order or other appropriate document issued pursuant to G.S. 143-215.75 or any regulation of the Board implementing any of the said section, shall be guilty of a misdemeanor punishable by a fine not to exceed twenty-five thousand dollars (\$25,000) per day of violation, or by imprisonment not to exceed six months, or by both.
- (2) Any person who knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Article or regulations of the Board implementing this Article, or who falsifies, tampers with, or knowingly renders inaccurate any recording or monitoring device or method required to be operated or maintained under this Article or regulations of the Board implementing this Article, shall be guilty of a misdemeanor punishable by a fine not to exceed ten thousand dollars (\$10,000), or by imprisonment not to exceed six months, or by both.
- (3) Any person convicted of an offense under either subdivision or

subdivision (2) of this subsection following a previous conviction under such subdivision shall be subject to a fine, or imprisonment, or both, not exceeding twice the amount of the fine, or twice the term of imprisonment provided in the subdivision under which the second or subsequent conviction occurs.

- (4) For purposes of this subsection, the term 'person' shall mean, in addition to the definition contained in G.S. 143-213, any responsible corporate or public officer or employee; Provided, however, that where a vote of the people is required to effectuate the intent and purpose of this Article by a county, city, town, or other political subdivision of the State, and the vote on the referendum is against the means or machinery for carrying said intent and purpose into effect, then, and only then, this subsection shall not apply to elected officials or to any responsible appointed officials or employees of such county, city, town, or political subdivision.

(c) Injunctive relief. Whenever the Department of Natural and Economic Resources has reasonable cause to believe that any person has violated or is threatening to violate any of the provisions of this Part or any regulations adopted by the Board implementing the provisions of this Part, the Department of Natural and Economic Resources, either before or after the institution of any other action or proceeding authorized by this Article, request the Attorney General to institute a civil action in the name of the State upon the relation of the Department of Natural and Economic Resources for injunctive relief to restrain the violation or threatened violation and for such other and further relief in the premises as the court shall deem proper. The Attorney General may institute such action in the Superior Court of Wake County, or, in his discretion, in the superior court of the county in which the violation occurred or may occur. Upon a determination by the court that the alleged violation of the provisions of this Article or the regulation of the Board has occurred or is threatened, the court shall grant the relief necessary to prevent or abate the violation or threatened violation. Neither the institution of the action nor any of the proceedings thereon shall relieve any party to such proceedings from any penalty prescribed for violation of this Part."

Sec. 7. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

Sec. 8. This act shall become effective September 1, 1973.

In the General Assembly read three times and ratified, this the 24th day of May, 1973.

H. B. 329

CHAPTER 822

AN ACT TO CONSOLIDATE, REVISE, AND AMEND THE GENERAL STATUTES RELATING TO COUNTIES.

The General Assembly of North Carolina enacts:

Section 1. Chapter 153 of the General Statutes is repealed, except as provided in Sections 2, 3, and 4, of this act, and a new Chapter 153 is inserted in the General Statutes as follows:

"CHAPTER 153

"COUNTIES

"Article 1

"Definitions and Statutory Construction

"§ 153-1. *Definitions.*—Unless otherwise specifically provided, or unless otherwise clearly required by the context, the words and phrases defined in this section have the meaning indicated when used in this chapter.

(1) 'City' means a city as defined by G.S. 160A-1(2), except that it does not include a city that, without regard to its date of incorporation, would be disqualified from receiving gasoline tax allocations by G.S. 136-41.2(a).

(2) 'Clerk' means the clerk to the board of commissioners.

(3) 'County' means any one of the counties listed in G.S. 153-10.

(4) 'General law' means an act of the General Assembly that applies to all units of local government, to all counties, to all counties within a class defined by population or other criteria, to all cities, or to all cities within a class defined by population or other criteria, including a law that meets the foregoing standards but contains a clause or section exempting from its effect one or more counties, cities, or counties and cities.

(5) 'Local act' means an act of the General Assembly that applies to one or more specific counties, cities, or counties and cities by name. 'Local act' is interchangeable with the terms 'special act,' 'special law,' 'public-local act,' and 'private act,' is used throughout this chapter in preference to those terms, and means a local act as defined in this paragraph without regard to the terminology employed in local acts or other portions of the General Statutes.

(6) 'Publish,' 'publication,' and other forms of the verb 'to publish' mean insertion in a newspaper qualified under G.S. 1-597 to publish legal advertisements in the county.

"§ 153-2. *Effect on prior laws and actions taken pursuant to prior laws.*—The provisions of this chapter, insofar as they are the same in substance as laws in effect as of December 31, 1973, are intended to continue those laws in effect and not to be new enactments. The enactment of this chapter does not require the readoption of any county or city ordinance adopted pursuant to laws that were in effect as of December 31, 1973, and that are restated or revised in this chapter. The provisions of this chapter do not affect any act heretofore done, any liability incurred, any right accrued or vested, or any suit or prosecution begun or cause of action accrued as of January 1, 1974.

"§ 153-3. *Effect of chapter on local acts.*—(a) Except as provided in this section, nothing in this chapter repeals or amends a local act in effect as of January 1, 1974, or any portion of such an act, unless this chapter or a subsequent enactment of the General Assembly clearly shows a legislative intent to repeal or supersede that local act.

(b) If this chapter and a local act each provide a procedure that contains every action necessary for the performance or execution of a power, right, duty, function, privilege, or immunity, the two procedures may be used in the alternative, and a county may follow either one.

(c) If this chapter and a local act each provide a procedure for the performance or execution of a power, right, duty, function, privilege, or immunity, but the local act procedure does not contain every action necessary for the performance or execution, the two procedures may be used in the alternative, and a county may follow either one; but the local act procedure shall be supplemented as necessary by this chapter's procedure. If a local act procedure is being supplemented in such a manner, and there is a conflict or inconsistency between the local act procedure and this chapter's procedure, the local act procedure shall be followed.

(d) If a power, right, duty, function, privilege, or immunity is conferred on counties by this chapter, and a local act enacted earlier than this chapter omits or expressly denies or limits the same power, right, duty, function, privilege, or immunity, this chapter supersedes the local act.

"§ 153-4. *Broad construction.*—It is the policy of the General Assembly that the counties of this State should have adequate authority to exercise the powers, rights, duties, functions, privileges, and immunities conferred upon them by law. To this end, the provisions of this chapter and of local acts shall be broadly construed and grants of power shall be construed to include any powers that are reasonably expedient to the exercise of the power.

"§ 153-5. *Statutory references deemed amended to conform to chapter.*—If a reference is made in another portion of the General Statutes, in a local act, or in a city or county ordinance, resolution, or order to a portion of G.S. Chapter 153, and the reference is to G.S. Chapter 153 as it existed immediately before the effective date of this act, the reference is deemed amended to refer to that portion of this chapter that most nearly corresponds to the repealed or superseded portion of G.S. Chapter 153.

"Article 2

"Corporate Powers

"§ 153-10. *State has 100 counties.*—North Carolina has 100 counties. They are: Alamance, Alexander, Alleghany, Anson, Ashe, Avery, Beaufort, Bertie, Bladen, Brunswick, Buncombe, Burke, Cabarrus, Caldwell, Camden, Carteret, Caswell, Catawba, Chatham, Cherokee, Chowan, Clay, Cleveland, Columbus, Craven, Cumberland, Currituck, Dare, Davidson, Davie, Duplin, Durham, Edgecombe, Forsyth, Franklin, Gaston, Gates, Graham, Granville, Greene, Guilford, Halifax, Harnett, Haywood, Henderson, Hertford, Hoke, Hyde, Iredell, Jackson, Johnston, Jones, Lee, Lenoir, Lincoln, Macon, Madison, Martin, McDowell, Mecklenburg, Mitchell, Montgomery, Moore, Nash, New Hanover, Northampton, Onslow, Orange, Pamlico, Pasquotank, Pender, Perquimans, Person, Pitt, Polk, Randolph, Richmond, Robeson, Rockingham, Rowan, Rutherford, Sampson, Scotland, Stanly, Stokes, Surry, Swain, Transylvania, Tyrrell, Union, Vance, Wake, Warren, Washington, Watauga, Wayne, Wilkes, Wilson, Yadkin, and Yancey.

"§ 153-11. *Corporate powers.*—The inhabitants of each county are a body politic and corporate under the name specified in the act creating the county. Under that name they are vested with all the property and rights of property belonging to the corporation; have perpetual succession; may sue and be sued;

may contract and be contracted with; may acquire and hold any property and rights of property, real and personal, that may be devised, bequeathed, sold, or in any manner conveyed, dedicated to, or otherwise acquired by the corporation, and from time to time may hold, invest, sell, or dispose of the property and rights of property; may have a common seal and alter and renew it at will; and have and may exercise in conformity with the laws of this State county powers, rights, duties, functions, privileges, and immunities of every name and nature.

“§ 153-12. *Exercise of corporate power.*—Except as otherwise directed by law, each power, right, duty, function, privilege, and immunity of the corporation shall be exercised by the board of commissioners. A power, right, duty, function, privilege, or immunity shall be carried into execution as provided by the laws of the State; a power, right, duty, function, privilege, or immunity that is conferred or imposed by law without direction or restriction as to how it is to be exercised or performed shall be carried into execution as provided by ordinance or resolution of the board of commissioners.

“§ 153-13. *Continuing contracts.*—A county may enter into continuing contracts, some portion or all of which are to be performed in ensuing fiscal years. In order to enter into such a contract, the county must have sufficient funds appropriated to meet any amount to be paid under the contract in the fiscal year in which it is made. In each year, the board of commissioners shall appropriate sufficient funds to meet the amounts to be paid during the fiscal year under continuing contracts previously entered into.

“§ 153-14. *Grants from other governments.*—A county may contract for and accept grants and loans as permitted by G.S. 160A-17.1.

“Article 3

“Boundaries

“§ 153-17. *Existing boundaries.*—The boundaries of each county shall remain as presently established, until changed in accordance with law.

“§ 153-18. *Uncertain or disputed boundary.*—(a) If two or more counties are uncertain as to the exact location of the boundary between them, they may cause the boundary to be surveyed, marked, and mapped. The counties may appoint special commissioners to supervise the surveying, marking, and mapping. A commissioner so appointed or a person surveying or marking the boundary may enter upon private property to view and survey the boundary or to erect boundary markers. Upon ratification of the survey by the board of commissioners of each county, a map showing the surveyed boundary shall be recorded in the office of the register of deeds of each county in the manner provided by law for the recordation of maps or plats and in the Secretary of State's office. The map shall contain a reference to the date of each resolution of ratification and to the page in the minutes of each board of commissioners where the resolution may be found. Upon recordation, the map is conclusive as to the location of the boundary.

(b) If two or more counties dispute the exact location of the boundary between them, and the dispute cannot be resolved pursuant to subsection (a) of this section, any of the counties may apply to a resident or presiding superior court judge in the judicial district or districts in which the counties are located for appointment of a boundary commission. The application shall identify the disputed boundary and ask that a boundary commission be appointed. Upon receiving the application, the court shall set a date for a hearing on whether to appoint the commission. The court shall cause notice of the hearing to be served

on the other county or counties. If, after the hearing, the court finds that the location of the boundary is disputed, it shall appoint a boundary commission.

The commission shall consist of one resident of each disputing county and a resident of some other county. The court may appoint one or more surveyors to assist the commission. The commission shall locate, survey, and map and may mark the disputed boundary. To do so it may take evidence and hear testimony, and any commissioner and any person surveying or marking the boundary may enter upon private property to view and survey the boundary or to erect boundary markers. Within forty-five days after the day it is appointed, unless this time is extended by the court, the commission shall make its report (which shall include a map of the surveyed boundary) to the court. To be sufficient, the report must be concurred in by a majority of the commissioners. If the court is satisfied that the commissioners have made no error of law, it shall ratify the report, after which the map shall be recorded in the office of the register of deeds of each county in the manner provided by law for the recordation of maps or plats and in the Secretary of State's office. Upon recordation, the map is conclusive as to the location of the boundary.

The disputing counties shall divide equally the costs of locating, surveying, marking, and mapping the boundary, unless the court finds that an equal division of the costs would be unjust. In that case the court may determine the division of costs.

“§ 153-19. *Establishing and naming townships.*—A county may by resolution establish and abolish townships, change their boundaries, and prescribe their names. The current boundaries of each township within a county shall at all times be drawn on a map, or set out in a written description, or shown by a combination of these techniques. This current delineation shall be available for public inspection in the office of the clerk.

“§ 153-20. *Map of electoral districts.*—If a county is divided into electoral districts for the purpose of nominating or electing persons to the board of commissioners, the current boundaries of the electoral districts shall at all times be drawn on a map, or set out in a written description, or shown by a combination of these techniques. This current delineation shall be available for public inspection in the office of the clerk.

“§ 153-21. *Redefining electoral district boundaries.*—(a) If a county is divided into electoral districts for the purpose of nominating or electing persons to the board of commissioners, the board of commissioners may find as a fact whether there is substantial inequality of population among the districts.

(b) If the board finds that there is substantial inequality of population among the districts, it may by resolution

(1) redefine the electoral districts and, if necessary, either reapportion commissioners among the redefined districts or reapportion one or more commissioners to the county at large and the remainder among the redefined districts, or

(2) abolish electoral districts in the county and provide that elections to the board of commissioners shall be at large.

(c) Redefined electoral districts shall be so drawn that the quotients obtained by dividing the population of each district by the number of commissioners apportioned to the district are as nearly equal as practicable, and each district shall be composed of territory within a continuous boundary.

(d) No change in the boundaries of an electoral district may affect the unexpired term of office of a commissioner residing in the district and serving on the board on the effective date of the resolution. If the terms of office of members of the board do not all expire at the same time, the resolution shall state which seats are to be filled at the initial election held under the resolution.

(e) A resolution adopted pursuant to this section shall be the basis of electing persons to the board of commissioners at the first general election for members of the board of commissioners occurring after the resolution's effective date, and thereafter. A resolution becomes effective upon its adoption, unless it is adopted during the period beginning 60 days before the day of a primary and ending on the day of the next succeeding general election for membership on the board of commissioners, in which case it becomes effective on the first day after the end of the period.

(f) Not later than 10 days after the day on which a resolution becomes effective, the clerk shall file in the Secretary of State's office, in the office of the register of deeds of the county, and with the chairman of the county board of elections a certified copy of the resolution.

"Article 4

"Form of Government

"Part 1. General Provisions

"§ 153-25. *Qualifications for appointive office.*—The board of commissioners may fix qualifications for any appointive office, including a requirement that a person serving in such an office reside within the county. The board may not waive qualifications fixed by law for an appointive office but may fix additional qualifications for that office.

"§ 153-26. *Oath of office.*—Each person elected by the people or appointed to a county office shall, before entering upon the duties of the office, take and subscribe the oath of office prescribed in Article VI, § 7 of the Constitution. The oath of office shall be administered by some person authorized by law to administer oaths and shall be filed with the clerk.

On the first Monday in December following each general election at which county officers are elected, the persons who have been elected to county office in that election shall assemble at the regular meeting place of the board of commissioners. At that time each such officer shall take and subscribe the oath of office. An officer not present at this time may take and subscribe the oath at a later time.

"§ 153-27. *Vacancies on the board of commissioners.*—If a vacancy occurs on the board of commissioners, the remaining members of the board shall appoint a qualified person to fill the vacancy. If the number of vacancies on the board is such that a quorum of the board cannot be obtained, the chairman of the board shall appoint enough members to make up a quorum, and the board shall then proceed to fill the remaining vacancies. If the number of vacancies on the board is such that a quorum of the board cannot be obtained and the office of chairman is vacant, the clerk of superior court of the county shall fill the vacancies upon the request of any remaining member of the board or upon the petition of any five registered voters of the county. If for any other reason the remaining members of the board do not fill a vacancy within 60 days after the day the vacancy occurs, the clerk shall immediately report the vacancy to the clerk of superior court of the county. The clerk of superior court shall, within 10 days after the day the vacancy is reported to him, fill the vacancy.

If the member being replaced was serving a two-year term, or was in the last two years of a four or six-year term, the appointment to fill the vacancy is for the remainder of the unexpired term. Otherwise, the term of the person appointed to fill the vacancy extends to the first Monday in December next following the first general election held more than 30 days after the day the vacancy occurs; at that general election, a person shall be elected to the seat vacated, either to the remainder of the unexpired term or, if the term has expired, to a full term.

To be eligible for appointment to fill a vacancy, a person must (i) be a member of the same political party as the member being replaced, if that member was elected as the nominee of a political party, and (ii) be a resident of the same district as the member being replaced, if the county is divided into electoral districts. The board of commissioners or the clerk of superior court, as the case may be, shall consult the county executive committee of the appropriate political party before filling a vacancy, but neither the board nor the clerk of the superior court is bound by the committee's recommendation.

"§ 153-28. *Compensation of board of commissioners.*—The board of commissioners may fix the compensation and allowances of the chairman and other members of the board by inclusion of the compensation and allowances in and adoption of the budget ordinance. In addition, if the chairman or any other member of the board becomes a full-time county official, pursuant to G.S. 153-81 or 153-84, his compensation and allowances may be adjusted at any time during his service as a full-time official, for the duration of that service.

"§ 153-29. *Fidelity bonds.*—(a) Each officer, employee, or agent of a county who handles or has in his custody more than one hundred dollars (\$100.00) of county funds at any time shall, before being entitled to assume his duties, give bond with sufficient sureties payable to the county that he will faithfully perform the duties of his office, employment, or agency and will render a true accounting for all county funds that may come into his custody or control. The board of commissioners shall determine the amount of the bond. Unless the bond is otherwise required by law, the board may waive the faithful performance bond, but it may not waive the true accounting bond. The county may pay the premium on any bond. Each bond, when approved by the board of commissioners, shall be deposited with the clerk.

If another statute requires an officer, employee, or agent to be bonded, this subsection does not require an additional bond for that officer, employee, or agent.

(b) A county may adopt a system of blanket faithful performance or true accounting bonding as an alternative to individual bonds. If such a system is adopted, statutory requirements of individual bonds, except for elected county officers and for finance officers and tax collectors by whatever title known, do not apply to an officer, employee, or agent covered by the blanket bond.

"Part 2. Structure of the Board of Commissioners

"§ 153-34. *Structure of boards of commissioners.*—Each county is governed by a board of commissioners. The structure and manner of election of the board of commissioners in each county shall remain as it is on the effective date of this act, until changed in accordance with law."

"Part 3. Organization and Procedures of the Board of

Commissioners

“§ 153-39. *Selection of chairman and vice-chairman; powers and duties.*—At its first regular meeting in December of each year, the board of commissioners shall choose one of its members as chairman for the ensuing year, unless the chairman is elected as such by the people or otherwise designated by law. The board shall also at that time choose a vice-chairman to act in the absence or disability of the chairman. If the chairman and the vice-chairman are both absent from a meeting of the board, the members present may choose a temporary chairman.

The chairman is the presiding officer of the board of commissioners. Unless excused by rule of the board, the presiding officer has the duty to vote on any question before the board, but he has no right to break a tie vote in which he participated.

“§ 153-40. *Regular and special meetings.*—(a) The board of commissioners shall hold a regular meeting at least once a month, and may hold more frequent regular meetings. The board may by resolution fix the time and place of its regular meetings. If such a resolution is adopted, at least 10 days before the first meeting to which the resolution is to apply, the board shall cause a copy of it to be posted on the courthouse bulletin board and a summary of it to be published. If no such resolution is adopted, the board shall meet at the courthouse on the first Monday of each month, or on the next succeeding business day if the first Monday is a holiday.

If use of the courthouse or other designated regular meeting place is made temporarily impossible, inconvenient, or unwise, the board may change the time or place or both of a regular meeting or of all regular meetings within a specified period of time. The board shall cause notice of the temporary change to be posted at or near the regular meeting place and shall take any other action it considers helpful in informing the public of the temporary change.

The board may adjourn a regular meeting from day to day or to a day certain until the business before the board is completed.

(b) The chairman or a majority of the members of the board may at any time call a special meeting of the board of commissioners by signing a written notice stating the time and place of the meeting and the subjects to be considered. The person or persons calling the meeting shall cause the notice to be delivered to the chairman and each other member of the board or left at the usual dwelling place of each at least 48 hours before the meeting and shall cause a copy of the notice to be posted on the courthouse bulletin board at least 48 hours before the meeting. Only those items of business specified in the notice may be transacted at a special meeting, unless all members are present or those not present have signed a written waiver.

If a special meeting is called to deal with an emergency, the notice requirements of this subsection do not apply. However, the person or persons calling such a special meeting shall take reasonable action to inform the other members and the public of the meeting. Only business connected with the emergency may be discussed at a meeting called pursuant to this paragraph.

(c) The board of commissioners shall hold all its meetings within the county.

“§ 153-41. *Procedures.*—The board of commissioners may adopt its own rules of procedure, in keeping with the size and nature of the board and in the spirit of generally accepted principles of parliamentary procedure.

“§ 153-42. *Minutes to be kept; ayes and noes.*—The clerk shall keep full and accurate minutes of the proceedings of the board of commissioners, which shall be available for public inspection. The clerk shall record the results of each vote in the minutes; and upon the request of any member of the board, the ayes and noes upon any question shall be taken and recorded.

“§ 153-43. *Quorum.*—A majority of the membership of the board of commissioners constitutes a quorum. The number required for a quorum is not affected by vacancies. If a member has withdrawn from a meeting without being excused by majority vote of the remaining members present, he shall be counted as present for the purposes of determining whether a quorum is present. The board may compel the attendance of an absent member by ordering the sheriff to take the member into custody.

“§ 153-44. *Members excused from voting.*—The board may excuse a member from voting, but only upon questions involving his own financial interest or his official conduct. (For purposes of this section, the question of the compensation and allowances of members of the board does not involve a member's own financial interest or official conduct.)

“§ 153-45. *Adoption of ordinances.*—To be adopted at the meeting at which it is first introduced, an ordinance or any action having the effect of an ordinance (except the budget ordinance, any bond order, or any other ordinance on which a public hearing must be held before the ordinance may be adopted) must receive the approval of all the members of the board of commissioners. If the ordinance is approved by a majority of those voting but not by all the members of the board, or if the ordinance is not voted on at that meeting, it shall be considered at the next regular meeting of the board. If it then or at any time thereafter within 100 days of its introduction receives a majority of the votes cast, a quorum being present, the ordinance is adopted.

“§ 153-46. *Franchises.*—No ordinance making a grant, renewal, extension, or amendment of any franchise may be finally adopted until it has been passed at two regular meetings of the board of commissioners. No such grant, renewal, extension, or amendment may be made except by ordinance.

“§ 153-47. *Technical ordinances.*—Subject to G.S. 143-138(e), a county may in an ordinance adopt by reference a published technical code or a standard or regulation promulgated by a public agency. A technical code or standard or regulation so adopted has the force of law in any area of the county in which the ordinance is applicable. An official copy of a technical code or standard or regulation adopted by reference shall be available for public inspection in the office of the clerk and need not be filed in the ordinance book.

“§ 153-48. *Ordinance book.*—The clerk shall maintain an ordinance book, separate from the minute book of the board of commissioners. The ordinance book shall be indexed and shall be available for public inspection in the office of the clerk. Except as provided in this section and in G.S. 153-47, each county ordinance shall be filed and indexed in the ordinance book.

The budget ordinance and any amendments thereto, any bond order, and any other ordinance of limited interest or transitory nature may be omitted from the ordinance book. However, the ordinance book shall contain a section showing the caption of each omitted ordinance and the page in the commissioners' minute book at which the ordinance may be found.

If a county adopts and issues a code of its ordinances, county ordinances need be recorded and indexed in the ordinance book only until they are placed in the codification.

“§ 153-49. *Code of ordinances.*—A county may adopt and issue a code of its ordinances. The code may be reproduced by any method that gives legible and permanent copies, and may be issued as a securely bound book or books with periodic separately bound supplements, or as a loose-leaf book maintained by replacement pages. Supplements or replacement pages should be adopted and issued at least annually, unless there have been no additions to or modifications of the code during the year.

A code may consist of two parts, the ‘General Ordinances’ and the ‘Technical Ordinances.’ The technical ordinances may be published as separate books or pamphlets, and may include ordinances regarding the construction of buildings, the installation of plumbing and electric wiring, and the installation of cooling and heating equipment; ordinances regarding the use of public utilities, buildings, or facilities operated by the county; the zoning ordinance; the subdivision control ordinance; the privilege license tax ordinance; and other similar ordinances designated as technical ordinances by the board of commissioners. The board may omit from the code the budget ordinance, any bond orders, and other designated classes of ordinances of limited interest or transitory nature, but the code shall clearly describe the classes of ordinances omitted from it.

The board of commissioners may provide that ordinances (i) establishing or amending the boundaries of county zoning areas or (ii) establishing or amending the boundaries of zoning districts shall be codified by appropriate entries upon official map books to be retained permanently in the office of the clerk or some other county office generally accessible to the public.

“§ 153-50. *Pleading and proving county ordinances.*—County ordinances shall be pleaded and proved under the rules and procedures of G.S. 160A-79. References to G.S. 160A-77 and G.S. 160A-78 appearing in G.S. 160A-79 are deemed, for purposes of this section, to refer to G.S. 153-49 and G.S. 153-48, respectively.

“§ 153-52. *Conduct of public hearing.*—The board of commissioners may hold public hearings at any place within the county. The board may adopt reasonable rules governing the conduct of public hearings, including but not limited to rules (i) fixing the maximum time allotted to each speaker, (ii) providing for the designation of spokesmen for groups of persons supporting or opposing the same position, (iii) providing for the selection of delegates from groups of persons supporting or opposing the same positions when the number of persons wishing to attend the hearing exceeds the capacity of the hall, and (iv) providing for the maintenance of order and decorum in the conduct of the hearing.

The board may continue a public hearing without further advertisement. If a public hearing is set for a given date and a quorum of the board is not then present, the board shall continue the hearing without further advertisement until its next regular meeting.

“Part 4. Modification in the Structure of the Board of

Commissioners

“§ 153-58. *Optional structures.*—A county may alter the structure of its board of commissioners by adopting one or any combination of the options prescribed by this section.

(1) Number of members of the board of commissioners:

The board may consist of any number of members not less than three, except as limited by subsection 2(d) of this section.

(2) Terms of office of members of the board of commissioners:

a. Members shall be elected for two-year terms of office.

b. Members shall be elected for four-year terms of office.

c. Members shall be elected for overlapping four-year terms of office.

d. The board shall consist of an odd number of members, who are elected for a combination of four and two-year terms of office, so that a majority of members is elected each two years. This option may be used only if all members of the board are nominated and elected by the voters of the entire county, and only if the chairman of the board is elected by and from the members of the board.

(3) Mode of election of the board of commissioners:

a. The qualified voters of the entire county shall nominate all candidates for and elect all members of the board.

For options b, c, and d, the county shall be divided into electoral districts, and board members shall be apportioned to the districts so that the quotients obtained by dividing the population of each district by the number of commissioners apportioned to the district are as nearly equal as practicable.

b. The qualified voters of each district shall nominate candidates and elect members who reside in the district for seats apportioned to that district; and the qualified voters of the entire county shall nominate candidates and elect members apportioned to the county at large, if any.

c. The qualified voters of each district shall nominate candidates who reside in the district for seats apportioned to that district, and the qualified voters of the entire county shall nominate candidates for seats apportioned to the county at large, if any; and the qualified voters of the entire county shall elect all the members of the board.

d. Members shall reside in and represent the districts according to the apportionment plan adopted, but the qualified voters of the entire county shall nominate all candidates for and elect all members of the board.

If any of options b, c, or d is adopted, the board shall divide the county into the requisite number of electoral districts according to the apportionment plan adopted, and shall cause a delineation of the districts so laid out to be drawn up and filed as required by G.S. 153-20. No more than half the board may be apportioned to the county at large.

(4) Selection of chairman of the board of commissioners:

a. The board shall elect a chairman from among its membership to serve a one-year term, as provided by G.S. 153-39.

b. The chairmanship shall be a separate office. The qualified voters of the entire county nominate candidates for and elect the chairman for a two or four-year term.

“§ 153-59. *Implementation when board has members serving a combination of four and two-year terms.*—If the structure of the board of commissioners is altered to establish a board with an odd number of members serving a combination of four and two-year terms of office, the new structure shall be implemented as follows:

At the first election all members of the board shall be elected. A simple majority of those elected shall be elected for two-year terms, and the remaining members shall be elected for four-year terms. The candidate or candidates receiving the highest number of votes shall be elected for the four-year terms.

At each subsequent general election, a simple majority of the board shall be elected. That candidate who is elected with the least number of votes shall be elected for a two-year term, and the other member or members elected shall be elected for four-year terms.

“§ 153-60. *Initiation of alterations by resolution.*—The board of commissioners shall initiate any alteration in the structure of the board by adopting a resolution. The resolution shall:

- (1) Briefly but completely describe the proposed alterations;
- (2) Prescribe the manner of transition from the existing structure to the altered structure;
- (3) Define the electoral districts, if any, and apportion the members among the districts;
- (4) Call a referendum on the question of adoption of the alterations. The referendum may be held at the same time as any other referendum or election in the county, but may not otherwise be held within the period of time beginning 30 days before and ending 30 days after the day of any other referendum or election conducted by the county board of elections and already validly called or scheduled by law at the time the referendum on alteration of structure is called. In addition, the referendum may not be held during the period beginning 30 days before the last day for filing notice of candidacy for county offices and ending on the day before the next succeeding general election.

Upon its adoption, the resolution shall be published in full.

“§ 153-61. *Submission of proposition to voters; form of ballot.*—A proposition to approve an alteration shall be printed on the ballot in substantially the following form:

‘Shall the structure of the board of commissioners
be altered? (Describe the effect of the alteration.)

☐ YES

☐ NO’

The ballot shall be separate from other ballots used at the election.

If a majority of the votes cast on the proposition are in the affirmative, the plan contained in the resolution shall be put into effect as provided in this part. If a majority of the votes cast are in the negative, the resolution and the plan contained therein are void.

“§ 153-62. *Effective date of any alteration.*—Any approved alteration shall be the basis for nominating and electing the members of the board of commissioners at the first succeeding primary and general election for county offices held after approval of the alteration; and the alteration takes effect on the first Monday in December following that general election.

“§ 153-63. *Filing copy of resolution; notice to Revisor of Statutes.*—A copy of a resolution approved pursuant to this part shall be filed and indexed in the ordinance book required by G.S. 153-47.

“Article 5

“Administration

“Part 1. Organization and Reorganization of County Government

“§ 153-76. *Board of commissioners to organize county government.*—The board of commissioners may create, change, abolish, and consolidate offices, positions, departments, boards, commissions, and agencies of the county government, may impose ex-officio the duties of more than one office on a single officer, may change the composition and manner of selection of boards, commissions, and agencies, and may generally organize and reorganize the county government in order to promote orderly and efficient administration of county affairs, subject to the following limitations:

(1) The board may not abolish an office, position, department, board, commission, or agency established or required by law.

(2) The board may not combine offices or confer certain duties on the same officer when this action is specifically forbidden by law.

(3) The board may not discontinue or assign elsewhere a function or duty assigned by law to a particular office, position, department, board, commission, or agency.

(4) The board may not change the composition or manner of selection of a local board of education, the board of health, the board of social services, the board of elections, or the board of alcoholic beverage control.

“Part 2. Administration in Counties Having Managers

“§ 153-81. *Adoption of county-manager plan; appointment or designation of manager.*—The board of commissioners may by resolution adopt or discontinue the county-manager plan. If it adopts the county-manager plan, the board may, in the alternative:

(1) Appoint a county manager to serve at its pleasure. The manager shall be appointed solely on the basis of his executive and administrative qualifications. He need not be a resident of the county or the State at the time of his appointment.

(2) Confer upon the chairman or some other member of the board of commissioners the duties of county manager. If this is done, the chairman or member shall become a full-time county official, and the board may increase his salary pursuant to G.S. 153-28.

(3) Confer upon any other officer, employee, or agent of the county the duties of county manager.

As used in this part, the word ‘manager’ includes the chairman or any member of the board of commissioners exercising the duties of manager or any officer, employee, or agent of a county exercising the duties of manager.

“§ 153-82. *Powers and duties of manager.*—The manager is the chief administrator of county government. He is responsible to the board of commissioners for the administration of all departments of county government under the board’s general control and has the following powers and duties:

(1) He shall appoint with the approval of the board of commissioners and suspend or remove all county officers, employees, and agents except those who are elected by the people or whose appointment is otherwise provided for by law. The board may by resolution permit the manager to appoint officers, employees,

and agents without first securing the board's approval. The manager shall make his appointments, suspensions, and removals in accordance with any general personnel rules, regulations, policies, or ordinances that the board may adopt. The board may require the manager to report each suspension or removal to the board at the board's first regular meeting following the suspension or removal; and, if the board has permitted the manager to make appointments without board approval, the board may require the manager to report each appointment to the board at the board's first regular meeting following the appointment.

(2) He shall direct and supervise the administration of all county offices, departments, boards, commissions, and agencies under the general control of the board of commissioners, subject to the general direction and control of the board.

(3) He shall attend all meetings of the board of commissioners and recommend any measures that he considers expedient.

(4) He shall see that the orders, ordinances, resolutions, and regulations of the board of commissioners are faithfully executed within the county.

(5) He shall prepare and submit the annual budget and capital program to the board of commissioners.

(6) He shall annually submit to the board of commissioners and make available to the public a complete report on the finances and administrative activities of the county as of the end of the fiscal year.

(7) He shall make any other reports that the board of commissioners may require concerning the operations of county offices, departments, boards, commissions, and agencies.

(8) He shall perform any other duties that may be required or authorized by the board of commissioners.

"§ 153-83. *Acting county manager.*—By letter filed with the clerk, the manager may designate, subject to the approval of the board of commissioners, a qualified person to exercise the powers and perform the duties of manager during the manager's temporary absence or disability. During an absence or disability, the board may revoke the designation at any time and appoint another person to serve until the manager returns or his disability ceases.

"§ 153-84. *Interim county manager.*—Whenever the position of county manager is vacant, the board of commissioners shall designate a qualified person to exercise the powers and perform the duties of manager until the vacancy is filled. The board may designate the chairman or some other member as interim manager; for the interim the chairman or member shall become a full-time county official, and the board may increase his salary pursuant to G.S. 153-28.

"Part 3. Administration in Counties Not Having Managers

"§ 153-87. *Administration in counties not having managers.*—In a county that has not adopted or does not operate under the county-manager plan, the board of commissioners shall appoint, suspend, and remove all county officers, employees, and agents except those who are elected by the people or whose appointment is otherwise provided for by law. The board may delegate to the head of any county department the power to appoint, suspend, and remove county officers or employees assigned to his department.

"§ 153-88. *Acting department heads.*—By letter filed with the clerk, the head of a department may designate, subject to the approval of the board of commissioners, a qualified person to exercise the powers and perform the duties of head of that department during the department head's temporary absence or

disability. During an absence or disability, the board may revoke the designation at any time and appoint another person to serve until the department head returns or his disability ceases.

“§ 153-89. *Interim department heads.*—Whenever the position of head of a department is vacant, the board may designate a qualified person to exercise the powers and perform the duties of head of the department until the vacancy is filled.

“Part 4. Personnel

“§ 153-92. *Compensation.*—(a) Subject to the limitations set forth in subsection (b) of this section, the board of commissioners shall fix or approve the schedule of pay, expense allowances, and other compensation of all county officers and employees, whether elected or appointed, and may adopt position classification plans.

(b) In exercising the authority granted by subsection (a) of this section, the board of commissioners is subject to the following limitations:

- (1) The board of commissioners may not reduce the salary, allowances, or other compensation paid to an officer elected by the people for the duties of his elective office if the reduction is to take effect during the term of office for which the incumbent officer has been elected, unless the officer agrees to the reduction or unless the Local Government Commission pursuant to G.S. Chapter 159, Article 10, orders a reduction.
- (2) During the year of a general election, the board of commissioners may reduce the salary, allowances, or other compensation of an officer to be elected at the general election only in accordance with this paragraph. The board of commissioners shall by resolution give notice of intention to make the reduction no later than 14 days before the last day for filing notice of candidacy for the office. The resolution shall set forth the reduced salary, allowances, and other compensation and shall provide that the reduction is to take effect at the time the person elected to the office in the general election takes office. Once adopted, the resolution may not be altered until the person elected to the office in the general election has taken office. The filing fee for the office shall be determined by reference to the reduced salary.
- (3) If the board of commissioners reduces the salaries, allowances, or other compensation of employees assigned to an officer elected by the people, and the reduction does not apply alike to all county offices and departments, the elected officer involved must approve the reduction. If the elected officer refuses to approve the reduction, he and the board of commissioners shall meet and attempt to reach agreement. If agreement cannot be reached, either the board or the officer may refer the dispute to arbitration by the senior regular resident superior court judge of the judicial district in which the county is located. The judge shall make an award within 30 days after the day the matter is referred to him. The award may extend for no more than two fiscal years, including the fiscal year for which it is made.
- (4) The board of commissioners shall fix their own salaries, allowances, and other compensation in accordance with G.S. 153-28.
- (5) The board of commissioners shall fix the salaries, allowances and other compensation of county employees subject to the State Personnel Act according to the procedures set forth in G.S. Chapter 126. The board

may make these employees subject to a county position classification plan only as provided in G.S. Chapter 126.

(c) In counties with a county manager, the manager is responsible for preparing position classification and pay plans for submission to the board of commissioners and for administering the pay plan and any position classification plan in accordance with general policies and directives adopted by the board. In counties without a county manager, the board of commissioners shall appoint or designate a personnel officer, who shall then be responsible for administering the pay plan and any position classification plan in accordance with general policies and directives adopted by the board.

(d) A county may purchase life insurance or health insurance or both for the benefit of all or any class of county officers and employees as a part of their compensation. A county may provide other fringe benefits for county officers and employees.

“§ 153-93. *Retirement benefits.*—(a) The board of commissioners may provide for enrolling county officers and employees in the Local Governmental Employees' Retirement System, the Law Enforcement Officers' Benefit and Relief Fund, the Firemen's Pension Fund, or a retirement plan certified to be actuarially sound by a qualified actuary as defined in subsection (c) of this section and may make payments into such a retirement system or plan on behalf of its employees.

(b) No county may make payments into a retirement system or plan established or authorized by a local act unless the system or plan is certified to be actuarially sound by a qualified actuary as defined in subsection (c) of this section.

(c) A qualified actuary means a member of the American Academy of Actuaries or an individual certified as qualified by the Commissioner of Insurance.

“§ 153-94. *Personnel rules; office hours, workdays, and holidays.*—(a) The board of commissioners may adopt or provide for rules and regulations or ordinances concerning but not limited to annual leave, sick leave, special leave with full pay or with partial pay supplementing workmen's compensation payments for employees injured in accidents arising out of and in the course of employment, working conditions, service award and incentive award programs, other personnel policies, and any other measures that promote the hiring and retention of capable, diligent, and honest career employees.

(b) The board of commissioners may prescribe the office hours, workdays, and holidays to be observed by the various offices, departments, boards, commissions, and agencies of the county.

“§ 153-95. *Personnel board.*—The board of commissioners may establish a personnel board with authority, as regards employees in offices, departments, boards, commissions, and agencies under the general control of the board of commissioners, to administer tests designed to determine the merit and fitness of candidates for appointment or promotion, to conduct hearings upon the appeal of employees who have been suspended, demoted, or discharged, to hear employee grievances, or to undertake any other duties relating to personnel administration that the board of commissioners may direct.

“§ 153-96. *Participation in the Social Security Act.*—The board of commissioners may take any action necessary to allow county officers and

employees to participate fully in benefits provided by the Federal Social Security Act.

“§ 153-97. *Defense of officers and employees.*—A county may, pursuant to G.S. 160A-167, provide for the defense of any county officer or employee, including the county board of elections or any county election official.

“Part 5. Board of Commissioners and Other Officers, Boards,
Departments, and Agencies of the County

“§ 153-101. *Board of commissioners to direct fiscal policy of the county.*—The board of commissioners has and shall exercise the responsibility of developing and directing the fiscal policy of the county government under the provisions and procedures of The Local Government Budget and Fiscal Control Act.

“§ 153-102. *Commissioners to fix fees.*—The board of commissioners may fix the fees and commissions charged by county officers and employees for performing services or duties permitted or required by law. The Board may not, however, fix fees in the general court of justice or modify the fees of the register of deeds prescribed by G.S. 161-10 or the fees of the board of elections prescribed by G.S. 163-107.

“§ 153-103. *Number of employees in office of sheriff and register of deeds.*—Subject to the limitations set forth below, the board of commissioners may fix the number of salaried employees in the offices of the sheriff and the register of deeds. In exercising the authority granted by this section, the board of commissioners is subject to the following limitations:

- (1) Each sheriff and register of deeds elected by the people has the exclusive right to hire, discharge, and supervise the employees in his office. However, the board of commissioners must approve the appointment by such an officer of a relative by blood or marriage of nearer kinship than first cousin or of a person who has been convicted of a crime involving moral turpitude.
- (2) Each sheriff and register of deeds elected by the people is entitled to at least one deputy, who shall be reasonably compensated by the county.

“§ 153-104. *Reports from officers, employees, and agents of the county.*—The board of commissioners may require any officer, employee, or agent of the county to make to the board, either directly or through the county manager, periodic or special reports concerning any matter connected with the officer's, employee's or agent's duties. The board may require that such a report be made under oath. If a person fails or refuses to obey a reasonable order to make a report, issued pursuant to this section, the board may apply to the appropriate division of the General Court of Justice for an order requiring that its order be obeyed. The court has jurisdiction to issue these orders.

“Part 6. Clerk to the Board of Commissioners

“§ 153-111. *Appointment; powers and duties.*—The board of commissioners shall appoint or designate a clerk to the board. The board may designate the register of deeds or any other county officer or employee as clerk. The clerk shall perform any duties that may be required by law or the board of commissioners. The clerk shall serve as such at the pleasure of the board.

“Part 7. County Attorney

“§ 153-114. *Appointment; duties.*—The board of commissioners shall appoint a county attorney to serve at its pleasure and to be its legal adviser.

“Article 6

“Delegation and Exercise of the General Police Power

“§ 153-121. *General ordinance making power.*—(a) A county may by ordinance define, regulate, prohibit, or abate acts, omissions, or conditions detrimental to the health, safety, or welfare of its citizens and the peace and dignity of the county; and may define and abate nuisances.

(b) This section does not authorize a county to regulate or control vehicular or pedestrian traffic on a street or highway under the control of the State Highway Commission, nor to regulate or control any right-of-way or right-of-passage belonging to a public utility, electric or telephone membership corporation, or public agency of the State. In addition, no county ordinance may regulate or control a highway right-of-way in a manner inconsistent with State law or an ordinance of the State Highway Commission.

(c) This section does not impair the authority of local boards of health to adopt rules and regulations to protect and promote public health.

“§ 153-122. *Territorial jurisdiction of county ordinances.*—Except as otherwise provided in this article, the board of commissioners may make any ordinance adopted pursuant to this article applicable to any part of the county not within a city. In addition, the governing board of a city may by resolution permit a county ordinance adopted pursuant to this article to be applicable within the city. The city may by resolution withdraw its permission to such an ordinance. If it does so, the city shall give written notice to the county of its withdrawal of permission; 30 days after the day the county receives this notice the county ordinance ceases to be applicable within the city.

“§ 153-123. *Enforcement of ordinances.*—(a) A county may provide for fines and penalties for violation of its ordinances and may secure injunctions and abatement orders to further insure compliance with its ordinances, as provided by this section.

(b) Unless the board of commissioners has provided otherwise, violation of a county ordinance is a misdemeanor as provided by G.S. 14-4. An ordinance may provide by express statement that the maximum fine or term of imprisonment to be imposed for its violation is some amount of money or number of days less than the maximum fine or term prescribed by G.S. 14-4.

(c) An ordinance may provide that violation subjects the offender to a civil penalty to be recovered by the county in a civil action in the nature of debt if the offender does not pay the penalty within a prescribed period of time after he has been cited for violation of the ordinance.

(d) An ordinance may provide that it may be enforced by an appropriate equitable remedy issuing from a court of competent jurisdiction. In such a case, the General Court of Justice has jurisdiction to issue any order that may be appropriate, and it is not a defense to the county's application for equitable relief that there is an adequate remedy at law.

(e) An ordinance that makes unlawful a condition existing upon or use made of real property may provide that it may be enforced by injunction and order of abatement, and the General Court of Justice has jurisdiction to issue such an order. When a violation of such an ordinance occurs, the county may apply to the appropriate division of the General Court of Justice for a mandatory or prohibitory injunction and order of abatement commanding the defendant to correct the unlawful condition upon or cease the unlawful use of the property. The action shall be governed in all respects by the laws and rules governing civil

proceedings, including the Rules of Civil Procedure in general and Rule 65 in particular.

In addition to an injunction, the court may enter an order of abatement as a part of the judgment in the cause. An order of abatement may direct that buildings or other structures on the property be closed, demolished, or removed; that fixtures, furniture, or other movable property be removed from buildings on the property; that grass and weeds be cut; that improvements or repairs be made; or that any other action be taken that is necessary to bring the property into compliance with the ordinance. If the defendant fails or refuses to comply with an injunction or with an order of abatement within the time allowed by the court, he may be cited for contempt and the county may execute the order of abatement. If the county executes the order, it has a lien on the property, in the nature of a mechanic's and materialman's lien, for the costs of executing the order. The defendant may secure cancellation of an order of abatement by paying all costs of the proceedings and posting a bond for compliance with the order. The bond shall be given with sureties approved by the clerk of superior court in an amount approved by the judge before whom the matter was heard and shall be conditioned on the defendant's full compliance with the terms of the order of abatement within the time fixed by the judge. Cancellation of an order of abatement does not suspend or cancel an injunction issued in conjunction with the order.

(f) Subject to the express terms of the ordinance, a county ordinance may be enforced by any one or more of the remedies authorized by this section.

(g) A county ordinance may provide, when appropriate, that each day's continuing violation is a separate and distinct offense.

"§ 153-124. *Enumeration not exclusive.*—The enumeration in this article or other portions of this chapter of specific powers to define, regulate, prohibit, or abate acts, omissions, or conditions is not exclusive, nor is it a limit on the general authority to adopt ordinances conferred on counties by G.S. 153-121.

"§ 153-125. *Regulation of solicitation campaigns and itinerant merchants.*—A county may by ordinance regulate, restrict, or prohibit the solicitation of contributions from the public for charitable or eleemosynary purposes, and also the business activities of itinerant merchants, salesmen, promoters, drummers, peddlers, and hawkers. These ordinances may include, but are not limited to, requirements that an application be made and a permit issued, that an investigation be made, that activities be reasonably limited as to time and place, that proper credentials and proof of financial stability be submitted, that not more than a stated percentage of contributions to solicitation campaigns be retained for administrative expenses, and that an adequate bond be posted to protect the public from fraud. A county may charge a fee for a permit issued pursuant to such an ordinance.

"§ 153-126. *Regulation of begging.*—A county may by ordinance prohibit or regulate begging or otherwise canvassing the public for contributions for the private benefit of the solicitor or any other person.

"§ 153-127. *Abuse of animals.*—A county may by ordinance define and prohibit the abuse of animals.

"§ 153-128. *Regulation of explosive, corrosive, inflammable, or radioactive substances.*—A county may by ordinance regulate, restrict, or prohibit the sale, possession, storage, use or conveyance of any explosive, corrosive, inflammable,

or radioactive substance or of any weapon or instrumentality of mass death and destruction.

“§ 153-129. *Firearms*.—A county may by ordinance regulate, restrict, or prohibit the discharge of firearms at any time or place except when used to take birds or animals pursuant to G.S. Chapter 113, Subchapter III, when used in defense of person or property, or when used pursuant to lawful directions of law enforcement officers. A county may also regulate the display of firearms on the public roads, sidewalks, alleys, or other public property. This section does not limit a county's authority to take action under G.S. Chapter 14, Article 36A.

“§ 153-130. *Pellet guns*.—A county may by ordinance regulate, restrict, or prohibit the sale, possession, or use of pellet guns or any other mechanism or device designed or used to project a missile by compressed air or mechanical action with less than deadly force.

“§ 153-131. *Possession or harboring of wild animals*.—A county may by ordinance regulate, restrict, or prohibit the possession or harboring of wild animals dangerous to person or property or offensive to the senses.

“§ 153-132. *Removal and disposal of abandoned and junked motor vehicles*.—(a) Grant of power.—A county may by ordinance prohibit the abandonment of motor vehicles on public grounds and private property within the county's ordinance-making jurisdiction and on county-owned property wherever located. The county may enforce the ordinance by removing and disposing of abandoned or junked motor vehicles according to the procedures prescribed in this section.

(b) Definitions.—‘Motor vehicle’ includes any machine designed or intended to travel over land or water by self-propulsion or while attached to self-propelled vehicle.

An ‘abandoned motor vehicle’ is one that:

- (1) Is left on public grounds or county-owned property in violation of a law or ordinance prohibiting parking; or
- (2) Is left for longer than 24 hours on property owned or operated by the county; or
- (3) Is left for longer than two hours on private property without the consent of the owner, occupant, or lessee of the property; or
- (4) Is left for longer than seven days on public grounds.

A ‘junked motor vehicle’ is an abandoned motor vehicle that also:

- (1) Is partially dismantled or wrecked; or
- (2) Cannot be self-propelled or moved in the manner in which it originally was intended to move; or
- (3) Is more than five years old and appears to be worth less than one hundred dollars (\$100.00); or
- (4) Does not display a current license plate.

(c) Removal of vehicles.—A county may remove to a storage garage or area an abandoned or junked motor vehicle found to be in violation of an ordinance adopted pursuant to this section. A vehicle may not be removed from private property, however, without the written request of the owner, lessee, or occupant of the premises unless the board of commissioners or a duly authorized county official or employee has declared the vehicle to be a health or safety hazard. Appropriate county officers and employees have a right, upon presentation of proper credentials, to enter on any premises within the county ordinance-making jurisdiction at any reasonable hour in order to determine if any vehicles are health or safety hazards. The county may require a person requesting the

removal from private property of an abandoned or junked motor vehicle to indemnify the county against any loss, expense, or liability incurred because of the vehicle's removal, storage, or sale.

When an abandoned or junked motor vehicle is removed, the county shall promptly give written notice of the removal to the registered owner at his last known address according to the latest registration certificate or certificate of title on file with the Department of Motor Vehicles. The notice shall inform the owner of the possible sale or other disposition that may be made of the vehicle under this section. The owner may regain possession of the vehicle by paying to the county all reasonable costs incidental to the removal and storage. If the vehicle does not display a current license plate and the vehicle identification numbers have been removed or defaced so as to be illegible, the county need not give notice to the vehicle's registered owner.

(d) Disposal of abandoned motor vehicles.—After holding an abandoned motor vehicle for 30 days after the day the vehicle is removed, the county may sell or dispose of it as provided in this subsection.

If the vehicle appears to be worth less than one hundred dollars (\$100.00), the county may dispose of the vehicle as a junked motor vehicle as provided by subsection (e) of this section. With the consent of the owner, the county may remove and dispose of a motor vehicle as a junked motor vehicle without regard to the value, condition, or age of the vehicle and without holding it for any prescribed period of time.

If the vehicle appears to be worth one hundred dollars (\$100.00) or more, it shall be sold at public auction. The county shall give 20 days written notice of the sale to the registered owner at his last known address, to each holder of a lien of record against the vehicle, and to the Department of Motor Vehicles. Any person having an interest in the vehicle may redeem it at any time before the sale by paying all costs accrued to date. The proceeds of the sale shall be paid to the county finance officer, who shall pay to the appropriate officers or persons the cost of removal, storage, investigation, sale, and liens, in that order. The remainder of the proceeds of sale, if any, shall be paid over to the registered owner, or held by the county for 60 days if the registered owner cannot be located with reasonable diligence. If the owner does not claim the remainder of the proceeds within 60 days after the day of the sale, the funds shall be deposited in the county's general fund and the owner's rights in the vehicle are extinguished. When it receives a county's bill of sale from a purchaser or other person entitled to receive a vehicle disposed of as provided in this subsection, the Department of Motor Vehicles shall issue a certificate of title for the vehicle as required by law.

(e) Disposal of junked motor vehicles.—After holding a junked motor vehicle for 15 days, the county may destroy it or sell it at private sale as junk. Within 15 days after final disposition of a junked motor vehicle, the county shall notify the Department of Motor Vehicles that the vehicle has been determined to be a junked motor vehicle and has been disposed of as such. The notice shall contain as full and accurate a description of the vehicle as can be reasonably determined. The proceeds of the sale of a junked motor vehicle shall be paid to the county finance officer, who shall pay to the appropriate officers or persons the cost of removal, storage, investigation, sale, and liens, in that order. The remainder of the proceeds of sale, if any, shall be held by the county for 30 days and paid to the registered owner upon demand. If the owner does not claim the remainder of

the proceeds within 30 days after the day the vehicle is disposed of, the funds shall be deposited in the county's general fund, and the owner's rights in the vehicle are extinguished.

(f) Disposal of vehicles without plates or identification numbers.—If a junked motor vehicle does not display a current license plate and the vehicle identification numbers have been removed or defaced so as to be illegible, a county may dispose of it under this subsection rather than subsections (d) or (e). The county may destroy the vehicle or sell it at private sale (without regard to value), after having held the vehicle for 48 hours. The proceeds shall be placed in the county's general fund.

(g) No liability.—No person nor any county may be held to answer in a civil or criminal action to any owner or other person legally entitled to the possession of an abandoned, junked, lost, or stolen motor vehicle for disposing of the vehicle as provided in this section.

(h) Exceptions.—This section does not apply to any vehicle in an enclosed building, to any vehicle on the premises of a business enterprise being operated in a lawful place and manner if the vehicle is necessary to the operation of the enterprise, or to any vehicle in an appropriate storage place or depository maintained in a lawful place and manner by the county.

“§ 153-133. *Noise regulation.*—A county may by ordinance regulate, restrict, or prohibit the production or emission of noises or amplified speech, music, or other sounds that tend to annoy, disturb, or frighten its citizens.

“§ 153-134. *Regulating and licensing businesses, trades, etc.*—A county may by ordinance, subject to the general law of the State, regulate and license occupations, businesses, trades, professions, and forms of amusement or entertainment and prohibit those that may be inimical to the public health, welfare, safety, order, or convenience. In licensing trades, occupations, and professions, the county may, consistent with the general law of the State, require applicants for licenses to be examined and charge a reasonable fee therefor. This section does not authorize a county to examine or license a person holding a license issued by an occupational licensing board of this State as to the profession or trade that he has been licensed to practice or pursue by the State.

This section does not impair the county's power to levy privilege license taxes on occupations, businesses, trades, professions, and other activities pursuant to G.S. 153-152.

“§ 153-135. *Regulation of places of amusement.*—A county may by ordinance regulate places of amusement and entertainment, and may regulate, restrict, or prohibit the operation of pool and billiard halls, dance halls, carnivals, circuses, or itinerant shows or exhibitions of any kind. Places of amusement and entertainment include coffee houses, cocktail lounges, night clubs, beer halls, and similar establishments, but any regulation of such places shall be consistent with any permit or license issued by the State Board of Alcoholic Control.

“§ 153-136. *Regulation of solid wastes.*—(a) A county may by ordinance regulate the storage, collection, transportation, use, disposal, and other disposition of solid wastes. Such an ordinance may:

- (1) Regulate the activities of persons, firms, and corporations, both public and private.
- (2) Require each person wishing to commercially collect or dispose of solid wastes to secure a license from the county and prohibit any person from

commercially collecting or disposing of solid wastes without a license. A fee may be charged for a license.

- (3) Grant a franchise to one or more persons for the exclusive right to commercially collect or dispose of solid wastes within all or a defined portion of the county and prohibit any other person from commercially collecting or disposing of solid wastes in that area. The board of commissioners may set the terms of any franchise, except that no franchise may be granted for a period exceeding seven years, nor may any franchise by its terms impair the authority of the board of commissioners to regulate fees as authorized by this section.
- (4) Regulate the fees, if any, that may be charged by licensed or franchised persons for collecting or disposing of solid wastes.
- (5) Include any other proper matter.

(b) Any ordinance adopted pursuant to this section shall be consistent with and supplementary to any regulations adopted by the State Board of Health.

“§ 153-137. *Cable television franchises.*—Consistent with the rules and regulations of the Federal Communications Commission, a county may by ordinance grant upon reasonable terms franchises for the operation of cable television systems within any portion of the county, exclusive of incorporated areas and make it unlawful to operate such a system without a franchise. A franchise may not be granted for a period longer than the maximum term prescribed by the Federal Communications Commission.

As used in this section, ‘cable television system’ means a facility that, in whole or in part, receives directly or indirectly over the air and amplifies or otherwise modifies the signals transmitting programs broadcast by one or more television stations and distributes these signals by wire or cable to subscribing members of the public who pay for the service. ‘Cable television system’ does not include a facility that serves only the residents of one or more apartment dwellings under common ownership, control, or management and commercial establishments located on the premises of such an apartment dwelling.

“Article 7

“Taxation

“ 153-146. *General power to impose taxes.*—A county may impose taxes only as specifically authorized by act of the General Assembly. Except when the statute authorizing a tax provides for penalties and interest, the power to impose a tax includes the power to impose reasonable penalties for failure to declare tax liability, if required, and to impose penalties or interest for failure to pay taxes lawfully due within the time prescribed by law or ordinance. The power to impose a tax also includes the power to provide for its administration in a manner not inconsistent with the statute authorizing the tax.

“§ 153-147. *Remedies for collecting taxes other than property taxes.*—In addition to any other remedies provided by law, a county may collect any county tax by use of the remedies of levy and sale and attachment and garnishment, under the rules and according to the procedures prescribed by the Machinery Act (G.S. Chapter 105, Subchapter II) for the enforcement of tax liability against personal property. However, these remedies become available only on the due date of the tax and not before that time.

“§ 153-148. *Continuing taxes.*—Except for taxes levied on property under the Machinery Act (G.S. Chapter 105, Subchapter II), a county may impose any authorized tax by a permanent ordinance that shall stand from year to year until

amended or repealed, and it is not necessary to reimpose the tax in each annual budget ordinance.

With respect to each category listed in this subsection, the county may provide the necessary personnel, land, buildings, equipment, supplies, and financial support for the program, service, or function.

This subsection does not authorize a county to undertake any program, service, or function not otherwise authorized by law. It is intended only to authorize the levy of property taxes without a vote of the people to finance

programs, services, or functions authorized by other portions of the General Statutes and comprehended within one of the categories set out herein.

(b) The board of commissioners may call a referendum on the levy of property taxes for any purpose not listed in subsection (a) of this section for which the county is authorized by general law or local act to appropriate money. The referendum may be held at the same time as any other referendum or election held in the county, but may not otherwise be held within the period of time beginning 30 days before and ending 30 days after the day of any other referendum or election conducted by the county board of elections. The county board of elections shall conduct the election.

The proposition submitted to the voters shall be substantially in one of the following forms:

- (1) Shall _____ County be authorized to levy annually a property tax at a rate not in excess of _____ cents on the one hundred dollars value of property subject to taxation for the purpose of _____?
- (2) Shall _____ County be authorized to levy annually a property tax at a rate not in excess of that which will produce \$_____ for the purpose of _____?
- (3) Shall _____ County be authorized to levy annually a property tax without restriction as to rate or amount for the purpose of _____?

If a majority of those voting on the proposition vote in the affirmative, the board of commissioners may proceed to levy annually a property tax within the limitations (if any) described in the proposition. Unless otherwise provided in the proposition submitted to the voters, a vote on a property tax levy not to exceed a specified rate per one hundred dollars value of property subject to taxation is a vote on an effective rate per one hundred dollars of appraised value of property before the application of any assessment ratio.

The referendum shall be held pursuant to the laws governing general elections under G.S. Chapter 163.

(c) This section does not invalidate any referendum held before July 1, 1973, on the levy of property taxes, and counties may continue to levy taxes pursuant to any such referendum.

“§ 153-150. *Reserve for octennial reappraisal.*—Before the beginning of the fiscal year immediately following the effective date of an octennial reappraisal of real property conducted as required by G.S. 105-286, the county budget officer shall present to the board of commissioners an eight-year budget for financing the cost of the next octennial reappraisal. The budget shall estimate the cost of the reappraisal and shall propose a plan for raising the necessary funds in eight annual installments during the next eight fiscal years, with all installments as nearly uniform as practicable. The board shall consider this budget, making any amendments to the budget it deems advisable, and shall adopt a resolution establishing a special reserve fund for the next octennial reappraisal. In the budget ordinance of the first fiscal year of the plan, the board of commissioners shall appropriate to the special reappraisal reserve fund the amount set out in the plan for the first year's installment. When the county budget for each succeeding fiscal year is in preparation, the board shall review the eight-year reappraisal budget with the budget officer and shall amend it, if necessary, so that it will reflect the probable cost at that time of the reappraisal

and will produce the necessary funds at the end of the eight-year period. In the budget ordinance for each succeeding fiscal year, the board shall appropriate to the special reappraisal reserve fund the amount set out in the plan as due in that year.

Moneys appropriated to the special reappraisal reserve fund shall not be available or expended for any purpose other than the reappraisal of real property required by G.S. 105-286, except that the funds may be deposited at interest or invested as permitted by G.S. 159-30. If there is a fund balance in the reserve fund following payment for the required reappraisal, it shall be retained in the fund for use in financing the next required reappraisal.

Within ten days after the adoption of each annual budget ordinance, the county finance officer shall report to the State Board of Assessment, on forms to be supplied by the State Board, the terms of the county's eight-year reappraisal budget, the current condition of the special reappraisal reserve fund, and the amount appropriated to the reserve fund in the current fiscal year.

"§ 153-151. *Sales tax*.—A county may levy a local sales and use tax under the rules and according to the procedures prescribed by the Local Government Sales and Use Tax Act (G.S. Chapter 105, Subchapter VIII).

"§ 153-152. *Privilege license taxes*.—A county may levy privilege license taxes on trades, occupations, professions, businesses, and franchises to the extent authorized by Schedule B of the Revenue Act (G.S. Chapter 105, Subchapter I, Article 2) and any other acts of the General Assembly.

"Article 8

"County Property

"Part 1. Acquisition of Property

"§ 153-158. *Power to acquire property*.—A county may acquire, by gift, grant, devise, bequest, exchange, purchase, lease, or any other lawful method, the fee or any lesser interest in real or personal property for use by the county or any department, board, commission, or agency of the county.

"§ 153-159. *Power of eminent domain conferred*.—In addition to any power conferred by any other general law or local act, each county possesses the power of eminent domain and may acquire by condemnation the fee or any lesser interest in property, either inside or outside the county, for the following purposes:

- (1) Establishing, extending, enlarging, or improving any of the public enterprises listed in G.S. 153-274.
- (2) Establishing, enlarging, or improving parks, playgrounds, and other recreational facilities.
- (3) Constructing, enlarging, or improving hospital facilities.
- (4) Constructing, enlarging, or improving library facilities.
- (5) Constructing, enlarging, or improving courthouses, jails, office buildings, fire stations, and other buildings for use by the county or any board, commission, or agency thereof.

The power to acquire property by condemnation does not depend on any prior effort to acquire the same property by grant or purchase, nor is the power to

negotiate for the grant or purchase of property impaired by initiation of condemnation proceedings for acquisition of the same property.

In exercising the power of eminent domain, a county may in its discretion use the procedures of G.S. Chapter 40, Article 2; or the procedures of G.S. Chapter 160A, Article 11; or the procedures of any other general law or local act applicable to the county.

“§ 153-160. *Limitations on the power of eminent domain.*—(a) A county does not possess the power of eminent domain with respect to property owned by the State of North Carolina unless the State consents to the taking. The State's consent shall be given by the Council of State, or by the Director of Administration if the Council of State has delegated this power to him. In a condemnation proceeding against State property, consented to by the State, the only issue shall be the compensation to be paid for the property by the county.

(b) A county possesses the power of eminent domain for the purpose of acquiring any interest in property owned by another county, a city, or a municipal corporation organized for a special purpose only if the property proposed to be taken is not being used and is not needed for any governmental or proprietary purpose.

(c) A county possesses the power of eminent domain for the purpose of acquiring any interest in property already devoted to the public use and owned by a public service corporation, including public utilities as defined in G.S. Chapter 62 and electric and telephone membership corporations, only if the acquisition will not prevent or unreasonably impair the continued devotion to the public use of the properties and their operation by the public service corporation.

“§ 153-161. *Costs in unsuccessful condemnation actions and in inverse condemnation actions.*—If a county or an agency, board, or commission of a county institutes an action to acquire by condemnation any interest in real property and

(a) if the final judgment in the action is that the county or the agency, board, or commission is not authorized to condemn the property; or

(b) if the county or agency, board, or commission abandons the action, the court with jurisdiction over the action shall award each owner of property sought to be condemned a sum that, in the opinion of the court, will reimburse the owner for his reasonable costs, disbursements, and expenses (including reasonable attorney, appraisal, and engineering fees) incurred because of the action.

If an action is brought against a county or an agency, board, or commission of a county seeking compensation for the taking of any interest in property by the county or agency, board, or commission and judgment is for the plaintiff, the court shall award to the plaintiff as a part of the judgment a sum that, in the opinion of the court, will reimburse the plaintiff for his reasonable costs, disbursements, and expenses (including reasonable attorney, appraisal, and engineering fees) incurred because of the action.

“§ 153-162. *Acquisition of remnants.*—A county or an agency, board, or commission of a county may offer to acquire and may acquire the entire tract or parcel of an owner if the acquisition, by purchase or eminent domain, of only a part of the tract or parcel would leave the owner with an uneconomic remnant.

“§ 153-163. *Acquisition of property at a judicial sale, execution sale, or sale pursuant to a power of sale; disposition of such property.*—A county, city, or

other unit of local government may purchase real property at a judicial sale, an execution sale, or a sale made pursuant to a power of sale, to secure a debt due the county, city, or other unit. The purchasing government may sell any property so acquired by private sale for not less than the amount of its bid or may sell or exchange the property for any amount according to the procedures prescribed by G.S. Chapter 160A, Article 12.

“§ 153-164. *Joint buildings.*—Two or more counties, cities, other units of local government (including local boards of education), or any combination of such governments may jointly acquire or construct public buildings to house offices, departments, bureaus, agencies, or facilities of each government. The governments may acquire any land necessary for a joint building or may use land already held by one of the governments.

In exercising the powers granted by this section, the governments shall proceed according to the procedures and provisions of G.S. Chapter 160A, Article 20, Part 1.

“§ 153-165. *Leases.*—A county may lease as lessee, with or without option to purchase, any real or personal property for any authorized public purpose. A lease of personal property with an option to purchase is subject to G.S. Chapter 143, Article 8.

“Part 2. Use of County Property

“§ 153-169. *Care and use of county property; sites of county buildings.*—The board of commissioners shall supervise the maintenance, repair, and use of all county property. The board may issue orders and adopt by ordinance or resolution regulations concerning the use of county property, may designate and redesignate the location of any county department, office, or agency, and may designate and redesignate the site for any county building, including the courthouse. Before it may redesignate the site of the courthouse, the board of commissioners shall cause notice of its intention to do so to be published once at least four weeks before the meeting at which the redesignation is made.

“§ 153-170. *Regulation of parking on county property.*—A county may by ordinance regulate parking of motor vehicles on county-owned property. Such an ordinance may be enforced pursuant to G.S. 153-123. In addition, the ordinance may provide that vehicles parked in violation thereof may be removed from the property by the county or an agent of the county to a storage area or garage. If a vehicle is so removed, the owner, as a condition of regaining possession of the vehicle, shall be required to pay to the county all reasonable costs incidental to the removal and storage of the vehicle and any fine or penalty due for the violation.

“Part 3. Disposition of County Property

“§ 153-176. *Disposition of property.*—A county may dispose of any real or personal property belonging to it according to the procedures prescribed in G.S. Chapter 160A, Article 12. For purposes of this section references in G.S. Chapter 160A, Article 12, to the ‘city’, the ‘council’, or a specific city official are deemed to refer, respectively, to the county, the board of commissioners, and the county official who most nearly performs the same duties performed by the specified city official.

“§ 153-177. *Reconveyance of property donated to a local government.*—If real or personal property is conveyed without consideration to a county, city, or other unit of local government to be used for a specific purpose set out in the instrument of conveyance and the governing body of the county, city, or other

unit of local government determines that the property will not be used for that purpose, the county, city, or other unit of local government may reconvey the property without consideration to the grantor or his heirs, assigns, or nominees. Before it may make a reconveyance, the county, city, or other unit of local government shall publish once a week for two weeks notice of its intention to do so.

“Article 9

“Special Assessments

“§ 153-185. *Authority to make special assessments.*—A county may make special assessments against benefited property within the county for all or part of the costs of:

- (1) Constructing, reconstructing, extending, or otherwise building or improving water systems;
- (2) Constructing, reconstructing, extending, or otherwise building or improving sewage disposal systems;
- (3) Acquiring, constructing, reconstructing, extending, or otherwise building or improving beach erosion control or flood and hurricane protection works.

A county may not assess property within a city pursuant to paragraphs (1) or (2) of this section unless the governing board of the city has by resolution approved the project.

“§ 153-186. *Bases for making assessments.*—(a) For water or sewer projects, assessments may be made on the basis of:

- (1) The frontage abutting on the project, at an equal rate per foot of frontage; or
- (2) The street frontage of the lots served, or subject to being served, by the project, at an equal rate per foot of frontage; or
- (3) The area of land served, or subject to being served, by the project, at an equal rate per unit of area; or
- (4) The valuation of land served, or subject to being served, by the project, being the value of the land without improvements as shown on the tax records of the county, at an equal rate per dollar of valuation; or
- (5) The number of lots served, or subject to being served, by the project when the project involves extension of an existing system to a residential or commercial subdivision, at an equal rate per lot; or
- (6) A combination of two or more of these bases.

(b) For beach erosion control or flood and hurricane protection works, assessments may be made on the basis of:

- (1) The frontage abutting on the project, at an equal rate per foot of frontage; or
- (2) The frontage abutting on a beach or shoreline protected or benefited by the project, at an equal rate per foot of frontage; or
- (3) The area of land benefited by the project, at an equal rate per unit of area, or
- (4) The valuation of land benefited by the project, being the value of the land without improvements as shown on the tax records of the county, at an equal rate per dollar of valuation; or
- (5) A combination of two or more of these bases.

(c) Whenever the basis selected for assessment is either area or valuation, the board of commissioners shall provide for the laying out of one or more benefit

zones according (i), in water or sewer projects, to the distance of benefited property from the project being undertaken and (ii), in beach erosion control or flood and hurricane protection works, to the distance from the shoreline, the distance from the project, the elevation of the land, or other relevant factors. If more than one benefit zone is established, the board shall establish differing rates of assessment to apply uniformly throughout each benefit zone.

(d) For each project, the board of commissioners shall endeavor to establish an assessment method from among the bases set out in this section that will most accurately assess each lot or parcel of land according to the benefit conferred upon it by the project. The board's decision as to the method of assessment is final and not subject to further review or challenge.

"§ 153-187. *Corner lot exemptions.*—The board of commissioners may establish schedules of exemptions from assessments for water or sewer projects for corner lots when water or sewer lines are installed along both sides of the lots. A schedule of exemptions shall be based on categories of land use (residential, commercial, industrial, and agricultural) and shall be uniform for each category. A schedule may not allow exemption of more than seventy-five percent (75%) of the frontage of any side of a corner lot, or 150 feet, whichever is greater.

"§ 153-188. *Lands exempt from assessment.*—Except as provided in this article, no land within a county is exempt from special assessments except land belonging to the United States that is exempt under the provisions of federal statutes and, in the case of water or sewer projects, land within any floodway delineated by a local government pursuant to G.S. Chapter 143, Article 21, Part 6. In addition, in the case of water or sewer projects, land owned, leased, or controlled by a railroad company is exempt from assessments by a county to the same extent that it would be exempt from assessments by a city under G.S. 160A-222.

"§ 153-189. *State participation in improvement projects.*—If a county proposes to undertake a project that would benefit land owned by the State of North Carolina or a board, agency, commission, or institution of the State and to finance all or a part of the project by special assessments, the board of commissioners may request the Council of State to authorize the State to pay its ratable part of the cost of the project, and the Council of State may authorize these payments. The Council of State may authorize the Director of Administration to approve or disapprove requests from counties for payment pursuant to this section, but a county may appeal to the Council of State if the Director disapproves a request. The Council of State may direct that any payment authorized pursuant to this section be made from the Contingency and Emergency Fund of the State of North Carolina or from any other available funds. Except as State payments are authorized pursuant to this section, State-owned property is exempt from assessment under this article.

"§ 153-190. *Preliminary resolution; contents.*—Whenever the board of commissioners decides to finance all or part of a proposed project by special assessments, it shall first adopt a preliminary assessment resolution containing the following:

- (1) A statement of intent to undertake the project;
- (2) A general description of the nature and location of the project;

(3) A statement as to the proposed basis for making assessments, which shall include a general description of the boundaries of the area benefited if the basis of assessment is either area or valuation;

(4) A statement as to the percentage of the cost of the work that is to be specially assessed;

(5) A statement as to which, if any, assessments shall be held in abeyance and for how long;

(6) A statement as to the proposed terms of payment of the assessment; and

(7) An order setting a time and place for a public hearing on all matters covered by the preliminary assessment resolution. The hearing shall be not earlier than three weeks and not later than ten weeks from the day on which the preliminary resolution is adopted.

“§ 153-191. *Notice of preliminary resolution.*—At least ten days before the date set for the public hearing, the board of commissioners shall publish a notice that a preliminary assessment resolution has been adopted and that a public hearing on it will be held at a specified time and place. The notice shall describe generally the nature and location of the improvement. In addition, at least ten days before the date set for the hearing, the board shall cause a copy of the preliminary assessment resolution to be mailed by first-class mail to each owner, as shown on the county tax records, of property subject to assessment if the project is undertaken. The person designated to mail these resolutions shall file with the board a certificate stating that they were mailed by first-class mail and on what date. In the absence of fraud, the certificate is conclusive as to compliance with the mailing requirements of this section.

“§ 153-192. *Hearing on preliminary resolution; assessment resolution.*—At the public hearing the board of commissioners shall hear all interested persons who appear with respect to any matter covered by the preliminary assessment resolution. At or after the hearing, the board may adopt a final assessment resolution directing that the project or portions thereof be undertaken. The final assessment resolution shall describe the project in general terms (which may be by reference to projects described in the preliminary resolution) and shall set forth the following:

(1) The basis on which the special assessments will be made, together with a general description of the boundaries of the areas benefited if the basis of assessment is either area or valuation;

(2) The percentage of the cost of the work that is to be specially assessed; and

(3) The terms of payment, including the conditions, if any, under which assessments are to be held in abeyance.

The percentage of cost to be assessed may not be different from the percentage proposed in the preliminary assessment resolution, nor may the project authorized be greater in scope than the project described in that resolution. If the board decides that a different percentage of the cost should be assessed than that proposed in the preliminary assessment resolution, or that the project should be greater in scope than that described in that resolution, it shall adopt and advertise a new preliminary assessment resolution as provided in this article.

“§ 153-193. *Determination of costs.*—When a project is complete, the board of commissioners shall determine the project's total cost. In determining total cost, the board may include construction costs, the cost of necessary legal

services, the amount of interest paid during construction, the cost of rights-of-way, and the cost of publishing and mailing notices and resolutions. The board's determination of the total cost of a project is conclusive.

"§ 153-194. *Preliminary assessment roll; publication.*—When the total cost of a project has been determined, the board of commissioners shall cause a preliminary assessment roll to be prepared. The roll shall contain a brief description of each lot, parcel, or tract of land assessed, the basis for the assessment, the amount assessed against each, the terms of payment, and the name of the owner of each lot, parcel, or tract as far as this can be ascertained from the county tax records. A map of the project on which is shown each lot, parcel, or tract assessed, the basis of its assessment, the amount assessed against it, and the name of its owner as far as this can be ascertained from the county tax records is a sufficient assessment roll.

After the preliminary assessment roll has been completed, the board shall cause the roll to be filed in the clerk's office, where it shall be available for public inspection, and shall set the time and place for a public hearing on the roll. At least ten days before the date set for the hearing, the board shall publish a notice that the preliminary assessment roll has been completed. The notice shall describe the project in general terms, note that the roll in the clerk's office is available for inspection, and state the time and place for the hearing on the roll. In addition, at least ten days before the date set for the hearing, the board shall cause a notice of the hearing to be mailed by first-class mail to each owner of property listed on the roll. The mailed notice shall state the time and place of the hearing, note that the roll in the clerk's office is available for inspection, and state the amount as shown on the roll of the assessment against the property of the owner. The person designated to mail these notices shall file with the board a certificate stating that they were mailed by first-class mail and on what date. In the absence of fraud, the certificate is conclusive as to compliance with the mailing requirements of this section.

"§ 153-195. *Hearing on preliminary assessment roll; revision; confirmation; lien.*—At the public hearing the board of commissioners shall hear all interested persons who appear with respect to the preliminary assessment roll. At or after the hearing, the board shall annul, modify, or confirm the assessments, in whole or in part, either by confirming the preliminary assessments against any lot, parcel, or tract described in the preliminary assessment roll or by canceling, increasing, or reducing the assessments as may be proper in compliance with the basis of assessment. If any property is found to be omitted from the preliminary assessment roll, the board may place it on the roll and make the proper assessment. When the board confirms assessments for a project, the clerk shall enter in the minutes of the board the date, hour, and minute of confirmation. From the time of confirmation, each assessment is a lien on the property assessed of the same nature and to the same extent as the lien for county or city property taxes, under the priorities set out in G.S. 153-200. After the assessment roll is confirmed, the board shall cause a copy of it to be delivered to the county tax collector for collection in the same manner (except as provided in this article) as property taxes.

"§ 153-196. *Publication of notice of confirmation of assessment roll.*—No earlier than 20 days from the date the assessment roll is confirmed, the county tax collector shall publish once a notice that the roll has been confirmed. The notice shall also state that assessments may be paid without interest at any time

before the expiration of 30 days from the date that the notice is published and that if they are not paid within this time, all installments thereof shall bear interest as determined by the board of commissioners.

“§ 153-197. *Appeal to the General Court of Justice.*—If the owner of, or any person having an interest in, a lot, parcel, or tract of land against which an assessment is made is dissatisfied with the amount of the assessment, he may, within ten days after the day the assessment roll is confirmed, file a notice of appeal to the appropriate division of the General Court of Justice. He shall then have 20 days after the day the roll is confirmed to serve on the board of commissioners or the clerk a statement of facts upon which the appeal is based. The appeal shall be tried like other actions at law.

“§ 153-198. *Reassessment.*—When in its judgment an irregularity, omission, error, or lack of jurisdiction has occurred in any proceeding related to a special assessment made by it, the board of commissioners may set aside the assessment and make a reassessment. In that case, the board may include in the total project cost all additional interest paid, or to be paid, as a result of the delay in confirming the assessment. A reassessment proceeding shall, as far as practicable, follow the comparable procedures of an original assessment proceeding. A reassessment has the same force as if it originally had been made properly.

“§ 153-199. *Payment of assessments in full or by installments.*—Within 30 days after the day that notice of confirmation of the assessment roll is published, each owner of assessed property shall pay his assessment in full, unless the board of commissioners has provided that assessments may be paid in annual installments. If payment by installments is permitted, any portion of an assessment not paid within the 30 day period shall be paid in annual installments. The board shall in the assessment resolution determine whether payment may be made by annual installments and set the number of installments, which may not be more than ten. With respect to payment by installment, the board may provide

- (1) That the first installment with interest is due on the date when property taxes are due, and one installment with interest is due on the same date in each successive year until the assessment is paid in full, or
- (2) That the first installment with interest is due 60 days after the date that the assessment roll is confirmed, and one installment with interest is due on that same day in each successive year until the assessment is paid in full.

“§ 153-200. *Enforcement of assessments; interest; foreclosure; limitations.*—(a) Any portion of an assessment that is not paid within 30 days after the day that notice of confirmation of the assessment roll is published shall, until paid, bear interest at a rate to be fixed in the assessment resolution. The maximum rate at which interest may be set is eight percent (8%) per annum.

(b) If an installment of an assessment is not paid on or before the due date, all of the installments remaining unpaid immediately become due, unless the board of commissioners waives acceleration. The board may waive acceleration and permit the property owner to pay all installments in arrears together with interest due thereon and the cost to the county of attempting to obtain payment. If this is done, any remaining installments shall be reinstated so that they fall due as if there had been no default. The board may waive acceleration and

reinstate further installments at any time before foreclosure proceedings have been instituted.

(c) A county may foreclose assessment liens under any procedure provided by law for the foreclosure of property tax liens, except that (i) lien sales and lien sale certificates are not required and (ii) foreclosure may be begun at any time after 30 days after the due date. The county is not entitled to a deficiency judgment in an action to foreclose an assessment lien. The lien of special assessments is inferior to all prior and subsequent liens for State, local, and federal taxes, and superior to all other liens.

(d) No county may maintain an action or proceeding to foreclose any special assessment lien unless the action or proceeding is begun within 10 years from the date that the assessment or the earliest installment thereof included in the action or proceeding became due. Acceleration of installments under subsection (b) of this section does not have the effect of shortening the time within which foreclosure may be begun; in that event the statute of limitations continues to run as to each installment as if acceleration had not occurred.

“§ 153-201. *Authority to hold assessments in abeyance.*—The assessment resolution may provide that assessments made pursuant to this article shall be held in abeyance without interest for any benefited property assessed. Water or sewer assessments may be held in abeyance until improvements on the assessed property are connected to the water or sewer system for which the assessment was made, or until a date certain not more than 10 years from the date of confirmation of the assessment roll, whichever event occurs first. Beach erosion control or flood and hurricane protection assessments may be held in abeyance for not more than 10 years from the date of confirmation of the assessment roll. When the period of abeyance ends, the assessment is payable in accordance with the terms set out in the assessment resolution.

If assessments are to be held in abeyance, the assessment resolution shall classify the property assessed according to general land use, location with respect to the water or sewer system (for water or sewer assessments), or other relevant factors. The resolution shall also provide that the period of abeyance shall be the same for all assessed property in the same class.

Statutes of limitations are suspended during the time that any assessment is held in abeyance without interest.

“§ 153-202. *Assessments on property held by tenancy for life or years contribution.*—(a) Assessments upon real property in the possession or enjoyment of a tenant for life or a tenant for a term of years shall be paid pro rata by the tenant and the remaindermen after the life estate or by the tenant and the owner in fee after the expiration of the tenancy for years according to their respective interests in the land as calculated pursuant to G.S. 37-13.

(b) If a person having an interest in land held by tenancy for life or years pays more than his pro rata share of an assessment against the property, he may maintain an action in the nature of a suit for contribution against any delinquent party to recover from that party his pro rata share of the assessment, with interest thereon from the date of the payment; and in addition, he is subrogated to the right of the county to a lien on the property for the delinquent party's share of the assessment.

“§ 153-203. *Lien in favor of a cotenant or joint owner paying special assessments.*—Any one of several tenants in common or joint tenants (other than co-partners) may pay the whole or any part of a special assessment made against

property held in common or jointly. Any amount so paid that exceeds his share of the assessment and that was not paid through agreement with or on behalf of the other joint owners is a lien in his favor upon the shares of the other joint owners. This lien may be enforced in a proceeding for actual partition, a proceeding for partition and sale, or by any other appropriate judicial proceeding. This lien is not effective against an innocent purchaser for value until notice of the lien is filed in the office of the clerk of superior court in the county in which the land lies and indexed and docketed in the same manner as other liens required by law to be filed in that clerk's office.

“§ 153-204. *Apportionment of assessments.*—If a special assessment has been made against property that has been or is about to be subdivided, the board of commissioners may, with the consent of the owner of the property, (i) apportion the assessment among the lots or tracts within the subdivision, or (ii) release certain lots or tracts from the assessment if, in the board's opinion, the released lots or tracts are not benefited by the project, or (iii) both. Upon an apportionment each of the lots or tracts in the subdivision is released from the lien of the original assessment, and the portion of the original assessment assessed against each lot or tract has, as to that lot or tract, the same force as the original assessment. At the time the board makes an apportionment under this section, the clerk shall enter on the minutes of the board the date, hour, and minute of apportionment and a statement to the effect that the apportionment is made with the consent of the owners of the property affected, which entry is conclusive in the absence of fraud. The apportionment is effective at the time shown in the minute book. Apportionments may include past due installments with interest, as well as installments not then due; and any installment not then due shall fall due at the same date as it would have under the original assessment.

“Law Enforcement and Confinement Facilities

“Part 1. Law Enforcement

“§ 153-211. *Training and development programs for law enforcement.*—A county may plan and execute training and development programs for law enforcement agencies, and for that purpose may:

- (2) accept, receive, and disburse funds, grants, and services;
- (3) pursuant to the procedures and provisions of G.S. Chapter 160A, Article 20, Part 1, create joint agencies to act for and on behalf of the participating counties and cities;
- (4) apply for, receive, administer, and expend federal grant funds;
- (5) appropriate funds not otherwise limited as to use by law.

“§ 153-212. *Cooperation on law enforcement matters.*—A county may cooperate with other local governments in law enforcement matters, as permitted by G.S. 160A-283 (joint auxiliary police), by 160A-288 (emergency aid), and by G.S. Chapter 160A, Article 20, Part 1.

“Part 2. Local Confinement Facilities

“§ 153-216. *Legislative policy.*—The policy of the General Assembly with respect to local confinement facilities is:

- (1) Local confinement facilities should provide secure custody of persons confined therein in order to protect the community and should be operated so as

to protect the health and welfare of prisoners and provide for their humane treatment.

(2) Minimum statewide standards should be provided to guide and assist local governments in planning, constructing, and maintaining confinement facilities and in developing programs that provide for humane treatment of prisoners and contribute to the rehabilitation of offenders.

(3) The State should provide services to local governments to help improve the quality of administration in local confinement facilities. These services should include inspection, consultation, technical assistance, and other appropriate services.

(4) Adequate training of the personnel of local confinement facilities is essential to improvement of the quality of administration of those facilities. The State should provide this training and the training should be required as a condition of employment in a local confinement facility.

“§ 153-217. *Definitions.*—Unless otherwise clearly required by the context, the words and phrases defined in this section have the meanings indicated when used in this part:

(1) ‘Board’ means the State Board of Social Services.

(2) ‘Commissioner’ means the State Commissioner of Social Services.

(3) ‘Department’ means the State Department of Social Services.

(4) ‘Governing body’ means the governing body of a county or city or the policy-making body for a district or regional confinement facility.

“§ 153-219. *District confinement facilities.*—(a) Two or more units of local government may enter into and carry out an agreement to establish, finance, and operate a district confinement facility. The units may construct such a facility or may designate an existing facility as a district confinement facility. In addition, two or more units of local government may enter into and carry out agreements under which one unit may use the local confinement facility owned and operated by another. In exercising the powers granted by this section, the units shall proceed according to the procedures and provisions of G.S. Chapter 160A, Article 20, Part 1.

(b) If a district confinement facility is established, the units involved shall provide for a jail administrator for the facility. The administrator need not be the sheriff or any other official of a participating unit. The administrator and the other custodial personnel of a district confinement facility have the authority of law enforcement officers for the purposes of receiving, maintaining custody of, and transporting prisoners.

(c) If a district confinement facility is established, or if one unit contracts to use the local confinement facility of another, the law enforcement officers of the

contracting units and the custodial personnel of the facility may transport prisoners to and from the facility.

(d) The Department shall provide technical and other assistance to units wishing to exercise any of the powers granted by this section.

“§ 153-220. *Jail and detention services.*—The Board has policy responsibility for providing and coordinating State services to local government with respect to local confinement facilities. The Department shall:

(1) Consult with and provide technical assistance to units of local government with respect to local confinement facilities.

(5) Provide for training of personnel of local confinement facilities.

(6) Perform any other duties that may be necessary to carry out the State's responsibilities concerning local confinement facilities.

“§ 153-221. *Minimum standards.*—(a) The Commissioner shall develop and publish minimum standards for the operation of local confinement facilities and may from time to time develop and publish amendments to the standards. The standards shall be developed with a view to providing secure custody of prisoners and to protecting their health and welfare and providing for their humane treatment. The standards shall provide for:

(1) Secure and safe physical facilities;

(2) Jail design;

(3) Adequacy of space per prisoner;

(4) Heat, light, and ventilation;

(5) Supervision of prisoners;

(6) Personal hygiene and comfort of prisoners;

(7) Medical care for prisoners;

(8) Sanitation;

(9) Food allowances, food preparation, and food handling;

(10) Any other provisions that may be necessary for the safekeeping, privacy, care, protection, and welfare of prisoners.

(b) In developing the standards and any amendments thereto, the Commissioner shall consult with organizations representing local government and local law enforcement, including the North Carolina Association of County Commissioners, the North Carolina League of Municipalities, the North Carolina Sheriffs' Association, and the North Carolina Police Executives' Association. The Commissioner shall also consult with interested State departments and agencies, including the State Department of Social Rehabilitation and Control, the State Board of Health, the State Department of Mental Health, and the Department of Insurance.

(c) Before the standards or any amendments thereto may become effective, they must be approved by the Board and the Governor. Upon becoming effective, they have the force and effect of law.

“§ 153-222. *Inspections of local confinement facilities.*—Department personnel shall visit and inspect each local confinement facility at least semiannually. The purpose of the inspections is to investigate the conditions of confinement and treatment of prisoners and to determine whether the facility meets the minimum standards published pursuant to G.S. 153-221. The inspector shall make a written report of each inspection and submit it within 30 days after the day the inspection is completed to the governing body and other local officials responsible for the facility. The report shall specify each way in which the facility does not meet the minimum standards. The governing body shall consider the report at its first regular meeting after receipt of the report and shall promptly initiate any action necessary to bring the facility into conformity with the standards.

“§ 153-223. *Enforcement of minimum standards.*—If an inspection conducted pursuant to G.S. 153-222 discloses that a local confinement facility does not meet the minimum standards published pursuant to G.S. 153-221 and, in addition, if the Commissioner determines that conditions in the facility jeopardize the safe custody, safety, health, or welfare of persons confined in the facility, the Commissioner may order corrective action or close the facility, as provided in this section:

(1) The Commissioner shall give notice of his determination to the governing body and each other local official responsible for the facility. The Commissioner shall also send a copy of this notice, along with a copy of the inspector's report, to the senior regular resident superior court judge for the judicial district in which the facility is located. Upon receipt of the Commissioner's notice, the governing body shall call a public hearing to consider the report. The hearing shall be held within 20 days after the day the Commissioner's notice is received. The inspector shall appear at this hearing to advise and consult with the governing body concerning any corrective action necessary to bring the facility into conformity with the standards.

(2) The governing body shall, within 30 days after the day the Commissioner's notice is received, initiate appropriate corrective action or close the facility. The corrective action must be completed within a reasonable time.

(3) If the governing body does not within the 30-day period either initiate corrective action or close the facility, or does not complete the action within a reasonable time, the Commissioner may order that the facility be closed. The Commissioner shall by registered mail give notice of his order of closure to the governing body and each other local official responsible for the facility and to the senior regular resident superior court judge. The order shall provide for its effective date.

(4) The governing body may appeal an order of the Commissioner to the senior regular resident superior court judge. The governing body shall initiate the appeal by giving by registered mail to the judge and to the Commissioner notice of its intention to appeal. The notice must be given within 15 days after the day the Commissioner's order is received. If notice is not given within the 15-day period, the right to appeal is terminated.

(5) The senior regular resident superior court judge shall hear the appeal. He shall cause notice of the date, time, and place of the hearing to be given to each interested party, including the Commissioner, the governing body, and each other local official involved. The judge shall conduct the hearing without a jury. The Commissioner, the governing body, and each other local official may give

any evidence the judge finds appropriate. The issue before the court shall be whether the facility continues to jeopardize the safe custody, safety, health, or welfare of persons confined therein. The court may affirm, modify, or reverse the Commissioner's order.

“§ 153-224. *Supervision of local confinement facilities.*—(a) No person may be confined in a local confinement facility unless custodial personnel are present and available to provide continuous supervision in order that custody will be secure and that, in event of emergency, such as fire, illness, assaults by other prisoners, or otherwise, the prisoners can be protected. These personnel shall supervise prisoners closely enough to maintain safe custody and control and to be at all times informed of the prisoners' general health and emergency medical needs.

(b) In a medical emergency, the custodial personnel shall secure emergency medical care from a licensed physician according to the unit's plan for medical care. If a physician designated in the plan is not available, the personnel shall secure medical services from any licensed physician who is available. The unit operating the facility shall pay the cost of emergency medical services.

(c) If a person violates any provision of this section, he is guilty of a misdemeanor.

“§ 153-225. *Medical care of prisoners.*—(a) Each unit that operates a local confinement facility shall develop a plan for providing medical care for prisoners in the facility. The plan

- (1) shall be designed to protect the health and welfare of the prisoners and to avoid the spread of contagious disease;
- (2) shall provide for medical supervision of prisoners and emergency medical care for prisoners to the extent necessary for their health and welfare;
- (3) shall provide for compliance with the requirements of G.S. 130-97 and G.S. 130-121.

The unit shall develop the plan in consultation with appropriate local officials and organizations, including the sheriff, the county physician, the local or district health director, and the local medical society. The plan must be approved by the local or district health director, upon a determination that the plan is adequate to protect the health and welfare of the prisoners, and must be adopted by the governing body.

(b) If a prisoner in a local confinement facility dies, the medical examiner and the coroner shall be notified immediately. Within five days after the day of the death, the administrator of the facility shall make a written report to the local or district health director and to the Commissioner. The report shall be made on forms provided by the State Board of Health, and the Board of Health shall develop and distribute these forms.

(c) If a person violates any provision of this section (including the requirements regarding G.S. 130-97 and 130-121), he is guilty of a misdemeanor.

“§ 153-226. *Sanitation and food.*—(a) The State Board of Health shall adopt rules and regulations governing the sanitation of local confinement facilities, including the kitchens and other places where food is prepared for prisoners. The rules and regulations shall cover such matters as cleanliness of floors, walls, ceilings, storage spaces, utensils, and other facilities; adequacy of lighting, ventilation, water, lavatory facilities, bedding, food protection facilities,

treatment of eating and drinking utensils, and waste disposal; methods of food preparation, handling, storage, and serving; adequacy of diet; and any other item necessary to the health of the prisoners or the public.

(b) The State Board of Health shall prepare a score sheet to be used by sanitarians of local or district health departments in inspecting local confinement facilities. The sanitarians shall inspect local confinement facilities as often as may be required by the State Board of Health. If an inspector of the Department finds conditions that reflect hazards or deficiencies in the sanitation or food service of a local confinement facility, he shall immediately notify the local or district health department. The health department shall promptly cause a sanitarian to inspect the facility. After making his inspection, the sanitarian shall forward a copy of his report to the Department and to the unit operating the facility, on forms prepared by the State Board of Health. The report shall indicate whether the facility and its kitchen or other place for preparing food is approved or disapproved for public health purposes. If the facility is disapproved, the situation shall be rectified according to the procedures of G.S. 153-223.

“§ 153-227. *Training of personnel.*—(a) The Commissioner shall provide for a training program for supervisory and administrative personnel of local confinement facilities. These personnel include the sheriff and other elected or appointed officials. The Commissioner shall develop the training program in consultation with the State Department of Social Rehabilitation and Control, the North Carolina Sheriffs' Association, the North Carolina Association of County Commissioners, the North Carolina League of Municipalities, and the North Carolina Police Executives' Association. To the extent feasible, the training should be provided through the existing educational resources of the State.

(b) Except on a temporary or probationary basis, no person (including elected officials) may serve as jailer or administrator of a local confinement facility unless he has successfully completed an approved program of training established pursuant to subsection (a) of this section. No person may serve on a temporary or probationary basis for longer than one year.

“§ 153-228. *Separation of sexes.*—Male and female prisoners shall be confined in separate facilities or in separate quarters in local confinement facilities.

“§ 153-233. *Fire fighting and prevention services.*—A county may establish, organize, equip, support, and maintain a fire department; may prescribe the duties of the fire department; may provide assistance to incorporated volunteer fire departments; may contract for fire fighting or prevention services with one or more counties, cities, or other units of local government or with an agency of the State government; and may for these purposes appropriate funds not otherwise limited as to use by law.

“§ 153-234. *Fire marshal.*—A county may appoint a fire marshal and employ persons as his assistants. A county may also impose any duty that might be imposed on a fire marshal on any other officer or employee of the county. The board of commissioners shall set the duties of the fire marshal, which may include but are not limited to:

(1) Advising the board on improvements in the fire fighting or fire prevention activities under the county's supervision or control.

(2) Coordinating fire fighting and training activities under the county's supervision or control.

(3) Coordinating fire prevention activities under the county's supervision or control.

(4) Assisting incorporated volunteer fire departments in developing and improving their fire fighting or fire prevention capabilities.

(5) Making fire prevention inspections, including the periodic inspections and reports of school buildings required by G.S. Chapter 115 and the inspections of day-care facilities required by G.S. Chapter 110. A fire marshal shall not make electrical inspections unless he is qualified to do so under G.S. 153-351.

"§ 153-235. *Fire prevention codes.*—A county may by ordinance adopt a fire prevention code, to be effective in all areas of the county not governed by a city fire prevention code. Any published technical code or any standard or regulation promulgated by a public agency may be adopted in the ordinance by reference, and a technical code or standard or regulation so adopted has the force of law in each area of the county in which the ordinance is effective. An official copy of a technical code or standard or regulation adopted by reference shall be available for public inspection in the clerk's office. Before a fire prevention code may be adopted, it must be submitted to and approved by the State Building Code Council.

A county that adopts a fire prevention code shall appoint one or more fire prevention inspectors or designate one or more other county officers or employees to perform the duties of fire prevention inspector. The board of commissioners shall, subject to the approval of the State Building Code Council, set the duties of any person appointed or designated as a fire prevention inspector. A fire prevention inspector shall not make electrical inspections unless he is qualified to do so under G.S. 153-351.

"Article 12

"Roads and Bridges

"§ 153-239. *Public road defined.*—In this article 'public road' or 'road' mean any road, street, highway, thoroughfare, or other way of passage that has been irrevocably dedicated to the public or in which the public has acquired rights by prescription, without regard to whether it is open for travel.

"§ 153-240. *Naming roads and assigning street numbers in unincorporated areas.*—A county may by ordinance name or rename any public road within the county and not within a city, and may assign or reassign street numbers for use on such a road. In naming or renaming a public road, a county may not

- (1) change the name, if any, given to the road by the State Highway Commission, unless the Commission agrees;
- (2) change the number assigned to the road by the State Highway Commission, but may give the road a name in addition to its number; or
- (3) give the road a name that is deceptively similar to the name of any other public road in the vicinity.

A county shall not name or rename a road or assign or reassign street numbers on a road until it has held a public hearing on the matter. At least ten days before the day of the hearing, the board of commissioners shall cause notice of the time, place, and subject matter of the hearing to be prominently posted in at least three places along the road involved. After naming or renaming a public road, or assigning or reassigning street numbers on a public road, a county shall cause notice of its action to be given to the local postmaster with jurisdiction

over the road, to the State Highway Commission, and to any city within five miles of the road.

This section does not repeal or modify Chapter 945 of the Session Laws of 1953, which pertains to naming streets in Kannapolis.

“§ 153-241. *Closing public roads or easements.*—A county may permanently close any public road or any easement within the county and not within a city, except public roads or easements for public roads under the control and supervision of the State Highway Commission. The board of commissioners shall first adopt a resolution declaring its intent to close the public road or easement and calling a public hearing on the question. The board shall cause the resolution to be published once a week for four successive weeks before the hearing, a copy of the resolution to be sent by registered or certified mail to each owner as shown on the county tax records of property adjoining the public road or easement who did not join in the request to have the road or easement closed, and a notice of the closing and public hearing to be prominently posted in at least two places along the road or easement. At the hearing the board shall hear all interested persons who appear with respect to whether the closing would be detrimental to the public interest or to any individual property rights. If, after the hearing, the board of commissioners is satisfied that closing the public road or easement is not contrary to the public interest and (in the case of a road) that no individual owning property in the vicinity of the road or in the subdivision in which it is located would thereby be deprived of reasonable means of ingress and egress to his property, the board may adopt an order closing the road or easement. A certified copy of the order (or judgment of the court) shall be filed in the office of the register of deeds of the county.

Any person aggrieved by the closing of a public road or an easement may appeal the board of commissioners' order to the appropriate division of the General Court of Justice within 30 days after the day the order is adopted. The court shall hear the matter de novo and has jurisdiction to try the issues arising and to order the road or easement closed upon proper findings of fact by the trier of fact.

No cause of action founded upon the invalidity of a proceeding taken in closing a public road or an easement may be asserted except in an action or proceeding begun within thirty days after the day the order is adopted.

Upon the closing of a public road or an easement pursuant to this section, all right, title, and interest in the right-of-way is vested in those persons owning lots or parcels of land adjacent to the road or easement, and the title of each adjoining landowner, for the width of his abutting land, extends to the center line of the public road or easement. However, the right, title or interest vested in an adjoining landowner by this paragraph remains subject to any public utility use or facility located on, over, or under the road or easement immediately before its closing, until the landowner or any successor thereto pays to the utility involved the reasonable cost of removing and relocating the facility.

“§ 153-242. *Regulation or prohibition of fishing from bridges.*—A county may by ordinance regulate or prohibit fishing from any bridge within the county and not within a city. In addition, the governing board of a city may by resolution permit a county to regulate or prohibit fishing from any bridge within the city. The city may by resolution withdraw its permission to the county ordinance. If it does so, the city shall give written notice to the county of its withdrawal of permission; 30 days after the day the county receives this notice the county

ordinance ceases to be applicable within the city. An ordinance adopted pursuant to this section shall provide for signs to be posted on each bridge affected, summarizing the regulation or prohibition pertaining to that bridge.

No person may fish from the drawspan of a regularly attended bridge, and no county may permit any person to do so.

The authority granted by this section is subject to the authority of the State Highway Commission to prohibit fishing from any bridge on the State Highway System.

“§ 153-243. *Authorizing bridges over navigable waters.*—A county may grant to persons who between them own or occupy real property on both sides of a body of navigable water lying wholly within the county the right to construct and maintain across the body of water a bridge connecting the property. The board of commissioners shall first adopt a resolution declaring its intent to grant the right and calling a public hearing on the question. The board shall cause the resolution to be published once a week for four successive weeks before the hearing. At the hearing the board shall hear all interested persons who appear with respect to whether the grant would be in the public interest. If, after the hearing, the board finds that the grant is not contrary to the public interest, it may adopt an order granting the right to construct the bridge. The board may place reasonable terms and conditions, including time limitations, on the grant.

A person aggrieved by a grant may appeal the board of commissioners' order to the appropriate division of the General Court of Justice within thirty days after the day it is adopted. The court shall hear the matter de novo and has jurisdiction to try the issues arising and to grant the right to construct the bridge.

Before construction may be commenced on any bridge authorized pursuant to this section, the bridge's location and plans must be submitted to and approved by the Chief of Engineers of the United States Army and the Secretary of the Army.

“Article 13

“Health and Social Services

“Part 1. Health Services

“§ 153-247. *Provision for public health and mental health.*—A county may provide for and regulate the public health pursuant to G.S. Chapter 130 and any other law authorizing local public health activities and may provide mental health programs pursuant to G.S. Chapter 122.

“§ 153-248. *Health-related appropriations.*—(a) A county may appropriate revenues not otherwise limited as to use by law:

- (1) To a licensed facility for the mentally retarded, whether publicly or privately owned, to assist in maintaining and developing facilities and treatment, if the board of commissioners determines that the care offered by the facility is available to residents of the county. The facility need not be located within the county.
- (2) To a sheltered workshop or other private, nonprofit, charitable organization offering work and training activities to the physically or mentally handicapped, and may otherwise assist such an organization.
- (3) To an orthopedic hospital, whether publicly or privately owned, to assist in maintaining and developing facilities and treatment, if the board of commissioners determines that the care offered by the hospital

is available to residents of the county. The hospital need not be located within the county.

(b) The ordinance making the appropriation shall state specifically what the appropriation is to be used for, and the board of commissioners shall require that the recipient account for the appropriation at the close of the fiscal year.

“§ 153-249. *Hospital services.*—A county may provide and support hospital services pursuant to G.S. Chapter 131.

“§ 153-250. *Ambulance services.*—(a) A county may by ordinance franchise ambulance services provided in the county to the public at large, whether the service is based inside or outside the county. The ordinance may:

- (1) Grant franchises to ambulance operators on terms set by the board of commissioners;
- (2) Make it unlawful to provide ambulance services or to operate an ambulance in the county without such a franchise;
- (3) Limit the number of ambulances that may be operated within the county;
- (4) Limit the number of ambulances that may be operated by each franchised operator;
- (5) Determine the areas of the county that may be served by each franchised operator;
- (6) Establish and from time to time revise a schedule of rates, fees, and charges that may be charged by franchised operators;
- (7) Set minimum limits of liability insurance for each franchised operator;
- (8) Establish other necessary regulations consistent with and supplementary to any statute or any State Board of Health regulation relating to ambulance services.

Before it may adopt an ordinance pursuant to this subsection, the board of commissioners must first hold a public hearing on the need for ambulance services. The board shall cause notice of the hearing to be published once a week for two successive weeks before the hearing. After the hearing the board may adopt an ordinance if it finds that to do so is necessary to assure the provision of adequate and continuing ambulance service and to preserve, protect, and promote the public health, safety, and welfare.

If a person, firm, or corporation is providing ambulance services in a county or any portion thereof on the effective date of an ordinance adopted pursuant to this subsection, the person, firm, or corporation is entitled to a franchise to continue to serve that part of the county in which the service is being provided. The board of commissioners shall determine whether the person, firm, or corporation so entitled to a franchise is in compliance with G.S. Chapter 130, Article 26; and if that is the case, the board shall grant the franchise.

(b) In lieu of or in addition to adopting an ordinance pursuant to subsection (a) of this section, a county may operate or contract for ambulance services in all or a portion of the county. A county may appropriate for ambulance services any revenues not otherwise limited as to use by law, and may establish and from time to time revise schedules of rates, fees, charges, and penalties for the ambulance services. A county may operate its ambulance services as a line department or may create an ambulance commission and vest in it authority to operate the ambulance services.

(c) A city may adopt an ordinance pursuant to and under the procedures of subsection (a) of this section and may operate or contract for ambulance services

pursuant to subsection (b) of this section if (i) the county in which the city is located has adopted a resolution authorizing the city to do so or (ii) the county has not, within 180 days after being requested by the city to do so, provided for ambulance services within the city pursuant to this section. Any action taken by a city pursuant to this subsection shall apply only within the corporate limits of the city.

If a city is exercising a power granted by this subsection, the county in which the city is located may thereafter take action to provide for ambulance service within the city, either under subsection (a) or subsection (b) of this section, only after having given to the city 180 days notice of the county's intention to take action. At the end of the 180 days, the city's authority under this subsection is pre-empted by the county.

(d) A county or a city may contract with a franchised ambulance operator or with another county or city for ambulance service to be provided upon the call of a department or agency of the county or city. A county may contract with a franchised ambulance operator for transportation of indigents or persons certified by the county department of social services to be public assistance recipients.

(e) Each county or city operating ambulance services is subject to the provisions of G.S. Chapter 130, Article 26 ("Regulation of Ambulance Services").

"Part 2. Social Service Provisions

"§ 153-255. *Authority to provide social service programs.*—Each county shall provide social service programs pursuant to G.S. Chapter 108 and G.S. Chapter 111 and may otherwise undertake, sponsor, organize, engage in, and support other social service programs intended to further the health, welfare, education, safety, comfort, and convenience of its citizens.

"§ 153-256. *County home.*—A county may establish, erect, acquire, lease as lessor or lessee, equip, support, operate, and maintain a county home for aged and infirm persons and may appropriate funds for these purposes.

The superintendent of each county home shall make an annual report on its operation to the board of commissioners of the county operating the home and to the State Department of Social Services. The report shall contain any information that the board of commissioners and the State Department of Social Services, respectively, require, and the Department may provide forms for this report.

"§ 153-257. *Legal residence for social service purposes.*—(a) Legal residence in a county determines which county is responsible (i) for financial support of a needy person who meets the eligibility requirements for a public assistance or medical care program offered by the county or (ii) for other social services required by the person.

Legal residence in a county is determined as follows:

- (1) Except as modified below, a person has legal residence in the county in which he resides.
- (2) If a person is in a hospital, mental institution, nursing home, boarding home, confinement facility, or similar institution or facility, he does not, solely because of that fact, have legal residence in the county in which the institution or facility is located.
- (3) A minor has the legal residence of the parent or other relative with whom he resides. If the minor does not reside with a parent or relative

and is not in a foster home, hospital, mental institution, nursing home, boarding home, educational institution, confinement facility, or similar institution or facility, he has the legal residence of the person with whom he resides. Any other minor has the legal residence of his mother, or if her residence is not known then the legal residence of his father; if his mother's or father's residence is not known, the minor is a legal resident of the county in which he is found.

(b) A legal residence continues until a new one is acquired, either within or outside this State. When a new legal residence is acquired, all former legal residences terminate.

(c) This section is intended to replace the law defining 'legal settlement.' Therefore any general law or local act that refers to 'legal settlement' is deemed to refer to this section and the rules contained herein.

(b) A county may collect delinquent accounts by any remedy provided by law for collecting and enforcing private debts. A county may also discontinue service to a customer whose account remains delinquent for more than 10 days. If a delinquent customer is not the owner of the premises to which the services are delivered, the payment of the delinquent account may not be required before providing services at the request of a new and different tenant or occupant of the premises. If water or sewer services are discontinued for delinquency, it is unlawful for a person other than a duly authorized agent or employee of the county to reconnect the premises to the water or sewer system.

“Part 2. Subdivision Regulation

“§ 153-330. *Subdivision regulation.*—A county may by ordinance regulate the subdivision of land within its territorial jurisdiction. If a county, pursuant to G.S. 153-342, has adopted a zoning ordinance that applies only to one or more designated portions of its territorial jurisdiction, it may adopt subdivision regulations that apply only within the areas so zoned and need not regulate the subdivision of land in the rest of its jurisdiction.

“§ 153-331. *Contents and requirements of ordinance.*—A subdivision control ordinance may provide for the orderly growth and development of the county; for the coordination of streets and highways within proposed subdivisions with existing or planned streets and highways and with other public facilities; for the dedication or reservation of recreation areas serving residents of the immediate neighborhood within the subdivision and of rights-of-way or easements for street and utility purposes; and for the distribution of population and traffic in a manner that will avoid congestion and overcrowding and will create conditions essential to public health, safety, and the general welfare. The ordinance may include requirements that the final plat show sufficient data to determine readily and reproduce accurately on the ground the location, bearing, and length of every street and alley line, lot line, easement boundary line, and other property boundaries, including the radius and other data for curved property lines, to an appropriate accuracy and in conformity with good surveying practice.

The ordinance may provide for the more orderly development of subdivisions by requiring the construction of community service facilities in accordance with county policies and standards, and, to assure compliance with these requirements, the ordinance may provide for the posting of bond or any other method that will offer guarantee of compliance.

The ordinance may provide for the reservation of school sites in accordance with comprehensive land use plans approved by the board of commissioners or

the planning agency. For the authorization to reserve school sites to be effective, the board of commissioners or planning agency, before approving a comprehensive land use plan, shall determine jointly with the board of education with jurisdiction over the area the specific location and size of each school site to be reserved, and this information shall appear in the plan. Whenever a subdivision that includes part or all of a school site to be reserved under the plan is submitted for approval, the board of commissioners or the planning agency shall immediately notify the board of education. That board shall promptly decide whether it still wishes the site to be reserved and shall notify the board of commissioners or planning agency of its decision. If the board of education does not wish the site to be reserved, no site may be reserved. If the board of education does wish the site to be reserved, the subdivision may not be approved without the reservation. The board of education must acquire the site within 18 months after the date the site is reserved, either by purchase or by exercise of the power of eminent domain. If the board of education has not purchased the site or begun proceedings to condemn the site within the 18 months, the subdivider may treat the land as freed of the reservation.

The ordinance may require that a plat be prepared, approved, and recorded pursuant to its provisions whenever a subdivision of land takes place.

“§ 153-332. *Ordinance to contain procedure for plat approval; approval prerequisite to plat recordation; statement by owner.*—A subdivision ordinance adopted pursuant to this part shall contain provisions setting forth the procedures to be followed in granting or denying approval of a subdivision plat before its registration.

The ordinance shall provide that the following agencies be given an opportunity to make recommendations concerning an individual subdivision plat before the plat is approved:

- (1) The district highway engineer as to proposed streets, highways, and drainage systems;
- (2) The county health director as to proposed water or sewerage systems;
- (3) Any other agency or official designated by the board of commissioners.

The ordinance may provide that final approval of each individual subdivision plat is to be given by:

- (1) The board of commissioners,
- (2) The board of commissioners on recommendation of a planning agency,
- or
- (3) A designated planning agency.

From the time that a subdivision ordinance is filed with the register of deeds of the county, no subdivision plat of land within the county's jurisdiction may be filed or recorded until it has been submitted to and approved by the appropriate board or agency, as specified in the subdivision ordinance, and until this approval is entered in writing on the face of the plat by the chairman or head of the board or agency. The register of deeds may not file or record a plat of a subdivision of land located within the territorial jurisdiction of the county that has not been approved in accordance with these provisions, and the clerk of superior court may not order or direct the recording of a plat if the recording would be in conflict with this section. The owner of land shown on a subdivision plat submitted for recording, or his authorized agent, shall sign a statement on the plat stating whether any land shown thereon is within the subdivision-regulation jurisdiction of the county.

“§ 153-333. *Effect of plat approval on dedications.*—The approval of a plat does not constitute or effect the acceptance by the county or the public of the dedication of any street or other ground, public utility line, or other public facility shown on the plat and shall not be construed to do so.

“§ 153-334. *Penalties for transferring lots in unapproved subdivisions.*—If a person who is the owner or the agent of the owner of any land located within the territorial jurisdiction of a county that has adopted a subdivision-regulation ordinance subdivides his land in violation of the ordinance or transfers or sells land by reference to, exhibition of, or any other use of a plat showing a subdivision of the land before the plat has been properly approved under the ordinance and recorded in the office of the appropriate register of deeds, he is guilty of a misdemeanor. The description by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring land does not exempt the transaction from this penalty. The county may enjoin illegal subdivision, transfer, or sale of land by action for injunction.

“§ 153-335. *Subdivision defined.*—For purposes of this part, ‘subdivision’ means all divisions of a tract or parcel of land into two or more lots, building sites, or other divisions for the purpose of sale or building development (whether immediate or future) and includes all division of land involving the dedication of a new street or a change in existing streets; however, the following is not included within this definition and is not subject to any regulations enacted pursuant to this part:

(1) The combination or recombination of portions of previously platted lots if the total number of lots is not increased and the resultant lots are equal to or exceed the standards of the county as shown in its subdivision regulations;

(2) The division of land into parcels greater than 10 acres if no street right-of-way dedication is involved;

(3) The public acquisition by purchase of strips of land for widening or opening streets; and

(4) The division of a tract in single ownership the entire area of which is no greater than two acres into not more than three lots, if no street right-of-way dedication is involved and if the resultant lots are equal to or exceed the standards of the county as shown by its subdivision regulations.

“Part 3. Zoning

“§ 153-340. *Grant of power.*—For the purpose of promoting health, safety, morals, or the general welfare, a county may regulate and restrict

(1) the height, number of stories, and size of buildings and other structures,

(2) the percentage of lot that may be occupied,

(3) the size of yards, courts, and other open spaces,

(4) the density of population, and

(5) the location and use of buildings, structures, and land for trade, industry, residence, or other purposes, except farming.

These regulations may not affect bona fide farms, but any use of farm property for nonfarm purposes is subject to the regulations. The regulations may provide that a board of adjustment may determine and vary their application in harmony with their general purpose and intent and in accordance with general or specific rules therein contained. The regulations may also provide that the board of adjustment or the board of commissioners may issue special use permits or conditional use permits in the classes of cases or situations and in accordance with the principles, conditions, safeguards, and procedures specified therein and

may impose reasonable and appropriate conditions and safeguards upon these permits. Where appropriate, the conditions may include requirements that street and utility rights-of-way be dedicated to the public and that recreational space be provided.

“§ 153-341. *Purposes in view.*—Zoning regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic, and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; and to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. The regulations shall be made with reasonable consideration as to, among other things, the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the county. In addition, the regulations shall be made with reasonable consideration to expansion and development of any cities within the county, so as to provide for their orderly growth and development.

“§ 153-342. *Districts; zoning less than entire jurisdiction.*—A county may divide its territorial jurisdiction into districts of any number, shape, and area that it may consider best suited to carry out the purposes of this part. Within these districts a county may regulate and restrict the erection, construction, reconstruction, alteration, repair, or use of buildings, structures, or land. All regulations shall be uniform for each class or kind of building throughout each district, but the regulations in one district may differ from those in other districts.

A county may determine that the public interest does not require that the entire territorial jurisdiction of the county be zoned and may designate one or more portions of that jurisdiction as a zoning area or areas. A zoning area must originally contain at least 640 acres and at least 10 separate tracts of land in separate ownership and may thereafter be expanded by the addition of any amount of territory. A zoning area may be regulated in the same manner as if the entire county were zoned, and the remainder of the county need not be regulated.

“§ 153-343. *Method of procedure.*—The board of commissioners shall, in accordance with the provisions of this article, provide for the manner in which zoning regulations and restrictions and the boundaries of zoning districts shall be determined, established, and enforced, and from time to time amended, supplemented, or changed.

“§ 153-344. *Planning agency; zoning plan; certification to board of commissioners; amendments.*—To exercise the powers conferred by this part, a county shall create or designate a planning agency under the provisions of this article or of a local act. The planning agency shall prepare a zoning plan, including both the full text of a zoning ordinance and maps showing proposed district boundaries. The planning agency may hold public hearings in the course of preparing the plan. Upon completion, the planning agency shall certify the plan to the board of commissioners. The board of commissioners may not hold the public hearing required by G.S. 153-323 or take action until it has received a certified plan from the planning agency. Following its required public hearing, the board of commissioners may refer the plan back to the planning agency for any further recommendations that the agency may wish to make prior to final

action by the board in adopting, modifying and adopting, or rejecting the ordinance.

Zoning regulations and restrictions and zone boundaries may from time to time be amended, supplemented, changed, modified, or repealed. Whenever territory is added to an existing designated zoning area, it shall be treated as an amendment to the zoning ordinance for that area. Before an amendment may be adopted, it must be referred to the planning agency for the agency's recommendation. The agency shall be given at least 30 days in which to make a recommendation. The board of commissioners is not bound by the recommendations, if any, of the planning agency.

“§ 153-345. *Board of adjustment.*—(a) The board of commissioners may provide for the appointment and compensation, if any, of a board of adjustment consisting of at least five members, each to be appointed for three years. In appointing the original members of the board, or in filling vacancies caused by the expiration of the terms of existing members, the board of commissioners may appoint some members for less than three years to the end that thereafter the terms of all members do not expire at the same time. The board of commissioners may provide for the appointment and compensation, if any, of alternate members to serve on the board in the absence of any regular member. Alternate members shall be appointed for the same term, at the same time, and in the same manner as regular members. Each alternate member, while attending any regular or special meeting of the board and serving in the absence of a regular member, has and may exercise all the powers and duties of a regular member. If the board of commissioners does not zone the entire territorial jurisdiction of the county, each designated zoning area shall have at least one resident as a member of the board of adjustment.

A county may designate a planning agency to perform the duties of a board of adjustment in addition to its other duties.

(b) The board of adjustment shall hear and decide appeals from and review any order, requirement, decision, or determination made by an administrative official charged with enforcing an ordinance adopted pursuant to this part. Any person aggrieved or any officer, department, board, or bureau of the county may take an appeal. Appeals shall be taken within times prescribed by the board of adjustment by general rule, by filing with the officer from whom the appeal is taken and with the board of adjustment a notice of appeal, specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the board of adjustment, after notice of appeal has been filed with him, that because of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In that case proceedings may not be stayed except by a restraining order, which may be granted by the board of adjustment or by a court of record on application, on notice to the officer from whom the appeal is taken and on due cause shown. The board of adjustment shall fix a reasonable time for the hearing of the appeal, give due notice of the appeal to the parties, and decide the appeal within a reasonable time. The board of adjustment may reverse or affirm, in whole or in part, or may modify the order, requirement, decision, or determination appealed from, and shall make any order, requirement, decision, or determination that in its opinion ought to

be made in the circumstances. To this end the board has all the powers of the officer from whom the appeal is taken.

(c) The zoning ordinance may provide that the board of adjustment may permit special exceptions to the zoning regulations in classes of cases or situations and in accordance with the principles, conditions, safeguards, and procedures specified in the ordinance. The ordinance may also authorize the board to interpret zoning maps and pass upon disputed questions of lot lines or district boundary lines and similar questions that may arise in the administration of the ordinance. The board shall hear and decide all matters referred to it or upon which it is required to pass under the zoning ordinance.

(d) When practical difficulties or unnecessary hardships would result from carrying out the strict letter of a zoning ordinance, the board of adjustment may, in passing upon appeals, vary or modify any regulation or provision of the ordinance relating to the use, construction, or alteration of buildings or structures or the use of land, so that the spirit of the ordinance is observed, public safety and welfare secured, and substantial justice done.

(e) The board of adjustment, by a vote of four-fifths of its members, may reverse any order, requirement, decision, or determination of an administrative officer charged with enforcing an ordinance adopted pursuant to this part, or may decide in favor of the applicant a matter upon which the board is required to pass under the ordinance, or may grant a variance from the provisions of the ordinance. Each decision of the board is subject to review by the superior court by proceedings in the nature of certiorari.

(f) The chairman of the board of adjustment or any member temporarily acting as chairman may in his official capacity administer oaths to witnesses in any matter coming before the board.

“§ 153-346. *Conflict with other laws.*—When regulations made under authority of this part require a greater width or size of yards or courts, or require a lower height of a building or fewer number of stories, or require a greater percentage of a lot to be left unoccupied, or impose other higher standards than are required in any other statute or local ordinance or regulation, the regulations made under authority of this part govern. When the provisions of any other statute or local ordinance or regulation require a greater width or size of yards or courts, or require a lower height of a building or a fewer number of stories, or require a greater percentage of a lot to be left unoccupied, or impose other higher standards than are required by regulations made under authority of this part, the provisions of the other statute or local ordinance or regulation govern.

“§ 153-347. *Part applicable to buildings constructed by the State and its subdivisions.*—Each provision of this part is applicable to the erection, construction, and use of buildings by the State of North Carolina and its political subdivisions.

“Part 4. Building Inspection

“ § 153-350. *‘Building’ defined.*—As used in this part, the words ‘building’ or ‘buildings’ include other structures.

“ § 153-351. *Inspection department; certification of electrical inspectors.*—(a) A county may create an inspection department, consisting of one or more inspectors who may be given the titles of building inspector, electrical inspector, plumbing inspector, housing inspector, zoning inspector, heating and air-conditioning inspector, fire prevention inspector, deputy or assistant inspector,

or any other title that is generally descriptive of the duties assigned. The department may be headed by a superintendent or director of inspections.

(b) No person may perform electrical inspections pursuant to this part unless he has been certified as qualified by the Commissioner of Insurance. To be certified a person must pass a written examination based on the electrical regulations included in the latest edition of the State Building Code as filed with the Secretary of State. The examination shall be under the supervision of and conducted according to rules and regulations prescribed by the Chief State Electrical Inspector or Engineer of the State Department of Insurance and the Board of Examiners of Electrical Contractors. It shall be held quarterly, in Raleigh or any other place designated by the Chief State Electrical Inspector or Engineer.

The rules and regulations may provide for the certification of class I, class II, and class III inspectors, according to the results of the examination. The examination shall be based on the type and character of electrical installations being made in the territory in which the applicant wishes to serve as an electrical inspector. A class I inspector may serve anywhere in the State, but class II and class III inspectors shall be limited to service in the territory for which they have qualified.

The Commissioner of Insurance shall issue a certificate to each person who passes the examination, approving the person for service in a designated territory. To remain valid, a certificate must be renewed each January by payment of an annual renewal fee of \$1.00. The examination fee shall be \$5.00.

If the person appointed by a county as electrical inspector fails to pass the examination, the county shall continue to make appointments until an appointee has passed the examination. For the interim the Commissioner of Insurance may authorize the county to use a temporary inspector.

“§ 153-352. *Duties and responsibilities.*—The duties and responsibilities of an inspection department and of the inspectors in it are to enforce within the county's territorial jurisdiction State and local laws and local ordinances and regulations relating to:

- (1) The construction of buildings;
- (2) The installation of such facilities as plumbing systems, electrical systems, heating systems, refrigeration systems, and air-conditioning systems;
- (3) The maintenance of buildings in a safe, sanitary, and healthful condition;
- (4) Other matters that may be specified by the board of commissioners.

These duties and responsibilities include receiving applications for permits and issuing or denying permits, making necessary inspections, issuing or denying certificates of compliance, issuing orders to correct violations, bringing judicial actions against actual or threatened violations, keeping adequate records, and taking any other actions that may be required to adequately enforce the laws and ordinances and regulations. The board of commissioners may enact reasonable and appropriate provisions governing the enforcement of the laws and ordinances and regulations.

“§ 153-353. *Joint inspection department; other arrangements.*—A county may enter into and carry out contracts with one or more other counties or cities under which the parties agree to create and support a joint inspection department for enforcing those State and local laws and local ordinances and

regulations specified in the agreement. The governing bodies of the contracting units may make any necessary appropriations for this purpose.

In lieu of a joint inspection department, a county may designate an inspector from another county or from a city to serve as a member of the county inspection department, with the approval of the governing body of the other county or city. The inspector, while exercising the duties of the position, is a county employee.

“§ 153-354. *Financial support.*—A county may appropriate any available funds for the support of its inspection department. It may provide for paying inspectors fixed salaries, or it may reimburse them for their services by paying over part or all of any fees collected. It may fix reasonable fees for issuing permits, for inspections, and for other services of the inspection department.

“§ 153-355. *Conflicts of interest.*—Unless he is the owner of the building, no member of an inspection department may be financially interested in furnishing labor, material, or appliances for the construction, alteration, or maintenance of any building within the county's territorial jurisdiction or any part or system thereof, or in making plans or specifications therefor. No member of any inspection department may engage in any work that is inconsistent with his duties or with the interest of the county.

“§ 153-356. *Failure to perform duties.*—If a member of an inspection department willfully fails to perform the duties required of him by law, or willfully improperly issues a permit, or gives a certificate of compliance without first making the inspections required by law, or willfully improperly gives a certificate of compliance, he is guilty of a misdemeanor.

“§ 153-357. *Permits.*—No person may commence or proceed with:

- (1) The construction, reconstruction, alteration, repair, removal, or demolition of any building;
- (2) The installation, extension, or general repair of any plumbing system;
- (3) The installation, extension, alteration, or general repair of any heating or cooling equipment system; or
- (4) The installation, extension, alteration, or general repair of any electrical wiring, devices, appliances, or equipment

without first securing from the inspection department with jurisdiction over the site of the work each permit required by the State Building Code and any other State or local law or local ordinance or regulation applicable to the work. A permit shall be in writing and shall contain a provision that the work done shall comply with the State Building Code and all other applicable State and local laws and local ordinances and regulations. No permit may be issued unless the plans and specifications are identified by the name and address of the author thereof; and if the General Statutes of North Carolina require that plans for certain types of work be prepared only by a registered architect or registered engineer, no permit may be issued unless the plans and specifications bear the North Carolina seal of a registered architect or of a registered engineer. If a provision of the General Statutes of North Carolina or of any ordinance requires that work be done by a licensed specialty contractor of any kind, no permit for the work may be issued unless the work is to be performed by such a duly licensed contractor. Violation of this section constitutes a misdemeanor.

“§ 153-358. *Time limitations on validity of permits.*—A permit issued pursuant to G.S. 153-357 expires six months, or any lesser time fixed by ordinance of the county, after the date of issuance if the work authorized by the

permit has not commenced. If after commencement the work is discontinued for a period of 12 months, the permit therefor immediately expires. No work authorized by a permit that has expired may thereafter be performed until a new permit has been secured.

“ § 153-359. *Changes in work.*—After a permit has been issued, no change or deviation from the terms of the application, the plans and specifications, or the permit, except if the change or deviation is clearly permissible under the State Building Code, may be made until specific written approval of the proposed change or deviation has been obtained from the inspection department.

“ § 153-360. *Inspections of work in progress.*—As the work pursuant to a permit progresses, local inspectors shall make as many inspections of the work as may be necessary to satisfy them that it is being done according to the provisions of the applicable State and local laws and local ordinances and regulations and of the terms of the permit. In exercising this power, each member of the inspection department has a right, upon presentation of proper credentials, to enter on any premises within the territorial jurisdiction of the department at any reasonable hour for the purposes of inspection or other enforcement action.

“ § 153-361. *Stop orders.*—Whenever a building or part thereof is being demolished, constructed, reconstructed, altered, or repaired in a hazardous manner, or in substantial violation of a State or local building law or local building ordinance or regulation, or in a manner that endangers life or property, the appropriate inspector may order the specific part of the work that is in violation or that presents such a hazard to be immediately stopped. The stop order shall be in writing and directed to the person doing the work, and shall state the specific work to be stopped, the specific reasons for the stoppage, and the conditions under which the work may be resumed. The owner or builder may appeal from a stop order to the North Carolina Commissioner of Insurance within five days after the day the order is issued. The owner or builder shall give to the Commissioner of Insurance written notice of appeal, with a copy to the local inspector. The Commissioner shall promptly conduct a hearing at which the appellant and the inspector shall be permitted to submit relevant evidence, and the Commissioner shall rule on the appeal as expeditiously as possible. Pending the ruling by the Commissioner of Insurance on an appeal, no further work may take place in violation of a stop order. Violation of a stop order constitutes a misdemeanor.

“ § 153-362. *Revocation of permits.*—The appropriate inspector may revoke and require the return of any permit by giving written notice to the permit holder, stating the reason for the revocation. Permits shall be revoked for any substantial departure from the approved application or plans and specifications, for refusal or failure to comply with the requirements of any applicable State or local laws or local ordinances or regulations, or for false statements or misrepresentations made in securing the permit. A permit mistakenly issued in violation of an applicable State or local law or local ordinance or regulation also may be revoked.

“ § 153-363. *Certificates of compliance.*—At the conclusion of all work done under a permit, the appropriate inspector shall make a final inspection. If he finds that the completed work complies with all applicable State and local laws and local ordinances and regulations and with the terms of the permit, he shall issue a certificate of compliance. No new building or part thereof may be

occupied, no addition or enlargement of an existing building may be occupied, and no existing building that has been altered or moved may be occupied until the inspection department has issued a certificate of compliance. A temporary certificate of compliance may be issued permitting occupancy for a stated period of specified portions of the building that the inspector finds may safely be occupied before completion of the entire building. Violation of this section constitutes a misdemeanor.

"§ 153-364. *Periodic inspections for hazardous or unlawful conditions.*—The inspection department shall make periodic inspections, subject to the board of commissioners' directions, for unsafe, unsanitary, or otherwise hazardous and unlawful conditions in buildings within its territorial jurisdiction. In addition, it shall make any necessary inspections when it has reason to believe that such conditions may exist in a particular building. In exercising these powers, each member of the inspection department has a right, upon presentation of proper credentials, to enter on any premises within the territorial jurisdiction of the department at any reasonable hour for the purposes of inspection or other enforcement action.

"§ 153-365. *Defects in buildings to be corrected.*—If a local inspector finds any defect in a building, or finds that the building has not been constructed in accordance with the applicable State and local laws and local ordinances and regulations, or finds that a building because of its condition is dangerous or contains fire hazardous conditions, he shall notify the owner or occupant of the building of its defects, hazardous conditions, or failure to comply with law. The owner and the occupant shall each immediately remedy the defects, hazardous conditions, or violations of law in the property each owns.

"§ 153-366. *Unsafe buildings condemned.*—The inspector shall condemn as unsafe each building that appears to him to be especially dangerous to life because of its liability to fire, bad conditions of walls, overloaded floors, defective construction, decay, unsafe wiring or heating system, inadequate means of egress, or other causes; and he shall affix a notice of the dangerous character of the building to a conspicuous place on its exterior wall.

"§ 153-367. *Removing notice from condemned building.*—If a person removes a notice that has been affixed to a building by a local inspector and that states the dangerous character of the building, he is guilty of a misdemeanor.

"§ 153-368. *Action in event of failure to take corrective action.*—If the owner of a building that has been condemned as unsafe pursuant to G.S. 153-366 fails to take prompt corrective action, the local inspector shall by certified or registered mail to his last known address or by personal service give him written notice:

- (1) that the building is in a condition that appears to constitute a fire or safety hazard or to be dangerous to life, health, or other property;
- (2) that a hearing will be held before the inspector at a designated place and time, not later than 10 days after the date of the notice, at which time the owner is entitled to be heard in person or by counsel and to present arguments and evidence pertaining to the matter; and
- (3) that following the hearing, the inspector may issue any order to repair, close, vacate, or demolish the building that appears appropriate.

If the name or whereabouts of the owner cannot after due diligence be discovered, the notice shall be considered properly and adequately served if a copy thereof is posted on the outside of the building in question at least 10 days

before the day of the hearing and a notice of the hearing is published at least once not later than one week before the hearing.

“§ 153-369. *Order to take corrective action.*—If, upon a hearing held pursuant to G.S. 153-368, the inspector finds that the building is in a condition that constitutes a fire or safety hazard or renders it dangerous to life, health, or other property, he shall issue a written order, directed to the owner of the building, requiring the owner to remedy the defective conditions by repairing, closing, vacating, or demolishing the building or taking other necessary steps, within such period, not less than 60 days, as the inspector may prescribe.

“§ 153-370. *Appeal; finality of order not appealed.*—An owner who has received an order under G.S. 153-369 may appeal from the order to the board of commissioners by giving written notice of appeal to the inspector and to the clerk within 10 days following the day the order is issued. In the absence of an appeal, the order of the inspector is final. The board of commissioners shall hear any appeal within a reasonable time and may affirm, modify and affirm, or revoke the order.

“§ 153-371. *Failure to comply with order.*—If the owner of a building fails to comply with an order issued pursuant to G.S. 153-369 from which no appeal has been taken, or fails to comply with an order of the board of commissioners following an appeal, he is guilty of a misdemeanor.

“§ 153-372. *Equitable enforcement.*—Whenever a violation is denominated a misdemeanor under the provisions of this part, the county, either in addition to or in lieu of other remedies, may initiate any appropriate action or proceeding to prevent, restrain, correct, or abate the violation or to prevent the occupancy of the building involved.

“§ 153-373. *Records and reports.*—The inspection department shall keep complete, permanent, and accurate records in convenient form of each application received, each permit issued, each inspection and reinspection made, and each defect found, each certificate of compliance granted, and all other work and activities of the department. The department shall submit periodic reports to the board of commissioners and to the Commissioner of Insurance as the board or the Commissioner may require.

“§ 153-374. *Appeals.*—Unless otherwise provided by law, any appeal from an order, decision, or determination of a member of a local inspection department pertaining to the State Building Code or any other State building law shall be taken to the Commissioner of Insurance or other official specified in G.S. 143-139, by filing a written notice with him and with the inspection department within 10 days after the day of the order, decision, or determination. Further appeals may be taken to the State Building Code Council or to the courts as provided by law.

“§ 153-375. *Establishment of fire limits.*—A county may by ordinance establish and define fire limits in any area within the county and not within a city. The limits may include only business and industrial areas. Within any fire limits, no frame or wooden building or addition thereto may be erected, altered, repaired, or moved (either into the fire limits or from one place to another within the limits) except upon the permit of the inspection department and approval of the Commissioner of Insurance. The board of commissioners may make additional regulations necessary for the prevention, extinguishment, or mitigation of fires within the fire limits.

“Article 19

“Regional Planning Commissions

“§ 153-391. *Creation; admission of new members.*—Two or more counties, cities, or counties and cities may create a regional planning commission by adopting identical concurrent resolutions to that effect in accordance with the provisions and procedures of this article. A county or city may join an existing regional planning commission with the consent of the existing member governments.

The resolution creating a regional planning commission may be modified, amended, or repealed by the unanimous action of the member governments.

“§ 153-392. *Contents of resolution.*—The resolutions creating a regional planning commission shall:

- (1) Specify the name of the commission;
- (2) Establish the number of delegates to represent each member government, fix the delegates' terms of office and the conditions, if any, for their removal, provide methods for filling vacancies, and prescribe the compensation and allowances, if any, to be paid to delegates;
- (3) Set out the method of determining the financial support that will be given to the commission by each member government;
- (4) Set out the budgetary and fiscal control procedures to be followed by the commission, which shall substantially comply with the Local Government Budget and Fiscal Control Act (G.S. Chapter 159, Subchapter III).

In addition the resolution may, but need not, contain rules and regulations for the conduct of commission business and any other matters pertaining to the organization, powers, and functioning of the commission that the member governments consider appropriate.

“§ 153-393. *Withdrawal from commission.*—A member government may withdraw from a regional planning commission by giving at least two years' written notice to the other counties and cities involved.

“Article 23

“Miscellaneous Provisions

“§ 153-435. *Liability insurance; damage suits against a county involving governmental functions.*—(a) A county may contract to insure itself and any of its officers, agents, or employees against liability for wrongful death or negligent or intentional damage to person or property or against absolute liability for damage to person or property caused by an act or omission of the county or of any of its officers, agents, or employees when acting within the scope of their authority and the course of their employment. The board of commissioners shall determine what liabilities and what officers, agents, and employees shall be covered by any insurance purchased pursuant to this subsection.

Purchase of insurance pursuant to this subsection waives the county's governmental immunity, to the extent of insurance coverage, for any act or omission occurring in the exercise of a governmental function. By entering into an insurance contract with the county, an insurer waives any defense based upon the governmental immunity of the county.

(b) If a county has waived its governmental immunity pursuant to subsection (a) of this section, any person, or if he dies, his personal representative, sustaining damages as a result of an act or omission of the county or any of its officers, agents, or employees, occurring in the exercise of a governmental function, may sue the county for recovery of damages. To the extent of the coverage of insurance purchased pursuant to subsection (a) of this section, governmental immunity may not be a defense to the action. Otherwise, however, the county has all defenses available to private litigants in any action brought pursuant to this section without restriction, limitation, or other effect, whether the defense arises from common law or by virtue of a statute.

Despite the purchase of insurance as authorized by subsection (a) of this section, the liability of a county for acts or omissions occurring in the exercise of governmental functions does not attach unless the plaintiff waives the right to have all issues of law or fact relating to insurance in the action determined by a jury. The judge shall hear and determine these issues without resort to a jury, and the jury shall be absent during any motion, argument, testimony, or announcement of findings of fact or conclusions of law relating to these issues unless the defendant requests a jury trial on them.

“§ 153-436. *Photographic reproduction of county records.*—(a) A county may provide for the reproduction, by photocopy, photograph, microphotograph, or any other method of reproduction that gives legible and permanent copies, of instruments, documents, and other papers filed with the register of deeds and of any other county records. The county shall keep each reproduction of an instrument, document, paper, or other record in a fire-resistant file, vault, or similar container. If a duplicate reproduction is made to provide a security-copy, the county shall keep the duplicate in a fire-resistant file, vault, or similar container separate from that housing the principal reproduction.

If a county has provided for reproducing records, any custodian of public records of the county may cause to be reproduced any of the records under, or coming under, his custody.

(b) If a county has provided for reproducing some or all county records, the custodian of any instrument, document, paper, or other record may permit it to be removed from its regular repository for up to 24 hours in order to be reproduced. An instrument, document, paper or other record may be removed from the county in order to be reproduced. The board of commissioners may permit an instrument, document, paper, or other record to be removed for longer than 24 hours if a longer period is necessary to complete the process of reproduction.

(c) The original of any instrument, document, or other paper received by the register of deeds and reproduced pursuant to this article shall be filed, maintained, and disposed of in accordance with G.S. 161-17 and G.S. 121-5. The original of any other county record that is reproduced pursuant to this article may be kept by the county or disposed of pursuant to G.S. 121-5.

(d) If an instrument, document, or other paper received by the register of deeds is reproduced pursuant to this article, the recording of the reproduction is a sufficient recording for all purposes.

(e) A reproduction, made pursuant to this article, of an instrument, document, paper, or other record is as admissible in evidence in any judicial or administrative proceeding as the original itself, whether the original is extant or not. An enlargement or other facsimile of the reproduction is also admissible in evidence if the original reproduction is extant and available for inspection under the direction of the court or administrative agency.

“§ 153-437. *Assistance to historical organizations.*—(a) A county or city may appropriate revenues not otherwise limited as to use by law to a local historical or preservation society, museum, or other similar organization. Before such an appropriation may be made, the recipient organization shall adopt and present to the county or city a resolution requesting the funds and describing the intended use of the funds. The funds may be used for preserving historic sites, buildings, structures, areas, or objects; for recording and publishing materials relating to the history of the area; for establishing or maintaining historical museums or projects; for paying salaries of personnel employed in such museums or projects; for the costs of acquiring, recording, and maintaining materials and equipment; and for any other purposes that are approved by the county or city and that contribute to the preservation of historic sites, buildings, structures, areas, or objects, or historic materials. The ordinance making the appropriation shall state specifically what the appropriation is to be used for, and the governing board of the county or city shall require that the recipient account for the appropriation at the close of the fiscal year.

(b) A county or city, a board of education, or the board of trustees of a public library may make available space in a building under its control to a local historical society, historical museum, or other historical organization.

(c) This section is supplemental to and does not supersede any other law.

“§ 153-438. *Beach erosion control and flood and hurricane protection works.*—A county may appropriate revenues not otherwise limited as to use by law to finance the acquisition, construction, reconstruction, extension, maintenance, improvement, or enlargement of groins, jetties, dikes, moles, walls, sand dunes, vegetation, or other types of works or improvements that are

designed for controlling beach erosion, for protection from hurricane floods, or for preserving or restoring facilities and natural features that afford protection to the beaches and other land areas of the county and to the life and property of the county.

“§ 153-439. *Support of extension activities; personnel rules for extension employees.*—A county may support the work of the North Carolina Agricultural Extension Service and for these purposes may appropriate revenues not otherwise limited as to use by law.

If a county adopts rules and regulations concerning annual leave, sick leave, hours of employment, and holidays that apply to county employees generally, these rules and regulations apply to county extension employees. Otherwise, the rules and regulations adopted by the North Carolina Agricultural Extension Service concerning these matters apply to county extension employees.

“§ 153-440. *Promotion of soil and water conservation work.*—A county may cooperate with and support the work of the Federal Soil Conservation Service and the State and local soil and water conservation agencies and districts and for these purposes may appropriate revenues not otherwise limited as to use by law.

“§ 153-441. *County surveyor.*—A county may appoint a person registered as a land surveyor pursuant to G.S. Chapter 89 as county surveyor.

“§ 153-442. *Animal shelters.*—A county may establish, equip, operate, and maintain an animal shelter or may contribute to the support of an animal shelter, and for these purposes may appropriate funds not otherwise limited as to use by law.

“§ 153-443. *Redesignation of site of ‘courthouse door’ etc.*—If a county determines that the traditional location of the ‘courthouse,’ the ‘courthouse door,’ the ‘courthouse bulletin board’ or the ‘courthouse steps’ has become inappropriate or inconvenient for the doing of any act or the posting of any notice required by law to be done or posted at such a site, the county may by ordinance designate some appropriate or more convenient location for the site. The board of commissioners shall cause such an ordinance to be published at least once within 30 days after the day it is adopted and shall cause a copy of it to be posted for 60 days at the traditional location.

“§ 153-444. *Parks and recreation.*—A county may establish parks and provide recreational programs pursuant to G.S. Chapter 160A, Article 18.

“§ 153-445. *Miscellaneous powers found in G.S. Chapter 160A.*—(a) A county may take action under the following provisions of G.S. Chapter 160A:

1. G.S. Chapter 160A, Article 20, Part 1.—Joint Exercise of Powers.
2. G.S. Chapter 160A, Article 21, Part 2.—Regional Councils of Governments.

4. G.S. 160A-488.—Art galleries and museums.
5. G.S. 160A-489.—Human relations programs.

(b) This section is for reference only, and the failure of any section of G. S. Chapter 160A to appear in this section does not affect the applicability of that section to counties.”

Sec. 2. Chapter 956 of the 1969 Session Laws continues in effect and is not repealed by this act. However, Chapter 956 shall not be codified in G.S. Chapter 153.

The repeal by this act of former G.S. 153-4 and 153-5 does not affect in any way the structure or manner of election of any board of county commissioners

the structure or manner of election of which was established by those sections. Rather, as provided by G.S. 153-34, as enacted by Section 1 of this act, each board of commissioners shall continue to have the same structure and manner of election as it has on the effective date of this act until that structure or manner of election is changed in accordance with law.

RESOLUTION 5

A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF
LYNDON BAINES JOHNSON, 36th PRESIDENT OF THE UNITED
STATES OF AMERICA.

Whereas, Lyndon Baines Johnson, the 36th president of the United States of America, died at the age of 64 on January 22, 1973, after a long and dedicated life of public service to his home state of Texas and to all the peoples of the United States, it is only fitting that the General Assembly should take note of this service and to a special relationship between former President Johnson and the State of North Carolina.

Whereas, Lyndon Baines Johnson had ancestral ties with North Carolina, through his great-grandfather George Washington Baines; and

Whereas, Lyndon Baines Johnson developed and maintained close personal and public ties with North Carolina members of Congress and other officials, both as a member of Congress and as President of the United States; and

Whereas, the people of North Carolina, being profoundly grateful for the service of his life, and being deeply grieved by the loss of his presence by death, and holding the family of the late President Johnson in sincere affection;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. That Lyndon Baines Johnson for over thirty years did serve the peoples of the United States of America, first in the Congress as a Representative and later as a Senator, then as Vice President of the United States, and finally as President. "Lyndon Johnson...was proud of America and had visions of greatness for this country that guided us to great domestic accomplishments and guided him to become a leader of the world," said our Lieutenant Governor. The General Assembly of North Carolina, for itself and on behalf of the government and all the people of North Carolina hereby acknowledges a deep appreciation for the public life and service of Lyndon Baines Johnson.

Lyndon Baines Johnson was born near Stonewall, Texas, on August 27, 1908, to Sam Ealy and Rebekah Johnson, Jr. On that same day his grandfather, Sam Ealy Johnson, Sr., is said to have ridden around Johnson City on horseback shouting, "A United States Senator was born this morning - my grandson." Forty years later this prophetic statement came true. Political involvement came natural for the young Johnson for both his father and grandfather had made names for themselves in the Texas Legislature. From them he acquired a liberal political philosophy which was strengthened by his deep Christian heritage and an abiding respect for the value of education learned from his mother. In 1930 he graduated from a small Texas college where he had become well known as a debator and as editor of the school paper. His adventures into politics began the following year when Representative-elect Richard M. Kleburg took him to Washington as a legislative assistant. Six years later he was elected to the United States House of Representatives and quickly gained the reputation of being a strong supporter of President Roosevelt's programs. In 1941 he made an unsuccessful attempt at being elected to the United States Senate - it was the last time he was ever defeated by the public electorate. He returned to the House and in 1948 was elected to the Senate. In spite of his varying political views, he won the respect of his fellow Senators from the South and a place

Resolutions—1973

among the senatorial elite. In 1960 he was one of his party's nominees for president, but lost out to the young John F. Kennedy. His interest in social and educational legislation led to his being selected by Kennedy as his vice presidential running mate. When tragedy struck in Dallas on November 22, 1963, Lyndon Johnson became the 36th President of the United States. The following year he was elected to his own term by the greatest vote majority ever accorded a presidential candidate to that time. It was under his guidance that some of the most far-reaching social legislation in American history was enacted most notably the Civil Rights Act of 1964.

President Johnson had a special tie to North Carolina that few people knew about. In a speech given in Raleigh on October 6, 1964, many thought that a reference to a great-grandfather from North Carolina was a political ploy to obtain support for his candidacy - this was not the case. On December 29, 1809, George Washington Baines was born to Thomas Baines of Creecy's District in Chowan County (some say it was Perquimans County). In 1817 the Thomas Baines family moved to Georgia and then to Alabama. Following in his father's footsteps, George Washington Baines became a preacher and started several churches in Arkansas and Louisiana. In 1850 he moved to Texas and ten years later was elected president of Baylor University. His son Joseph Wilson Baines later married Ruth Huffman and their daughter Rebekah was the mother of Lyndon Baines Johnson.

However, President Johnson had more than an ancestral relationship to North Carolina. During his many years of service in Washington he became friends with many of North Carolina's political leaders. Senators Sam Ervin and B. Everett Jordan were his close friends during his years in the Senate, and former Governor of North Carolina Luther Hodges was Secretary of Commerce while Johnson was Vice President and during the first year of his Presidency. Johnson's deep appreciation for education and his desire to see the less fortunate given an opportunity in life, brought him into direct contact with events in North Carolina at that time. A large portion of his Anti-Poverty Program was aimed at improving conditions in Appalachia. He was a friend of the farmer, especially the small family farmer in whom he saw reflections of his own childhood. On more than one occasion he praised the efforts of the small farmer and encouraged them not to give up. "We are not going to plow under the family farm," he told one audience. Lyndon Baines Johnson was truly a "favorite son" of North Carolina.

The death of Lyndon Baines Johnson is a great loss to this State and to the Nation. Few men have given so thoroughly of their time and energy to public service as did he. He was an American first and foremost, and everything he did was done with the conviction that it was in the best interest of the United States. During the latter years of his administration, the dark clouds of war in Southeast Asia overshadowed his real accomplishments and lowered his standing in the public eye. "Johnson was not a revered theorist of government or the proponent of great change and innovation. Nor was he a polished orator, a magnetic personality, a powerful factional leader," but he was one of the great human figures in America. Only time will determine his true place in American History, but in the words of Howard K. Smith, "I believe that a longer perspective will place Lyndon B. Johnson very high on our scale of Presidents." But, there can be no doubt, he was as he said in his own words, "...a free man, an American, a public servant."

Resolutions—1973

Whereas, the General Assembly of North Carolina desires to honor and specially recognize the Oxford Masonic Orphanage in this its centennial year; and

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The General Assembly of North Carolina hereby recognizes the outstanding contribution to the State by the Oxford Masonic Orphanage, and congratulations are offered in this the centennial year of the institutions existence.

Sec. 2. The important events in the history of the Oxford Masonic Orphanage are detailed as follows:

Resolutions—1973

Following the era of Anti-Masonic fervor, Masonic philanthropy was begun during the decade of 1830. The Grand Lodge of North Carolina began an attempt to establish a "Charity School" in 1838. The rapid growth of the fraternity enabled the purchase of 109 acres of land in Oxford, and the proposed college was named St. John's College for the patron saints of the Order.

The College building was begun, the cornerstone was laid June 24, 1855, and the school opened July 13, 1858. The school never achieved much success, and ceased operations during the Civil War.

During the years of reconstruction it was impossible to reestablish a school in the St. John's College Building. There arose a movement to dispose of the property, which was decided during the Grand Lodge meeting December 2, 1872. One resolution was introduced to sell the property, but John H. Mills introduced a substitute that "the St. John's College be made into an asylum for the protection, training and education of indigent orphan children." The vote resulted in a tie, which was decided by the vote of the presiding Grand Master, John A. Nichols. Mr. John H. Mills was elected Superintendent and five hundred dollars (\$500.00) was appropriated.

While Mr. Mills was disposing of the *Biblical Recorder*, he secured the services of Reverend A. D. Cohen to act as steward in preparing the building for children. February 22, 1873, a wagon drove in and Mr. Mills received into his arms: Robert L. and Nancy Parrish, and Isabella Robertson of Granville County. This event was the creation of child care in North Carolina.

The early years were involved in struggle against poverty, indifference and open hostility. Mr. Mills traveled extensively, often with his "Singing Class", to secure help. Prominent churches adopted the new institution and consecrated the Thanksgiving Season as the gift period.

Mars Hill College was given to the Oxford Trustees and opened as a mountain unit in 1874. However, a reversal clause in the deed prevented the transfer. An attempt was also made to operate the unit in Asheville, but it too failed.

During the General Assembly of North Carolina, 1879, Governor Zebulon Vance recommended an in-service grant for assistance to the institution. The Legislature appropriated three thousand dollars (\$3,000), which began the State participation in child care. When the Charter was enacted, it provided for a Board of Directors consisting of nine Masons: six to be chosen by the Grand Lodge and three appointed by the Governor of North Carolina.

A major decision was made by the Grand Lodge in 1880 to concentrate all of its charitable child care in Oxford.

Mr. John H. Mills resigned in 1884 and later helped establish the Baptist Orphanage which bears his name in Thomasville.

The next decade was a transition period with administrations of several Superintendents for brief tenure: Dr. Benjamin F. Dixon, Reverend Junius T. Harris, Dr. William S. Black, and Reverend Nathaniel M. Lawrence.

The Governor of North Carolina appointed Mr. J. B. Duke as a Director in 1891. He inspired the Masonic fraternity to raise approximately twenty-one thousand dollars (\$21,000). The services of Colonel William J. Hicks were employed as architect to design the present campus and erect suitable buildings. Fourteen brick buildings were erected, including the Royster Cottage, in 1910.

Colonel Hicks was elected Superintendent in 1898 and Miss Nettie Nichols Bemis was employed to standardize the school. The John Nichols School

Resolutions—1973

became accredited in 1923, the same year the name was changed. It became a public school in 1931 with Orphanage supplement to maintain standards.

Mr. Richmond Lee Brown was installed as Superintendent in 1911. During his tenure an infirmary and school were erected and plans made for the erection of the Dunn Cottage and Duke Building.

Dr. Creasy Kinion Proctor was elected Superintendent in 1928. The two buildings were completed, but the great depression caught the Orphanage deeply in debt. Recovering from the depression debt and encountering war economy greatly retarded improvement plans.

The modern long-range building program began in 1951. It includes the following: 10 cottages for children, St. John's Building, Food Center, Chapel, Recreational Building, Vocational Building, two Staff Residences, and extensive renovation of older buildings. Four buildings remain to be replaced.

For 100 years the Masons of our jurisdiction have applied Masonic love to the lives of children upon the basis of the child's need. Two outstanding characteristics exemplify the greatness of the ideal of Masonic beauty which motivates Oxford Orphanage. Firstly, the Orphanage is owned and maintained by the Grand Lodge for the purpose of providing care and training for all indigent children who are approved for its care. Here the children live in the surrounding of a beautiful campus, participate in a program of wholesome training and are transformed into useful, productive citizens. Secondly, the Orphanage depends upon voluntary gifts to maintain its program. No assessment has ever been made against any Mason or Lodge in North Carolina for the support of the program of the Oxford Orphanage.

The Orphanage campus is located on 400 acres of rolling land within the city of Oxford, and occupies the highest and the most beautiful site in the surrounding area. The land, buildings and equipment are valued at four million one hundred twenty-three thousand eight hundred twenty dollars and twenty-nine cents (\$4,123,820.29). The grounds are beautifully landscaped. The main campus is completely sheltered by giant oak trees with liberally appointed shrubs, flowers and small trees encompassed within smooth well-kept lawns.

The buildings are colonial type, fireproof, brick structures. At the present time the capacity is 318 children. They are cared for on an individual basis and are maintained in the Orphanage throughout high school or as long as conditions of their family require their care. Post-graduate training is provided for those who reveal marked ability.

The entire care of the children is assumed by the Orphanage wherein is provided home life in air-conditioned cottages, food in central dining room, clothing through central supply upon an individual basis, recreational activities, complete health care including medical, surgical, dental, orthodontic, psychiatric and other health needs through cooperation with outside facilities.

Religious activities include chaplain services, Sunday School, worship hours, religious literature and the children hold membership in the four churches of Oxford.

Children attend consolidated units of public school including John A. Nichols, D. N. Hix and J. F. Webb High School.

On the campus of Oxford Orphanage we can see the beautiful results of 100 years of Masonic philanthropy, but we must view the entire world to know the spiritual power of this special love that has been engendered into the lives of

thousands of boys and girls; who, having lived beneath the giant oaks in Oxford Orphanage, are infusing the world with their interpretations of Masonic Love.

Whereas, this nation and this State owes its freedom and continued prosperity to those young men and women who have sacrificed and fought in this nation's wars; and

Whereas, North Carolina is justly proud of its sons and daughters who bore arms in her name, who suffered to preserve her, who met the bravest her enemies had to oppose them, and who endeavored to bring peace to our world; and

RESOLUTION 28

A JOINT RESOLUTION HONORING THE MEMORY OF HARRY S. TRUMAN, THIRTY-THIRD PRESIDENT OF THE UNITED STATES.

Whereas, Harry S. Truman, thirty-third President of the United States died December 26, 1972, at the age of 88, a stouthearted fighter to the end; and

Whereas, his life and deeds earned him the most profound respect of the people of the State of North Carolina which he honored in many ways including the selection of two native sons as Secretary of the Army; and

Whereas, he paid high compliment to the people of North Carolina by giving his daughter in marriage to a native of this State; and

Whereas, it is fit and proper that the General Assembly of North Carolina honor the memory of this great man of the people;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. Following in the footsteps of the immortal Franklin Delano Roosevelt, Harry S. Truman guided this country through eight of the most difficult years of its existence. It has been said that "Americans felt leaderless when Roosevelt died," but Truman taught them, because he was one of them, that their greatness lies in themselves for he was truly a man of the people. Many times he was misunderstood, but his valuable leadership, particularly in the fields of European reconstruction, aid to underdeveloped nations and civil rights, has passed the test of time.

Born in Lamar, Missouri, on a farm in 1884, the son of John Anderson Truman and Mary Young Truman, Harry S. Truman lived the life of a typical midwestern farm boy of the time. In 1890, the Truman family moved to Independence, Missouri, where he received his first formal education, graduating from Independence High School in 1901. Because of the then prevailing economic conditions he was unable to further his education and became a bank clerk in Kansas City, ironically staying at the same rooming house as the brother of the man who was to succeed him as President, Dwight D. Eisenhower.

His first connection with the military was when he joined the National Guard on Flag Day in 1905. During World War I, he served his country as a Captain in command of a unit of the 129th Field Artillery in France. These influences from the military largely determined the course of his future life, and taught him that he had the ability to lead men.

Returning to his native Missouri, he married Miss Bess Wallace on June 28, 1919. This gracious lady, preferring to stay in the background, devoted her life to her husband and his career.

His first election victory was in 1926 when he was elected Presiding Judge of the County Court. In 1934 he ran for the United States Senate supposedly under the auspices of the Pendergast machine; however, those with whom he dealt soon found that he possessed a strong code of personal integrity. In an era that was fraught with political corruption and scandal, his name was never tarnished.

His meteoric rise to the highest office in the land can be traced directly to his second Senate term. Starting as a small group on a shoestring budget, the Truman Committee studied all aspects of our World War II defense program and budget. By his committee's probings, savings were effected in excess of fifteen billion defense dollars.

Upon Roosevelt's death on April 12, 1945, this great leader was thrust into the forefront during a rapidly moving historical era, even though he never faltered, and when the crucial decision on dropping the world's first atom bomb, had to be made, Truman did not flinch from the decision. It was apparent to him that the bomb would eliminate the necessity of an American invasion of the Japanese mainland and thus save countless American lives. Later, he was equally firm in his resolve not to use the bomb in the Korean conflict.

At the Potsdam Conference to determine the fate of the post-war world, Truman proved an able negotiator. He countered Stalin's move when Russia sealed off the corridor to Berlin, by establishing the now famous Berlin Airlift. For nearly a year, American aircraft carried supplies to feed and fuel the City of 2.4 million population.

In 1947, the British finally admitted they could no longer assure the borders of freedom in the eastern Mediterranean. The Truman Doctrine reassured the world that a major power stood ready to aid free countries threatened by Communist aggression. Turning specifically to war-torn Europe, Truman initiated Secretary of State George Marshall's plan for economic revival. But for these two programs, the shattered nations of Europe might have been torn by revolution and economic distress for many years. Europe's present economic prosperity stands a noble tribute to his humanity.

Truman had a knack for matching the man with the job. Included in his cabinet was Kenneth Claiborne Royall, appointed Secretary of War in 1947, the

Resolutions—1973

last person to hold that office and Secretary of the Army, the first person to hold that office. With the able assistance of Gordon Gray, who succeeded him as Secretary of the Army, Royall, under Truman's direction, assisted in the economic rehabilitation of Europe and Japan. The Army and the Air Force were reorganized and Court Martial procedures revised. Under these native North Carolinians, the first steps toward racial integration of the armed forces were begun.

In 1948, postwar shortages, inflation, labor unrest, and the personal popularity of Thomas Dewey presented a grim picture for the Democratic Party. Undaunted by the situation, Truman turned tables on the Republicans. He embarked upon a whistle-stop campaign across the country, reaching 10 to 15 million citizens in a personal man-to-man plain spoken way no President had ever done before. "Give 'em Hell Harry" minced no words. On election night, the country went to bed amid proclamations of a Dewey victory, but the next morning this man-of-the-people once again proved that he knew his American people. He alone never doubted his victory.

During his second term, Truman pushed forward with his Point Four Program which offered aid to underdeveloped countries similar to that furnished Europe under the Marshall Plan. At home, his Fair Deal would take up where the New Deal left off. While congressional disapproval hindered the enactment of many of these liberal proposals, later years have seen the fruition of his ideas in programs covering medical insurance, immigration policy, farm supports, and civil rights.

As if one war per president was not enough, the Korean conflict started. When the United Nations branded North Korea as an aggressor, Truman did not hesitate sending American troops to defend the Truman Doctrine. His labeling of the conflict as a "police action" avoided the necessity of formal declaration of war by Congress but stirred up a storm of controversy which ultimately led to the election of Dwight D. Eisenhower in 1952. Liberals wanted a declaration of war, conservatives wanted an all-out offensive not excluding the use of atomic weapons against Red China. Just as steadfastly as he had ordered the bombing of Japanese cities, Truman refused to risk precipitating a third global war and kept the Korean conflict down to what it was - defense of the territorial integrity of South Korea.

Harry Truman declined to seek the nomination in 1952. He had given eight years of his life to the Presidency of the United States, the most demanding job in the world. This man of action retired quietly to his Independence, Missouri, home and dedicated his time to the development of the Harry S. Truman Library which contains 9.5 million documents of his administration. For years, school children occasionally heard informal talks on "The Greatest Government in the World" from the man himself. He wrote and toured schools and universities speaking on government and history.

He was a familiar figure in Independence with his morning walks and gradually faded back into the simple midwestern life from which he sprung. At the end, he fought death just as he had fought all his battles, tooth and nail. Harry always liked to quote an epitaph on a Tombstone, Arizona, grave: "Here lies Jack Williams. He done his damnest". So did this man of the people.

Sec. 2. The General Assembly of North Carolina expresses its deep admiration for, and appreciation of the life, efforts and accomplishments of

Harry S. Truman which have resulted in a better life not merely for North Carolinians or Americans but for all the peoples of the world.

The North Carolina General Assembly expresses to Mrs. Bess Truman, to his daughter and son-in-law, Margaret and Clifton Daniel, and to his entire family its deepest sympathy and asserts an abiding faith that the spirit of Harry S. Truman shall endure forever in the hearts and minds of all Americans.

RESOLUTION 32

A JOINT RESOLUTION IN OPPOSITION TO A GRANT OF AMNESTY TO THOSE WHO ILLEGALLY AVOIDED INDUCTION INTO THE UNITED STATES ARMED SERVICES OR WHO DESERTED.

Whereas, there has been much discussion of a grant of amnesty or freedom from prosecution to those who through desertion and otherwise willfully failed to fulfill their military obligations to the United States; and

Whereas, cases involving desertion or illegal flight to avoid induction into the Armed Forces may presently be tried in the courts of this country where each particular case may be heard on its merits and be dealt with appropriately and based upon the facts of the particular case;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Resolutions—1973

Whereas, the farmer matches dollar for dollar the comparative small amount of federal dollars going into this program which benefits all of our citizens; and

Whereas, in addition the curtailment of other U.S. Department of Agriculture programs such as those administered by the Farmers Home Administration has or will likely seriously affect farmers and nonfarmers in rural North Carolina who depend on this source of credit for farming operations and home construction; and

Whereas, these funding reductions will mean approximately eighty million dollars (\$80,000,000) in housing for low-income families will not be built between now and June 30, 1974; and

Whereas, it will mean the loss of 6,700 years of employment for North Carolina carpenters, bricklayers, plumbers, electricians and the people who work in lumber mills, building equipment supply firms, the people who manufacture and sell electrical fixtures, plumbing fixtures, roofing, wall boards and shingles; and

Whereas, additional financial losses are likely to occur to merchants, doctors, lawyers and others in our rural communities who profit from the dollars placed in circulation by the construction and farming business; and

Whereas, tax revenues that would have been derived by local communities when their tax base was broadened by the construction of new homes will be lost;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the President of the United States is hereby requested to immediately order the Office of Management and Budget to release during calendar year 1973 the entire sum of two hundred twenty-five million five hundred thousand dollars (\$225,500,000) appropriated by Congress for the Rural Environmental Assistance Program.

Sec. 2. That the funding level of the Farmers Home Administration Programs ought to be maintained at the level authorized by Congress.

Sec. 3. That the Congress of the United States should immediately take such action as may be necessary and appropriate to see that such legislative appropriations duly considered and enacted be restored.

Sec. 4. That copies of this resolution shall be sent immediately by the North Carolina Secretary of State to the President of the United States, the Office of Management and Budget, the Secretary of Agriculture, and members of the North Carolina Congressional Delegation.

Sec. 5. This resolution shall become effective upon its ratification.

In the General Assembly read three times and ratified, this the 5th day of March, 1973.

Whereas, in nearly every instance these local bills could have been prepared and introduced earlier in the session without any serious inconvenience to the members of the General Assembly or to the local governing agencies and officials who participated in the formulation of the bills;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That the 50th legislative day of each regular session is fixed as the deadline for the introduction of local bills in the House of Representatives.

Sec. 2. That any local bill which is offered for introduction in the House of Representatives after said deadline fixed in Section 1 above shall be rejected by the presiding officer unless the bill has been first submitted to the Rules Committee and bears the endorsement of that Committee stating that there is good reason for the delay in introducing the bill and that the bill should be accepted for introduction.

Sec. 3. That the presiding officer shall cause Sections 1 through 2 of this Resolution to be read at the first session of each week until the deadline is reached.

Sec. 4. That the members of the House of Representatives are urged to communicate the fact of the passage of this Resolution to the local governing bodies and officials in their respective districts, and to arrange the necessary conferences with these bodies and officials, to the end that necessary or desirable local legislation shall not be precluded by this Resolution.

Whereas, the Federal Highway Administration on February 23, 1973, issued a report on estimated earnings, apportionments and expenditures of Federal Highway Trust Funds during the fiscal years 1957 through 1972;

Whereas, said report shows that during the period 1957 through 1972 North Carolina received only fifty-two cents (52¢) for every dollar contributed by it to the Highway Trust Fund;

Whereas, during the last five years North Carolina received only the following amounts for each dollar contributed to the Highway Trust Fund:

Whereas, the increasing complexity and magnitude of State government, the constantly changing impact of uncertain and shifting federal funding on State and local governments, the constant output of new and varying judicial rulings on legal and constitutional questions, new scientific inventions and discoveries, and the generally accelerating tempo of modern life make it increasingly difficult for the General Assembly to deal effectively with State problems, particularly budget and appropriations problems on a biennial basis; and

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. That the management plan adopted by the Wilson Creek unit should not only optimize wildlife opportunities as proposed in Alternative Plan No. 2 of the proposal presented at the public hearing at Morganton on December 5, 1972, but should also further include provisions which should safeguard the wildlife resources of the unit, particularly the valuable trout streams. 2. Meeting in joint session, the Committee will screen nominees as to their qualifications and background, making sure that suitable candidates are nominated for each category, that each is willing and able to serve and has no statutory disabilities.

3. Committee nominations will be placed before a joint session of the House and Senate.

II. JOINT SESSION - NOMINATIONS

1. In the joint session of the Senate and House of Representatives, the floor shall be opened for nominations after the Committee report has been made. Nominations shall be grouped into four categories, as required by G.S. 116-6:

(4) At large

2. In placing a name in nomination, the nominator shall state the category for which his nominee is being nominated. An individual cannot be nominated in more than one category.

3. There is no limit to the number of persons a Senator or Representative may nominate.

4. Nominations shall continue until the number of nominees is at least twice the number of places to be filled in each category. For example, a minimum of two women, two Republicans, two racial minority members, and 10 at large members.

5. No vote will be taken on nominees in the joint session. When all nominations have been received, the joint session will be dissolved.

6. The Chairman of the House Committee on University Trustees and the Chairman of the Senate Committee on Higher Education shall contact all nominees and ascertain whether they would serve if elected. Any nominee may withdraw his name without the approval of his nominator. If withdrawals reduce the number of candidates below twice the number of places to be filled in any category, another joint meeting of the Senate and House Committees shall be held to receive sufficient additional nominations in that category.

7. A ballot shall be prepared under the supervision of the Chairman of the House Committee on University Trustees and the Chairman of the Senate Committee on Higher Education for the use of the Senate. The ballot shall list all nominees of the joint session who have consented to run and their names shall be arranged (a) by category and (b) within each category, alphabetically by surname.

When fewer than two candidates in the at large category receive a majority of all the votes cast for positions in that category, a runoff to fill the open position or positions shall be conducted among the persons receiving the highest number of votes cast, and the number of persons to be voted on in the runoff shall be twice the number of positions remaining to be filled.

11. When the Chairman of the Senate Committee on Higher Education and the Chairman of the House Committee on University Trustees have determined that the Senate has chosen one member of the Board of Governors who is a woman, one member of the Board of Governors who is a member of a minority race, and two members of the Board of Governors from the at large category, the Chairman of the Senate Committee on Higher Education shall make a motion for the simultaneous election of those four persons by the Senate

A ballot shall then be prepared under the supervision of the Chairman of the House Committee on University Trustees and the Chairman of the Senate Committee on Higher Education for the use of the House of Representatives. That ballot shall list all nominees of the joint session who have consented to run, and their names shall be arranged (a) by category and (b) within each category, alphabetically by surname. The names of the persons who have been elected to the Board of Governors by the Senate shall be appropriately marked.

13. The Representatives shall proceed to mark their ballots for the following:

14. The Chairman of the Senate Committee on Higher Education and the Chairman of the House Committee on University Trustees shall be responsible for canvassing the vote and declaring the results thereof.

15. In order to be chosen, a nominee must receive a majority of all the votes cast for his category. When a nominee for a category containing a single position is to be chosen and no candidate receives a majority of the votes cast for all the candidates in that category, a runoff shall be conducted between the person receiving the highest and the person receiving the second highest number of votes cast. When fewer than three candidates in the at large category receive a majority of all the votes cast for positions in that category, a runoff to fill the open position or positions shall be conducted among the persons receiving the highest number of votes cast, and the number of persons to be voted on in the runoff shall be twice the number of positions remaining to be filled.

16. When the Chairman of the Senate Committee on Higher Education and the Chairman of the House Committee on University Trustees have determined that the House of Representatives has chosen one member of the Board of Governors who is a Republican and three members of the Board of Governors from the at large category, the Chairman of the House Committee on University Trustees shall make a motion for the simultaneous election of those four persons by the House to the indicated positions. S. R. 668

RESOLUTION 79

A JOINT RESOLUTION SUPPORTING ASHE AND ALLEGHANY COUNTIES, AND THE STATES OF NORTH CAROLINA, VIRGINIA AND WEST VIRGINIA IN OPPOSING THE CONSTRUCTION OF THE BLUE RIDGE PROJECT.

Whereas, Appalachian Power Company of Roanoke, Virginia, a wholly-owned subsidiary of American Electric Power Company of New York City, has filed an application before the Federal Power Commission requesting a license to construct two dams on the New River in the State of Virginia, the upper dam site to be about six miles downriver from the Virginia-North Carolina State Line and the lower dam site about eight miles downriver from where the river again crosses the North Carolina-Virginia State Line, both impoundments being partly in North Carolina and partly in Virginia, the water in the lower impoundment to be pumped back into the upper impoundment during the hours of minimum demand for power; and

Whereas, said upper lake or impoundment extends approximately 35 miles up the New River from the proposed upper dam site, taking in a segment of the river in Alleghany and extending approximately 15 miles up the North and South Forks of the river into Ashe County; and the lower impoundment would take in all the balance of the New River in Alleghany County of approximately six miles; and

Whereas, the New River is of great scenic value unmatched in the Eastern United States, is the last unpolluted and unspoiled river of its kind in the

Resolutions—1973

Eastern United States, is of great recreational value for canoeing, fishing and boating, resources for which are now rapidly disappearing; and

Whereas, said proposed impoundments would have a total water surface area of 40,000 acres, and vertical drawdown of 44 feet in the water level of the lower impoundment and 12 feet in the water level of the upper impoundment, thereby degrading and destroying the natural environment of a scenic and unspoiled river; and

Whereas, flat-water lakes already abound in the region, and we deem that huge lakes with drawdown are neither necessary nor desirable for recreation; and

Whereas, said project would result in the taking of some 60,000 acres in the two states, approximately one-third of said land being in North Carolina; and

Whereas, said taking from the people of North Carolina of their much-needed and valuable land in Ashe County and Alleghany County would benefit a power company which sells power in the States of Michigan, Indiana, Ohio, Kentucky, Tennessee and West Virginia, but would provide no significant economic benefits to the people of North Carolina; and

Whereas, the proposed project would cause over 3,000 people to lose their homes and farms;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. That the proposed use of the New River Valley in Northwestern North Carolina for the benefit of the people of the Midwestern United States would cause a great and perpetual hardship and loss to the people of the Northwestern section of the State.

Sec. 2. We do solemnly and vigorously protest any appropriation of the resources of the Northwestern section of our State for the sole benefit of the people of the Midwestern United States.

Sec. 3. We do solemnly and vigorously oppose the proposed Blue Ridge Project.

Sec. 4. We recommend to Governor Holshouser and Attorney General Morgan that they promptly and vigorously continue the opposition of this State against the proposal to construct the Blue Ridge Project.

Sec. 5. That copies of this resolution be filed with the Federal Power Commission, the Environmental Protection Agency, the U. S. Department of Interior, Appalachian Power Company of Roanoke, Virginia, and all members of the United States Senate and United States House of Representatives from North Carolina.

Sec. 6. This resolution shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 3rd day of May, 1973.

RESOLUTION 83

A JOINT RESOLUTION OPPOSING A BILL NOW PENDING IN CONGRESS TO REPEAL THE TAX EXEMPT PRIVILEGE ON STATE AND LOCAL GOVERNMENT BONDS.

Whereas, there is now pending in the United States House of Representatives a bill introduced by Representative James C. Corman of California, and others, the purpose of which is to repeal the tax-exempt privilege on state and local bonds issued after December 31, 1973; and

Whereas, such legislation places in jeopardy the hard-earned credit of state and local governments throughout the entire United States, and chills the initiative of those states and localities that have made determined efforts to refine and improve their fiscal policies and procedures; and

Whereas, the bright prospect of an era of independent partnership among the federal, state and local governments becomes an empty illusion if the federal government, under the provisions of the aforesaid bill, assumes a dominant role in all public financing, which will be the case if the Congress should choose to lay this substantial tax burden upon state and local securities; and

Whereas, the mere threat of such legislation has a very disturbing effect upon the market for state and local securities; and

Whereas, the Governor of North Carolina and the State Treasurer have publicly and forcefully stated their opposition to such bill, thereby announcing their staunch support of sound state and local government fiscal policies;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Resolutions—1973

Section 1. That the Ways and Means Committee of the United States House of Representatives should support sound state and local government by reporting the aforesaid bill unfavorably.

Sec. 2. That the Congress of the United States should support sound state and local government by defeating the aforesaid bill.

Sec. 3. That all Congressmen and Senators representing North Carolina in Congress should use their best efforts to insure the defeat of said bill.

Sec. 4. That a copy of this resolution be forwarded to the Chairman and all members of the House Ways and Means Committee, and to all Congressmen and Senators representing North Carolina in Congress.

Sec. 5. That a copy of this resolution be forwarded to the President of the United States.

Sec. 6. This resolution shall become effective upon its ratification.

RESOLUTION 84

A JOINT RESOLUTION FOR THE GENERAL ASSEMBLY
CONSTITUTING UNITS OF THE EXISTING STATE PARK SYSTEM
AND STATE HISTORIC SITES AS PARTS OF THE STATE NATURE
AND HISTORIC PRESERVE.

Whereas, the General Assembly of North Carolina enacted in 1971 Senate Bill 96, an amendment to the Constitution providing for the protection of natural resources; and

Whereas, on November 7, 1972, the people overwhelmingly ratified this constitutional amendment; and

Whereas, to accomplish its public purposes, the amendment states that "the State and its counties, cities and towns, and other units of local government may acquire by purchase or gift properties or interests in properties which shall, upon their special dedication to and acceptance by resolution adopted by a vote of three-fifths of the members of each house of the General Assembly for those public purposes, constitute part of the 'State Nature and Historic Preserve';" and

Whereas, the lands and waters of the existing State Park System and the existing State historic sites are administered by the State for purposes consistent with the aforementioned constitutional amendment; and

Whereas, the Council of State has dedicated certain lands and waters to the State Nature and Historic Preserve;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The General Assembly accepts the lands and waters within the boundaries of presently existing units of the State Park System and hereby declares them as parts of the State Nature and Historic Preserve.

Sec. 2. The General Assembly accepts the lands and waters within the present boundaries of the Alamance Battleground State Historic Site, Alamance County; Governor Charles B. Aycock Birthplace State Historic Site, Wayne County; Bath State Historic Site, Beaufort County; Bentonville Battleground State Historic Site, Johnston County; Brunswick Town State Historic Site, Brunswick County; Governor Richard Caswell State Historic Site, Lenoir

Polk Birthplace State Historic Site, Mecklenburg County; Somerset Place State Historic Site, Washington County; Town Creek Indian Mound State Historic Site, Montgomery County; Governor Zebulon B. Vance Birthplace State Historic Site, Buncombe County; and hereby declares them as parts of the State Nature and Historic Preserve.

Sec. 3. Nothing in this resolution shall be construed as preventing the Department of Natural and Economic Resources and the Department of Art, Culture and History from carrying out normal maintenance or improvement of existing structures or facilities, provided that said maintenance or improvement is appropriate to, and consistent with, the purpose for which the property was obtained, in the areas respectively administered by them.

Sec. 4. This resolution shall become effective upon its ratification.

RESOLUTION 85

A JOINT RESOLUTION URGING THAT CONGRESS DEFEAT LEGISLATION THAT WOULD REPEAL THE TAX EXEMPT STATUS OF STATE AND MUNICIPAL BONDS.

Whereas, legislation has been introduced in the Congress of the United States that would repeal the tax exempt privilege on all state and local bonds; and,

Whereas, this legislation would place in jeopardy the hard earned credit of state and local governments throughout the nation; and,

Whereas, the imposition of a federal tax on these bonds would tend to chill the initiative of the states and localities, especially those that have made a determined effort to refine and improve their fiscal policies; and,

Whereas, through the device of a subsidy, this legislation would cause the federal government to assume the dominant role in all public financing and would, in fact, centralize the final approval of all state and local borrowing in Washington;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The General Assembly of North Carolina urges the Congress of the United States, especially the members of the North Carolina delegation, to work for the defeat of this legislation.

A JOINT RESOLUTION HONORING THE LIFE AND MEMORY OF NOAH POWELL, CHIEF OF THE EASTERN BAND OF CHEROKEE INDIANS.

Whereas, Noah Powell, principal chief of the Eastern Band of Cherokee Indians, died unexpectedly at his home on April 4, 1973, at the age of 67, after a long and dedicated life devoted to the service and welfare of Cherokee Indians in North Carolina, it is fitting that the General Assembly of North Carolina should take note of and honor some of his contributions to the Eastern Band of Cherokee Indians and the people of North Carolina;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. That Noah Powell was born in the Big Cove community on March 11, 1906, attended the old Cherokee boarding school, and was known as one of the outstanding basketball players in the mountain area during his high school years. Following his graduation and a brief residence in Pennsylvania, he returned to Cherokee in 1929 and married Miss Emma Washington, who died in 1969.

In 1940, Noah Powell was elected to the Cherokee Tribal Council, and two years later he started driving a school bus for the Bureau of Indian Affairs.

In 1943, Noah Powell resigned from the Cherokee Tribal Council and gave up his bus driving job to enter the United States Army where he saw combat duty in 1944 and 1945 in the European Theater of Operations.

Noah Powell returned to Cherokee in 1945 where he worked as a school bus driver and maintenance man for the Bureau of Indian Affairs until 1964,

and subsequently went to work for the Cherokee Boys Club as bus driver and supervisor of the Cherokee fishing program. As a result of an outstanding driving record, Noah Powell received an award from the National Safety Council for driving one million miles without an accident.

In 1965, Noah Powell was elected again to the Cherokee Tribal Council and two years later he was elected vice-chief of the tribe. On the death of Chief Walter Jackson in April, 1971, Noah Powell became chief and served out Jackson's unexpired term. In 1971, Noah Powell was elected chief of the Eastern Band of Cherokee Indians.

During Noah Powell's years as chief, this great, respected and beloved leader worked quietly to bring progress to the reservation and a better life for his people. He was a principal mover in bringing about the Community Action Program and in getting the new Qualla Civic Center. He worked hard to bring new housing and educational facilities and to promote economic development among his people.

Noah Powell was a proud Indian leader who believed in sitting down and settling differences at the council table, rather than by violent means.

Sec. 3. That the Secretary of State shall cause a certified copy of this resolution to be transmitted to the Cherokee Tribal Council.

Resolutions—1973

and 1967; Judge Recorder's Court, 1920-1928; Lenoir County Attorney, 1933-1937; and Mayor, City of Kinston, 1945-1963; and

Whereas, Guy Elliott, in addition to his service to the State, actively participated in the life of his community, was an active member of the Kiwanis Club and served as Lieutenant Governor of the Seventh Division of the Carolinas District, Kiwanis Clubs in 1966; was a dedicated member of the Gordon Street Christian Church, where he was a Deacon, Elder and Sunday School teacher; and served as President, North Carolina Christian Missionary Convention; and

RESOLUTION 108

A JOINT RESOLUTION ESTABLISHING THE ENERGY CRISIS STUDY COMMISSION.

Whereas, there has been a great deal of recent publicity devoted to the apparent approach of a serious petroleum shortage during this summer and in the coming decade; and

Whereas, last winter saw many areas of the country with closed businesses and schools because of shortages of petroleum and other fuels; and

Whereas, airlines have been unable to acquire all of the fuel they needed resulting in extra fuel stops and cancelled flights; and

Whereas, our North Carolina State Purchasing Department has been unable to contract for the State oil requirements; and

Whereas, a number of major oil companies are starting to ration supplies to their distributors; and

Whereas, we appear to be approaching increased use, higher prices, and shorter supply of gasoline and diesel fuel, and savings in our uses of these fuels is desirable; and

Whereas, on April 3, 1973, the Chase Manhattan Bank, in its regular review of the petroleum situation, said that the looming oil shortage could "tend to cripple the nation's transportation system"; and

Whereas, our North Carolina passenger and freight transportation is heavily dependent on private cars and trucks which are inefficient energy users compared to trains and buses, and by our tax structure and use of taxes we can affect this business; and

Resolutions—1973

Whereas, there has been a series of recent electrical power failures in the South that have caused problems of dramatic proportions, and a continuing reliable source of electric power is necessary for the well being of our citizens; and

Whereas, present limitations on providing natural gas to new industries limits the expansion of industry and may soon limit gas available for homes; and

Whereas, in efforts to conserve energy the federal government has changed the FHA Insulation Requirements and the states of California and Minnesota have changed their Building Codes to include better insulation; and

Whereas, there have been serious delays in construction and start up of new utility plants to serve our area, and there have been shortages of coal, oil, and gas for existing plants; and

Whereas, there has been much discussion of the potential effects of newly developed natural or synthetic fuels, such as: synthetic coal gas, solar energy, geothermal energy, and nuclear power; and

Whereas, North Carolina is entirely dependent on the import of energy sources such as gas, oil, coal, and atomic energy, and is thus highly sensitive to the United States and International energy situation; and

Whereas, the depletion of our domestic oil supplies and our increased oil usage will lead to much larger oil imports with implications to oil spills, port business, need for offshore super ports; and

Whereas, since energy availability influences the types of industry wanted, the population growth desired, and the type of transportation system needed, we must have information on future energy sources to guide our actions in these matters;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. There is hereby created the Energy Crisis Study Commission, to be made up of three (3) members appointed by the Speaker of the House of Representatives, three (3) members appointed by the Lieutenant Governor, and six (6) members appointed by the Governor. The Governor's appointees shall include one (1) representative of the liquid petroleum industry, one (1) representative of the natural gas industry, and one (1) representative of the electric power industry; there shall be no restrictions or limitation on his three remaining appointments. The Speaker and Lieutenant Governor may choose to appoint members of the General Assembly, but they are not required to do so. The Governor shall designate one of his six appointees to serve as Chairman.

Sec. 2. The first meeting shall be at the call of the Chairman of the Commission.

Sec. 3. The Commission's study shall include, but not limit itself to, consideration of:

- (1) Present sources of energy supply to North Carolina and the possibilities of their curtailment at levels below our needs; to answer the question, "Is the problem real to North Carolina?"
- (2) Possible changes in the cost of energy; the effects of curtailed supplies and higher prices for energy on the people and industry of North Carolina.
- (3) Measures that might be taken to minimize the impact of energy

Resolutions—1973

shortages on the people and economy of North Carolina; conservation, mass transit...

- (4) Other pertinent studies that are now underway; S.I.N.B., Ford Foundation, Federal Government...
- (5) Actions that have been taken by other states and cities; California and Minnesota building regulations on insulation, proposed New York legislation on labeling appliances with efficiency and electrical usage...
- (6) Interactions between environmental constraints and energy needs; sulfur content of fuel oil, limiting availability of oil...
- (7) Effects of land use planning on energy needs.
- (8) Possible impact of potential energy sources (such as solar, geothermal, controlled fusion) on the situation.
- (9) Effect of the energy crisis on fertilizer and other supplies for the Agricultural Industry, and on the demand for agricultural products.
- (10) Implications of the energy crisis on employment and wages, and thus on taxes and welfare.
- (11) Possible needs for citizen-industry-government educational programs on energy conservation and how to start such programs.
- (12) Effect of the energy crisis on the mobility of our citizens and on tourism.

Sec. 4. The Commission shall have the authority to employ clerical assistance, to make arrangements for professional staffing and consultants, to purchase supplies and equipment, and to call and interview witnesses.

Sec. 5. Any supplies or equipment not used by the Commission shall become the property of the General Assembly on termination of the Commission.

Sec. 6. Compensation and travel and expense allowance for Commission members shall be the same as for State Boards and Commissions under G.S. 138-6.

Sec. 7. Expenses of the Commission shall be paid out of the Contingency and Emergency Fund.

Sec. 8. On or before January 30, 1974, the Commission shall report to the General Assembly and thereafter cease to exist.

Sec. 9. This resolution shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 23rd day of May, 1973.

RESOLUTION 114

A JOINT RESOLUTION CREATING A COMMISSION FOR THE STUDY OF THE LAWS PERTAINING TO THE SALE, POSSESSION AND CONSUMPTION OF INTOXICATING LIQUOR OF THE STATE OF NORTH CAROLINA IN ORDER TO MAKE RECOMMENDATIONS TO THE STATE ABC BOARD, AS WELL AS THE GENERAL ASSEMBLY.

Whereas, the sale, possession, and consumption of intoxicating liquor has been and will continue to be a difficult social, medical, and economic problem in the State of North Carolina; and

Whereas, these serious problems can be most adequately and effectively dealt with only through a mechanism of effective laws, rules and regulations; and

Whereas, the General Assembly has passed legislation authorizing a statewide election at the next general election on the sale of mixed beverages; and

Whereas, there is need for focusing greater interest, concern and expertise in the overall field of intoxicating liquor regulation;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Resolutions—1973

Section 1. There is hereby created a Commission for the study of the laws of the State pertaining to the sale, possession and consumption of intoxicating liquor to be composed of 11 members and who shall be appointed as follows: four shall be appointed by the Speaker of the House, at least two of whom shall be members of the current House of Representatives, and at least one of whom shall serve as a member of the State Alcoholic Control Board, or if the Chairman of such board designates, a member of his staff. Four members shall be appointed by the President of the Senate, at least two of whom shall be members of the current Senate, and at least one of whom shall be a member of the staff of the Attorney General of the State of North Carolina. Three members shall be appointed by the Governor. A Chairman of the Study Commission shall be designated by the joint approval of the Speaker of the House and the President of the Senate.

Sec. 2. It shall be the duty of the Commission to study the laws of the State relating to the sale, possession and consumption of intoxicating liquor and to recommend such changes as it may deem advisable concerning these laws, to the end that such laws shall be more cohesive, better understandable and less ambiguous, to the end that the enforcement authorities and the general public will be more able to understand, enforce and abide by such laws. Furthermore, it shall be the duty of the Commission to study the rules and regulations promulgated by the State ABC Board and to make such recommendations as such Commission feels necessary.

Sec. 3. The Commission is authorized to employ such clerical and other assistants, professional advice and services, as may be deemed necessary in the performance of its duties.

Sec. 4. The members of the Commission shall be paid such per diem and travel expenses as are provided for members of State boards and commissions generally. The expenses of the Commission shall be paid from funds appropriated to the Department of Commerce.

Sec. 5. The Chairman of the Board of Alcoholic Beverage Control and its staff shall make their assistance and themselves available to the Commission to carry out the purposes of this resolution.

Sec. 6. The Commission shall submit its report by January, 1974, and once again by January, 1975, to the President of the Senate and the Speaker of the House for transmittal to the 1974 Session and 1975 Session of the General Assembly.

Sec. 7. This resolution shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 24th day of May, 1973.

H. R. 1133

RESOLUTION 115

A JOINT RESOLUTION ESTABLISHING A JOINT LEGISLATIVE COMMISSION ON MEDICAL MANPOWER.

Whereas, the continuing statewide shortage of practicing physicians has been of persistent concern to the North Carolina General Assembly for many years; and

Whereas, the great shortage of primary care physicians continues to be of serious proportions across the State along with a severe shortage of all categories of physicians in the non-metropolitan areas of the State; and

Whereas, the several steps taken during previous sessions of the North Carolina General Assembly to expand medical education opportunities for North Carolina students and to increase the production of physicians to meet the statewide need have fallen far short of the necessary objectives, as pointed out in a recent report prepared for the North Carolina Department of Mental Health by the Social Research Section of the Division of Health Affairs of the University of North Carolina at Chapel Hill; and

Whereas, the aforementioned report documents that 60 of the 100 counties in North Carolina had more people per physician in 1972 than in 1963; that 82 of the State's 100 counties now have many more people per family physician than in 1963; that many thousands of young people have no access to a pediatrician in their county or in neighboring counties; and that health manpower in all categories is sadly lacking in the non-metropolitan areas of the State; and

Whereas, the recent Report of the Medical Study Committee of the Board of Governors of the University of North Carolina contains similar documentation of the severe continuing statewide shortage of physicians as seen in the fact that the national physician/population ratio is 138 physicians per 100,000 persons while in North Carolina it is 103 physicians per 100,000 persons, and that 87% of the State's 100 counties are far below the ratio for the State as a whole; and

Whereas, in keeping with the then projected eventual need for an additional four-year medical school in North Carolina by the Legislative Research Commission of the 1969 General Assembly and by the North Carolina Board of Higher Education in 1969 and in keeping with the action of the 1965 General Assembly which authorized the development of a two-year medical school at East Carolina University, the General Assembly of North Carolina in the 1971 Session appropriated funds to East Carolina University to develop and operate the first year of medical education within its authorized School of Medicine as "a step in development of an expanded medical school at East Carolina University"; and

Whereas, East Carolina University has responsibly proceeded to develop and operate this initial significant step, in cooperation with the University of North Carolina School of Medicine, while continuing the necessary planning toward a degree-granting medical school which will emphasize the education and training of primary care physicians and the utilization of qualified and interested community hospitals throughout North Carolina; and

Whereas, the East Carolina University School of Medicine has an announced admissions policy which states that it will admit only North Carolina residents to the study of medicine as long as the number of qualified

Resolutions—1973

North Carolina medical school applicants exceeds the available positions in the State-supported schools; and

Whereas, the Board of Governors of the University of North Carolina has retained the services of a group of out-of-state academic medical educators and administrators to evaluate the question of the need for another four-year medical school in North Carolina when this need has already been documented time and time again; and

Whereas, the leadership of the Board of Governors of the University of North Carolina has publicly stated that the aforementioned consultants will also be requested to determine the site for the development of said medical school if indeed they determine the need; and

Whereas, previous actions and the expressed intent of the North Carolina General Assembly clearly indicate its ultimate responsibility to insure that adequate medical manpower is available to all of the people of the State; and

Whereas, this responsibility cannot be met through exclusion of the North Carolina General Assembly in any study accomplished on the medical needs in the State, including the medical manpower needs of the people;

Now, therefore, be it resolved by the House of Representatives, the Senate concurring:

Section 1. The Speaker of the House and the Lieutenant Governor as the Presiding Officer of the Senate are authorized and directed to select and appoint, respectively, four persons from the membership of each chamber of the North Carolina General Assembly to serve as the Joint Legislative Commission on Medical Manpower.

Sec. 2. The duly constituted Joint Legislative Commission on Medical Manpower is empowered and directed to study and to review all pertinent reports and documents, as well as past and presently proposed legislative actions, related to the problem of the medical manpower needs of the State, and including specifically the anticipated report of the medical consultants group employed by the Board of Governors of the University of North Carolina; said report to be available to this Commission no later than September 1, 1973.

Sec. 3. In order to be aware of and duly responsive to the medical manpower needs of the people across the State, the Joint Legislative Commission on Medical Manpower is directed to hold a series of publicized public hearings on this issue at strategic locations throughout North Carolina.

Sec. 4. The Joint Legislative Commission on Medical Manpower after its careful study and deliberations are completed is directed to prepare and to present to the North Carolina General Assembly in January, 1974, a summary report of its findings and recommendations, including specific legislative proposals to accomplish a solution to the medical manpower problem.

Sec. 5. This act shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 24th day of May, 1973.

Section 1. On Thursday, May 24, 1973, at 12:00 noon, both the Senate and the House of Representatives shall stand adjourned to meet again on Wednesday, January 16, 1974, at 12:00 noon.

RESOLUTION 117

A JOINT RESOLUTION HONORING THE PERSONAL COURAGE AND DETERMINATION OF THE HONORABLE GEORGE C. WALLACE, GOVERNOR OF ALABAMA.

Whereas, the Honorable George C. Wallace, Governor of Alabama, has established himself as a leader in both his state and the nation; and

Whereas, Governor Wallace campaigned vigorously for his Party's Presidential nomination in 1972 and carried his message in a forthright way to the people of the United States; and

Whereas, the people of North Carolina and the people of other states gave Governor Wallace a vote of support in each Presidential primary in which his name was entered; and

Whereas, on May 15, 1972, Governor Wallace was struck down by the bullets from a would-be assassin's gun; and

Whereas, Governor Wallace has since suffered intense pain and paralysis and has been forced to undergo much hardship in his valiant effort to recover from that vicious attack;

Now, therefore, be it resolved by the Senate, the House of Representatives concurring:

Section 1. That the General Assembly commends Governor Wallace for the tremendous personal courage and determination he has exhibited in his battle to overcome the effects of his serious injury.

Sec. 2. That the General Assembly congratulates Governor Wallace on his recovery from that injury, expresses its hope for his continuing health, and extends to him the best wishes of the people of North Carolina.

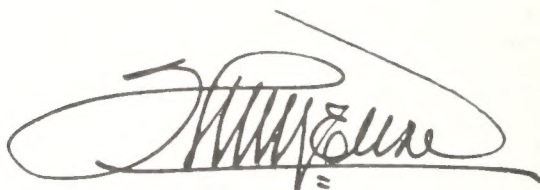

Sec. 3. That a certified copy of this resolution be transmitted by the Secretary of State to Governor Wallace.

Sec. 4. That this resolution shall become effective upon ratification.

In the General Assembly read three times and ratified, this the 24th day of May, 1973.
